Primer Talks

Igor Jurisica, Ontario Cancer Institute, Canada

All BioVis paper sessions start with a Primer Talk to introduce the biological background and major domain challenges that are relevant to the papers presented in that session. Primer Talks are aimed at a general audience to make the BioVis paper presentations more accessible to visualization researchers without a background in biology.

Neurobiology Primer Talk

Christopher Bartlett, The Ohio State University, USA

Systems Biology and Omics Data Primer Talk

Cydney Nielsen, British Columbia Cancer Agency Genome Sciences Centre, Canada

Cellular Data Primer Talk

Larry Hunter, University of Colorado, USA

Biomolecular Data and Pathways Primer Talk
