

2012 Second Iranian Conference on Renewable Energy and Distributed Generation

(ICREDG 2012)

**Tehran, Iran
6-8 March 2012**

**IEEE Catalog Number: CFP1206S-PRT
ISBN: 978-1-4673-0663-8**

Program

Poster Session

Sensitivity Analysis of A Closed Cycle Ocean Thermal Energy Conversion Power Plant

Alireza Najafi (University of Tehran, Iran); Shahab Rezaee (K. N. Toosi University of Technology, Iran); Farschad Torabi (K. N. Toosi University of Technology, Iran)

pp. 1-6

Maximum Constant Boost Control for QZSI in a Fuel Cell System

Amin Akrami (Islamic Azad University, Dezfoul Branch, Iran)

pp. 7-11

Designing an Optimized Coupled Controller for a Wind Energy Conversion System

Ali Mohammadi (University of Sistan and Baluchestan, Iran); Sajjad Farajianpour (University of Sistan and Baluchestan, Iran); S. Masoud Barakati (University of Sistan and Baluchestan, Iran); Saeed Tavakoli (University of Sistan and Baluchestan, Iran)

pp. 12-17

Design Of A Photovoltaic System For A Rural House

Mohammad Aminy (Material & Energy Research Center(MERC), Iran); Nastaran Barhemmati (Energy Institute, Material & Energy Research Center (MERC), Karaj, Iran); Arash Hadadian (Material & Energy Research Center (MERC), Iran); Fateme Vali (Material & Energy Research Center(MERC), Iran)

pp. 18-22

Electricity Generation from Petrochemical Wastewater Using a Membrane-Less Single Chamber Microbial Fuel Cell

Seyed Kamran Foad Marashi (Sharif University of Technology, Iran); Hamid-Reza Kariminia (Sharif University of Chemical Engineering, Iran)

pp. 23-27

The Effect of Load Condition on Stability in Isolated Microgrids

Mahdi Kohansal (Amirkabir University of Technology, Iran); Gevork B. Gharehpetian (Amirkabir University of Technology, Iran); Matin Rahmatian (Amirkabir University of Technology, Iran); Mehrdad Abedi (Amirkabir University of Technology, Iran); Mohammad Javad Sanjari (Amirkabir University of Technology, Iran)

pp. 28-32

Reliability Evaluation of Stand-Alone Hybrid Microgrid Using Sequential Monte Carlo Simulation

Mohammad Moradi, Ghahderijani (University of Sistan and Baluchestan, Iran); S. Masoud Barakati (University of Sistan and Baluchestan, Iran); Saeed Tavakoli (University of Sistan and Baluchestan, Iran)

pp. 33-38

A fuzzy inference model for short-term load forecasting

Saleh Ahmadi (University of Kurdistan, Iran); Hassan Bevrani (University of Kurdistan, Iran); Hannah Jannaty (University of Kurdistan, Iran)
pp. 39-44

Optimized Harmonic Estimation in Bus Transfer Systems from Polluted Grid to DG Unit using Wavelet Transform and Radial Basis Functions Neural Networks

Hamid Reza Baghaee (Amirkabir University of Technology, Iran)
pp. 45-50

Wind Turbines Protection against the Lightning Struck Using a Combined Method

Hooman Tafvizi Zavareh (Shahid Beheshti University & IEEE, Iran)
pp. 51-54

Thermodynamics, Economical and Environmental Concepts of a Combined Heat and Power (CHP) Plant

Ahmad Khorashadizadeh (University of Tehran, Iran); Omid Tavakoli (University of Tehran, Iran); Samira Mohammadkhani (University of Tehran, Iran); Mohammad Hossein Sarrafzadeh (University of Tehran, Iran)

Optimum Sizing of Hybrid WT/PV Systems via Open-Space Particle Swarm Optimization

Abdul-mateen Hameed (National Energy Research Centre, Syria); Mohsen Elhagri (National Research Center, Egypt); Adel Shaltout (Cairo University, Egypt)
pp. 55-60

111: B&B

Carbon Dioxide Biofixation and Biomass Production from Flue Gas of Power Plant using Microalgae

Mohammad-Matin Hanifzadeh (University of Tehran, Iran); Mohammad Hossein Sarrafzadeh (University of Tehran, Iran); Omid Tavakoli (University of Tehran, Iran)
pp. 61-64

Lipid content and biomass production of *Chlorella vulgaris* is affected by growth conditions

Shahrbanoo Hamedei (Ferdowsi University of Mashhad, Iran); Mahmood A. Mahdavi (Ferdowsi University of Mashhad, Iran); Reza Gheshlaghi (Ferdowsi University of Mashhad, Iran)
pp. 65-68

112: WE-E

A New DTC Control Method of Doubly Fed Induction Generator For Wind Turbine

Narges Zarean (Shahid Beheshti University of Tehran, Iran)
pp. 69-74

Robust Maximum Power Point Tracking Control of Permanent Magnet Synchronous Generator for Grid Connected Wind Turbines

Amir Khazaee (IUT, Iran); Hossein Abootorabi Zarchi (Ferdowsi University, Iran); Mohammad Ebrahimi (Esfahan U of Tech, Iran)
pp. 75-79

Three dimensional Pareto Optimal Solution to Design a Hybrid Stand-alone Wind/PV generation System with Hydrogen Energy Storage using Multi-Objective Particle Swarm Optimization

Hamid Reza Baghaee (Amirkabir University of Technology, Iran)
pp. 80-85

113: PV

114: CCHP

121: B&B

122: WE-E

Study of RSFCL Effect to Improve the Behavior of DFIG During a Fault

Saeed Falahzadeh (Iran University of Science and Technology, Iran); Hossein Heydari (Iran University of Science and Technology, Iran)
pp. 86-91

123: PRE&S

An Investigation on the Main Influencing Dynamics in Renewable Energy Development A Systems Approach

Seyed Hossein Hosseini (University of Tehran, Iran); Seyed Farid Ghaderi (University of Tehran, Iran); Hamed Shakouri (University of Tehran, Iran)
pp. 92-97

Sustainability Assessment of Iran Power Generation System Using DSR-HNS Framework

Hassan Meyar-Naimi (School of ECE, University of Tehran, Iran); Sadegh Vaez Zadeh (University of Tehran, Iran)
pp. 98-103

A mixed integer multi-objective model for distributed energy resources planning

Seyed Ali Torabi (University of Tehran, Iran); Roshanak Khaleghi (University of Tehran, Iran); Mohammadsaleh Zakerinia (University of Tehran, Iran)
pp. 104-109

124: DG

Investigation of Electronic Infrastructure of a Compact Micro Grid with DC Common Bus for Utilizing Multiple Renewable Energy Sources

Mohammad Ali Tavakkoli (K. N. TOOSI, Iran); Ahmad Radan (K. N. TOOSI, Iran); Houshang Hassibi (Faculty of Electrical and Computer Engineering, Iran)
pp. 110-115

Optimal Management of Micro Grid in Restructured Environment

Ehsan Nasrolahpour (University of Tehran, Iran); Meysam Doostizadeh (University of Tehran, Iran); Hassan Ghasemi (University of Tehran, Iran)
pp. 116-120

131: DG-SSPS

Analytical Investigation of the Effect of Wind Farm Equipped with SCIG on Voltage Stability

Mostafa Vahedipour Dahraie (University of Birjand, Iran); Hamid Reza Najafi (University of Birjand, Iran); Mahmoud Ebadian (Birjand, Iran)
pp. 121-126

An Optimization to Improve Voltage Response of VSI in Islanded Microgrid Considering Reactive Power Sharing

Mahdi Kohansal (Amirkabir University of Technology, Iran); Gevork B. Gharehpetian (Amirkabir University of Technology, Iran); Mehrdad Abedi (Amirkabir University of Technology, Iran)
pp. 127-131

132: Wind Energy

Optimal placement of wind turbine farms in Iran using new ranking method

Seyyed Farid Ghaderi (University of Tehran, Iran); Mohammadsaleh Zakerinia (University of Tehran, Iran); Ehsan Vaezi (University of Tehran, Iran)
pp. 132-136

133: PV

Fabrication of a Dye-Sensitized Solar Cell and Utilization of Peripheral Mirrors

Yashar Naeimi (Isfahan University of Technology, Iran); Shadrokh Samavi (Isfahan University of Technology, Iran)
pp. 137-140

A Grid-connected PV Power Supply based on Flying Capacitor multicell converter with modified MPPT based Control for Active Power Filtering

Meisam Sadeghi (Power and Water University of Technology & Tabriz Electric Power Distribution Company, Iran); Mohammad Agha Shafiyi (Power and

water University of Technology, Iran); Mojtaba Khederzadeh (Power & Water University of Technology (PWUT), Iran); Saeid Khani (University of Tabriz, Iran)
pp. 141-146

134: ERE

211: ES

Study on Compressed Air Energy Storage Coupled With a Wind Farm

Mostafa Vahedipour Dahraie (University of Birjand, Iran); Hamid Reza Najafi (University of Birjand, Iran)
pp. 147-152

Economical Assessment of Plug-in Hybrid Electric Vehicle as Storage and Generator

Mojtaba Abolfazli (University of Tehran, Iran); Mohammad Hassan Bahmani (University of Tehran, Iran); Saeed Afsharnia (University of Tehran, Iran); Mohamad Sadegh Ghazizadeh (Power and Water University of Technology (PWUT) & Iran Electricity Regulatory Board, Iran)

212: EI, GE & GIS

Energy, Economy and Environment, 3Es Tool for Green Economy

Azadeh Tavakoli (University of Tehran & Graduate Faculty of Environment, Iran); Majid Shafie-pour Motlagh (University of Tehran, Iran)
pp. 153-157

213: FC

Role of ohmic Resistance on the performance of pure culture microbial fuel cell

Amin Hosseinpour (Ferdowsi University of Mashhad, Iran); Mahmood A. Mahdavi (Ferdowsi University of Mashhad, Iran); Reza GHeshlaghi (Ferdowsi University of Mashhad, Iran)
pp. 158-161

Bioelectricity production by Air cathode microbial fuel cell

Ali Tardast (Noshirvani University, Babol, Iran); Ghasem Najafpour (Babol Noshirvani University, Iran); Mostafa Rahimnejad (Babol Noshirvani University, Iran); Ali Ghoreyshi (Babol Noshirvani University, Iran); Hossein Zare (Faculty of Chemical Engineering, Babol University of Technology, Iran); Kasra Pirzadeh (Faculty of Chemical Engineering, Babol University of Technology, Iran)
pp. 162-166

214: DG-SSPS

231: DG-SSPS

Short and Mid-Term Wind Power Plants Forecasting With ANN

Javad Mahmoudi (Material and Energy Research Center, Iran)
pp. 167-171

232: EH, TE & STE

Estimation of Mean Monthly and Hourly Global Solar Radiation on Surfaces Tracking The Sun Case Study: Tehran Estimation of Mean Monthly and Hourly Global Solar Radiation on Surfaces Tracking The Sun Case Study: Tehran

Shiva Gorjian (Tarbiat Modare University, Iran); Teymour Tavakkoli Hashjin (Tarbiat Modares University, Iran); Barat Ghobadian (Tarbiat Modares University, Iran)
pp. 172-177

233: WE-E

Economic Dispatch Incorporating Wind Power Plant Using Particle Swarm Optimization

Mehdi Ghazavi Dozein (Iran University of Science & Technology, Iran); Javad Ansari (Iran University of Science&Technology, Iran); Mohsen Kalantar (Iran University of Science and Technology, Iran)
pp. 178-182

A Study on The Near Future of Wind Power Development in Iran a System Dynamics Approach

Seyed Hossein Hosseini (University of Tehran, Iran); Hamed Shakouri (University of Tehran, Iran); Roozbeh Akhlaghi (University of Tehran, Iran)
pp. 183-188

234: STE
