Knowledge transfer in school-enterprise cooperation of vocational education…….……..….205
Hong Tan and Jie Chen
A novel watermarking method based on watermark preprocessing in wavelet domain……..…..209
Jialing Han, Xiaohui Zhao, and Chunyan Qiu
Research on pronunciation scoring technology in language training system……..……..…..……212
Zhiyuan Liu, Fuan Wen, Zhihong Lu, and Meisong Chen
A secure self-certification mechanism of RFID……..……..…216
An-Ta Liu, Pin-Chang Su, and Henry Ker-Chang Chang
Mining organizational structure from workflow logs……..……222
Zhiwei Ni, Sha Wang, and Huaiying Li
Student grouping by neural network based on affective factors in learning English……..…..…..…226
Fitra A. Bachtiar, Eric Cooper W, and Katsuari Kamei
Study of mobile learning theory…….....…...…230
Tingyan Bi and Wenfang Yang
Toward designing mobile games for visually challenged children…….……..……234
Donggil Song, Arafeh Karimi , and Paul Kim
Modern learning theory and u-learning studies…….…...…239
Tingyan Bi and Wenfang Yang
The design of the multi-synchronous language learning assisted by the web……..……243
Sun Dongling
A progressive study of interactive teaching pattern of college English in E-era …….……246
Sun Dongling
Research on educational game design of the blank trial procedure……..…249
Yue Huang, Yan Dong, and Da-he Liu
Experimental research on student teacher’s develop of instructional design competencies …….....……253
Yan Dong, Xuan-rong Hong, and Yan-hua Hou
An experimental research of the pair programming in java programming course……257
Han Lai and Wenjuan Xin
Research on the talent management from the perspective of systematic thinking of
complex scientific management……..…..……..…261

A study on middle school chemistry teachers’ self-regulated learning behavior sample from Handan…….....277
Yan Liu, Huimin Bi, Fuying You, and Xingquan Chai

Adaptation DMAIC to develop an eLearning model for aerospace repair station……...……..…280
Darawan Sumranwong
Automatic matching of character strokes for computer-aided Chinese handwriting education…….……...……283
Weihua An and Chao Li
An ontology of intelligent management information system for operation of cascade hydroelectric stations…….……289
Lu Xiuyuan and Wu Jinghua
On the legal issues about crowdsourcing and witkey…….....…293
Guo Peng
Research on PCA-Entropy model for financial crisis early warning of Chinese listedcompanies…….……..…296
Wenwen Pan, Fengping Wu, and Jixin Cheng
Blended learning model applied in college teacher education……...……..…300
Dan Zhao and Qingsong Yang
The present situation and improve strategy of network teaching platform in universities…….……...…304
Ling Xu and Wei He
Simulated motion analysis system based on web…….…...……...…307
Xiaoping Liu
Modeling of phonics reading methodology using neural networks…….……..…310
Saeed M. Badran, Hassan M. H. Mustafa, AbdelAziz M.Al-Bassiouni, and Ayoub Al-Hamadi
Research on the basic concept and evaluation index system of SMEs ecological health…….…….317
Chen Zhao, Renjun Zhang, and Wenwen Pan
Challenges of programming apprentice…..……...…320
Marilza Antunes de Lemos and Roseli de Deus Lopes
Computer science learning objects……...…….....…326
Ali Alharbi, Frans Henskens, and Michael Hannaford
Demand of workplace eLearning in coal mining corporation……...…...……..……...…329
Bubpachart Meecharoen
A novel receiver in parallel combinatory spread spectrum communication systems
with soft-PIC for E-education……...…….……333
Li Bei-ming, Dou Zheng, Zhang Wen-chao, and Guo Lili
Blended library and multimedia model in geography teaching…….……...……337
Saeid Asadi and Hamid R. Jamali
Risk management assessment using SERIM method……...……...……..……340
Falahah
Inquiry learning based on blended learning for undergraduate ……..…..……344
