

2012 4th International Workshop on Software Engineering in Health Care

(SEHC 2012)

**Zurich, Switzerland
4 – 5 June 2012**

**IEEE Catalog Number: CFP1232G-PRT
ISBN: 978-1-4673-1844-0**

TABLE OF CONTENTS

A Timed Model for Healthcare Workflows Based on CSP	1
<i>J. Faber</i>	
A Case Study in Interoperable Support for Collaborative Community Healthcare	8
<i>L. Peyton, C. Kuziemsy, D. Langayan</i>	
What Is a Care Pathway?	15
<i>J. Keen</i>	
Cancer Treatment Planning: Formal Methods to the Rescue	19
<i>J. Mathe, J. Szipanovits, M. Levy, E. Jackson, W. Schulte</i>	
Requirements Specification for Apps in Medical Application Platforms	26
<i>B. Larson, J. Hatcliff, S. Procter, P. Chalin</i>	
Variabilities as First-Class Elements in Product Line Architectures of Homecare Systems	33
<i>S. Carvalho, L. Murta, O. Loques</i>	
Certification and Regulatory Challenges in Medical Device Software Development	40
<i>N. Hrgarek</i>	
Introducing Safety Cases for Health IT	44
<i>G. Despotou, S. White, T. Kelly, M. Ryan</i>	
Engineering the Healthcare Collaboration Space	51
<i>C. Kuziemsy, J. Weber-Jahnke, J. Williams</i>	
Creating Healthcare Training Simulations in Virtual Worlds	58
<i>D. Chodos, L. Gutierrez, E. Stroulia</i>	
A Multi-touch Approach to Control MRI Scans: A User-Centered Study Report	65
<i>T. Alcantara, P. Bastianelli, J. Ferreira, F. Maurer</i>	
From a Traditional Behavioral Management Program to an M-Health App: Lessons Learned in Developing M-Health Apps for Existing Health Care Programs	69
<i>Q. Zhu, C. Liu, K. Holroyd</i>
