# 2012 International Conference on Information Management, Innovation Management and Industrial Engineering

# (ICIII 2012)

## Sanya, China
## 20 – 21 October 2012

## Volume 1
## Pages 1-546

**IEEE Catalog Number:** CFP1220F-PRT
**ISBN:** 978-1-4673-1932-4

# 2012 International Conference on Information Management, Innovation Management and Industrial Engineering

# ICIII 2012

## Table of Contents

### Volume -1

**Preface**.....XI

**Organization Committee**.....XIII

**2012 International Conference on Information Management, Innovation Management and Industrial Engineering**

Orthonormal wavelet-based contourlet transform coding using an EBCOT-like algorithm.....1

*Zhenghua Shu, Guodong Liu, Qing Xie, Zhong Ren, Lvming Zeng, and Lixin Gan*

Empirical research on interaction between electronic commerce adoption and effect evaluation in China SMEs.....5

*Feng Ying and Lin Fengli*

A study of the current application status in Chinese E-Government outsourcing.....9

*Tang Ning and He Youshi*

Design and simulation of the vibration monitoring system based on wireless sensor network.....12

*He Guanglin and Xu Hongyu*

Recommended cultural and business practices for project based software organization of pakistan for supporting restructuring of functional organization for implementing agile based development framework in software projects.....16

*Ghazia Zaineb, Bassam Shaikh, and Ali Ahsan*

New relevance feedback method based on dynamic weight updating.....21

*Wen Wei and Wen Li*

Value networks and business models of innovative enterprises in modern economy.....25

*Yunmei Wang and Chunlin Si*

Assessing the impact of empowerment on individual innovative behavior: an empirical test.....29

*Sanqing Wu and Enfeng Le*

The importance analysis based on interpretative structural modeling method and analytic network process method.....34

*Shanyang Liu, Jianguo Liu, Deyong Zhao, and Jinhua Wen*

Research on the topology, community and robustness of the correlated networks of listed companies, funds and their main holders in China.....40

*Yuanyuan Ma and Lingxuan Li*

Evaluation and empirical study on regional low-carbon economic development —take Shandong province as an example.....47

*Lei Chen*

Study on the citizenization of new generation of migrant workers based on the joint reform of household register, land and public service.....52

*Li Juan and Zhang Liyan*

Interactive design and realization of mobile learning resources through 3G mobile phones.....56

*Guoxin Miao*

China's TD-SCDMA industry—analysis from the network perspective.....60

*Xuefei Lu*

Comparative study on weather derivatives and conventional financial derivatives.....63

*Teng Lei*

Strategy for service innovation of hotel based on customer experience.....66

*Gan Yong and Li Derong*

Innovation status of multinational corporations in Zhejiang province and countermeasures analysis.....70

*Weijin Du, Yuqing Liu, and Wei Yang*

Research on personalized tour service system.....74

*Yanyu Tao and Daopin Cheng*

The impact of social networks within service teams on customer satisfaction —results of hierarchical linear modeling analysis.....78

*Li Zhichao*

Double trust-agent role of technology intermediary in enterprise technical innovation.....81

*Huiwen Zou*

Research on the implementation strategies of systematic operations in industrial development of the government-enterprise cooperation high-tech industrial park
—taking China electronic Xi'an industrial park for example.....85
*Junfeng Ma, Weili Xia, and Xingyan Li*

Gender as a moderator of the relationship between organizational citizenship behaviors and team effectiveness based on Chinese state-owned enterprise.....88
*Bing Wang and Rentao Miao*

Embeddedness in the acquisition of loans for small and medium-sized enterprises
—from the perspective of Hangzhou municipality.....92
*Yuan Ying and Yin Xiaoqin*

Marketing dynamic tracking and competitive intelligence collecting based on mobile communication technology.....95
*Zhen Zhu, Jingyan Wang, Rengen Huang, and Yanmin Zhang*

Research on integration model and application system of enterprise information resources.....100
*Jingyan Wang, Rengen Huang, Guojian He, and Kaiwei Yu*

Research on science competitiveness of university based on SCI Database: a case study of north China electric power university.....105
*Huiping Yu*

Problems and countermeasures of the financial governance of listed companies in China.....109
*Liu Chunli*

Model of Information Technology Adoption in SMEs Batik
—case Study SMEs batik solo and pekalongan.....113
*Aries Susanty, Ferry Jie, and Frisky Helvipriyanto*

Pressure situation of mineral resources for economic development in the west coast urban agglomeration around Bohai sea .....119
*Dianru Wang and Ana Yin*

The optimization of college student organization based on function.....123
*Xiaomei He*

Research on the innovation system of IOT industry of Heilongjiang province based on the LAFIS method.....127
*Wang Wei, Zhang Kun, and Han Yun*

Green logistics and sustainable development.....131
*Zhang Guirong, Gao Qing, Wei Bo, and Li Dehua*

The green packaging management for the logistics enterprises.....134
*Gao Qing and Zhang Guirong*

Do R&D spillovers substitute or complement R&D investment？ .....138
*Ping Huang*
The study on the development potential of FDI in Jilin province.....142
*Gao He and Wang Yan*
The researched on water project cost accounting based on activity-based costing.....146
*Suli Hao and Pengying Guo*
A case study of technology innovation approach: the construction of technology forecasting system.....150
*Wang Xingwang and Tang Yanjie*
Evaluation model based on fuzzy comprehensive evaluation method of the post-evaluation of real estate projects.....154
*Chengjun Wang and Jinchun Li*
Service mode of third party electronic commerce platform.....158
*Han Yun*
Quantitative analysis on disciplines comparative advantage of social sciences in China.....162
*Hongjiang Yue, Jiuling Xiao, and Jiankang Wang*
Design of monitoring management system of platform screen doors for urban transit.....166
*Wei Qi, Yu Xin, and Liu Yangxue*
Research on luanping undertaking industrial transfer of Beijing and Tianjin.....170
*Meng Yang, Yankun Zhang, and Hao Jin*
The analysis on lead time hedging on order decision-making in supply chain.....174
*Wang Jiangtao, Yu Jianjun, and Zhang Ge*
The interaction between foreign direct investment and trade in China’s agro-food sector.....179
*Yonggang Wang*
Dissipative structure, accounting rent-seeking and information system model construction.....184
*Dingquan Yang*
Research on the Architecture of Enterprise NPD information environment evaluation based on process analyzing.....188
*Wei Hongqin*
Theoretical analysis of the effect of management control method on enterprise innovation model selection.....192
*Chen Ming, Cui Bibo, and Man Haiyan*
The evaluation of scientific journals in Chinese scientific research based on extenics theory.....195
*Weili Chen and Ruhao Chen*

The analysis of liquid hydrogen filling system’s risk filtering, ranking and management.....199
*Ma Xinhui, Luan Xiao, Yang Yi, and Sun Ke*
A study on honey export competitiveness of Hubei province.....203
*Zhang Zhen, Li Qin*
System innovation on protection to financial consumer’s property rights.....207
*Jinqiang He*
A study on the distribution system of pharmaceuticals in the Korea.....211
*Su Shuai*
Study on evaluation and optimization for thermal power enterprise coal suppliers.....215
*Xinning Li, Liang Yan, Xiongbiao Xie, and Zhanwu Wang*
Research on enterprise knowledge management strategy from the perspective of knowledge-based innovation.....219
*Wei Song and Yuping Chu*
Optimal ordering and replacement policies of a deteriorating system.....223
*Ling Li and Guoqing Cheng*
One improved method of choose knowledge management system.....227
*Qingsong Sun*
Decision on firms’ explorative and exploitative innovation strategy based on multi-agents simulation method.....232
*Ruan Guoxiang*
A study on research status and development trend of cost-effectiveness analysis.....236
*Liman Zhao, Meijian Liang, and Yutong Liu*
Improved fuzzy critical chain buffer setting method.....240
*Ma Guofeng and Jiang Yongbin*
Co-authorship network analysis in improvisation theory research.....244
*Gao Pengbin, Wu Weiwei, and Yu Bo*
Research on reform and innovation of peasant's specialized cooperative organization in China —based on the analysis of system economics.....249
*Jinqiang He*
An efficient cube structure for stream data analysis.....252
*Lizheng Jiang and Jiantao Zhao*
Cloud model-based artificial bee colony algorithm’s application in the logistics location problem.....256
*He Dengxu and Jia Ruimin*

Inclusive growth and rural tourism market development.....260
*Zhou Gefen*
Research on innovation management of Chinese trust registration system.....264
*Zhong Wang and Jinqiang He*
Research on innovation of Chinese transfer system of trust beneficial right.....267
*Zhong Wang*
Evolutionary game analysis of government' regulates behavior on the group conflict.....270
*Guoqiang Xiong, Yanju Hou, and Apin Shi*
Study on the development strategy of industry cluster of Hengshui.....274
*Hongzhi Gao, Jing Liu, and Hao Jin*
Portfolio value-at-risk estimating on markov regime switching copula-autoregressive conditional jump intensity-threshold generalized autoregressive conditional heteroscedasticity model.....278
*Chi Xie and Lin Yao*
The design and implementation of virtual tour system based on OSG for the Nanxi river ancient villege.....282
*Pan Xiuqiang*
Probe into implementing strategies of knowledge management in higher vocational colleges.....286
*Song Li and Wang Zihong*
The business intelligence-based integrated information management system in the road transport research.....289
*Meihong Cao and Xiangjiu Shen*
A preliminary study of perceived critical mass effect on accepting internet products.....292
*Zuo Tinghui and Wang Mingming*
Market efficiency and forecastability of domestic and overseas RMB forward exchange rates.....297
*Yang Lingling and Sun Haixia*
Research on the quality control of highway - a construction project.....302
*Lv Hong, Shi Wenli, and Zhang Longhan*
Technological innovation mechanisms for local enterprises —under the technology control of TNCs.....306
*Mao Jiaqiang and Zhang Yixuan*
An integrated perspective of cross-border merger and acquisition strategy research.....310
*Huang Jing and Mou Yupeng*

The structural variables of multi-layer networks and early warning mechanism for industrial cluster risks.....313

*Congcong Wang and Rongda Chen*

The research of human resource management in enterprise based on the view of innovation.....318

*Feng An and Bing Wang*

Event study on the hi-tech listed companies reaction to pre-tax deduction of enterprise R&D expenses.....322

*Xuefeng He, Bing Zeng, and Shuangjiang Han*

Study on maturity level transition mechanism of knowledge management.....325

*Xiao Jiuling, Wang Jiankang, and Yue Hongjiang*

Design of online examination system based on B/S on fire postal tuitio.....329

*Yang Chenying*

Innovative strategies on enhancing competitiveness of China security equipment manufacturing enterprises.....332

*Kang Canhua , Tang Liangxiong, and Yan Xi*

Research on hereditary mechanism of engineering based on the biology central dogma.....336

*Fan Yuncui and Hao Gang*

Research on development bottlenecks of China's low-carbon buildings based on the method of DEMATEL.....340

*Fan Yuncui and Hao Gang*

Evaluation of technological innovation performance in China and comparison with foreign countries.....344

*Ana Yin and Dianru Wang*

Technological diffusion and limitation in geographic space —evidence from Yangtze River delta.....348

*Shanshan Liu, Liang Deng, and Junying Ye*

Research on the influence of social security system acting on residential consumption expenditure in rural areas.....352

*Du Ying and Luo Xinxing*

Management Strategy of Information resource sharing in aquatic products deep processing virtual industrial cluster based on trust mechanism.....357

*Du Peng*

Research on the early warning mechanism of information for Chinese enterprises to cope with US anti-dumping.....361

*Feng Li, Lu Zhao and Ling Wu*

A conintegration and comparison research on RMB onshore and offshore forward exchange rates.....365

*Yang Lingling*

Consuming more electricity equals earning more money?
—the research of relationship between electricity and income in rural areas.....370

*Luo Yonghua*

The difference between Chinese and American culture and advice for cross-cultural management
—based on hofstede's four cultural dimensions.....374

*Yongkang Li and Yan Xiong*

Risk analysis of China stock market based on VAR model.....378

*Xinjie Ma and Yongsheng Yang*

The relationship between exchange rate and stock prices
—an empirical study since the exchange rate system reform of China.....382

*Yongsheng Yang and Xinjie Ma*

Research on higher vocational college teachers' performance appraisal indicator system.....385

*Weizhu Yang and Yu He*

The small business innovation research program at the U.S. department of defense:
status, and implications for China.....389

*Li Yang and Wang HaiJiao*

A real-time identification system of unstructured P2P multicast video streaming.....394

*Chaobin Liu, Qiang Guo and Jie He*

A study on Chinese dynamic management control system.....399

*Shuibin Gu*

The simulation of regional water use behavior based on system dynamics:
a case study in Jiangsu province.....403

*Lingling Zhang, Weirong Wang, and Zongzhi Wang*

Research on supply chain optimal control based on RFID integrated system.....407

*Yanghua Gao, Zhihua Zhang, Huanwen Wang, and Hailiang Lu*

Innovation performance of university co-authorship network.....410

*Li Li and Gao Xuezhu*

Temperature prediction with FBG sensor based on relevance vector machine.....414

*Fang Liu, Lei Yu, Yan Li, and Quan Qi*

Understanding the niche strategies adopted by social commerce websites.....418

*Xiaoling Sun, Yuxiang Zhao, and Qinghua Zhu*

Comprehensive evaluation of staff training education level based on the fuzzy hierarchical analysis....422
*Sun Wei and Zhou Ya*
Marketing strategy research of the power enterprise based on 4C theory....426
*Xu Yang, Weijia Shi, and Zhaohui Pei*
Research on evaluation index system of drawing abandon based on AHP method....431
*Zhong Jinyuan, Hou Kaihu, Shi Jingdan, and Zhu Xiaoli*
Modern information technology makes the class teaching alive....435
*Ya Wang and Junli Luo*
Application of fuzzy analytical hierarchy process in innovation education quality evaluation of higher education institution....438
*Yan Hezhan*
Research on confirmed warehouse business model of small household appliances industry....442
*Quan Yuan, Rong Wang, and Lin Chen*
The application of innovation SWOT theory to strategic-making for Chinese international contractors....446
*Bingnan Liu and Shengmao Chen*
The impact of symbolic brand on loyalty....450
*Zhou Xuechun and Wang Changzheng*
The performance of dividend policy—based on financing constraints and agency cost trade-off....455
*Yu Liang and Liang Tongying*
Analysis of the mechanism of enterprise open innovation based on technology lifecycle....460
*Renjun Zhang and Hejiang Geng*
Object identifier and cross reference management in multilevel integrated data platforms for power dispatch....465
*Ming Jing, Qiang Ma, Ti Guan, and Chenghui Liang*
Research on the construction of supply chain collaboration system based on information sharing....469
*Xiaoli Wang*
A study of 3D clothing display system based on design rules....473
*Xuefang Zhang and Renqun Huang*
Path selection of government information service innovation in China....478
*Wang Haijiao and Li Yang*
Dynamic analysis of supplier and retailer coordination based on asymmetric rationality....483
*Xiaohui Hu and Fuchang Li*

The fault diagnosis of transformer based on BP neural network.....487
*Jianli Yu, Xiaojuan Niu, Yang Han, and Shuai Yu*
Study on emergency early warning system for university students.....490
*Fuchang Li*
Critical affecting factors of IT project management.....494
*Shuangqin Liu, Bo Wu, and Qingjun Meng*
How to measure the influence of regional congestion to urban traffic networks .....498
*Bing Su, Xiao Cui, Hao Ji, and Xiaoyi Lan*
The impact of brand community on brand loyalty: a theoretical framework.....502
*Bianfang Wang*
A novel based-node level security strategy in wireless sensor network.....507
*Zheng Yuefeng, Chen Zhuoran, Han Jiayu, and Li Zheng*
An empirical study on risk data quality management.....511
*Lizheng Jiang and Jiantao Zhao*
Empirical analysis on factors affecting R&D spillovers .....515
*Ping Huang*
Research on integral development of equipment manufacturing industry and productive service industry in Liaoning province.....519
*Xiaoye Zhou, Yurong Gao, Lijun Zhang, and Hongxue Zhang*
An improved video object segmentation algorithm based on background reconstruction.....523
*Lingyun Wang, Zhaohui Li, Dongmei Li, and Tongyun Wu*
Research on semantic environment-based annotation techniques for knowledge semantic.....527
*Cai Yingfang*
Research on security telecommunication of diskless parallel computing system.....531
*Dong Yanhua, Li Xiaojia, and Li Shuang*
Theoretical model analysis of relationship marketing.....534
*Cheng Yanfei and Zhang Yafeng*
Design on control test of information systems in commercial bank IPO audit.....538
*Zhang Li and Zhang Jianping*
**Author index**.....543

# 2012 International Conference on Information Management, Innovation Management and Industrial Engineering

# (ICIII 2012)

## Sanya, China
## 20 – 21 October 2012

## Volume 2
## Pages 1-552

**IEEE Catalog Number:** CFP1220F-PRT
**ISBN:** 978-1-4673-1932-4

# 2012 International Conference on Information Management, Innovation Management and Industrial Engineering

# ICIII 2012

## Table of Contents

### Volume -2

**Preface**.....XI
**Organization Committee**.....XIII

**2012 International Conference on Information Management, Innovation Management and Industrial Engineering**

The research of Wuhan commercial housing vacancy rate……1
*Lu Hongguang and Lv Junna*

Financial fraudulence identification: based on the data mining technology……5
*Ning Yuxin and Wei Rong*

Application of Monte-Carlo method in quantitative risk analysis for research project……...9
*Tao Jing, Zhang Gang, Huang Zaichao, and Huang Hui*

The research on SMEs' trade cooperation capacity with Russia in Heilongjiang province……..14
*Ying Zhang*

The study on China's export structure of trade in goods……...18
*Wang Yan and Gao He*

Application research on multiple line center of AFC system for Beijing metro network…….22
*Ding Shukui*

Positive analysis on the relationship between fixed assets investment and business income of the telecommunication……...26
*Hualing Lu and Zhuxuanzi Deng*

A hybrid strategy for the quadratic assignment problem…….....31
*Congying Lv*

Design of the detecting device of braking system based on wireless communication……..35
*Wanqiang Qi, Xiumin Yu, Chunbin Gao, and Zhenting Chen*
Structural design of dynamic credit evaluation system oriented multi-service principal……..38
*Jing Huang and Wensheng Yang*
Simulation of socio-economic environment system evolution based on different government preference: a case study of Taihu lake basin……..44
*Liu Xiaofeng and Cheng Shuping*
Information evaluation model of equipment support organization structure based on entropy theory……49
*Lian Chao, Ma Lin, and Cao Zhisheng*
Control rights allocation in real estate joint development…….55
*Han Yanfeng and Tao Li*
Android transplantation and analysis based on loongson……..59
*Yan Zhi and Jian Xu*
The fuzzy comprehensive evaluation of financial ecological environment of Kunming……..62
*Yongsheng Yang, Weijie Xu, and Peng Jing*
An integrated model of virtual communities continuous participation…….66
*Yaqin Li and Yanli Chang*
Correlation analysis of CSI 300, S&P 500 index and the Hang Seng index…….70
*Yongxing Wu*
The simulation and forecast of new type of rural social endowment insurance's target rate of substitution in Yunnan province……...74
*Yongxing Wu*
The study of dynamic balance of new rural endowment insurance fund……..78
*Yongxing Wu*
Valuation methods of asset-type cyclical industry: a case study of steel industry……83
*Xiaodan Chen and Guan Jiang*
Research on the methods of precision equipment maintenance based on CBM……...88
*Lining Dong, Yongjun Ruan, Zhanwei Liu, and Bo Yin*
Research on enterprise's innovation management to protection of commercial secrets……...92
*Jinqiang He*
Study of traceability and anti-counterfeiting of imported wines……...95
*Yin Jie, Li Jun, Chen Xin, Yang Zijiang, and Xu Wei*

The evaluation model of college classroom teaching quality based on matter-element and extension set theories……98

*Xiaofeng Li and Li Wang*

Research on a VSM-based E-homework anti-plagiarism system……....102

*Zhou Xiaoping, Ma Xiaoxuan, and Shi Honghong*

Economic and risk evaluation on large hydropower station delivery engineering project in southern China……106

*Shan Liu*

Research on the "excitation-diffusion-blocking" mechanism of vulnerability in value network……110

*Bu Huabai and Bu Shizhen*

A resultful method to diagnose construction project implementation status……...114

*Kai Qi and Xueliang Hou*

Strategy of software service outsourcing alliance based on innovation management……118

*Zhou Zhijun and Weiyi Qu*

Study on partner selection method for construction supply chain using tabu-search algorithm…….122

*Ding Xiang and Li Qian*

Private enterprises path selection in the process of reform management……126

*Shunhu Zhang and Mingque Ye*

Impacts of corporate diversification strategy on the quantity of cash holdings……..130

*Chi Xie and Sai Wang*

Transactional leadership and employee creativity: the mediation role of career satisfaction…….133

*Li Gao, Rujie Qu, Kan Shi, and Jiafang Lu*

The analysis on coordination mechanism of plateau lakes protection and development based on the theory of externality…….137

*Cao Honghua*

Evaluation system of organization quality culture development based on fuzzy similarity……141

*Ying Bai*

Performance evaluation of rural land consolidation and analysis of spacial variation based on 'PSR' framework and 'TOPSIS' model……..146

*Luo Wenbin and Zhang Tong*

Web service composition market decision model based on grey situation decision-making……..150

*Zhong Wu and Guihua Nie*

Preconcerted wormhole routing algorithm for mesh structure based on the network on chip……154

*Wang Hao and Wu Ling*

Library management structure model under information resources sharing……...159
*Wang Xianyan and Pemg Yafei*
Stackelberg game analysis of knowledge transfer between supply chain partners…….163
*Lu Cai, Yanfei Feng, and Yongcai Yan*
The impact of information sharing on reverse logistics performance based on canonical correlation analysis…….…….167
*Lixia Su, Zhaohua Wang, and Li Su*
Trade in intermediates, technology spillovers, and wage inequality in Chinese manufacturing…….171
*Meici Yu*
Reestimating the capital stock of China……...175
*Xu Jie and Duan Wanchun*
The design and research on the combined contract of the distributed supply chain……180
*Tiezhu Zhang and Jian Xie*
Modeling and analysis of emergency material mobilization management chain……184
*Li Ziyao*
Logistics consulting services model and its three-dimensional analysis…….188
*Xinhai Wang, Yumei Bao, and Hongxia Zhao*
Interactive relationship between regional human capital and industrial structure upgrading in Liaoning province…….……..191
*Liang Tao and Yang Jiaoping*
Research of using finite automaton in the modeling of lexical analyzer…….194
*Haili Luo*
Study on enterprise comprehensive performance assessment mechanism……..197
*Jie Li*
Optimization study of earned value method in construction project management……..201
*Xiao Ma and Bin Yang*
Research on website e-service quality of scenic area: the perspective of customer satisfaction and behavior intention ……..205
*Junliang Lu, Xinli Wang, and Zhanjing Xu*
Research on small micro enterprise financing risk evaluation system……209
*Xu Xinyang and He Guangwen*
Understand Guanxi practice in Chinese organizations through maslow's hierarchy of needs theory….214
*Bo Huang and Hua Xu*

An improved particle swarm optimization for multi-objective discrete optimization…….219

*Kaibing Yang*

Application of WPF to MIS development……...223

*Liu Xianhong*

Investigating the relationship between MBA education and professional managers' career satisfaction—mediating function of psychological capital…….……..227

*Liang Guo, Li Xiyuan, and Chen Qin*

Moral hazard analysis of supply chain under the model of principal-agent with information asymmetry……232

*Lixian Xing, Wei Han, and Zihan Wang*

Fine cost management for real estate enterprises……235

*Xiaoyi Xu, Ying Peng, Yushui Chen, and Jianjun Gu*

Real-time monitoring system of water resources based on google maps……239

*Li Juan, Xie Yong, Zhang Yilai*

The mechanism of how transformational leadership impacts on subordinates' voice behavior: a test of basic assumption of affective events theory…….……..243

*Jianyi Ge, Xiaoming Tian, and Qiang Fu*

Research and application of hierarchy petri net-based workflow in PDM systems……247

*Xiao Boping, Wang Ting, Ma Lin, and Wang Qian*

Exploration of low-carbon transport policies……..252

*Lin Shuai and Wei Xunkun*

A study on incentive mechanism of the large-scale construction performance audit based on the computational experiment…….……..256

*Xiaofei Chen, Shuping Cheng, and Dacan Qiu*

Auditor industry specialization disclosure……...261

*Guiliang Liu, Jingjing Li, and Sipei Xiao*

An interval portfolio selection model with liquidity constraints…….266

*Meng Wu*

The management innovation of personal income tax system by comparation between China and Canada……270

*Ying Shi and Geng Xiaozhong*

Study on some problems of low carbon accounting……274

*Jia Xiuyan*

The application of the assembly data management model in manufacturing companies……278
*He Hua*
A path selection decision-making model at the application layer for multipath transmission……281
*Lei Weimin and Yang Yang*
Compound graphs based multi-attribute resource management in complex networks……...285
*Xian Peng, Huang Fu, and Xueshan Luo*
The analysis on audit report types of listed company annual report……289
*Jia Xiuyan*
Chemical supply chain petri net modelling and risk warning……..293
*Zhang Huiyan, and Zhang Ying*
Aircraft spares consumption prediction based on combined forecasting method……...297
*Guo Feng, Liu Chenyu, Zhou Bin, and Wang Yuhai*
Spares demand combined forecasting based on grey model and exponential smoothing……...300
*Guo Feng, Zhou Bin, Liu Chenyu, and Wang Hengxin*
System analysis of towing aircrafts for taxiing out…….303
*Zhao Wenzhi*
The technology transfer efficiency and the allocation of the property right:
from the viewpoint of the incomplete contract…….……...307
*Liu Qinghai and Shi Bensan*
A new authentication scheme for wireless ad hoc network…….312
*Zhu Xingliang and Xu Shilian*
Research on the development of tourism electronic commerce In China
— A case study of website Qunar and Uzai……316
*Hongyun Kuang and Xuehui Zeng*
The tax policy research to promote the development of modern logistics industry in
Chang -Ji- Tu pilot zone……..320
*Jia Xiuyan*
Based on the semiotic studies of green building design……..324
*Cao Chunxiao and Liu Yanpeng*
Economic evaluation of green buildings: a neural network approach…….327
*Hengquan Zhang and Xuhui Shi*
The impact of uncertainty avoidance and organizational culture on management innovation……331
*Xiaojuan Wen and Chi Huang*

USO- a new slope one algorithm based on modified user similarity……..335
*Mingtao Sun, Hui Zhang, Shiyu Song, and Kejia Wu*
Building competency model for foreign-related talents based on SEM……..341
*Shen Baoguo*
The influence on SMEs entrepreneurial process within a cluster business network……...345
*Yanping Zhao and Cuihua Ding*
Study on cross-listed company's financial problems……...349
*Jin Yushi*
Study on the relationship between the identification of intellectual capital and enterprise's performance……..353
*Wang Haijun and Zhang Xiao*
Based on the translog cost function for empirical analysis of the scope economies of state-owned commercial banks in China…….357
*Zhou Jiong and Wang Lei*
Research on the hospital's competitiveness evaluation based on factor analysis……361
*Liqing Li and Qiao Liu*
The study on evaluating competitiveness of colleges and universities in Jiangxi province by the cluster analysis method……..364
*Honglang Li*
Data mining based on the situation of population migration in Sichuan…….368
*Huang Chengcheng, Zhang Ping, and Wang Can*
Research on system innovation of rural financial ecology construction…….372
*Jinqiang He*
Study on the correlations of Chinese railway passenger network based on complex network theory……..376
*Gu Xuejing and Li Dewei*
A comparative study on the competitiveness of China key IT enterprises clusters…….380
*Liu Chunxiang and Ruan Hansu*
The design and realization of network instructional platform based on ajax……..384
*Shi Qiuxiang, Wang Liying, Li Jianying, Han Jia, Jiao Weiting, and Zhang Xinyuan*
Influential factors and potential calculation of Zhejiang export based on extended gravity model of trade……..388
*Liu Chunxiang and Fan Mengge*

The influences of customer citizenship behaviors on brand reputation……...393

*Yang Hansong, Wang Keyi, Yu Dan and Liu Rong*

Analysis and design of the real estate property right registration information system for whole life cycle……...397

*Jing Liu and Songzheng Zhao*

Performance evaluation on network structure production……...402

*Ci Chen, Liandi Zhou, and Ailing Wang*

The security selecting and market timing ability of security investment fund: the empirical analysis based on H-M model……406

*Li Cuiling and Tian Cunzhi*

Empirical analysis of corporate governance based on Shenzhen GEM listed companies —based on entropy weight method……410

*Li Xiaoling and Tian Ye*

The empirical analysis on Chinese service sector's innovative development and economic growth……414

*Congjun Cheng*

Benefits and challenges of constructing China-ASEAN foreign exchange markets……...418

*Wenli Ding and Lan Sun*

Workforce agility metric in EIS……...422

*Yanhong Li*

Supplier selection and evaluation model based on the adaptive genetic algorithm and BP neural network……426

*Yuan Lizhe, Rong Gaohua, and Gao Chunsheng*

Comprehensive evaluation on regional innovation performance in Yellow River delta counties based on cross-efficiency DEA model……430

*Keyu Wang and Ning Li*

The analysis on the current management situation and problems of Poyang Lake regional library culture integration system knowledge base……434

*Yurong Yu, Hua Xiao, Qin Pan, and Weichen Hao*

Research on construction of agricultural disaster information monitoring system based on meta-search engine……...438

*Yubao Li, Hua Xiao, Yiyun Huang, and Weichen Hao*

The research on regional library cultural information service alliance under the promoting of the national strategies —take the case of Poyang Lake city circle……...442

*Yubao Li, Hua Xiao, Sui Luo, and Yurong Yu*

The study on elements and connection of public library and public cultural service system……..446
*Lei Li and Hua Xiao*
Strengthen budget management, promote university's asset allocation……..450
*Xiaolu Jiang, Mingzhi Xu, and Dan Zhang*
Discussion on issues related to the explanation of contract for construction project……..454
*Zhang Ying and Liu Hua*
Research on the key technique of real-time aerial and marine state 3D visualization……458
*He Yan and Xiaolin Wang*
Multidimensional geomagnetic matching fusion algorithm based on projection pursuit……463
*Xu Jie and Guo Qing*
Constructing 3D position tracking system with twin-wiimote structure……466
*Zhen Duo and Wenhui Zhang*
OTD-NET based simulation evaluation of (R, Q) inventory policies for complex distribution systems ……..470
*Cong Li and Dianjun Fang*
Asian real option: new approach to project economic valuation……475
*Shahrokhshahi Zahra and Raei Reza*
An input-output analysis on logistics industry in Henan province……..480
*Aihua Li and Weitao Li*
The theoretical research of relationship of organization isomorphic and innovation performance of cluster enterprises based on knowledge search view……485
*Hui Zhang*
Research on industrial symbiosis mode logistics industrial cluster in Shenyang economic zone……..489
*Xiaoye Zhou and Hongxue Zhang*
A Novel Interesting Recommendation System based on Tags Mining……...493
*Zhao Xiaogang, Ma Zhiqiang, and Ding Ling*
Towards matching food metadata in emergency decision-making using ontology and mapreduce…...498
*Li Zhu and Wei Hu*
Current status and path selection of Ningbo manufacturing industrial transfer……..502
*Liu Chunxiang and Ruan Hansu*
Study on supply chain operations under carbon emission regulatory policies……506
*Wei Zeng, Chunhui Wang, and Hongtao Zhou*

Scenic spot pricing model research based on the revenue management theory……..510

*Zhiping Duan, Shulian Yang, and Ranran Li*

Public 2-hospital talent-loss risk evaluation research based on entropy weigh method……..514

*Cui Hongling, Wu Bo, and Qin Shanyong*

Research on risk evaluation of knowledge sharing among partners in technology alliance based on TOPSIS…….……519

*Dan Li*

Improvement of TCP reno congestion control based on RTT…….523

*Lei Niu and Dongdong Liu*

Design of security transmission system for the Internet……..526

*Li Xiaonan, Dai Zibin, Wu Zaihe, and Luo Jingshu*

Empirical research on influencing factors of collaborative innovation effectiveness of university research team……..530

*Wencai Yang, Qi Xi, Xiuying Tang, Lichang Chen, and Ru Shang*

Using fuzzy comprehensive evaluation method evaluate the economical efficiency of construction contract……...534

*Liu Hua and Zheng Chenchen*

Performance evaluation of ERP implementation based on uncertainty measurement theory…….539

*Guanghui Chen and Yanzhi Liu*

A demonstrational analysis on equity incentive of small and medium enterprise board listed companies and corporate growth…….543

*Xiaobo Huang, Yanyi Wu, and Xiaoying Gao*

# 2012 International Conference on Information Management, Innovation Management and Industrial Engineering

# (ICIII 2012)

## Sanya, China
## 20 – 21 October 2012

## Volume 3
## Pages 1-551

**IEEE Catalog Number:** CFP1220F-PRT
**ISBN:** 978-1-4673-1932-4

# 2012 International Conference on Information Management, Innovation Management and Industrial Engineering

# ICIII 2012

## Table of Contents

### Volume -3

**Preface**.....XI
**Organization Committee**.....XIII

**2012 International Conference on Information Management, Innovation Management and Industrial Engineering**

Pricing options in a mixed fractional double exponential jump-diffusion model with stochastic volatility and interest rates.....1

*Jin Hua, Liu Shancun, and Song Dianyu*

Analysis on the effects of research and development investment and human capital on technology spillovers of FDI.....5

*Yang Yonghua*

China's technology progress and international trade: granger causality test on China's data.....9

*Yang Yonghua*

Aided design on fair-faced concrete formwork with ANSYS software.....13

*Liu Yuan and Han Xiaodan*

The necessity and cooperation progress analysis of airports in Beijing-Tianjin-Hebei region.....18

*Wang Shuqiang, Li Suhong, and Chen Xiaoli*

Model building for technical control tier under CD—TTE mode.....22

*Manchen Xiong*

Research on dynamical optimization approach of personalized E-Catalog.....26

*Xu Shangying and Nie Guihua*

Comprehensive evaluation of green construction based on AHP and grey theory.....30

*Saijing Zhu*

Mechanism research on influencing factors of collaborative innovation effectiveness of Yunnan university research team .....34

*Wencai Yang, Qian Du, Xiuying Tang, Ru Shang, and Jianwen Ruan*

Establishment and application of evaluation index system for integrated transport.....38

*Wang Xiaofang and Ou Guoli*

Research on the reverse logistics system of waste household appliances on the basis of appliances to the countryside.....42

*Ye Pinghao*

A study on Chinese art market-driven mechanism —based on the perspective of system dynamics.....46

*Shan Xia and Tsing Yang*

Towards applying dimensions to ontology.....50

*Ying Jiang, Lipeng Wan, Tong Wang, Wei Zhao, Rui Gao,*

*Junwen Zhai, Gengrui Lin, and Yuxi Wu*

Intelligent fuzzy- PID temperature controller design of drying system.....54

*Manchen Xiong and Linglong Wang*

The application of autoregressive conditional intensity model to Shanghai stock exchange.....58

*Xiaoxiao Zhang, Qizong Wu, and Feng Liu*

The research and implement of power communication alarm management system based on MVC and ext JS.....62

*Ni Junhong, Zhang Li, and Yang Yujuan*

The predator-prey system with $\sqrt{X}$ functional response with random perturbation.....65

*Yanqiu Li and Jizhang Fan*

Inner correlation and mutual interaction between industrulization and informationization in China.....69

*Keyu Wang and Ning Li*

The layout characteristics of China’s nonferrous metals industry and implication of industry structural adjustment innovation policy.....73

*Lin Sun and Canhua Kang*

Research on the non-cooperative game among the enterprises in the environment of regional brand.....77

*Zhenlai You and Ying Ni*

Job scheduling problem of aviation maintenance workshop based on improved particle swarm optimization algorithm.....82
*Yan Hui, Wu Qizong, Wang Zhongqi, and Zhang Jingjing*
Logistics information monitoring by means of RFID sensor tag.....86
*Lihguong Jang, Sungfei Yang, Taishen Ho, Liyen Lai, and Chinchung Nien*
The impact of privacy concern on users' usage intention of mobile payment.....90
*Yijun Huang and Wenwen Liu*
Discussing on securities investment fund hedging risks and countermeasures .....94
*Liu Yongxin*
Dividend smoothing and firm value: evidence from Chinese firms.....98
*Fang Hu and Xiude Chen*
Research on training mode of college entrepreneurship education.....102
*Lizhi Deng and Jianfeng Liu*
An e-commerce UDDI model in P2P network environment.....106
*Jue Jin*
Evaluation of land in urban demolition based on real options approach.....109
*Ying Wang and Cuncun Fang*
Risk recognition research in public 2-hospital based on the loss-talent.....113
*Cui Hongling and Qin Shanyong*
Supply risk assessment model using hybrid weighting method.....118
*Zhang Guoquan, Luo Xia, and Sun Chengzhi*
Research of the effect of intellectual capital on performance in Chinese high-tech enterprise.....122
*Jieqiong Zeng and Ting Zhang*
An optimal logistics vehicle routing algorithm based on NDS.....126
*Weiying Wu and Chuanli Kang*
Design of a high speed SoC platform for cipher processing.....130
*Ji Xiangjun, Xu Jinfu, Dai Zibin, and Li Wei*
Supply chain profit analysis in uncertainties of supply and demand.....134
*Juhong Gao and Lanlan Hu*
The research of military logistics cost accounting.....138
*Xirui Yang and Qiyi Zhang*

A study on typical architecture layers of the digital library alliance based on the enterprise architecture.....142

*Fengtao Tu, Chenxia Yang, Hua Xiao, and Dehui Yang*

A study on the system architecture of public library alliance based on the enterprise architecture.....146

*Qin Huang, Dehui Yang, and Hua Xiao*

Internal control and earnings persistence.....150

*Zhiping Zhang and Guangxin Fu*

A novel method of analyzing quality defects due to human errors in engine assembly line.....154

*Yang Le, Su Qiang, and Shen Liangfa*

The evaluating on social insurance fund safety based on entropy-weighted fuzzy comprehensive evaluation model.....158

*Ying Guo and Liquan Men*

The effect of diversity on innovation of technology in Chinese cities .....162

*Lei Xia and Cuicui Liu*

An empirical study of securities Investment fund holdings behaviors impacting on the stability of stock market.....166

*Wang Ren and Tian Cunzhi*

Study on noise trading in Chinese stock market based on BAPM model.....170

*Li Wei and Wang Susheng*

On Application of association rule-based data mining technology to scientific projects declaration .....173

*Jing Xu*

Study of safety material culture construction and management.....177

*Li Naiwen and Liu Dingying*

The study of the supply chain risk control system based on knowledge management.....181

*Liang Ye, Lihui Dong, and Guofang Song*

Innovation development trends of modern management systems of educational organizations.....187

*Aleksandrov Anatoly A., Neusipin Konstantin A., Proletarsky Andrey V., and Ke Fang*

The sensitivity analysis and application of economy evaluation of power plant auxiliary equipment investment project.....190

*Chen Xiaoxia*

When leader-member exchange promotes employee creativity.....194

*Rujie Qu, Li Gao, and Kan Shi*

Analysis of operating mechanism of harmonious management in enterprises.....198
*Jie Wang and Nianfang Ji*

The relationship of technical progress and dominant industry turnover.....202
*Guangbin Zhang*

A study on typical models and basic elements of the regional public library union construction based on cases of the public library alliance in China.....206
*Chenxia Yang, Fengtao Tu, Hua Xiao, and Dehui Yang*

Application of analytical hierarchy process and fuzzy synthetic evaluation in benefit assessment about high-level talents cultivation in Hebei province.....210
*Jianying Song, Suqiang Ma, Suying Gao, Yajie Wang, and Yuesheng Cui*

Analysis on operation risk factors of urban rail transit based on fuzzy analytical hierarchy process .....214
*Gu Xuejing, Li Dewei, Zhang Lan, and Ma Lingling*

Research on semiconductor supply chain coordinated planning of multiple wafer fabrication plants based on knowledge evolution algorithm.....219
*Huimin Ma, Shuang Zhang, Mengjun Xu, and Lina Huang*

A hybrid ant colony algorithm for solving container loading.....224
*Jiamin Liu, Xiaorui Zhang, Carsten Maple, and Yong Yue*

Effects of start-up firm's social network on knowledge transfer: an empirical study.....228
*Liu Hongli, Wang Qian, and Mei Yahao*

Research on the credit rating problem and countermeasures of C2C E-commerce .....234
*Liyan Pang and Jiaxin Zhang*

A system of job log analyzing for hadoop.....238
*Zhao Xiaogang, Ding Ling, Ma Zhiqiang, and Liu Xu*

Analysis of influencing factors of IPO underpricing based on rough set and support vector machine.....244
*Yao Kaohua and Zhou Liwen*

Social support, psychological need satisfaction and work-family balance: an empirical research on IT knowledge employees.....249
*Jiangqiu Wu and Dan Yan*

Cross sentence oriented complicated Chinese grammar proofreading method and practice.....254
*Ying Jiang, Zicheng Zhou, Lipeng Wan, Mengzhen Li, Wei Zhao, Ming Jing, and Xiaofei Liu*

XML rule based detection of false friends of Chinese and English.....259
*Ying Jiang, Yingxiao Shen, Lipeng Wan, Chenghui Wang, Qiang Zhang, Zhuangjia Fang, Jie Zeng, and Tong Wang*

An empirical study on the structure of enterprise tacit knowledge.....263
*Liu Yang*

The quantitative research of foreign direct investment and economic growth
— taking the case of Shandong province.....267
*Guangxin Fu and Shuzhen Yan*

The application of state-space model in outstanding claims reserve.....271
*Liyan Pang and Siqi He*

Study on the price elasticity problem of China's coal supply and demand.....275
*Shulian Yang, Qiuhong Liu, and Zhiping Duan*

The impact of digital technology on the value chain structure of publishing industry.....278
*Chuzhi Qiu and Jinsheng Zhang*

The innovation management of practical teaching for undergraduate in college
—by investigation on Hebei university of technology.....281
*Lv Rongjie, Ma Ling, and Wang Yingchao*

Using modern design methods to improve metallurgical machinery students' innovation
ability and the research of its application.....285
*Wang Zhaohui and Gao Quanjie*

Impact of knowledge spillovers on knowledge-based entrepreneurship.....289
*Xiuying Chen, Sheng Liu, and Feng Tao*

Lifecycle management framework of information systems security architecture..... 292
*Bai Yun, Zhang Fengming, Che Wanfang, Niu Cong, Li Na, and Zhang Xu*

Research on the selection and evaluation of B2C logistics and distribution model.....296
*Ye Pinghao*

The construction of Chinese grammar proofreading XML rule library.....300
*Ying Jiang, Xiaohong Zeng, Weihao Lin, Shaoying Lin, Jingfeng Hu,*
*Minghua Liu, Xiaohui Wu, Tao Lin, and Fangjie Wang*

A software project management simulation model based on team climate factors analysis.....304
*Nianfang Ji and Jie Wang*

A new synchronous test platform for CAS logic.....309
*Yunfeng Lu and Jun Ai*

The impact of major commitment on study engagement
—an empirical test of the Chinese undergraduates..... 314
*Changyong Xu, Lijun He, and Zhao Zhao*

Sequential betweenness centrality for distributed network monitoring configuration.....318

*Peng Ou, Jian Hu, Yong Yi, and Yijing Liu*

Study on the open innovation paradigm construction of Chinese enterprises
—a perspective from the knowledge management.....322

*Wang Ying and Qu Li*

Research on correlation of innovation ability and sustainable development in three
gorges reservoir area.....327

*Shao Lei*

Customer relationship management (CRM) in insurance companies.....332

*Cui Wenjing and Cui Wenyi*

Analysis on the influencing factors of Chinese mining enterprise low-carbon
transition development based on ISM.....336

*Chunhua Xin, Fangzhe Xin, and Chunhua Li*

Audit quality, audit fees and gender.....340

*Wei Li and Dan Shi*

The empirical study on fraud and governance characteristics in Chinese listed private companies.....344

*Yongdong Wang and Liejin Lu*

Game analysis of real estate enterprise to implement green marketing.....348

*Lu Zhang, Ying Peng, Yushui Chen, and Jianjun Gu*

Based on the balanced scorecard: performance evaluation of knowledge team.....352

*Shujuan Luo, Huaqi Chai, and Liang Liu*

The benefits assessment of standards:
—a cross case analysis in manufacturing industries-indonesia.....356

*Arfan Bakhtiar*

A model for recommend system acceptance of E-commerce based on TAM.....361

*Tian Zheng*

The monitoring and auditing method of windows file manipulations.....366

*Ma Lin, Chen Houwu, and Liu Fuqiang*

Application research of EPC Network in reverse logistics.....369

*Zhu Xingliang and Xu Shilian*

Study on risk management of agent projects based on WSR methodology.....373

*Boping Xiao, Linxia Lv, Lin Ma, and Ting Wang*

The effects of brand experience on customer brand loyalty
—an empirical study of dairy products in the western Liaoning province .....377
*Lu Han and Baoku Li*

The game analysis and countermeasures study of rent-seeking behavior of
engineering supervisor.....381
*Rongjie Zhu, Ying Peng,Yushui Chen, and Jianjun Gu*

Domestic and foreign experience on undertaking industrial transfer.....385
*Zhe Song*

Choosing project evaluation of the key science and technology project based on
group chain fuzzy comprehensive method.....389
*Tian Yun, Pei Daming, Bu Fan, and Fan Hongli*

Research on personalized information management system.....393
*Haitao Yang, Hongli Zhao, and Yanhua Cao*

The game study of engineering bidding mode and incentive mechanism.....397
*Rongjie Zhu, Ying Peng,Yang Sun, and Jianjun Gu*

Visualization system design and implementation to accident risk caused by domino effect.....400
*Zhang Xinmei and Chen Chen*

The VRLA battery internal resistance on-line measuring device.....404
*Zhao Zhendong, Li Zihan, and Huang Nan*

Empirical analysis on the impact factors of China tourism foreign exchange income.....407
*Lei Xia and Lili Qing*

Design and realization of practical teaching management system on NET-based platform.....411
*Weijian Ye*

The implementation of information systems—under the background of mass customization.....415
*Rongjie Lv, Zhao Zhao, Yunfeng Wang, and Xiaochun Chen*

Study on value-based management based on overall budget in overseas petroleum projects…….....419
*Liu Liwang and Liu Jinlan*

E-commerce tax collection and administration in China.....424
*Yarong Zeng, Xuejiao Guo, Yanni Yang, and Huijuan Huang*

Research on land property rights protection in China’s urbanization.....428
*Jingyu Jin and Meiying Jin*

Study on emergency supply chain system planning under uncertainty .....432
*Xinhua He*

Importance evaluation of construction collapse influencing factors based on grey correlation analysis....436

*Yang Gaosheng and Li Xiuyun*

Based on trade-related analysis of the airport logistics demand predict: a case study of Wenzhou airport....442

*Lihui Dong, Guofang Song, and Liang Ye*

GNRFCM: a new fuzzy clustering algorithm and its application....446

*Xinqing Geng and Fengmei Tao*

Study on evolution of 3E system in different economic growth speed —taking Shandong as an example....449

*Xinmin Wang and Jinfeng Sun*

Research for schedule optimization of highway construction project....453

*Hong Lv, Wenli Shi, and Longhan Zhang*

Insurance fraud identification research based on fuzzy support vector machine with dual membership....457

*Han Tao, Liu Zhixin, and Song Xiaodong*

Research on the function and the application flow of SPC system....461

*Chen Xiangdong and Wang Yang*

Optimization of financial risk management model—application of VaR model....464

*Wu Leixin*

Comparison study of email classifications for healthcare organizations....468

*Weiwen Yang and Linchi Kwok*

Query expansion model based on interest ontology....474

*Huacheng Chen, Xuehui Du, Xingyuan Chen, and Chuntao Xia*

Pairwise matching of 3D fragments....479

*Qunhui Li, Mingquan Zhou, and Guohua Geng*

Research on the impact of TAM, sense of identity and flow experience on the use of micro-blogs ....483

*Dayong Wang*

Improving the automatic email responding system for computer manufacturers via machine learning....487

*Weiwen Yang and Linchi Kwok*

Imperfect preventive maintenance model with two modes of failure.... 492

*Tianbin Liu, Jianshe Kang, Yuanyuan Li, and Guangke Luo*

Linking environmental uncertainty, customer orientation and organizational innovation in nonprofit organizations ..... 496

*Yangcheng Hu*

A mixed blind algorithm of watermarking based on transform domain ..... 500

*Lu Yingchun, Wu Wentie, and Song Yucong*

Study of an underground-based cyclic timetable impact on arrangement for bus schedule reliability ..... 503

*Chu Tingting*

Fuzzy factor analysis on multi-source information of post- disaster management and its application on hospital emergency measurements evaluation ..... 507

*Shi Fuqian*

Empirical research about taxpayers' behavior influence on individual income tax levying and collection ..... 511

*Guihe Wei and Chuhui Liao*

The impact research on four object model-based synergy innovation to education ..... 515

*Jianying Shi*

Prediction of the traffic noise around newly constructed highways ..... 519

*Jisheng Pu and Lang Wei*

Study on the incentive system of independent directors ..... 523

*Lin Song, Dan Zhang, and Yuan Li*

Technology modularization on knowledge innovation based on information industry ..... 527

*Min Zhang*

The game analysis of promoting the development of science and technology service industry for local governments ..... 531

*Peng Liu and Xiaopei Xing*

Study on sports consumption decisions and model design in Shaanxi province ..... 536

*Xinmin Liu and Xun Ma*

The empirical research on association between insurance awareness and service satisfaction related factors ..... 540

*Lingyun Yu*

An empirical study of the executive emolument in listed company —a case study of listed companies in Yunnan ..... 543

*Zhe Guichang and Yao Yan*

**Author index** ..... 547
