

2011 7th Latin American Network Operations and Management Symposium

(LANOMS 2011)

**Quito, Ecuador
10-11 October 2011**

**IEEE Catalog Number: CFP1142C-PRT
ISBN: 978-1-4577-1790-1**

Table of Contents

Keynote Speaker

Management towards Reducing Cloud Usage Costs \$\$\$%

Vladimir Tosic, Hiroshi Wada, Adnene Guabtini, Kevin Lee, Anna Liu

Session 1: Management of Wireless Networks

Distributed Location of the Critical Nodes to Network Robustness based on Spectral Analysis \$\$\$&

Klaus Wehmuth, Artur Ziviani

A Strategy to Improve Sensing Accuracy of Energy Detection for Distributed Spectrum Management Systems \$\$\$%

Andre Meirelles, Kleber Cardoso, José Ferreira de Rezende

A Mobility Model for Opportunistic Routing Protocols Validation \$\$\$%

Matias Richart, Jorge Visca, Javier Baliosian, Eduardo Grampin

Multiple Linear Regression to Improve Prediction Accuracy in WSN Data Reduction \$\$\$*

Carlos Giovanni Nunes de Carvalho, Danielo Gomes, José De Souza, Nazim Agoulmine

Session 2: Management Applications

An IDE for NETCONF Management Applications \$\$\$' (

Paulo Tavares, Pedro Gonçalves, José Luis Oliveira

Universal Remote Boot and Administration Service \$\$\$ (&

Sebastian Schmelzer, Dirk von Suchodoletz, Daniel Weingaertner, Luis Carlos De Bona, Gerhard Schneider, Carlos Carvalho

An improved B2BUAWM approach for VoIP Infrastructure \$\$\$ (,

Fernando Barreto

Session 3: Security Management

Content Filtering for SMS Systems Based on Bayesian Classifier and Word Grouping \$\$\$) &

Dirceu Belem, Fatima Duarte-Figueiredo

Identifying Botnet Communications Using a Mashup-based Approach \$\$\$) -

Carlos Raniery Paula dos Santos, Rafael Santos Bezerra, João M Ceron, Liane Tarouco, Lisandro Zambenedetti Granville

Biologically Inspired Architecture for Security Management on Wireless Self-Organized Networks \$\$\$*)

Michele Nogueira, Aldri dos Santos, Jenny Torres, Guy Pujolle

An Adaptive Security Management Model for Emergency Networks \$\$\$+'

Thiago R. de Oliveira, Sergio de Oliveira, Daniel Fernandes Macedo, Jose Marcos Nogueira

Session 4: Management of Virtual Infrastructures & Services

An Architecture for Adaptation of Virtual Networks on Clouds \$\$\$++

Carlos Senna, Milton A. Soares Jr., Luiz F. Bittencourt, Edmundo R. M. Madeira

Simulator Improvements to Validate the Green Cloud Computing Approach \$\$\$,)

Jorge Werner, Guilherme Geronimo, Carlos Westphall, Fernando Koch, Rafael Freitas

A quality-aware approach for selecting context information from redundant context sources "\$-

José Bringel, Nazim Agoulmine

AllocTC-Sharing: A New Bandwidth Allocation Model for DS-TE Networks "%\$%

Rafael F. Reale, Walter da Costa P. Neto, Joberto S. B. Martins
