2011 IEEE Student Conference on Research and Development

(SCOReD 2011)

Cyberjaya, Malaysia
19-20 December 2011

IEEE Catalog Number: CFP11526-PRT
ISBN: 978-1-4673-0099-5

Table of Contents

1.	*Testing Static Single Cell Faults Using Static and Dynamic Data Background*	1
2.	*Study on Electrical and Optical Properties of Nanocomposited MEH-PPV:TiO2 Thin Film for Hybrid Solar Cells*	7
3.	*Effect of Thickness on the Transparency of Nanocomposited MEH-PPV:CNTs:TiO2 Thin Film*	12
4.	*Influence of Heat Treatment on the Properties of MgO Thin Films as Dielectric Layer*	16
5.	*Preparation and Nanostructured Properties of Amorphous Carbon Prepared by Aerosol-Assisted CVD (AACVD)*	20
6.	*Optical Properties of Amorphous Carbon Thin Films Deposited by Thermal CVD Using Camphor Oil*	25
7.	*Heuristic Methods for Solution of FACTS Optimization Problem in Power Systems*	30
8.	*Fuzzy Logic Based Pitch Angle Controller for Variable Speed Wind Turbine*	36
9.	*Z-Source Inverter Based Indirect Field Oriented Control with Synchronous Current Injection and Feed-Forward Cemf Compensation for an Induction Motor Drive*	40
10.	*A Complete Model of Stand-alone Photovoltaic Array in MATLAB-Simulink Environment*	46
11.	*Torque Characteristics of Small Size Single and Double Stator Brushless Permanent Magnet Motor*	52
12.	*Multi-User McCDMA Using WALSH Code for RAYLEIGH and GAUSSIAN Channel*	58
13.	*Multi-Layer Network Selection Function for Downlink Handover Scheme in LTE and LTE-Advanced*	64
14.	*A Study of GI-less in Parallel Transmission for OFDM System*	70
15.	*Development of Protection and Restoration Module in PON Distribution Section*	73
16.	*Secure Partial Secret Key Issuing in Certificateless Public Key Infrastructure*	79
17.	*Effectiveness of Central Pattern Generator Model on Developed One Legged Hopping Robot*	85
18.	*Roll Sensing and Control Unit*	89
19.	*Contriving a Turning Gait for an Anthropomorphous System*	95
20.	*Robotic System for Cleaning Manholes (RSCM)*	101
21.	*Moving Vehicle Noise Classification Using Multiple Classifiers*	105
22.	*A Phoneme Based Sign Language Recognition System Using 2D Moment Invariant Interleaving Feature and Neural Network*	111
23.	*An Intelligent Vision System for Object Localization and Obstacle Avoidance for an Indoor Service Robot*	117
24.	*Applications of Visually Evoked Potentials in Ocular Diseases:A Guided Tour*	123
25.	*Experimental Evaluation of Multiple Transmitters/Receivers on Free Space Optics (FSO) Link*	128
26.	*Transmission of Real-Time Clinical Diagnostic Signals Over the GSM Network*	134
27.	*Multi Input Single Output Closed Loop Identification of Two Wheel Inverted Pendulum Mobile Robot*	138
28.	*Performance Analysis of Power Split Hybrid Electric Vehicles Using Autonomie*	144
29.	*Point-to-Point Trajectory Tracking with Discrete Sliding Mode Control of an Electro-*	148

	hydraulic Actuator System	
30.	*Dynamic Traffic-Light Phase Plan Protocol (DT3P)*	154
31.	*A Binary Vector Evaluated Particle Swarm Optimization Based Method for DNA Sequence Design Problem*	160
32.	*Classification of Colour Imagination Tasks Using Spectral Energy Entropy*	165
33.	*A Modified Computational Model of Ant Colony System in DNA Sequence Design*	169
34.	*UPM Prosthetic Hand System Design - Preliminary Results*	174
35.	*Broadside Radiation Synthesis of Concentric Circular Antenna Array Using Improved Particle Swarm Optimization*	178
36.	*Phase Distribution Analysis of Reflectarrays Based on Variable Material Properties*	183
37.	*Wide Nulls Control of Linear Antenna Arrays Using Craziness Based Particle Swarm Optimization*	189
38.	*Thinned Concentric Circular Array Antennas Synthesis Using Genetic Algorithm*	194
39.	*Modeling of Secondary Voltage Regulation for 24-Hour Load Flow and Dynamic Simulation for Coordinated Voltage Control Application*	199
40.	*Study of Six Phase Transmission Line Using the Autotransformer Conversion*	205
41.	*Preliminary Study of Ohmic Heated Hydro Distillation for Essential Oil's Plant Extraction*	211
42.	*Hypothesis Testing for Fault Analysis and the Propagation of Faulted Voltage Through Transformer Connections*	215
43.	*Development of Generator Aggregation Technique for Power System*	221
44.	*Optical Behavior of Transmission Oil Lubricant for Degradation Monitoring*	225
45.	*The Effect of Parallel Projection Towards Image Performance*	229
46.	*Analysis of the Effects of Environment on the Performance of Free Space Earth-to-Satellite Optical Link in Malaysia*	235
47.	*Broad Multiwavelength Source Using Spectral Slicing Technique*	241
48.	*Characterization on Fiber Optic Angle Sensor Based on Real Object: Aluminum and Brass*	244
49.	*Case Study of Filter Design in Embedded Systems*	247
50.	*Classification of Vehicle Noise Comfort Level Using Probabilistic Neural Network*	253
51.	*A Comparison Between Binary and Continuous Genetic Algorithm for Collaborative Spectrum Optimization in Cognitive Radio Network*	259
52.	*A Study on the Challenges and Importance of Vehicular Network in the Context of Bangladesh*	265
53.	*Economical and Technical Evaluation of Implementation of Mandatory Demand Response Programs on Iranian Power System*	271
54.	*Signal Analysis to Detect Water Tree Location in Polymeric Underground Cables*	277
55.	*Introduction to the Pico Hydro Power and the Status of Implementation in Malaysia*	283
56.	*Adaptive Sliding Mode for Indirect Field Oriented Controlled of Induction Motor*	289
57.	*Double-Rotor Switched Reluctance Machine (DRSRM): Fundamentals and Magnetic Circuit Analysis*	294
58.	*Reduction of Cogging Torque of Single Phase Brushless DC Motor Using Flux Barrier*	300
59.	*An Intelligent Arbiter for Fair Bandwidth Allocation*	304
60.	*Energizing ICT Infrastructure for Malaysia's SME Competitiveness During Economic Turbulence*	310
61.	*An Improved Approach for Web Page Quality Assessment*	315
62.	*Modeling and Optimization of Kanban Controlled Manufacturing System Using Improved-Group Method of Data Handling*	321

63.	*Construction of Myanmar WordNet Lexical Database*	327
64.	*The Optimal Fuzzy C-Regression Models (OFCRM) in Miles Per Gallon of Cars Prediction*	333
65.	*Growth of Sprayed Nanostructured Copper (I) Iodide (CuI) Thin Films At Different Precursor Solution Concentration*	339
66.	*Designing a Low Voltage Energy Harvesting Circuits for Rectified Storage Voltage Using Vibrating Piezoelectric*	343
67.	*Transient Analysis for On-Chip High Speed VLSI RLCG Global Interconnect for Unit Impulse Input*	347
68.	*Swarm Intelligence Based Optimal Linear FIR High Pass Filter Design Using Particle Swarm Optimization with Constriction Factor and Inertia Weight Approach*	352
69.	*Linear Phase Low Pass FIR Filter Design Using Improved Particle Swarm Optimization*	358
70.	*Power Efficient High Performance Modular Hardware Accelerator Architecture*	364
71.	*Low Power VLSI Circuit Implementation Using Mixed Static CMOS and Domino Logic with Delay Elements*	370
72.	*Transient Stability Enhancement Via Hybrid Technical Approach*	375
73.	*Vector Controlled Drives of Permanent Magnet Synchronous Motor Using PI Speed Controller for Long Cable Application*	381
74.	*Improving Dynamic Response of Wind Turbine Driven DFIG with Novel Approach*	386
75.	*Investigation of Useful Ambient Vibration Sources for the Application of Energy Harvesting*	391
76.	*Location Based Information System Using OpenStreetMap*	397
77.	*Design and Development of a Water Bath Control System: A Virtual Laboratory Environment*	403
78.	*Arabic Text-To-Speech Synthesizer*	409
79.	*Toward a Customizable Effective Patient Management System for Ensuring Quality Medical Service*	415
80.	*Combined Bilateral and Anisotropic-Diffusion Filters for Medical Image De-noising*	420
81.	*Golden Ratio, the Phi, and Its Geometrical Substantiation*	425
82.	*Harnessing Creativity in Teaching and Learning Introductory Programming*	431
83.	*Research of Efficiency Evaluation of U-turn Lanes At Signalized Intersections*	436
84.	*Reliable Project Scheduling with Combination of Risk Management and Critical Chain Schedule*	442
85.	*New Secure and Low-Cost Design for Defense in Depth Implementation Using Open Source Software*	448
86.	*Rate Adaptive MAC Protocol for Wireless Ad Hoc Networks*	454
87.	*Comparison of VoIP and PSTN Services by Statistical Analysis*	459
88.	*Design Challenges and Scope for Cognitve Radio Wireless Networks in Bangladesh*	462
89.	*LEDs as Energy Efficient Lighting Systems: A Detail Review*	468
90.	*Measuring and Evaluation of Reusable Quality and Extensible Quality for XML Schema Documents*	473
91.	*An Investigation of User Participation in the Architectural Design Process in Palestine*	479
92.	*Toward a Mobile Phone Based Solution for Microcredit in Rural Bangladesh*	485
