

2012 Fifth International Joint Conference on Computational Sciences and Optimization

(CSO 2012)

Harbin, Heilongjiang, China
23 – 26 June 2012

IEEE Catalog Number: CFP1250G-PRT
ISBN: 978-1-4673-1365-0

2012 Fifth International Joint Conference on Computational Sciences and Optimization

CSO 2012

Table of Contents

| | |
|--|-------|
| Message from General Co-chairs and Program Co-chairs..... | xix |
| Program Committees..... | xxii |
| Organizing Committee..... | xxvi |
| Reviewers..... | xxvii |

Computational Simulation and Analysis

| | |
|--|----|
| Criteria for Generalized Strictly Diagonally Dominant Matrix | 1 |
| <i>Jieqiong Zhou and Min Li</i> | |
| An Ensemble Technique to Daily Rainfall Forecasting Based on SSA | 5 |
| <i>Jifu Nong</i> | |
| Modeling and Simulation of C2 Systems Based on Entity Relationship | 10 |
| <i>Fei Gao, Fuxiang Gao, Yu Wang, and Shaoqing Chen</i> | |
| An Novel Effective Simulation Method of Star Atlas for Star Identification | 14 |
| <i>Xiaowen Wu, Lin Zhao, Yong Hao, and Xin Yan</i> | |
| On a Computational Method for Impact of Compressible Fluid | 18 |
| <i>Shili Sun, Shiyan Sun, and Jian Hu</i> | |

Hybrid Computational Methods and Complex Systems Modeling

| | |
|--|----|
| An Improved EEMD-based Framework for CPI Forecasting | 22 |
| <i>Tao Xiong, Zhongyi Hu, and Yukun Bao</i> | |
| Wind Park Power Forecasting Models and Comparison | 27 |
| <i>Qian Zhang, Kin Keung Lai, Dongxiao Niu, and Qiang Wang</i> | |
| Analysis of Students' Employability Self-efficacy and Entrepreneurial Career Intention: Using Labor Market Information as a Mediator Variable | 32 |
| <i>Chun-Mei Chou, Chien-Hua Shen, Hsi-Chi Hsiao, Hui-Tzu Chang, Ying-Jung Chen, Wan-Hsuan Lee, Su-Chang Chen, Chen Chin-pin, Jen-Chia Chang, and Shih-Hsien Chuang</i> | |

Computational Mathematics

| | |
|---|----|
| The Reflexive Optimal Approximation Solution of Matrix Equation $AXB + CYD = E$ | 36 |
| <i>Heming Sun, Tingting Ye, and Jiawen Yang</i> | |
| A New Algorithm for Solving the Equation $X + A^*X^{-1}A = I$ | 41 |
| <i>Min Li, Yueling Yang, and Qingchun Li</i> | |
| An Adaptive Regularization Method for Ill-conditioned Problem | 45 |
| <i>Jimin Liu, Xiushan Lu, and Fanwei Meng</i> | |

Computational Biology and Computational Graphics

| | |
|--|----|
| De Novo Peptide Sequencing Based on Vertex Contraction Algorithm | 48 |
| <i>Zhexue Wei and Daming Zhu</i> | |
| Simplification Algorithm for General Meshes | 53 |
| <i>Zufang Zheng</i> | |

Computational Statistics

| | |
|--|----|
| Information Based Model Selection Criterion for Binary Response Generalized Linear Mixed Models | 57 |
| <i>Dalei Yu, Kelvin K.W. Yau, and Chang Ding</i> | |
| Statistical Inference on Progressive Type-II Censored Data from Extreme-value Distribution | 62 |
| <i>Chang Ding and Dalei Yu</i> | |

Computational Engineering

| | |
|--|----|
| A Coordinated Dynamic Positioning Control Algorithm Based on Active Disturbance Rejection Control | 67 |
| <i>Mingyu Fu, Jianfang Jiao, and Lifei Hao</i> | |
| GPU Accelerated Wavelet Transform Profilometry | 72 |
| <i>Bo Zhou, Xiaomin Zhao, and Chunyuan Liu</i> | |
| A New Class of Cooperative Fuzzy Games on Choquet Integral | 77 |
| <i>Fengye Wang, Zhiyong Huang, and Youlin Shang</i> | |

Computational Economics and Finance

| | |
|---|----|
| The Optimal Portfolio Model Based on Mean-CVaR with Linear Weighted Sum Method | 82 |
| <i>Xing Yu, Yuling Tan, Liang Liu, and Wenfeng Huang</i> | |
| The Credit Evaluation System for Marketers of Online Group Buying | 85 |
| <i>Biao Dong, Wei Peng, and Yongsheng Zhou</i> | |
| Ordering Strategy for Retail Companies under the Option Contract of Supply | 89 |
| <i>Jingmin Zhang, Xinjian Du, Zhe Zhou, and Guizhi Wang</i> | |

| | |
|---|----|
| Strategies for Reducing Collaboration Disruption Risk between Logistics | 93 |
| <i>Jingmin Zhang, Beibei Yue, Yongshen Zhou, and Zhe Zhou</i> | |
| Volatility of Stock Yield Based on ARCH Model | 98 |
| <i>Jilin Zhang</i> | |

Scientific and Engineering Computing

| | |
|--|-----|
| Approximating the Minimum Distribution of Two Normally Distributed Variables Each with the Same Mean and Variance | 103 |
| <i>Zhengbing He and Ailing Huang</i> | |
| The KPI-based Interface Design of Hull Block Fabrication Process Optimization System | 108 |
| <i>Jinlou Zhao, Xinliang Xu, Yuting Zhao, and Zhenzhong Zhang</i> | |
| Integrated Model and Mapping Technology of BOM Multi-view for Hull Block Manufacture | 113 |
| <i>Yingzhao Wang and Mei Meng</i> | |

Intelligent Computing and Soft Computing

| | |
|--|-----|
| Parameters Selection and Noise Estimation of SVM Regression | 118 |
| <i>Jifu Nong</i> | |
| A Trade-off Pareto Solution Algorithm for Multi-objective Optimization | 123 |
| <i>Wang Jing, Zhou Yongsheng, Yang Haoxiong, and Zhang Hao</i> | |
| A Multivariate Wind Power Forecasting Model Based on LS-SVM | 127 |
| <i>Qiang Wang, Kin Keung Lai, Dongxiao Niu, and Qian Zhang</i> | |

Signal and Image Processing

| | |
|--|-----|
| Detecting Pedestrian in Clutter Scene Using Shape and Motion | 132 |
| <i>Wei-Gang Chen</i> | |
| A Fast NL Means De-noise Algorithm Based on Fuzzy Adaptive | 137 |
| <i>Yan Wei Wang</i> | |

Heuristic and Meta-Heuristic Methods

| | |
|--|-----|
| Application of a Novel Discrete Differential Evolution Algorithm to SVRP | 141 |
| <i>Lingjuan Hou, Zhijiang Hou, and Hong Zhou</i> | |
| Scheduling Parallel Machines with a Single Server: A Dedicated Case | 146 |
| <i>Xie Xie, Yongyue Zheng, and Yanping Li</i> | |
| The Chaotic Particle Swarm Optimization Based on Sub-Energy Tunneling | 150 |
| <i>Yang Yuemei</i> | |
| Multi-Crane Scheduling in Batch Annealing Process | 155 |
| <i>Xie Xie, Yongyue Zheng, and Yanping Li</i> | |

| | |
|--|-----|
| Connected Distribution Center Location Problem under Traffic Network in Emergency Management | 160 |
|--|-----|

Jianming Zhu, Jun Huang, Degang Liu, and Jiye Han

Economics and Finance Modeling

| | |
|---|-----|
| The Cross-disciplinary Psychological Distance Research: Especially from Business and Economics Perspectives | 164 |
|---|-----|

Jingyun Zhang, Xin He, Xinjian Du, Yongsheng Zhou, and Jingzhi Zhang

| | |
|--|-----|
| Design of the Variable Business Process Model Based on Message Computing | 169 |
|--|-----|

Qing Yao and Yuqing Sun

| | |
|---|-----|
| The Impact of Innovative Product Reference Price on the Distribution of Consumers' Willingness to Pay | 173 |
|---|-----|

Libin Chen, Zhen Huang, and Yongsheng Zhou

| | |
|--|-----|
| Non-Proportionality Analysis on Chinas Regional Economic Growth Efficiency | 176 |
|--|-----|

Bing Yan

| | |
|--|-----|
| BP Neural Network Model Based on the K-Means Clustering to Predict the Share Price | 181 |
|--|-----|

Jichao Zhang and Yueling Yang

| | |
|---|-----|
| The Predictions of Beijing Urban Distribution Amount Using Grey Model and Industrial Structure Analysis | 185 |
|---|-----|

Haoxiong Yang, Ying Guo, Yongsheng Zhou, and Mingke He

| | |
|---|-----|
| Formal Credit Rationing and Productivity in Chinese Agriculture | 189 |
|---|-----|

Jian-qiang Tian

| | |
|---|-----|
| The Life Insurance Actuarial Model of Paying m Times Annually with the Stochastic Interest Rate | 192 |
|---|-----|

Niannian Jia and Baocheng Ni

| | |
|--|-----|
| Incentive Mechanism about Carbon Emissions | 196 |
|--|-----|

Changcai Qin, Changcai Qin, and Shulin Liu

| | |
|--|-----|
| Extension of Almon Procedure to Estimate Industry-by-Industry Input-Output Table | 200 |
|--|-----|

Xuemei Jiang, Yujing Wang, and Xikang Chen

Linear and Nonlinear Programming

| | |
|---|-----|
| A New Primal-Dual Interior-Point Algorithm for Convex Quadratic Symmetric Cone Optimization Based on a Parametric Kernel Function | 204 |
|---|-----|

Guoqiang Wang and Fayan Wang

| | |
|--|-----|
| A Modified DY Conjugate Gradient Algorithm with Sufficient Descent | 209 |
|--|-----|

Ran Zhao and Baocong Jiao

| | |
|--|-----|
| A Modified Adaptive Conic Trust Region Algorithm | 213 |
|--|-----|

Wenxing Yuan and Baocong Jiao

| | |
|--|-----|
| On Simultaneously Nilpotent Fuzzy Matrices over Max-nilpotent Operations | 217 |
| <i>Wen-Wei Yang, Chia-Cheng Liu, Ching-Feng Wen, and Yung-Yih Lur</i> | |
| An Algorithm for Solving Linear Optimization Problems Subject to a System of Fuzzy Relational Inequalities with the Max-Einstein Composition | 221 |
| <i>Chia-Cheng Liu, Jiing-Yurn Lyu, Yan-Kuen Wu, and Sy-Ming Guu</i> | |
| A Feasible SQP Method Using Augmented Lagrangian Function for General Constrained Optimization | 226 |
| <i>Xiaowei Jiang, Yueteng Yang, and Yunlong Lu</i> | |
| An Inexact Quasi-Newton Algorithm Combined with Jacobian Restart Technique for Nonlinear Equation Systems | 230 |
| <i>Yang Yueteng, Zhang Qi, Lu Yunlong, and Jiang Xiaowei</i> | |
| A New Trust Region Method with Self-adaptive Update Rules for Unconstrained Optimization | 234 |
| <i>Yunlong Lu, Xiaowei Jiang, Wenyu Li, and Yueteng Yang</i> | |
| Nonconvex Programming and Nonsmooth Programming | |
| A Solution to the Strongly Correlated 0-1 Knapsack Problem by a Binary Branch and Bound Algorithm | 237 |
| <i>José Crispín Zavala-Díaz, Jorge A. Ruiz-Vanoye, Ocotlán Díaz-Parra, and José A. Hernández-Aguilar</i> | |
| Optimality of Globally Proper Efficient Solutions in Set-valued Optimization Involving Directional Derivatives | 242 |
| <i>Guolin Yu</i> | |
| On Some Properties of Parametric Quadratic Programs Pertaining to Continuous-time Quadratic Fractional Programming | 246 |
| <i>Ching-Feng Wen, Yung-Yih Lur, Wen-Hsien Ho, and Jyh-Horng Chou</i> | |
| Conditioning Convex and Nonconvex Functions in Optimization | 251 |
| <i>Roxin Zhang</i> | |
| Truncated Newton Method for Solving Minimax Problems | 256 |
| <i>Junxiang Li, Bo Yu, and Shuting Zhang</i> | |
| Henig Proper Efficiency for Set-valued Optimization and Vector Variational Inequality | 261 |
| <i>Guolin Yu</i> | |
| Managerial and Engineering Optimization | |
| Optimal Submission Problem in a Limit Order Book with VaR Constraints | 266 |
| <i>Na Song, Wai-Ki Ching, Tak-Kuen Siu, and Cedric Yiu</i> | |
| System Dynamics Model of Unconventional Emergency Resource Coordination System | 271 |
| <i>Xuping Wang, Qi Wang, and Mingtian Chen</i> | |

| | |
|---|-----|
| Inventory and Routing Policies in Vendor Managed Inventory System | 276 |
| <i>Feng Tao, Kin Keung Lai, and Tijun Fan</i> | |
| Reliability Estimate of Ships Life Based on Zero-failure Data | 280 |
| <i>Xiaoying Wang and Jihong Shen</i> | |
| Optimization Methods and Applications | |
| A New Lagrangian Multiplier Method | 283 |
| <i>Youlin Shang, Shengli Guo, and Muhua Liu</i> | |
| Primal and Dual Variables for New QP-free Method without a Penalty Function and a Filter | 289 |
| <i>Dingguo Pu and Youlin Shang</i> | |
| A New Parameter-Free Filled Function for Global Optimization | 294 |
| <i>Cuixia Xu, Aifen Feng, and Zhiyong Huang</i> | |
| Applications of a New Dual Approach in Global Optimization and Optimal Control Problem | 298 |
| <i>Dan Wu and Yong Xu</i> | |
| New Form of Lagrangian Multiplier Methods | 302 |
| <i>Aifen Feng, Cuixia Xu, and Dingguo Pu</i> | |
| Transformation Function Method for Unconstrained Global Optimization | 307 |
| <i>Zhiyong Huang, Youlin Shang, and Fengye Wang</i> | |
| Trust-region Filter Method with 3-piecewise Linear NCP Function | 311 |
| <i>Min Zhou, Youlin Shang, and Rufeng Wang</i> | |
| QP Representable Mahalanobis Ellipsoidal Learning Machine for Imbalanced Data Classification | 316 |
| <i>Zhenxia Xue, Juan Luo, and Wanli Liu</i> | |
| Mixed Generalized Laguerre-Legendre Spectral Method for Heat Transfer in an Infinite Strip | 320 |
| <i>Tianjun Wang and Yujian Jiao</i> | |
| A Nonparametric Trend Model for Henan's GDP | 325 |
| <i>Xinqian Wu, Wancai Yang, and Qianqian Mei</i> | |
| Multiplicity of Solutions for a Beam Equation on a Nonlinear Elastic Foundation | 329 |
| <i>Peiluan Li, Hecai Yuan, and Changjin Xu</i> | |
| Global Stability for an SIR Infectious Diseases Model with Dispersal | 333 |
| <i>Luju Liu, Weiyun Cai, and Shifei Wang</i> | |
| Influence of Z-permutable of Maximal Subgroups of Sylow Subgroups of Finite Groups | 338 |
| <i>Yong Xu, Dan Wu, and Xinjian Zhang</i> | |
| A Risk Model with Reservoir and Dividend Payments | 341 |
| <i>Chunwei Wang, Zheng Xia, and Bo Xiao</i> | |

| | |
|--|-----|
| Synchronous Perturbation at the Origin and Equator in a Septic Vector Field | 346 |
| <i>Yusen Wu, Peiluan Li, and Luju Liu</i> | |
| Applications of (G'/G)-expansion to Traveling Wave Solutions for Variant Boussinesq Equations | 350 |
| <i>Wei Li and Chunlei Ruan</i> | |
| Estimation and Inference of the Fuzzy Linear Regression Model with L Fuzzy Observations | 354 |
| <i>Silian Shen and Jianling Cui</i> | |
| A Quasi-filled Function Approach for Nonlinear Global Integer Optimization | 359 |
| <i>Weixiang Wang and Youlin Shang</i> | |
| Generalized Filled Function for Global Continuous Optimization Problems | 362 |
| <i>Niu Yanxia and Zhao Hengjun</i> | |
| Image Change Detection Based on the Minimum Mean Square Error | 367 |
| <i>Yunchen Pu, Wei Wang, and Qiongcheng Xu</i> | |
| D-Optimal Designs for the Multiresponse Trigonometric Regression Models on an Interval | 372 |
| <i>Xuanhao Zhang</i> | |
| Unsupervised Change Detection Based on Iterative Histogram Matching and Bayesian Decision of Thresholding | 375 |
| <i>Qiongcheng Xu, Wei Wang, Yunchen Pu, and Huamin Zhong</i> | |
| An Analysis of Some Dual Problems for Mathematical Programming Problems with Inequality and Equality Constraints | 380 |
| <i>Sanming Liu and Zhijie Wang</i> | |
| A Non-monotone Memory Gradient Method for Unconstrained Optimization | 385 |
| <i>Shenghua Gui and Hua Wang</i> | |
| A Modified SQP Method for Inequality Constrained Optimization | 390 |
| <i>Ke Su, Yingna Yuan, and Hui An</i> | |
| The Regularized Newton Method for Multiobjective Optimization | 394 |
| <i>Zhijie Wang and Sanming Liu</i> | |
| A Smoothing Active-Set Newton Method for Constrained Optimization | 399 |
| <i>Haodong Yu</i> | |
| Higher-order Optimality Conditions of Strict Local Minima in Optimization Problems | 404 |
| <i>Xuanwei Zhou</i> | |
| Restrictions of a-Wythoff's Game | 409 |
| <i>Wen An Liu, Haiyan Li, and Bei Li</i> | |
| A Filled Function with One Parameter Approach for Box Constrained Optimization Problem | 414 |
| <i>Yirong Yao, Liang Zeliang, and Liansheng Zhang</i> | |
| The (s, t)-Wythoff's Game under Misère Play Convention | 419 |
| <i>Wen An Liu, Yun Wang, and Nali Li</i> | |

| | |
|---|-----|
| A Modified Tunnelling Algorithm for Global Minimization with Box Constrained | 423 |
| <i>Zhonghao Li and Yongjian Yang</i> | |
| Multi-source Supply Chains with Disruption Risk | 428 |
| <i>Wang Qi-feng, Li Xiao-shen, and Huang Wei</i> | |
| An Approximate Algorithm for the Mixed Integer Nonlinear Programming | 433 |
| <i>Bo-shun Han and Yong-jian Yang</i> | |
| A Filled Function with One Parameter for Unconstrained Global Optimization | 438 |
| <i>Guowen Dai and Hongquan Cui</i> | |
| Computational Transportation Science | |
| A Mixed-Fractal Traffic Flow Model Whose Hurst Exponent Appears Crossover | 443 |
| <i>Li Li, Zhiheng Li, Yi Zhang, and Yudong Chen</i> | |
| Pedestrian Evacuation with the Obstacles Based on Cellular Automata | 448 |
| <i>Nuo Zhu, Bin Jia, and Chun-Fu Shao</i> | |
| Robust Alpha-Reliable Network Design Problem under Distribution-free Demand | 453 |
| <i>Hua Sun and Ziyou Gao</i> | |
| SUE Model Based on a Reliability-Admissible Reasonable Route Set | 458 |
| <i>Wenyi Zhang, Wei Guan, Ailing Huang, and Junfang Tian</i> | |
| CTM-based Propagation of Non-recurrent Congestion and Location of Variable Message Sign | 462 |
| <i>Aomuhan Zhang and Ziyou Gao</i> | |
| The Effect of the Uniform Credit Scheme on Modal-split and Pareto-improving Property | 466 |
| <i>Lijun Tian and Haijun Huang</i> | |
| Adaptability Evaluation for Road Network in Economic Circle Based on DEA and Gray Correlation Analysis | 471 |
| <i>Fujun Yi, Zhi Han, Chuan Tian, and Lu Ma</i> | |
| Design and Implementation of Bus Crew Scheduling System Using Integrated Case-based and Rule-based Reasoning | 475 |
| <i>Tao Liu, Jihui Ma, Wei Guan, Yue Song, and Pengwei Fu</i> | |
| Bus Arrival Time Prediction Based on the k-Nearest Neighbor Method | 480 |
| <i>Tao Liu, Jihui Ma, Wei Guan, Yue Song, and Hu Niu</i> | |
| Characteristics of Signalized T-shaped Intersection | 484 |
| <i>Hongqiang Fan, Bin Jia, Junfang Tian, and Xingang Li</i> | |
| Modeling Cyclist Violation Behavior at Signalized Intersection in China | 489 |
| <i>Mei Huan, Xiaobao Yang, and Bin Jia</i> | |
| User Equilibrium with Length Constrained Users | 494 |
| <i>Bojian Zhou and Xuhong Li</i> | |
| A Bi-dimensional Search-based Algorithm for Unconstrained Optimization Problems | 500 |
| <i>Yuping Fang, Hu Shao, Jian Zhao, and Ting Wu</i> | |

| | |
|--|-----|
| Equilibrium Trip Scheduling in Bottleneck Model with Stochastic Capacity | 504 |
| <i>Lingling Xiao and Haijun Huang</i> | |

| | |
|---|-----|
| Efficiency Loss of the Uniform Altruism Traffic Assignment under Road Pricing | 509 |
| <i>Xiao-Jun Yu</i> | |

| | |
|--|-----|
| Optimizing Traffic Flow on Highway with Three Consecutive On-ramps | 514 |
| <i>Lan Lin, Rui Jiang, Mao-Bin Hu, and Qing-Song Wu</i> | |

Computational Business Science

| | |
|--|-----|
| The Construction Of Shanghai Shipping Center Based On Industrial Clusters Analysis | 519 |
| <i>Kangjuan Lv and Wuming Li</i> | |

| | |
|---|-----|
| Risk Knowledge Integrated Management for Bridge and Tunnel Adjacent Program | 524 |
| <i>Shoukui He, Weiyi Chen, and Shuanglei Su</i> | |

| | |
|---|-----|
| The Social Welfare for the Separable Road Toll Function | 528 |
| <i>Chaofeng Shi</i> | |

| | |
|--|-----|
| DEA Evaluation and Analysis of Input and Output Efficiency about Regional R&D Resource | 531 |
| <i>Rongping Li and Huidong Cui</i> | |

| | |
|--|-----|
| Evaluation of Urban Innovation Environment in Hebei Province: An Empirical Analysis Based on the “Great Changes within Three Years” Policy | 535 |
| <i>Lina Tian, Shaohui Dong, and Lingxia Lu</i> | |

| | |
|--|-----|
| Statistical Monitoring Method for Science and Technology Advancement Reflecting Traditional Industry Upgrading | 540 |
| <i>Shaohui Dong, Lina Tian, and Rongping Li</i> | |

| | |
|--|-----|
| A New Approach of the Fixed Assets Management System | 545 |
| <i>Daosheng Wei and Maohua Yang</i> | |

| | |
|---|-----|
| An Empirical Study on Operational Efficiency of Chinese Listed Logistics Corporations | 549 |
| <i>Yanhong Qin and Qing Wu</i> | |

| | |
|--|-----|
| Individual Pension Account Fund Investing Strategy | 554 |
| <i>Jian Zhang</i> | |

Intelligent Computational Science

| | |
|--|-----|
| A Digital Video Watermarking Algorithm Based on DCT Domain | 557 |
| <i>Jianfei Li and Aina Sui</i> | |

| | |
|--|-----|
| An Embedded Real Time Remote Control System for Home Network | 561 |
| <i>Yepeng Ni, Jianping Chai, and Qianjun Shuai</i> | |

| | |
|---|-----|
| Research and Implementation of the Portable LED Stage Lighting Control System | 566 |
| <i>Hui Ren, Lifei Yang, Yanzhe Li, and Huiqin Wang</i> | |

| | |
|---|-----|
| The Crawler of Specific Resources Recognition Based on Multi-thread | 569 |
| <i>Ming Ke, Peng Zhou Zhang, and Guo Wei Chen</i> | |

| | |
|---|-----|
| Extending UPnP/DLNA Feature for Video Sharing Websites | 573 |
| <i>Zheng Chen, Haochen Huang, and Jinyao Yan</i> | |
| Data Mining Algorithms and Statistical Analysis for Sales Data Forecast | 577 |
| <i>Lin Wu, Jin Yao Yan, and Yuan Jing Fan</i> | |
| Analysis and Simulation of Wound-Rotor Doubly-Fed Induction Machine | 582 |
| <i>Lin Wu and JinYao Yan</i> | |
| F-Parallel Reducts in the Information View | 587 |
| <i>Lin Chen, Dayong Deng, and Chunping Wang</i> | |
| Design and Optimization of High Efficiency Parallel Video Coding System | 592 |
| <i>Dongmei Li, Shuai Peng, and Zhaohui Li</i> | |
| Research on Preprocessing Technique of Alert Aggregation | 597 |
| <i>Chengpo Mu and Bing Shuai</i> | |
| An Object-oriented Fine-grained RBAC Model | 601 |
| <i>Peng Yu, Zhengtao Jiang, and Wenlong Fu</i> | |
| Advanced Deep Web Crawler Based on Dom | 605 |
| <i>Weicheng Ma, Xiuxia Chen, and Wenqian Shang</i> | |
| JenaPro: A Distributed File Storage Engine for Jena | 610 |
| <i>Haibo Wang, Run Zhang, and Zhaohua Wang</i> | |
| Formation and Simulation on Chinese Lexical Networks | 614 |
| <i>Jinze Li, Jianyu Li, Zhanxin Yang, and Feng Xiao</i> | |
| A New Approach of Mechanics Simulation Based on Game Engine | 619 |
| <i>Wenfeng Hu, Zhouqing Qu, and Xiaoyuan Zhang</i> | |
| The Content Extraction Method of Webpage Information Based on Knowledge Base | 623 |
| <i>Guowei Chen and Pengzhou Zhang</i> | |
| CMMB Business Mode and Home Application Analysis | 627 |
| <i>Bo Xiao, Binbin Guo, Yepeng Ni, Jinyao Yan, and Jianping Chai</i> | |
| A Novel Image Authentication Based on Semi-fragile Watermarking | 631 |
| <i>Run Zhang, Haibo Wang, and Yongbin Wang</i> | |
| Applying User Interest on Item-based Recommender System | 635 |
| <i>Guohui Song, Shutao Sun, and Wen Fan</i> | |
| Research and Implementation of Predictive Modeling Based on Logistic Regression Modeling: About Possibility of Customer to Buy a Tablet PC | 639 |
| <i>Weina Zhang, Shuang Feng, and Hua Li</i> | |
| Methods of Measuring a Classroom's Indoor Audio Environmental Parameters | 643 |
| <i>Gong Wei and Liang Xiaowen</i> | |
| Realtime Planar Shape Deformation | 646 |
| <i>Xin Feng and Minyong Shi</i> | |

| | |
|---|-----|
| Securing RESTful WCF Services with XAuth and Service Authorization Manager - A Practical Way for User Authorization and Server Protection | 651 |
| <i>Gaoyuan Pan and Yongbin Wang</i> | |
| Low-Carbon Economy and Carbon Finance | |
| Household Energy Consumption in China: Forecasting with BVAR Model Up to 2015 | 654 |
| <i>Qing Zhu, Yujing Guo, Qing Zhu, and Genfu Feng</i> | |
| A Study on Relationships of Knowledge Spillover and Contract Stability and Profit-sharing within Enterprises of Cluster | 660 |
| <i>Juanli Lan, Lei Lei, and Ke Ding</i> | |
| Finance Expenditure Involved in Social Security at Provincial Level in China: Evidence from Efficiency Comparison | 665 |
| <i>Zhongmin Li, Jian Li, and Juanli Lan</i> | |
| Financial Development and Urban-rural Income Gap: Empirical Analysis Based on the Panel Data of Western Region of China | 669 |
| <i>Zhongmin Li, Chongqing Li, Jianmei Zhang, and Chunting Zhang</i> | |
| The Research of Commercial Bank's Green Credit in China Based on the Threshold Effect | 674 |
| <i>Zhongmin Li, Bo Sui, and Quanying Lu</i> | |
| Carbon Emissions Modeling of China Using Neural Network | 679 |
| <i>Peng Liu, Guoxing Zhang, Xutao Zhang, and Sujie Cheng</i> | |
| An Overview of Publications on Artificial Intelligence Research: A Quantitative Analysis on Recent Papers | 683 |
| <i>Saiyan Cheng and Bin Wang</i> | |
| Bridging Theories and Practices: An Evaluation Framework of Small and Medium Sized Enterprises' (SMEs) Decision-making in China | 687 |
| <i>Yanhui Zhao and Ye Yao</i> | |
| Inventory Coordinating Contract for the Two-location Supply Chain with Lateral Transshipment | 691 |
| <i>Guangtao Guo, Xiaohong Li, Da Yang, and Jiaying Yuan</i> | |
| IPO Underpricing Forecast Based on Self-adaptive Algorithm of BP Neural Network | 695 |
| <i>Zhaoyang Liu, Zhiyuan Li, and Lutong Zhang</i> | |
| Novel Pre-treatment for Inhomogeneous Dielectric Media in Finite Element Analysis | 699 |
| <i>Jin Tian and Li Gong</i> | |
| The Analysis of Resource Conflicts Based on Hawk and Dove Game in Multi-projects Management | 702 |
| <i>Suxian Zhang and Yunpeng He</i> | |
| The Origin and Connotation of Low Carbon City: A Conceptual Framework | 706 |
| <i>Jin Cheng, Gang Zeng, and Tianhong Fang</i> | |

| | |
|---|-----|
| Content and Path of Low-carbon City Construction Based on City Function Subarea | 710 |
|---|-----|

Yunwei Zhang, Gang Zeng, Jin Cheng, and Tianhong Fang

| | |
|--|-----|
| Analysis of Geographical Orientation of Foreign Trade in China Based on Culture Distance | 714 |
|--|-----|

Qin Kede, Xin Lin, and Xu Changle

| | |
|--|-----|
| Supply Chain Shortage Tolerance of Short Life Cycle Products Based on Reliability Theory | 718 |
|--|-----|

Guorong Chai and Sasa Ding

| | |
|---|-----|
| Investment in Low Carbon Emission under Different Carbon Tax Policies | 722 |
|---|-----|

Guoxing Zhang, Peng Liu, Sujie Cheng, and Xutao Zhang

| | |
|--|-----|
| Dynamic Game Analysis of Technology Innovation between Government and Enterprise | 726 |
|--|-----|

Shike Ren and Zhiping Yuan

Risk Management Theory, Methods and Applications

| | |
|--|-----|
| Supply Chain Contracts for Quality Investment Incentives | 733 |
|--|-----|

Fang Xu, Jian Li, and Fengmei Yang

| | |
|--|-----|
| The Preliminary Risk Research of Cascade Reservoirs System | 737 |
|--|-----|

Yin Yang, Qingwen Ren, Qiang Tong, and Yingbo Liu

| | |
|--|-----|
| A Conceptual Framework for Quantitative Estimation of Risk Estimation of Debris Flow | 742 |
|--|-----|

Jing Zhang, Shuyou Cao, Zhixue Guo, and Fengguang Yang

| | |
|--|-----|
| A Rapid Loss Index for Tropical Cyclone Disasters in China | 747 |
|--|-----|

Ying Li and Weihua Fang

| | |
|---|-----|
| Risk Control Research Framework of Supply Chain of Embeddedness Structure Based on Perspective of Risk Conduction | 751 |
|---|-----|

Jinjie Song, Lan Bai, and Chunhe Yang

| | |
|---|-----|
| A Comparison of Ensemble Methods in Financial Market Prediction | 755 |
|---|-----|

Cheng Cheng, Wei Xu, and Jiajia Wang

| | |
|--|-----|
| Corporate Financial Crisis Prediction Using SVM Models with Direct Search for Features Selection and Parameters Optimization | 760 |
|--|-----|

Ligang Zhou and Kin Keung Lai

| | |
|---|-----|
| Risk Management of Security Assessment Project based on AHP: A Case Study | 765 |
|---|-----|

Yuan Yuan, Jun Wu, and Yi Ma

Spatial Computational Sciences and Applications

| | |
|---|-----|
| A Reliability Verification Test Model Based on Hybrid Bayesian Prior Distribution | 770 |
|---|-----|

Feng Gao, Xiaoyun Zheng, and Chang Liu

| | |
|---|-----|
| A New Path Planning Method Based on Firefly Algorithm | 775 |
|---|-----|

Chang Liu, Zhongqiang Gao, and Weihua Zhao

| | |
|--|-----|
| Data Integration and Fusion of Multi-source Vector Map | 779 |
| <i>Gang Li, Yong Gao, and Min Zhang</i> | |
