

2011 GEOSS Workshop XLII - Oceans

**Kona, Hawaii, USA
18 September 2011**

**IEEE Catalog Number: CFP11GRS-PRT
ISBN: 978-1-4577-2206-6**

TABLE OF CONTENTS

Session 1: Opening

Logistics and Introduction to Workshop Objectives	1
<i>Jay Pearlman</i>	

Session 2: Coordination and Governance from a Global Perspective

Framework for Ocean Observing	11
<i>Dave Checkley</i>	
The Global Ocean Observing System	42
<i>Albert Fischer</i>	
Group on Earth Observations Community of Practice for Ocean Observations (OO CoP)	54
<i>Bob Houtman</i>	
Ocean Monitoring, Forecasting and Resource Management Task GEO 2012-2015 Work Plan	73
<i>Douglas Cripe</i>	

Session 3: Observations – User and Provider Perspectives

A National Perspective from Australia	98
<i>Tim Moltmann</i>	
Marine Knowledge 2020. The EU’s Contribution to Integrated Ocean Observing	123
<i>Iain Shepherd</i>	
Regional Ocean Observations and Information Management Through the Pacific Islands Ocean Observing System (PaciOOS)	144
<i>Chris Olander</i>	
Directions in Biology for Ocean Observing	173
<i>Kendra Day</i>	
Data Resource Life Cycle from Creation to Destruction	204
<i>Alan D. Chave</i>	

Session 4: Integrating Emerging Sensor/Platform Technologies into Global Monitoring Strategies

Interactions Between Platforms, Sensors and Models	223
<i>J.G. Bellingham</i>	
Advances in the Development of Biological Sensors/Platforms and Models	247
<i>Simon Allen</i>	
Observational Challenges for Remote Observations (in Low Power and Low Bandwidth Environments) (Briefing 2)	283
<i>Graham Hine</i>	
Observational Challenges for Remote Locations (in Low Power and Low Bandwidth Environments) (Briefing 3)	308
<i>Christoph Waldmann, Richard Lampitt</i>	

Session 5: Breakout Groups

Charter to Breakout Groups	324
<i>Sandy Williams</i>	
Framework on Ocean Observations	329
<i>N/A</i>	
Breakout Group 2 Discussions Global Observations Strategies	334
<i>N/A</i>	
Breakout Session 3 Approaches for Future Implementations	337
<i>N/A</i>
