

# **2012 IEEE 4th International Conference on Nonlinear Science and Complexity**

**(NSC 2012)**

**Budapest, Hungary  
6-11 August 2012**

**IEEE Catalog Number: CFP1261T-PRT  
ISBN: 978-1-4673-2702-2**

# Table of Contents

Welcome Message .....	7
Committees .....	8
General Information .....	9
Stabilization of Modulated Phases in the Presence of Long Range Interactions. .... <i>Simon Villain-Guillot</i>	11
Entropy Production of a Rayleigh Piston Separating Gases of Different Temperature. .... <i>Kevin Ehrhardt, Amelie Ferré, Simon Villain-Guillot, Alois Würger, Lionel Foret</i>	15
A Signal Processing Method: Detection of Lévy Flights in Chaotic Trajectories .....	19
<i>Francoise Briolle, Benjamin Ricaud, Xavier Leoncini</i>	
A Modified Mathematical Model for Malaria Transmission under Control Strategies .....	25
<i>Carla Pinto and Diana Rocha</i>	
A New Mathematical Model for Co-Infection of Malaria and HIV .....	33
<i>Carla Pinto and Diana Rocha</i>	
Identification of Turning and Milling Processes by Stochastic Langevin Equations .....	41
<i>Grzegorz Litak and Rafal Rusinek</i>	
Gender Classification Using Bayesian Classifier with Local Binary Patch Features .....	45
<i>Huang-Chia Shih, Che-Yen Chuang, Chung-Lin Huang and Chi-Hua Lin</i>	
The NSCD Method to Analyze the Dynamics of Ancient Masonry Churches under Seismic Loadings .....	51
<i>Giovanni Lancioni, Stefano Lenci and Quintilio Piattoni</i>	
A Damping Device Based on Bistable Springs .....	57
<i>Enrico Babilio</i>	
Impact Dynamics of a Constrained Mass-Spring-Damper System .....	63
<i>Albert C. J. Luo and Richard George</i>	
Through the Looking-Glass of the Grazing Bifurcation .....	69
<i>Sergey Kryzhevich, J. Ing and M. Wiercigroch</i>	
Nonlinear Mathematical Models of Costas Loop for General Waveform of Input Signal .....	75
<i>Nikolay Kuznetsov, Gennady Leonov, S. M. Seledzhi, Pekka Neittaanmaki, Marat Yuldashev and Renat Yuldashev</i>	
Bifurcation Approach to Analysis of Chaotic Dynamics in Hamiltonian and Conservative Systems .....	81
<i>Nikolai Magnitskii</i>	
Privatization and Government Preference in a Public Stackelberg Leader Duopoly .....	87
<i>Fernanda A. Ferreira and Flavio Ferreira</i>	

Environmental Taxes in a Public Stackelberg Leader Duopoly . . . . .	91
<i>Fernanda A. Ferreira and Flávio Ferreira</i>	
Optimality Conditions for Equilibrium Problems . . . . .	95
<i>Liana Cioban</i>	
Per-Unit Royalty and Fixed-Fee Licensing in a Differentiated Stackelberg Model . . . . .	99
<i>Flávio Ferreira, Oana Ruxandra Bode</i>	
A Generalized Projective Synchronization of Two Different Gyroscopes . . . . .	103
<i>Fuhong Min, Albert C. J. Luo</i>	
Drilling Systems Failures and Hidden Oscillations . . . . .	109
<i>Maria Kiseleva, Nikolay Kuznetsov, Gennady Leonov, Pekka Neittaanmäki</i>	
Nonlinear Oscillations of an Elastic Inverted Pendulum . . . . .	113
<i>Grzegorz Litak, Mattia Coccolo, Michael I. Friswell, Shaikh F. Ali, Sondipon Adhikari, Arthur W. Lees and Onur Bilgen</i>	
Chaotic Solutions of a Differential Equation with Piecewise Linearity . . . . .	117
<i>Chunqing Lu</i>	
Chaos and Transient Chaos in a Simple Oscillator with Coulomb Friction Law . . . . .	121
<i>Gábor Liczkó and Gábor Csernák</i>	
A Simple Model for Pedestrian Induced Lateral Oscillations of Bridges . . . . .	125
<i>Stefano Lenci</i>	
On Controllability for Fractional Differential Inclusion . . . . .	127
<i>Aurelian Cernea</i>	
Entropy Analysis of the Genetic Sequence of Six Species . . . . .	131
<i>Jose A. Tenreiro Machado</i>	
Positivity of Fractional Discrete Systems with Sequential h-differences . . . . .	137
<i>Ewa Girejko and Dorota Mozyrska</i>	
Time-Fractional Boundary Optimal Control of Thermal Stresses . . . . .	141
<i>Necati Özdemir, Yuriy Povstenko, Derya Avci and Beyza B. Iskender</i>	
Tuning of Fractional Order PID $\mu$ Controller with Response Surface Methodology . . . . .	145
<i>Beyza Billur Iskender, Necati Özdemir and Aslan Deniz Karaoglan</i>	
Fractional Hamiltonian Analysis of Systems with Linear Velocities within Hilfer Derivatives . . . . .	151
<i>Dumitru Baleanu, Om Agrawal</i>	
Conservation Laws for a Family of Benjamin-Bona-Mahony-Burgers Equations . . . . .	155
<i>Maria S. Bruzón and Maria Luz Gandarias</i>	
Selected Nonlinear Effects in Hot Laser Plasmas Generated by High Intensity Lasers . . . . .	161
<i>Ervin Rácz</i>	
Influence of Embedded Material at Edges on Natural Frequencies of Rotating Annular Disk . . . . .	167
<i>Hamid R. Hamidzadeh and Ehsan Sarfaraz</i>	
Control of Chaotic Responses of a Laminated Composite Beam Subjected to External Excitation . . . . .	177
<i>Liming Dai and Lin Sun</i>	

Analytical Vibrations of a Rotating Blade with Geometric Nonlinearity . . . . .	183
<i>Fengxia Wang and Albert C. J. Luo</i>	
Nonlinear Self-Adjointness and Conservation Laws for a Third Order Equation. . . . .	189
<i>Maria Luz Gandarias and Maria Santos Bruzon</i>	
Saddle-Node Bifurcations in Burgers Equation as Shock Wave Occurrence . . . . .	195
<i>Jia-Zhong Zhang, Xiao-Long Rend and Si-Ming Duan, Yan Liu</i>	
Stable and Unstable Periodic Solutions to the Mathieu-Duffing Oscillator . . . . .	201
<i>Albert C. J. Luo and Dennis O'Connor</i>	
Complete Bifurcation Analysis of Pendulum Vibration Absorber and Rare Attractors. . . . .	205
<i>Eugen Kremer, Mikhail Zakrzhevsky and Alexey Klovov</i>	
Chaos Formation and Reduction in Robust Fixed Point Transformations Based Adaptive Control . . . . .	211
<i>Krisztián Kósi, Szabolcs Hajdu, János F. Bitó, József K. Tar</i>	
Complex Nonlinear Effects and Rare Attractors in Bilinear Valve Systems Under Forced Excitations . . . . .	217
<i>E. P. Shilvan, M. V. Zakrzhevsky</i>	
Rare Periodic and Chaotic Attractors and Typical Bifurcation Groups in Driven Double-well and Many-well Potential Oscillatory Systems. . . . .	223
<i>M. Zakrzhevsky</i>	
Rare Attractors in Typical Nonlinear Discrete Dynamical Models . . . . .	229
<i>V. Yevstignejev, A. Klovov, R. Smirnova and I. Schukin</i>	
The Software Package Dependency Networks of some Linux Distributions . . . . .	235
<i>Árpád Horváth</i>	
A Framework for Generating and Complexity Assessment of Assembly Supply Chains. . . . .	239
<i>Vladimir Modrak and David Marton</i>	
Authors' Index . . . . .	244
