

2012 IEEE Symposium on Visual Languages and Human-Centric Computing

(VL/HCC 2012)

**Innsbruck, Austria
30 September – 4 October 2012**

**IEEE Catalog Number: CFP12060-PRT
ISBN: 978-1-4673-0852-6**

Table of Contents

Foreword	ix
Conference Committees	xi
Sponsors	xiv

Keynotes

Computational Thinking and Creative Practice	3
<i>Alan Blackwell</i>	
Some Thoughts on Executable Visual Languages and their Interfaces	4
<i>David Harel</i>	

Spreadsheets and Tables

Planted-model evaluation of algorithms for identifying differences between spreadsheets	7
<i>Anna Harutyunyan, Glencora Borradaile, Christopher Chambers and Christopher Scalfidi</i>	
Design and Evaluation of a Literate Spreadsheet	15
<i>Matthew Dinmore</i>	
Extension and Implementation of ClassSheet Models	19
<i>Jácome Cunha, João Paulo Fernandes, Jorge Mendes and João Saraiva</i>	
Automating Data Entry for End Users	23
<i>Allen Cypher</i>	

Design and Notation

The Shape of Empty Space: Human-Centred Cognitive Foundations in Computing for Spatial Design	33
<i>Mehul Bhatt, Carl Schultz and Minqian Huang</i>	
Using the “Physics” of Notations to Analyze a Visual Representation of Business Decision Modeling	41
<i>John C. Thomas, Judah Diament, Jacquelyn Martino and Rachel K. E. Bellamy</i>	
A Combination of Stroke Manipulation and Recognition Strategies to Support User Interface Construction and Interactive Behavior Definition through Sketching	45
<i>Vinícius C. V. B. Segura and Simone D. J. Barbosa</i>	
On the Impact of Layout Quality to Understanding UML Diagrams: Diagram Type and Expertise	49
<i>Harald Störrle</i>	

End Users: Mobile Devices and Programming

From Barriers to Learning in the Idea Garden: An Empirical Study	59
<i>Jill Cao, Irwin Kwan, Rachel White, Scott D. Fleming, Margaret Burnett and Christopher Scaffidi</i>	
wProjects: Data-centric Web Development for Female Nonprogrammers	67
<i>Nicole L. Harshbarger and Mary Beth Rosson</i>	
An Exploratory Study of Blind Software Developers	71
<i>Sean Mealin and Emerson Murphy-Hill</i>	
End-user programmers on the loose: A study of programming on the phone for the phone	75
<i>Balaji Athreya, Faezeh Bahmani, Alex Diede and Christopher Scaffidi</i>	
A Prototype for EUD in Touch-based Mobile Devices	83
<i>José Danado and Fabio Paternò</i>	

Symbols and Notation

Informing the Design of Situated Glyphs for a Care Facility	89
<i>Jo Vermeulen, Fahim Kawsar, Adalberto L. Simeone, Gerd Kortuem, Kris Luyten and Karin Coninx</i>	
Symbol Choice and Memory of Visual Models	97
<i>Kathrin Figl</i>	
Combining cognitive, semiotic and discourse analysis to explore the power of notations in visual programming	101
<i>Juliana J. Ferreira, Clarisse S. de Souza, Luciana C. de Castro Salgado, Cleyton Slaviero, Carla F. Leitão and Fábio de F. Moreira</i>	

Code Understanding

GUI-Driven Code Tracing	111
<i>André L. Santos</i>	
Visualizing Traceability Links between Source Code and Documentation	119
<i>Xiaofan Chen, John Hosking and John Grundy</i>	
Automatically locating relevant programming help online	127
<i>Oleksii Kononenko, David Dietrich, Rahul Sharma and Reid Holmes</i>	

Domain-Specific Languages

Blocks Languages for Creating Tangible Artifacts	137
<i>Franklyn Turbak, Smaranda Sandu, Olivia Kotsopoulos, Emily Erdman, Erin Davis and Karishma Chadha</i>	
Simplifying Filter/Flow Graphs by Subgraph Substitution	145
<i>Florian Haag, Steffen Lohmann and Thomas Ertl</i>	
Development of platform-independent and multi-user choreographies based on ontology combination and mapping	149
<i>Emanuel Silva, Nuno Silva, Hugo Paredes, Paulo Martins, Benjamim Fonseca and Leonel Morgado</i>	

Supporting Requirements Modelling in the Malay language using Essential Use Cases . . .	153
<i>Massila Kamalrudin, John Grundy and John Hosking</i>	

New Approaches to Program Specification

Runtime Semantics of Use Case Stories	159
<i>Michał Śmiątek, Norbert Jarzebowski and Wiktor Nowakowski</i>	
Investigating the Role of Purposeful Goals on Novices' Engagement in a Programming Game	163
<i>Michael J. Lee and Andrew J. Ko</i>	
Evaluating a Natural Language Interface for Behavioral Programming	167
<i>Michal Gordon and David Harel</i>	
Providing End-Users with a Visual Editor to Make their Electronic Documents Active . .	171
<i>Federico Cabitza, Iade Gesso and Carla Simone</i>	
Augmenting Flow Diagrams Created by End-user Programs	175
<i>Jonathan Lung and Steve Easterbrook</i>	
Usable Results from the Field of API Usability: A Systematic Mapping and Further Analysis	179
<i>Chris Burns, Jennifer Ferreira, Theodore D. Hellmann and Frank Maurer</i>	

Social Computing

Rapid Serial Visual Presentation in Dynamic Graph Visualization	185
<i>Fabian Beck, Michael Burch, Corinna Vehlou, Stephan Diehl and Daniel Weiskopf</i>	
KikuNavi: Real-time Pedestrian Navigation based on Social Networking Service and Col- lective Intelligence	193
<i>Hikaru Nagasaka, Makoto Okabe and Rikio Onai</i>	
Visualizing Dynamic Trajectories in Social Networks	197
<i>Hui Liu, Peter Eades and Seok-Hee Hong</i>	
CoSolve: A System for Engaging Users in Computer-Supported Collaborative Problem Solving	205
<i>Sandra B. Fan, Tyler Robison and Steven L. Tanimoto</i>	

Graduate Consortium

Towards User-Centric Concrete Model Transformation	215
<i>Iman Avazpour</i>	
Using Natural Language Descriptions of Algorithms in the Early Stage of Programming .	217
<i>Edgar Cambranes</i>	
The Idea Garden: from a Qualitative Evaluation toward a Quantitative Evaluation and Generalization	219
<i>Jill Cao</i>	
Involving Older Adults in the Design and Development of Free/Open Source Software . .	221
<i>Jennifer L. Davidson</i>	
On the Auto-Completion of Hand Drawn Symbols	223
<i>Mattia De Rosa</i>	

What Software Engineering Can Do for Computational Science and Engineering	225
<i>Dustin Heaton</i>	
Social Debugging Game for Learning & Engagement	227
<i>Michael J. Lee</i>	
Really Programming in Public	229
<i>Tom Lieber</i>	
Model-Driven Spreadsheets in a Multi-User Environment	231
<i>Jorge Mendes</i>	
Visual End-User Security	233
<i>Elizabeth Stobert and Robert Biddle</i>	

Poster and Demos

CONVERt: A Framework for Complex Model Visualisation and Transformation	237
<i>Iman Avazpour and John Grundy</i>	
Visual languages conversion from Saber models to Modelica multi-system simulation environments	239
<i>Felice Colarusso, Gennaro Costagliola, Fiorenzo D’Errico, Nicola Perillo and Fabrizio Torre</i>	
TypeJump: A Typing Game for KeyScrech	241
<i>Gennaro Costagliola, Mattia De Rosa, Vittorio Fuccella and Fabrizio Torre</i>	
SmellSheet Detective: A Tool for Detecting Bad Smells in Spreadsheets	243
<i>Jácome Cunha, João Paulo Fernandes, Pedro Martins, Jorge Mendes and João Saraiva</i>	
Comparison of Visual Languages in Geographic Information Systems	245
<i>Zdena Dobesova and Petr Dobs</i>	
Skeletons from Sketches of Dancing Poses	247
<i>Manuel J. Fonseca, Stuart James and John Collomosse</i>	
Handling of Layout-Sensitive Semantics in a Visual Control Language	249
<i>Niklas Fors and Görel Hedin</i>	
Combining Multitouch Gestures and Sketches to Explore Photo Collections	251
<i>Paulo Gonçalves and Manuel J. Fonseca</i>	
Visual clutter reduction for UML component diagrams: A tool presentation	253
<i>Lukas Holy, Jaroslav Snajberk and Premek Brada</i>	
Dependency Injection Refined by Extra-functional Properties	255
<i>Kamil Ježek, Lukáš Holý and Premek Brada</i>	
Modelling a Cardiac Pacemaker Visually and Formally	257
<i>Jérôme Leemans and Nuno Amálio</i>	
Linking Codecharts with Programs	259
<i>Jon Nicholson, Aidan Delaney and Gem Stapleton</i>	
CodeSmellExplorer: Tangible Exploration of Code Smells and Refactorings	261
<i>Felix Raab</i>	
GUIA Toolkit: Interaction-Driven Code Tracing	263
<i>André L. Santos</i>	

A Mobile Visual Programming System for Android Smartphones and Tablets	265
<i>Wolfgang Slany</i>	
An Advanced Interactive Visualization Approach with Extra Functional Properties . . .	267
<i>Jaroslav Šnajberk, Kamil Jezek and Premek Brada</i>	
Suitability of Visual Modelling Languages for Modelling Tangible User Interface Applications	269
<i>Eric Tobias, Eric Ras and Nuno Amálio</i>	
Author Index	271
