

2012 Symposium on Broadband Networks and Fast Internet

(RELABIRA 2012)

**Hadath, Baabda, Lebanon
28 – 29 May 2012**

IEEE Catalog Number: CFP1228T-PRT
ISBN: 978-1-4673-2151-8

Table of Contents

Keynotes

TREND, the FP7 Network of Excellence on Green Networking	1
<i>Marco Ajmone Marsan</i>	

Session 1: Optical Networking

Double-link Failure Localization Based on the Monitoring Trail Concept in WDM Networks.....	21
<i>Elias Doumith and Sawsan Al Zahr</i>	
Power Fairness for Multicast Traffic in Optical Networks with Adaptive Light Splitters ...	29
<i>Shadi Jawhar, Cousin Bernard and Zeina Bitar</i>	
Significantly Improved Optical OFDM Transmission Performances with 10dB Reduced Optical Input Powers by Quantum Dot SOA Intensity Modulators	35
<i>Mohamad Hamze, Ali Hamié, Jinlong Wei, Jianming Tang, Ammar Sharaiha, Mikael Guégan and Ali Alaeddine</i>	

Session 2: Energy Efficient Networking

Reducing Energy Consumption in Cellular Networks by Adjusting Transmitted Power of Base Stations	39
<i>Michel Nahas, Samih Abdul-Nabi, Lilian Bouchnak and Fadi Sabeih</i>	
Cooperation Based Energy Efficiency Optimization Using Game Theory Framework for Heterogeneous Networks	45
<i>Sofia Bouferda, Aawatif Hayar, Bassem Zayen and Mounir Rifi</i>	

Session 3: Measurement and Visualization Technologies

Novel Configurations for Car Speed Measurements Using Passive RFID Tags	50
<i>Abdallah Moubayed, Ursula Eid and Chadi Abou-Rjeily</i>	
Embedded implementation of a digital clock recovery for the asynchronous monitoring of optical signals	56
<i>Christophe Gosset, Jeanine El Khazen and Paul Ghobril</i>	
An Automatic Approach to Blindly Detect Bandwidth Edges based on the Wavelet Transform	60
<i>Rima Hatoum, Alaa Ghaith and Guy Pujolle</i>	

Session 4: Network Security and System Administration

Secure and Efficient Support of Internet Multicast Transmission over Satellite DVB	65
<i>Kassem Ahmad, Bassem Bakhache and Safwan El Assad</i>	
Round Trip Time to Improve Hop Count Filtering.....	66
<i>Ayman Mukaddam and Imad Elhajj</i>	
Ensured Confidentiality Authentication and Key Agreement Protocol for EPS.....	73
<i>Jacques Bou Abdo, Hakima Chaouchi and Mohammad Aoude</i>	

Session 5: Mobile Networking

Asynchronous reliable multicast protocol in Vehicular ad hoc networks	78
<i>Rami Yared and Jacques Demerjian</i>	
Queueing Analysis of Multiple Service Classes in Orthogonal Frequency Division Multiple Access based WiMAX System under Connection Admission Control Mechanisms	83
<i>Abdelali El Bouchti, Abdelkrim Haqiq and Zhor Lhadi</i>	
The SINR Based Handover for LTE with Uplink Consideration	91
<i>Mohamad Aoude</i>	

Session 6: Image Processing Technologies

Breast Segmentation using K-means Algorithm with A Mixture of Gamma Distributions .	97
<i>Abdu Gumaei and Ali El-Zaart</i>	
New Chaotic Image Encryption technique	103
<i>Hussein Al Haj Hassan, Ali Kassem, Youssef Harkouss, Rima Assaf and Safwan El Assad</i>
