

2011 Workshop and School of Agent Systems, their Environment and Applications

(WESAAC 2011)

**Curitiba, Parana, Brazil
27 – 29 April 2011**

**IEEE Catalog Number: CFP1117S-PRT
ISBN: 978-1-4673-0735-2**

2011 Workshop and School of Agent Systems, their Environment and Applications

WESAAC 2011

Table of Contents

Foreword.....	viii
Committees.....	ix

Invited Speaker

The Cultural Level in Agent Societies	1
<i>Antônio Carlos da Rocha Costa</i>	

Technical Session 1

An Extension to the Contract-Net Protocol Applied to the Transport Planning Problem of Oil Products	20
<i>Roni F. Banaszewski, Kelvin E. Nogueira, Jean M. Simão, Lucia V. Arruda, and Cesar A. Tacla</i>	
A Multiagent System-Based Solution for Shipment Operations with Priorities in a Container Terminal	28
<i>Leonardo Martins Rodrigues, Graçaliz Pereira Dimuro, Antônio Carlos da Rocha Costa, and Leonardo Ramos Emmendorfer</i>	
A Quantitative Study about Tardiness in Java-based Multi-agent Systems	37
<i>Pier-Giovanni Taranti, Carlos José Pereira de Lucena, and Ricardo Choren</i>	
Coordination of Agents in the RoboCup Rescue: A Partial Global Approach	45
<i>André H. Pereira, Luis Gustavo Nardin, and Jaime Simão Sichman</i>	
A Web Searcher Agent Based on Contextual Rules and Collaboration among Agents	51
<i>Daniela Maria Uez and João Luis Tavares da Silva</i>	

Technical Session 2

A Framework for Reengineering AMPLIA Environment	59
<i>Paulo Ricardo M. Barros, Elton Erhardt, Marta R. Bez, Sílvia César Cazella, and Cecília D. Flores</i>	
A Reference Architecture for Personal Assistant Software Based in Agents and SOA	66
<i>Saulo Popov Zambiasi and Ricardo J. Rabelo</i>	
Qualification of Exchange Values in Social Interactions in Multiagent Systems	73
<i>Cion Ayres do Nascimento, Gustavo Alberto Giménez Lugo, and Murilo V.G. da Silva</i>	
From Brute Facts to Institutional Facts in Multiagent-Systems	78
<i>Maiquel de Brito and Jomi Fred Hübner</i>	
Organizational Control Protocol in Multiagent Systems	85
<i>Mauricio Rocha, Fabiana Lorenzi, and Stanley Loh</i>	

Poster Papers

Computational Agents Applied to Dengue Fever Simulation	91
<i>Rogério Luís Rizzi, Rodolfo Lobieski, Carlos Henrique França, Leonardo Pereira Merlin, Claudia Brandelero Rizzi, André Luiz Brun, and Reginaldo A. Zara</i>	
An Agent-Based Decision Support System to Simulate Generated Impacts by Industries Installation	95
<i>Gerson L. Nunes, Camila D. Thomasi, Márcio M. Juguero, and Diana F. Adamatti</i>	
Towards the Modeling of the Social Organization of an Experiment of Social Management of Urban Vegetable Gardens	98
<i>Iverton S. Santos, Thiago Rodrigues, Graçaliz P. Dimuro, Antônio R. Costa, Glenda Dimuro, and Esteban de Manuel</i>	
A Platform for Development of BDI Multiagent Systems in the Web	102
<i>Diogo de Campos, Maurício Oliveira Haensch, and Ricardo Azambuja Silveira</i>	
Net Logo and the Climate Change Model as a Tool for the Simulation of the Greenhouse Effect	104
<i>Diogo Veber Lima, Antônio Carlos da Rocha Costa, and Nisia Krusche</i>	
DIMI 3D—Companion Agent in a Learning Virtual Environment	107
<i>Michael Fernando Künzel, Andréa Konzen da Silva, Rejane Frozza, Daniela Bagatini, and Beatriz Luz</i>	

SimDeCS: Architecture of a Multiagent System for Simulation of Decision Making in Health Care	110
<i>Vinicius Maroni, João Batista Mossmann, Paulo Ricardo M. Barros, João Marcelo Fonseca, Eduardo Zanatta, Elton Erhardt, Alessandra Dahmer, Sílvio César Cazella, and Cecília D. Flores</i>	
A Combinatorial Auctions Based Approach to Solving the Transportation Oil Products Problem	113
<i>Kely P. Vieira and Cesar A. Tacla</i>	
Social Simulation Based on Data of Networks Mediated by Blogs	117
<i>Aline Macohin, Cion Ayres do Nascimento, and Gustavo Alberto Giménez Lugo</i>	
Development of a Social Simulation Model for the City of Mandirituba—Brazil—Parana	120
<i>Leoanardo Andreatta de Alcantara, Fernando J. Esmaniotto, and Gustavo A. Giménez Lugo</i>	
About Agents and Predictive Controlles	123
<i>Marcelo Lopes de Lima, Jomi Fred Hübner, and Eduardo Camponogara</i>	
Author Index	126
