

# **2012 13th International Radar Symposium**

**(IRS 2012)**

**Warsaw, Poland  
23-25 May 2012**

**IEEE Catalog Number: CFP12RAS-PRT  
ISBN: 978-1-4577-1838-0**

# Table of Contents

## Multiband & Passive Radar

Signals and data fusion in two band radar .....	15
<i>T. Brenner, J. Hardejewicz (Przemysłowy Instytut Telekomunikacji S.A., Poland), M. Rupniewski, M. Nałęcz (Warsaw University of Technology, Poland),</i>	
Twin VHF radar for European Space Situation Awareness System .....	19
<i>I. Balajti (National University of Public Services, Hungary),</i>	
Performance of the VHF, "L" and "S" band radar composite signal processing .....	23
<i>I. Balajti (National Defence University, Hungary),</i>	
Multiband Passive Bistatic DVB-T Radar Range Resolution Improvements and Implications .....	28
<i>K. E. Olsen (Norwegian Defence Research Establishment Kjeller, Norway), K. Woodbridge (University College London, United Kingdom),</i>	
Design analysis and implementation of a passive integrated mobile system for detection and identification of air targets .....	32
<i>A. Di Lallo, L. Timmoneri, E. Tilli (SELEX – Sistemi Integrati, Italy), T. Battisti (Elettronica S.p.A., Italy), A. Campana (Elettronica S.p.A, Italy),</i>	

## Automotive Radar

Pedestrian Classification in Automotive Radar Systems .....	39
<i>S. Heuel, H. Rohling (Hamburg University of Technology, Germany),</i>	
Requirements on Automotive Radar Systems for Enhanced Pedestrian Protection .....	45
<i>M. Heuer, A. Al-Hamadi (University of Magdeburg, Germany), R. Mende (smart microwave sensors GmbH, Germany), M. Meinecke (Konzernforschung Volkswagen, Germany),</i>	
Frequency and Phase Coupling Phenomenon in micro-Doppler Radar Signature of Walking Human .....	49
<i>P. Molchanov, J. Astola, K. Egiazarian (Tampere University of Technology, Finland), A. Totsky (National Aerospace University Kharkov, Ukraine),</i>	
A 240GHz FMCW Imaging Radar .....	60
<i>B. Zhang, Y. Pi, Y. Hou, Z. Xu (University of Electronic Science and Technology of China, China),</i>	

## Passive Radar

Multi-Illuminator Passive Radar Performance Evaluation .....	61
<i>A. Schroeder, M. Edrich, V. Winkler (Cassidian, Germany),</i>	
Experimental results of the PaRaDe passive radar field trials .....	65
<i>M. Malanowski, K. Kulpa, P. Samczyński, J. Misiurewicz, J. Kulpa, P. Roszkowski, P. Dzwonkowski, D. Gromek, Ł. Maślikowski, M. Misiurewicz (Warsaw University of Technology, Poland), Ł. Podkalicki (Sabali Systems Warsaw, Poland),</i>	
Detection of fast maneuvering air targets using GSM-based passive radar .....	69
<i>P. Krysiak, P. Samczynski, M. Malanowski, L. Maslikowski, K. Kulpa (Warsaw University of Technology, Poland),</i>	
Combined detection and spatial localization of several targets by radars with transmitters of opportunity .....	73
<i>V. N. Shevchenko, I. V. Donets, N. G. Parkhomenko (Public Corporation "KB" Sviaz, Russia),</i>	

Maritime Surveillance using GSM Passive Radar .....	76
<i>R. Zemhari, M. Daun, U. Nickel (Fraunhofer-FKIE, Germany),</i>	

## Signal Processing 1

Geometric Barycenters and their Application to Radar Training Data Selection/Target Detection .....	85
<i>L. Pallotta, A. Aubry, A. De Maio (Universita degli Studi di Napoli Federico II, Italy), A. Farina (SELEX – Sistemi Integrati, Italy),</i>	
Generalized Detector with Adaptive Detection Threshold for Radar Sensors .....	91
<i>M. S. Shbat, V. Tuzlukov (Kyungpook National University, Korea South),</i>	
Study on Emitter Signal Recognition Based on Backward Cloud Model and Attribute Similarity .....	100
<i>P. Li-na (Naval Aeronautical and Astronautical University, China),</i>	
IF Sampling Considerations in Radar Systems .....	100
<i>M. Alaei (Imam Hossein University, Iran),</i>	

## MIMO Radar

Target velocity estimation and CRB with distributed MIMO radar in non-homogeneous ar-modeled disturbances .....	109
<i>H. Li, P. Wang (Stevens Institute of Technology Hoboken, United States), B. Himed (AFRL/RVMD Dayton, United States),</i>	
Development of a MIMO radar system demonstrator - calibration and demonstration of first results .....	113
<i>T. Rommel, A. Patyuchenko, P. Laskowski, M. Younis, G. Krieger (German Aerospace Center, Germany),</i>	
Continuous Wave MIMO Radar Based on Time Division Multiplexing .....	119
<i>A. Zwanetski, H. Rohling (Hamburg University of Technology, Germany),</i>	
Array Calibration Technique for a Coherent MIMO Radar .....	122
<i>F. Belfiori, P. Hoogeboom (Delft University of Technology, Netherlands), W. van Rossum (TNO - Innovation for Life, Netherlands),</i>	
NON-CIRCULAR ESPRIT FOR JOINT DOA-DOD ESTIMATION IN BISTATIC MIMO RADAR .....	100
<i>M. L. Bencheikh (Ecole Nationale Polytechnique, Algeria),</i>	

## Signal Processing 2

Clutter Map for a CW Surveillance Radar .....	133
<i>M. Kronauge, H. Rohling (Hamburg University of Technology, Germany),</i>	
Investigation of influence of noise on the characteristics of complex multiphase signals based on generalized Frank code at their optimal processing .....	137
<i>R. Yankevych, M. Sumyk (Lviv Polytechnic National University, Ukraine),</i>	
Sidelobe Blanking with Correlated Generalized Swerling-Chi Fluctuation Models .....	141
<i>G. Cui (University of Electronic Science and Technology of China, China), A. De Maio, M. Piezzo, V. Carotenuto (Universita degli Studi di Napoli Federico II, Italy), A. Farina (Selex-Sistemi Integrati, Italy),</i>	
Sidelobe level reduction for complex radar signals with small base .....	146
<i>M. Łuszczuk, A. Łabudziński (Przemysłowy Instytut Telekomunikacji S.A., Poland),</i>	

## SAR 1

SAR/InSAR Raw Data Simulator Using DTM Scene Definitions .....	153
<i>D. Gromek, A. Gromek, K. Kulpa, P. Samczynski (Warsaw University of Technology, Poland), G. Tanski (Mindberries Ostroleka, Poland),</i>	
Passive SAR imaging using a satellite pulsed radar as an illuminator of opportunity .....	157
<i>P. Samczynski, K. Kulpa (Warsaw University of Technology, Poland),</i>	
Latest MetaSensing ground, airborne and spaceborne SAR developments .....	162
<i>A. Meta, S. Roedelsperger, C. Trampuz, A. Coccia (MetaSensing B.V. Noordwijk, Netherlands),</i>	
Design and Characterization of the CoReH2O Ku-band Multi-Feed Antenna .....	166
<i>T. Fugen, B. Grafmuller, G. Adamiuk, S. Riegger (Astrium GmbH, Germany), M. Viberg (Ruag Space AB, Sweden), F. Heliere, K. van't Klooster (ESA-ESTEC, Netherlands),</i>	
High-Resolution Compressive Sensing Imaging with Stepped-Frequency Noise Signal .....	170
<i>Y. Zhang, X. Dong, X. Gu, W. Zhai (Chinese Academy of Sciences, China),</i>	

## Radar Subsystems

Scalable Front-End Digital Signal Processing for a Phased Array Radar Demonstrator .....	177
<i>F. Winterstein, G. Sessler, G. Dauron, P. Besso (European Space Agency, Germany), M. Montagna (Makalumedica GmbH, Germany), M. Mendijur (Callisto Ground Station Systems Division at the European Space Operations Centre, Germany),</i>	
Multielement Patch antenna for K-band .....	183
<i>B. Stec, A. Jeziorski, M. Czyzewski, A. Slowik (Military University of Technology, Poland),</i>	
Tutorial Review of an L Band Radar Transceiver for use with a Software Defined Radar Baseband System .....	187
<i>S. R. Rukezo, M. Inggs, A. K. Mishra (University of Cape Town, South Africa),</i>	
Validation Test of Downlink Aircraft Parameters via SSR Mode S Experimental System .....	193
<i>K. Matsunaga, A. Senoguchi, T. Koga (Electronic Navigation Research Institute Tokyo, Japan),</i>	

## Radar Applications 1

Ka-Band FMCW-Radar for Sniper Detection .....	201
<i>V. Winkler, M. Edrich, H. Ziegler (Cassidian, Germany),</i>	
Chirp Nonlinearity Compensation for Cost Effective Optical FMCW Radar .....	205
<i>S. Gaede, A. Gupta, C. G. Schaeffer (Helmut Schmidt University, Germany),</i>	
Autodyne Sensors for Hump Yard and Rail Crossing Applications .....	209
<i>G. P. Ermak, A. S. Vasilev, A. V. Varavin, I. V. Popov (The National Academy of Sciences, Ukraine), V. Ya. Noskov, K.A. Ignatkov (Ural Federal University, Russia),</i>	
Weighting Network Influence on the Geometric Term Correction in MARSIS Data Inversion .....	213
<i>M. Restano, A. Masdea, G. Picardi, R. Seu (University of Rome "La Sapienza", Italy),</i>	

## SAR 2

SAR imaging from randomly sampled phase history using Compressive Sensing .....	221
<i>A. K. Mishra (University of Cape Town, South Africa), R. Phogat, S. Mann (Indian Institute of Technology Guwahati, India),</i>	

SAR-based Augmented Integrity Navigation Architecture .....	225
<i>M. Greco, G. Pinelli, A. Bonsignore (IDS – Ingegneria Dei Sistemi, Italy), S. Querry, B. Querry (PLV – Polyvionics, France), K. Kulpa, P. Samczynski, D. Gromek, A. Gromek, M. Malanowski (Warsaw University of Technology, Poland),</i>	
Structured I2 - I1 Experiment Design Regularization Approach for Near Real Time Enhancement of Low Resolution Fractional SAR Imagery .....	208
<i>Y. V. Shkvarko, J. Tuxpan, S. R. Santos (Cinvestav-IPN, Mexico),</i>	
Ku-Band Radar Front-end Design for QUASAR UAV based SAR System .....	208
<i>J. del Castillo Mena, J. R. Larranaga Sudupe (Spanish National Institute for Aerospace Technology, Spain),</i>	

## Ultrawideband Radar

UWB Time Domain system for RCS measurements .....	241
<i>B. Levitas, J. Matuzas, M. Drozdov (Geozondas JSC, Lithuania),</i>	
Through-Wall UWB Radar Network for Moving Target Tracking .....	245
<i>J. Rovnakova, D. Kocur (Technical University of Kosice, Slovakia),</i>	
Range-Doppler processing for indoor human tracking by multistatic Ultra-wideband radar .....	250
<i>Y. He, F. L. Chevalier, A. G. Yarovoy (Delft University of Technology, Netherlands),</i>	
Time Domain Analysis of Ultra-Wide Band Radar Signals Scattered by Buried Objects .....	254
<i>S. Makal (TUBITAK Center of Research for Advanced Technologies of Informatics and Information Security, Turkey), A. Kizilay (Yildiz Technical University, Turkey),</i>	

## Radar Applications 2

Determine position of SIF/IFF transponders by a one-positional non-directional receiver .....	261
<i>M. Kaczur, J. Vesely (University of Defence, Czech Republic),</i>	
Plug Flow Measurements with Nanoscale Impulse Radar .....	265
<i>F. Wenger, T. Gustafsson, M. Sjostrand, H. Sivencrona, P. Bohlin (Qamcom Research &amp; Technology AB, Sweden),</i>	
Application of Modified Method of Viewshed Analysis in Radar Sensor Network Planning on Inland Waterways ...	269
<i>J. Lubczonek (Maritime University Szczecin, Poland),</i>	
Wind Turbines as Distorting Scattering Objects for Radar – Visibility, desensitization and shadowing .....	275
<i>G. Greving, W. Biermann, R. Mundt (NAVCOM Consult, Germany),</i>	

## Posters

Front-Side-Looking SAR imaging .....	281
<i>K. I. Semenova, I. V. Shelevytsky, F. J. Yanovsky (National Aviation University Kiev, Ukraine),</i>	
Henkel transform based near field imaging using UWB impulse radar .....	285
<i>A. K. Mishra, V. Singh (University of Cape Town, South Africa),</i>	
Some Reflections of Near-Space Low-Speed SAR Imaging .....	208
<i>H. Yang, J. Wu, W. Li, Y. Huang, J. Yang (University of Electronic Science and Technology of China, China),</i>	
A Miniature HRWS SAR Concept for Near-Space Vehicles .....	292
<i>X. Qin, W. Zhan, J. ZhiHong, H. Kan (National University of Defense Technology, China),</i>	

VLSI implementation of Sliding Window FFT .....	300
<i>V. Chandrakanth, C. Devedernath, A. Shamnar (Ministry of Defence, India),</i>	
The combining methodology of partial channels' information and operational advantages in various electromagnetic spectrum bands within one integrated monitoring system .....	301
<i>I. Prudyus, A. Zubkov, V. Antonyuk, L. Lazko, D. Mymrikov (Lviv Polytechnic National University, Ukraine),</i>	
TDOA Based Target Tracking Using Extended Kalman Filter .....	302
<i>Y. Norouzi (Amirkabir University of Technology, Iran), T. Faizi (Emam Hossein University, Iran),</i>	
Speed-up the Computing of Bistatic Cross-Ambiguity Function .....	310
<i>J. Pidanic, Z. Nemeč (University of Pardubice, Czech Republic),</i>	
Some issues of continuous wave synthetic aperture radar range resolution .....	314
<i>P. Serafin, A. Kawalec, C. Lesnik (Military University of Technology, Poland),</i>	
Robust frequency estimation .....	319
<i>I. G. Prokopenko, I. P. Omelchuk, Y. D. Chyrka (National Aviation University, Ukraine),</i>	
Real-Time Sound Source Localization .....	322
<i>M. Mandlik, Z. Nemeč, R. Doleček (University of Pardubice, Czech Republic),</i>	
Information sensing for radar target classification using compressive sensing .....	326
<i>M. Inggs (University of Cape Town Cape Town, South Africa), A. K. Mishra, G. Wilsenach (University of Cape Town, South Africa),</i>	
Efficient DSP Implementation of CFAR Based Algorithms Using The ADSP-TS201S TigerSHARC Processor .....	328
<i>B. MAGAZ, A. BELLABAS (Département Electronique Ecole Nationale Polytechnique Algiers, Algeria),</i>	
A Fast and Novel Method of Pattern Synthesis for Non-Uniform Phased Array Antennas .....	330
<i>E. Tohidi, M. M. Nayebi (Sharif University of Technology, Iran), M. A. Sebt (K.N Toosi University of Technology, Iran),</i>	
Applied Aspects Of M-Sequences Generated By Irreducible Polynomials .....	340
<i>O. Volivach, A. Beletsky (National Aviation University, Ukraine),</i>	
Pre-distortion for DDWS System .....	345
<i>Z. Zhao, W. Chang, X. Li, R. Tu (National University of Defense Technology, China),</i>	
Adaptive filtering techniques in passive radar .....	348
<i>M. M. Chitgarha, M. Radmard, M. N. Majd, M. M. Nayebi (Sharif University of Technology, Iran),</i>	
Integration of passive coherent radar system into the passive TDOA system .....	354
<i>V. Antonyuk, V. Nichoga, I. Prudyus (Lviv Polytechnic National University, Ukraine), A. Kawalec (Military University of Technology, Poland),</i>	
Binary codes for Multi-Range Resolution Radars .....	359
<i>M. Shinriki, H. Takase (Nippon Institute of Technology, Japan),</i>	
Kernel Generalized Neighbour Discriminant Embedding for SAR Automatic Target Recognition .....	360
<i>Y. Huang, B. Wang, J. Pei, J. Yang, T. Wang, H. Yang (University of Electronic Science and Technology of China, China),</i>	

### **SAR 3**

TanDEM-X Performance: Impact on Acquisition Planning Optimization .....	371
<i>T. Kraus, M. Bachmann, P. Rizzoli, B. Brautigam, G. Krieger (German Aerospace Center, Germany),</i>	
Estimation of Phase Errors in SAR Data by Local-Quadratic Map-Drift Autofocus .....	376
<i>O. O. Bezvesilniy, I. M. Goroviy, D. M. Vavriv (The National Academy of Sciences, Ukraine),</i>	

Multi-Look SAR Processing: Novel Benefits .....	382
<i>D. M. Vavriv, O. O. Bezvesilny (The National Academy of Sciences, Ukraine),</i>	
A Novel High-resolution Wide-SwathSAR imaging Algorithm .....	382E
<i>W. Zuo, Z. Xu, X. Yang (University of Electronic Science and Technology of China, China),</i>	

## Data Fusion / TDOA Measurements

Principle of a Hybrid Data Generator for Data Fusion .....	393
<i>D. Nagel, J. Nicola (Cassidian, Germany),</i>	
Machine learning methods in data fusion systems .....	400
<i>R. Nowak, R. Biedrzycki, J. Misiurewicz (Warsaw University of Technology, Poland),</i>	
Envelope and Square-law channels fusion .....	406
<i>G. Cibira (University of Zilina, Slovakia),</i>	
The Error Estimation and Ambiguity of Solution of 2-D Time Difference of Arrival Localization Method .....	411
<i>P. Hubacek (University of Defence, Czech Republic),</i>	

## SAR/ISAR

Advances in ISAR processing for High Resolution Cross-Range Profiling with Passive Radar .....	421
<i>P. Falcone, F. Colone, A. Macera, D. Pastina, P. Lombardo (University of Rome "La Sapienza", Italy),</i>	
Short Time Pulse Bistatic Forward Scattering Inverse Synthetic Aperture Radar Imaging .....	426
<i>A. Lazarov (Bourgas Free University, Bulgaria), C. Kabakchiev, T. Kostadinov (Bulgarian Academy of Sciences, Bulgaria),</i>	
ISAR Maneuvering Target Imaging based on Compressive Time-Frequency Distribution .....	430
<i>J. Qian, G. Bi (Nanyang Technological University, Singapore), X. Lu (Rensselaer Polytechnic Institute, United States),</i>	
Synthetic Aperture Radar and Search and Rescue: Studies in the Canadian North .....	435
<i>M. Ghazel (MDA Systems Ltd, Canada), J. Secker, T. I. Lukowski (Defence Research and Development Canada, Canada),</i>	

## GPR

Subsurface Soil Modeling Based on Geological Database for Simulation of Electromagnetic Wave Propagation ...	41 F
<i>R. Kedzierawski, J. Le Caillec (TELECOM Bretagne, France), W. Czarnecki, M. Pasternak (Military University of Technology Warsaw, Poland),</i>	
Interpretation of ground penetrating radar data based on A-scan measurements .....	44Ĥ
<i>P. Kaczmarek, J. Karczewski, M. Lapinski (Military University of Technology, Poland),</i>	
Investigation on the Aperture Size for SAR Focusing of Subsurface Targets .....	4Ĥ €
<i>B. Panzner, A. Jostingmeier, A. Omar (Otto-von-Guericke University Magdeburg, Germany),</i>	
Suppression of GPR range sidelobes based on NLFM signal .....	45I
<i>M. Zych (Telecommunication Research Institute, Poland),</i>	
A 2D processing algorithm for detecting landmines using Ground Penetrating Radar data. ....	45J
<i>A. Sengodan, W. P. Cockshott (University of Glasgow, United Kingdom),</i>	

## Noise Radar

- Two – Dimensional Portable Short Range of L Band Noise Radar Demonstrator ..... 46Ī  
*A. K. Rutkowski, A. Kawalec (Military University of Technology, Poland),*
- Doppler Signal Detection Using Stepped Frequency Noise Radar ..... 4Ī F  
*K. Lukin, P. Vyplavin, O. Zemlyaniy, V. Palamarchuk (Usikov Institute for Radiophysics and Electronics, Ukraine), J. P. Kim (Chung-Ang University, Korea South), C. H. Kim (MTI R&D Center, Korea South),*
- Precision of Target Shifts Detection Using Ka-band Ground Based Noise Waveform SAR ..... 47Ī  
*J. Misiurewicz, Z. Gajo, J. Kulpa, K. Kulpa (Warsaw University of Technology, Poland), K. Lukin, P. Vyplavin, V. Palamarchuk, V. Kudriashov (The National Academy of Sciences, Ukraine),*
- Integrated Sidelobe Ratio in Noise Radar Receiver ..... 47J  
*K. Lukin, P. Vyplavin (The National Academy of Sciences, Ukraine),*
- Compressed Sensing Experiments in a Noise SAR ..... 48H  
*J. Misiurewicz, L. Maslikowski (Warsaw University of Technology, Poland),*

## HF Radar / Weather Radar

- Ocean Surface Current Measurements by HF Radar Under External Radio Frequency Interference ..... 4JF  
*A. Dzvonkovskaya (Hamburg University of Technology, Germany),*
- Digital Pulse Compression Waveform Applied to Avionic Polarimetric Weather Radar ..... 49Ī  
*A. Lupidi (University of Pisa, Italy), L. Facheris, F. Cuccoli (University of Firenze, Italy),*
- Application of LSS-Decomposition in Weather Radar Signal Processing ..... 4Ī €  
*O. S. Semenova, F. J. Yanovsky, I. V. Shelevytsky (National Aviation University, Ukraine),*
- Hard Threshold Correlation Detector for Mobile HF Surface Wave Radar ..... 50Ī  
*A. Gupta, Th. Fickenscher (Helmut Schmidt University, Germany),*
- Retrieving hydrometeor motions using space-borne EarthCARE Doppler radar ..... 50J  
*T. Augustynek, A. Battaglia (University of Leicester, United Kingdom),*

## Tracking

- Target Course Estimation in Tracking Filters Using Local Cartesian Coordinates ..... 5FĪ  
*M. Sankowski (Bumar Elektronika S.A., Poland),*
- Performance Evaluation of Multisensor Track Formation Algorithms in Urban Environment ..... 5CF  
*D. Łukwiński, T. Dorau, T. Rutkowski, M. Kwiatkowski, W. Buda, M. Sankowski (Bumar Elektronika S.A., Poland),*
- About peculiarities of geometrical approach to problems of video tracking ..... 5DE  
*V. Tayanov (Polish-Japanese High School of Computer Technics, Poland),*

## Maritime Radar

- Forward Scatter Radar Detection and Estimation of Marine Targets ..... 53H  
*Chr. Kabakchiev, D. Kabakcueva (Sofia University "St. Kliment Ohridski", Bulgaria), I. Garvanov (University of Library Studies and Information Technologies, Bulgaria), V. Behar, A. Kabakchiev (Institute of Information and Communication Technologies, Bulgaria),*

Marine Target Classification and Parameter Estimation using Forward Scattering Radar .....	53J
<i>H. Kabakchiev, D. Kabakchieva (Sofia University "St. Kliment Ohridski", Bulgaria), V. Behar (IICT-BAS, Bulgaria), I. Garvanov (University of Library Studies and Information Technologies, Bulgaria),</i>	
Optimization of multiple model neural tracking filter for marine targets .....	54H
<i>W. Kazimierski, A. Stateczny (Maritime University of Szczecin, Poland),</i>	
Verification of multiple model neural tracking filter with ship's radar .....	54J
<i>W. Kazimierski, G. Zaniewicz, A. Stateczny (Maritime University of Szczecin, Poland),</i>	
Verification of marine multiple model neural tracking filter for the needs of shore radar stations .....	5Í I
<i>W. Kazimierski, J. Lubczonek (Maritime University of Szczecin, Poland),</i>	
Index of Authors .....	5Î €
