

2012 IEEE 25th Conference on Software Engineering Education and Training

(CSEE&T 2012)

**Nanjing, China
17-19 April 2012**

**IEEE Catalog Number: CFP12027-PRT
ISBN: 978-1-4673-1592-0**

2012 25th IEEE Conference on Software Engineering Education and Training

CSEE&T 2012

Table of Contents

Foreword.....	viii
Organizing Committee.....	x
Program Committee.....	xii
Steering Committee.....	xv
Keynote.....	xvi
Concluding Session.....	xvii

Full Papers

Changes in Transferable Knowledge Resulting from Study in a Graduate Software Engineering Curriculum	3
<i>Ray Bareiss, Todd Sedano, and Edward Katz</i>	
A Role-Playing Game for a Software Engineering Lab: Developing a Product Line	13
<i>Sara Zuppiroli, Paolo Ciancarini, and Maurizio Gabrielli</i>	
The Exploration and Practice of Gradually Industrialization Model in Software Engineering Education - A Factual Instance of the Excellent Engineer Plan of China	23
<i>Shu Liu, Peijun Ma, and Dong Li</i>	
Learning to Write Programs with Others: Collaborative Quadruple Programming	32
<i>Ritu Arora and Sanjay Goel</i>	
Will They Report It? Ethical Attitude of Graduate Software Engineers in Reporting Bad News	42
<i>A. S. M. Sajeev and Ivica Crnković</i>	
Delivering Software Process-Specific Project Courses in Tertiary Education Environment: Challenges and Solution	52
<i>Guoping Rong and Dong Shao</i>	

Experiences with Integrating Simulation into a Software Engineering Curriculum	62
<i>Andreas Bollin, Elke Hochmüller, Roland Mittermeir, and Ladislav Samuelis</i>	

Workshops

Exploring the Computer Science 2013 Curriculum Guidelines	75
<i>Richard LeBlanc and Michael Barker</i>	
Workshop on Collaborative Software Product Line Engineering	77
<i>David M. Weiss and Dong Li</i>	

Tutorials

A Gentle Introduction to Learn by Doing	81
<i>Ray Bareiss and Todd Sedano</i>	
Teaching Software Project Management using Simulations - The AMEISE Environment: from Concepts to Class Room Experience	85
<i>Andreas Bollin, Elke Hochmüller, and Ladislav Samuelis</i>	
Engage Your Students by Teaching Computer Science Using Only Mobile Devices with TouchDevelop	87
<i>Nikolai Tillmann, Michal Moskal, Jonathan de Halleux, Manuel Fahndrich, and Tao Xie</i>	
Pex4Fun: Teaching and Learning Computer Science via Social Gaming	90
<i>Nikolai Tillmann, Jonathan de Halleux, Tao Xie, and Judith Bishop</i>	
Teaching and Training for Software Analytics	92
<i>Dongmei Zhang, Yingnong Dang, Shi Han, and Tao Xie</i>	

Short Papers and Work-in-Progress Papers

Towards Teaching Software Craftsmanship	95
<i>Todd Sedano</i>	
A Software Testing Tool for the Verification of Abstract Data Type Implementations from Formal Algebraic Specifications	100
<i>Rafael del Vado Virseda</i>	
Teaching Globally Distributed Software Development: An Experience Report	105
<i>Eduardo Almeida, Li Dali, Stuart Faulk, Crescencio Lima, Zhang Rui, David Weiss, Jin Ying, Michal Young, and Lian Yu</i>	
Research on Remote Collaborative Engineering Practices for Master of Software Engineering Based on Cloud Computing Environment	110
<i>Qing Ding, Xi Li, Ye Liu, and Zhu Shi</i>	
A New Model on the School-Enterprise Cooperation Curriculum Construction	115
<i>Hongyan Mao, Ningkang Jiang, Wen Su, and Yan Zhang</i>	

The Effect of Checklist in Code Review for Inexperienced Students: An Empirical Study	120
<i>Guoping Rong, Jingyi Li, Mingjuan Xie, and Tao Zheng</i>	
An Experience of Teaching HCI to Undergraduate Software Engineering Students	125
<i>Guihuan Feng and Bin Luo</i>	
Evaluation of Student Teamwork	130
<i>Ondřej Macek and Martin Komárek</i>	
A Case Study of Group Communication Patterns in a Large Project Software Engineering Course	134
<i>Bonnie MacKellar</i>	
A Method for Designing Software Engineering Educational Programs	139
<i>Mira Kajko-Mattsson</i>	
Panel Sessions	
Research Directions for Software Engineering Education and Training	147
<i>Mike Barker</i>	
Involving Undergraduates in Research: Motivations and Challenges	148
<i>W. Eric Wong</i>	
Author Index	149
