

2012 Second Brazilian Conference on Critical Embedded Systems

(CBSEC 2012)

**Sao Paulo, Campinas, Brazil
20 – 25 May 2012**

**IEEE Catalog Number: CFP1210T-PRT
ISBN: 978-1-4673-1912-6**

2012 Second Brazilian Conference on Critical Embedded Systems

CBSEC 2012

Table of Contents

Welcome Message.....	viii
Organization—Conference Chairs.....	ix
Program Committee.....	x
Keynote Speakers.....	xii
Sponsors.....	xv

Session I: Navigation Techniques

Autonomous Self-Localization of Mobile Robots through Reference Point Based Computer Vision	1
<i>Leandro Nogueira Couto and Fernando Santos Osório</i>	
Wind Velocity Neural Estimator for Small Autonomous Surface Vehicles	6
<i>J.R.B.A. Monteiro, M. Suetake, G.T. Paula, T.E.P. Almeida, M.P. Santana, G.B. Romero, J.C. Faracco, F.J. Monaco, and R.S. Pinto</i>	
Intelligent Robotic Car for Autonomous Navigation: Platform and System Architecture	12
<i>Leandro C. Fernandes, Jefferson R. Souza, Patrick. Y. Shinzato, Gustavo Pessin, Caio C. T. Mendes, Fernando S. Osório, and Denis F. Wolf</i>	

Session II: Design Methodology

A Systematic Mapping of Architectures for Embedded Software	18
<i>Erik Aceiro Antonio, Fabiano Cutigi Ferrari, and Sandra Camargo Pinto Ferraz Fabbri</i>	
RAHMoN: Routing Algorithm for Heterogeneous Mobile Networks	24
<i>Mateus A. Vilela and Regina B. Araujo</i>	
Using Simulink to Generate HDL Code for Validating an Embedded Kalman Filter	30
<i>M.A.M. Laia and P.E. Cruvinel</i>	

Session III: Navigation, Control, and Safety

Mobile Robots Navigation in Indoor Environments Using Kinect Sensor	36
<i>Diogo Santos Ortiz Correa, Diego Fernando Sciotti, Marcos Gomes Prado, Daniel Oliva Sales, Denis Fernando Wolf, and Fernando Santos Osório</i>	
An Intelligent Autonomous Vehicle Management System	42
<i>Lucas B. Braniasso, Edilson R. Rodrigues Kato, Emerson Carlos Pedrino, Orides Morandin Jr., and Roberto Hideaki Tsunaki</i>	
Multi-agent Autonomous Patrolling System Using ANN and FSM Control	48
<i>Daniel Oliva Sales, Daniel Feitosa, Fernando Santos Osório, and Denis Fernando Wolf</i>	

Session IV: Communication and Security

Performance Evaluation of Security Communication in Critical Embedded Systems	54
<i>Gabriel Camoese Salla, Alex Monteiro Sartin, Natássya Barlate Floro da Silva, Daniel Fernando Pigatto, and Kalinka Regina Lucas Jaquie Castelo Branco</i>	
Secure Connection Re-establishment for Session-Based IP Mobility	58
<i>Bruno Y.L. Kimura, Roberto S. Yokoyama, Hélio C. Guardia, and Edson S. Moreira</i>	
Decentralized Power Aware Approach for Data Fusion in IEEE 802.15.4 Wireless Sensor Networks	64
<i>A.R. Pinto and C. Montez</i>	

Session V: Embedded Operating Systems

A Heterogeneous Preemptive and Non-preemptive Scheduling Approach for Real-Rime Systems on Multiprocessors	70
<i>Renan Augusto Starke and Romulo Silva de Oliveira</i>	
Embedded Linux in Real-Time Applications: Performance Enhancements of Experimental Fully-Preemptible Capabilities over the Standard Kernel in a Critical Mobile System	76
<i>Renê S. Pinto, Francisco J. Monaco, Julio C. Faracco, and José R.B.A. Monteiro</i>	
An RTOS Methodology for NoC Based Systems' Support—The HellfireOS Case Study	82
<i>Sérgio J. Filho, Alexandra Aguiar, Felipe G. Magalhães, Oliver Longhi, and Fabiano Hessel</i>	

Session VI: Systems Modelling and Applications

Improving the Resilience of UAV in Non-segregated Airspace Using Multiagent Paradigm	88
<i>M. Correa, J.B. Camargo Jr., M.A. Rossi, and J.R. Almeida Jr.</i>	
A Process for Engineering DSLs from Mobile Robot Applications	94
<i>Daniel B.F. Conrado and Valter V. de Camargo</i>	

Study and Modeling of the Server Application for Monitoring Embedded Systems of Vehicle Fleet in Agribusiness	100
