

# **2012 Second International Workshop on Games and Software Engineering: Realizing User Engagement with Game Engineering Techniques**

**(GAS 2012)**

**Zurich, Switzerland  
9 June 2012**

**IEEE Catalog Number: CFP1290S-PRT  
ISBN: 978-1-4673-1769-6**

# TABLE OF CONTENTS

<b>Learning Software Engineering Processes through Playing Games: Suggestions for Next Generation of Simulations and Digital Learning Games</b> .....	1
<i>J. Pieper</i>	
<b>It Was a Bit of a Race: Gamification of Version Control</b> .....	5
<i>L. Singer, K. Schneider</i>	
<b>Toward Adopting Self-Organizing Models for the Gamification of Context-Aware User Applications</b> .....	9
<i>D. Dubois</i>	
<b>Supporting Seniors Rehabilitation through Videogame Technology: A Distributed Approach</b> .....	16
<i>D. Maggiorini, L. Ripamonti, E. Zanon</i>	
<b>Adaptive Serious Game Development</b> .....	23
<i>D. Ismailovic, J. Haladjian, B. Kohler, D. Pagano, B. Brugge</i>	
<b>Evaluation of User Engagement and Message Comprehension in a Pervasive Software Installation</b> .....	27
<i>M. Aasbakken, L. Jaccheri, K. Chorianopoulos</i>	
<b>Creation of a Game-Based Digital Layer for Increased Museum Engagement among Digital Natives</b> .....	31
<i>K. Doran, A. Boyce, A. Hicks, J. Payton, T. Barnes</i>	
<b>Reusable Components for Artificial Intelligence in Computer Games</b> .....	35
<i>C. Dragert, J. Kienzle, C. Verbrugge</i>	
<b>Feedback in Low vs. High Fidelity Visuals for Game Prototypes</b> .....	42
<i>B. Kohler, J. Haladjian, B. Simeonova, D. Ismailovic</i>	
<b>Author Index</b>
