

2012 IEEE Power and Energy Conference at Illinois

(PECI 2012)

**Champaign, Illinois, USA
24-25 February 2012**

**IEEE Catalog Number: CFP1212J-PRT
ISBN: 978-1-4577-1681-2**

TABLE OF CONTENTS

A Differential-Mode Current-Sourced High- Frequency-Link Photovoltaic Inverter	1
<i>P. Sivasubramanian, S. Mazumder</i>	
A New SiC/SOI-based PWM Generator for SiC-based Power Converters in High Temperature Environments	10
<i>R.C. Stevens, O. Mostaghimi, D.R. Brennan, N.G. Wright, A.B. Horsfall</i>	
A Robust Control Technique for Damping Inter- area Oscillations	15
<i>K. Vance, A. pal, J. Thorp</i>	
Analysis of Electromechanical Problems Using the Dual-Primal Finite Element Tearing and Interconnecting Method	23
<i>W. Yao, J.M. Jin, P. Krein</i>	
Analysis of the Design Space of Single-Stage and Two-Stage LC Output Filters of Switched-Mode AC Power Sources	28
<i>D. Boillat, T. Friedli, J. Muhlethaler, J. Kolar, W. Hribernik</i>	
Analysis of The Grid Harmonics and Their Impacts on Distribution Transformers	36
<i>M. Rad, M. Kazerooni, M. Ghorbany, H. Mokhtari</i>	
Bidirectional High Conversion Ratio DC-DC Converter	41
<i>J. Reed, G. Venkataramanan</i>	
Comparative PSCAD and Matlab/Simulink Simulation Models of Power Losses for SiC MOSFET and Si IGBT Devices	46
<i>H.J. Chen, G. Kusic, G. Reed</i>	
Design Verification Methods for Switching Power Converters	51
<i>T. Johnson, Z. Hong, A. Kapoor</i>	
Designing a Power System Planning Tool Around Real-Time Models	57
<i>C. Marzinzik, J. Weber, C. Davis</i>	
Dynamic State Prediction Based on Auto- Regressive (AR) Model Using PMU Data	62
<i>F. Gao, J. Thorp, A. Pal, S. Gao</i>	
Efficiency and Cost Trade-Offs for Designing Module Integrated Converter Photovoltaic Systems	67
<i>K. Kim, S. Lertburapa, C. Xu, P. Krein</i>	
Employing a Very Sparse Matrix Converter for Improved Dynamics of Grid-Connected Variable Speed Small Wind Turbines	74
<i>M. Aner, E. Nowicki, D. Wood</i>	
Engineering Systems in the Re home: A Net-Zero, Solar-Powered House for the U.S. Department of Energy’s 2011 Solar Decathlon	81
<i>S. Cady, D. Mestas, C. Cirone</i>	
Evaluation of Hub Concept for Wind Turbines	86
<i>S. Pappu, S. Bayne</i>	
Examination of Design Strategies for Inverter-Driven Induction Machines	92
<i>M. Magill, P. Krein</i>	
FEA Tool Approach for Determination of Parasitic Capacitance of the Windings in High Frequency Coupled Inductors Filters	98
<i>M. Shadmand, R. Balog</i>	
Frequency Measurement and Disturbance Monitoring Using Piezoelectric Transformers	103
<i>S. Lele, R. Sobot, T. Sidhu</i>	
Impact of Active Resistance on Dynamic Power Responses in a CERTS Microgrid	107
<i>M. Erickson, T.M. Jahns, R. Lasseter</i>	
Implementation of an Augmented Boost Converter for Improved Load Transient Response	112
<i>T. Neyens, P. Shenoy, S. Kapat, P. Krein</i>	
Methodical Approach for Analyzing the Impact of a Mass Introduction of Electric Vehicles on the Electricity Networks in Europe	118
<i>T. Helmschrott, M. Godde, E. Szczechowicz, C. Matrose, A. Schnettler</i>	
Modeling and Analysis of N-port DC-DC Converters	124
<i>A. Ari, L. Li, O. Wasynczuk</i>	
Modeling of Hydraulic Wind Power Transfers	131
<i>S. Hamzehlouia, A. Izadian</i>	
Modular Multilevel Converter as a Low Inductance Machine Drive	137
<i>D.C. Ludois, G. Venkataramanan</i>	

On the Application of Phasor Measurement Units to Power System Stability Monitoring and Analysis	141
<i>J. Zhang, D. Chen</i>	
On-Line Parameter Estimation of PMDC Motors using Binary-Valued Speed Measurements	147
<i>M. Obeidat, L. Wang, F. Lin</i>	
Parameter Estimation of a Complex Load Model Using Phasor Measurements	152
<i>S. Guo, T. Overbye</i>	
Power Flow Studies in the Presence of Geomagnetically Induced Currents	158
<i>T. Hutchins, T. Overbye</i>	
Recent Developments on High-Power Switched- Capacitor Converters.....	162
<i>K. Zou, J. Wang</i>	
Re-Engineering Grep and Diff for NERC CIP.....	167
<i>G. Weaver, S. Smith, R. Bobba, E. Rogers</i>	
Simultaneous Enhancement of Current and Breakdown Voltage in AlGa_N / GaN MOSHEMTs using Sputtered / PECVD Gate-Dielectrics	175
<i>L. pang, K. Kim</i>	
Single-Stage Boost Inverter Reliability in Solar Photovoltaic Applications	179
<i>E. Hofreiter, A. Bazzi</i>	
Transient Capability Assessments of HVDC Voltage Source Converters.....	183
<i>G.P. Adam, S.J. Finney, K. Bell, B.W. Williams</i>	
Validation of Power System Transient Stability Results	191
<i>K. Shetye, T. Overbye, J. Gronquist</i>
