

2012 IEEE/IAS 48th Industrial & Commercial Power Systems Technical Conference

(I&CPS 2012)

**Louisville, Kentucky, USA
20 – 24 May 2012**

**IEEE Catalog Number: CFP12CPS-PRT
ISBN: 978-1-4673-0652-2**

TABLE OF CONTENTS

Technical and Economical Considerations on Super High-Efficiency Three-Phase Motors.....	1
<i>A. Almeida, F. Ferreira, A. Quintino</i>	
Evaluating Generator Breakers Short-circuit Duty using IEEE Std. C37.010 and C37.013.....	14
<i>K. Dartawan, C. Pierre</i>	
Grounding vs. Bonding: What the National Electrical Code Does Not Explain.....	21
<i>E. Rappaport</i>	
A New Standard for Electrical Apparatus Applications in Industry	25
<i>G. Fox, P. Sutherland</i>	
Myths And Facts In Selection Of Personnel Protective Equipment For Arc Flash Hazard Mitigation Utilizing NFPA 70E And Applicable ASTM Standards	33
<i>E. Hoagland IV</i>	
Capacity Expansion Planning of Distribution Substations Considering PV Penetration.....	37
<i>C. Chen, C. Tsai, C. Hsu, H. Chuang</i>	
Probabilistic Short-Term Wind Power Forecast Using Componential Sparse Bayesian Learning	44
<i>M. Yang, S. Fan, W. Lee</i>	
Output Power Maximization and Optimal Symmetric Freewheeling Excitation for Switched Reluctance Generators	52
<i>V. Nasirian, S. Kaboli, A. Davoudi</i>	
Development of Frequency Variable Inverter Based on SOPC and Nios II	62
<i>H. Liu, K. Li, W. Lee, H. Gao, Y. Sun</i>	
Realistic Optimal Design Of Thermoelectric Battery Bank Under Partial Lukewarming.....	69
<i>M. Chen</i>	
Applications of FANP and BOCR in Renewable Energy – Study on the Choice of the Sites for Wind Farms.....	73
<i>M. Kang, H. Kang, T. Ku, C. Chen, Y. Ke</i>	
Evaluation of Differential Pressure Setpoint of Chilled Water Pumps in Cleanroom HVAC Systems for Energy Savings in High-Tech Industries	80
<i>C. Su, K. Yu</i>	
Residential Lightning Fires in the USA: An Overview.....	89
<i>M. Stringfellow</i>	
An Effective Semi-Analytical Method for Simulating Grounding Grids	95
<i>F. Freschi, M. Mitolo, M. Taraglia</i>	
A Systematic Approach for Calculating Short-Circuit Currents in Electrical Power Systems for Commercial Vessels.....	103
<i>C. Su, C. Lin, C. Lee</i>	
Dynamic Response of Variable Frequency Drives in Electrical Submersible Pump Systems	113
<i>X. Liang, O. Ilochonwu, R. Adedun</i>	
Load Harmonics Analysis and Mitigation	124
<i>X. Liang, R. Adedun</i>	
Residential Lightning Fires in the USA: Electrical Arcs and Fuel Gas Leaks.....	132
<i>M. Stringfellow</i>	
Design Optimization of PHEV Charging Station.....	138
<i>F. Huang, P. Sarikprueck, Y. Cheng, W. Lee</i>	
Analysis of Integral Snubber Circuit Design for Transformers in Urban High Rise Office Building.....	145
<i>P. Sutherland</i>	
Medium Voltage Switching Transient Induced Potential Transformer Failures; Prediction, Measurement and Practical Solutions.....	162
<i>D. McDermit, D. Shipp, T. Dionise, V. Lorch</i>	
Transitions Theory In Operation Of Electrical Installations.....	173
<i>G. Parise, E. Hesla, L. Parise</i>	
A New Summary On The Iec Protection Against Electric Shock	179
<i>G. Parise</i>	
Power Consumption Evaluation for Electrical Submersible Pump Systems.....	187
<i>X. Liang, E. Fleming</i>	
Reliability Analysis for Power to Fire Pump Using Fault Tree and RBD.....	193
<i>M. Anthony, R. Arno, N. Dowling, R. Schuerger</i>	

Impact of Power System Instability on Generator Protection	200
<i>C. Mozina</i>	
Life Monitoring Tool Of Insulated Cables In Photovoltaic Installations	208
<i>G. Parise, L. Martirano</i>	
High-Speed Bus Transfer Supervision	214
<i>S. Turner</i>	
Detecting Broken Rotor Bars With Zero-Setting Protection	219
<i>C. Pezzani, P. Donolo, G. Bossio, M. Donolo, A. Guzman, S. Zocholl</i>	
Evaluation of the Switching Surges Generated During the Installation of Legacy and Smart Electric Metering Equipment	231
<i>Z. Zhang, B. Shrestha, H. Honang, W. Lee, J. Shi, J. Fielder, D. Wetz, A. Jackson</i>
