

2012 Digest APMRC

Singapore
31 October – 2 November 2012

IEEE Catalog Number: CFP12791-PRT
ISBN: 978-1-4673-4734-1

Table of Contents

- AA-1 Top-Down and Bottom-Up Approaches to High-Density Bit-Patterned Media** ..
Joel K.W. Yang¹, Mohamed Asbahi¹, Naganivetha Thiyagarajah², Yunjie Chen³, Siang Huei Leong³,
and Vivian Ng²
¹*Institute of Materials Research and Engineering, Singapore*
²*National University of Singapore, Singapore*
³*Data Storage Institute, Singapore*
- AA-2 5 Tdot/inch² Bit-patterned Media Fabricated by Directed Self-Assembling Polymer Mask** ..
Yoshiyuki Kamata, Tomoyuki Maeda, Hiroyuki Hieda, Ryosuke Yamamoto, Naoko Kihara, and
Akira Kikitsu
Toshiba Corporation, Corporate R&D Center, Japan
- AA-3 Heat Absorption Model and Media Thermal Design for HAMR** ..
Zhimin YUAN, Shengkai YU, Jiangfeng HU, Tiejun ZHOU, Siang Huei LEONG, Chun Lian ONG, and
Bo LIU
Data Storage Institute, Singapore
- AA-4 Understand SNR Limit and Area Density Capability in in HAMR** ..
Jian-Gang (Jimmy) Zhu, and Hai Li
Carnegie Mellon University, USA
- BA-1 Improvement of Magnetic Force Microscope Resolution and Application to High-Density
Recording Media** ...
M. Futamoto, T. Hagami, S. Ishihara, and T. Ohtake
Chuo University, Japan
- BA-2 High coercive L1₀ FePt-X granular films with small opening-up of in-plane hysteresis loop by
using conductive TiN intermediate layer** ..
J.S. Chen¹, K. F. Dong¹, H. H. Li¹, G. M. Chow¹, and J.F. Hu²
¹*National University of Singapore, Singapore*
²*Data Storage Institute, Singapore*
- BA-3 Highly (001)-oriented Thin Continuous L1₀ FePt Films for Bit Patterned Media** ..
Jung-Wei Liao, Chung-Fu Cheng, Ding-Shuo Wang, Kuo-Feng Huang, Liang-Wei Wang, and Chih-
Huang Lai
National Tsing Hua University, Taiwan
- BA-4 In-line Sputter System Prepared L1₀ Ordered FePt Granular Film for HAMR Application** ...
J. F. Hu, T. J. Zhou, W. L. Phyo, K. M. Cher, and J. Z. Shi
Data Storage Institute, Singapore

- BB-1 Vibration and Noise in a HDD Spindle Motor Originated from the Axial Asymmetry of Magnetic Design** ***
S. J. Sung, G. H. Jang, J. W. Jang, and J. Y. Song
Hanyang University, Korea
- BB-2 Extraction of Bearing Coefficients of Fluid-Dynamic Bearing Spindle Motors** **
I. Y. Shen¹, Liu Mengjun², Gao Feng², Lee Chong Wee², Lin Wuzhong², and Ong Eng Hong²
¹*University of Washington, USA*
²*Data Storage Institute, Singapore*
- BB-3 Analysis of Dynamic Characteristics of Stamped Base for 2.5 inch HDD** **
Hyun-Chul Lee¹, Ju-Ho Kim¹, Seokhwan Kim², No-Cheol Park², and Kyoung-Su Park²
¹*Samsung Electro-Mechanics, Korea*
²*Yonsei University, Korea*
- BP-5 Simulation of a Piezoelectric Sensor Array for Slider-Level Contact Detection** **
Y. Yuan¹, H. Du¹, K. S. Chow¹, M. Zhang², S. Yu², and B. Liu²
¹*Nanyang Technological University, Singapore*
²*Data Storage Institute, Singapore*
- BP-6 A Spinstand Study in Determining the Optimum Shingling Percentage for Shingled Write Recording** **
S. Chandrasekaran^{1,2}, and P. Supnithi¹
¹*King Mongkut's Institute of Technology Ladkrabang, Thailand*
²*Western Digital, Thailand*
- BQ-5 Thermoreflexion Measurement of Magnetic Thin Films** **
H. Z. Yang, S. H. Leong, C. W. An, Y. J. Chen, K. D. Ye, L. T. Ng, J. Zhang, K. K. Ng, and J. F. Hu
Data Storage Institute, Singapore
- BQ-6 Thermal Effect of a Thin Overcoating Layer Subject to Laser Heating** **
P. Yu, W.D. Zhou, S.K. Yu, and B. Liu
Data Storage Institute, Singapore
- BQ-7 Long-ranged Order Cylindrical Block Copolymer Thin Films in Un-patterned Substrates** **
Y. Y. K. Hnin, W. C. Poh, S. K. Wong, H. K. Tan and S. N. Piramanayagam
Data Storage Institute, Singapore
- BQ-8 TiN and TiC Interlayers for FePt-C based Magnetic Recording Media** **
K. M. Cher, T. J. Zhou, W. K. Lim, J. F. Hu, and P. W. Lwin
Data Storage Institute, Singapore
- BQ-9 Effects of Substrate Bias with Recording Layer on Perpendicular Magnetic Media** **
J.Z. Shi, W.K. Lim, W.L. Phyoe, J.F. Hu, K.M. Cher, and T.J. Zhou
Data Storage Institute, Singapore

- BQ-10 Optimal Design of MAMR and HAMR by Applying Response Surface Methodology** ..
H. T. Wang¹, M. R. Elidrissi¹, K. S. Chan¹, K. Eason¹, B. X. Xu¹, S. Greaves², Y. Kanai³, and H. Muraoka²
¹*Data Storage Institute, Singapore*
²*Tohoku University, Japan*
³*Niigata Institute of Technology, Japan*
- BQ-11 Micromagnetic Study of a Single-domain Grain Dynamics in Magnetic Recording Media** ..
Moulay Rachid Elidrissi, Sergey Bastrukov, Hong Tao Wang, Jun Yong Khoo, Kheong Sann Chan, and Kwaku Eason
Data Storage Institute, Singapore
- BQ-12 Two-Dimensional Partial Response Maximum Likelihood at Rear for Bit-Patterned Media** ..
K. Koo¹, S.-Y. Kim^{1,2}, J. Jung¹, J. Lee¹, M. Choi¹, T. Goh¹, and S. Kim¹
¹*Pohang University of Science and Technology, Korea*
²*Samsung Electronics Co., Korea*
- BQ-13 Two-Dimensional Soft Output Viterbi Algorithm with Dual Equalizers for Bit-Patterned Media** ..
K. Koo¹, S.-Y. Kim^{1,2}, J. Jung¹, D. Kim¹, S. Moon¹, and S. Kim¹
¹*Pohang University of Science and Technology, Korea*
²*Samsung Electronics Co., Korea*
- BQ-14 Piezoelectric ZnO Thin Films for Contact Sensing and Head Actuation** ..
Y. Yuan¹, K. S. Chow¹, H. Du¹, X. Xia¹, M. Zhang², S. Yu², and B. Liu²
¹*Nanyang Technological University, Singapore*
²*Data Storage Institute, Singapore*
- BQ-15 Thickness Dependent Evolution of Microstructure and Magnetic Properties of L1₀ (001) FePt Films Grown on TiN Intermediate Layer** ..
H. H. Li^{1,2}, K. F. Dong¹, J. F. Hu², T. J. Zhou², G. M. Chow¹, and J. S. Chen¹
¹*National University of Singapore, Singapore*
²*Data Storage Institute, Singapore*
- BQ-16 Investigation of Heat Sink Layer Ag Thickness-dependent Time-resolved Lattice Dynamics in FePt/Ag Heat Assisted Magnetic Recording Media** ..
D. B. Xu^{1,2}, C. J. Sun², D. L. Brew², J. S. Chen¹, S. M. Heald², and G. M. Chow¹
¹*National University of Singapore, Singapore*
²*Argonne National Laboratory, USA*
- BQ-17 The Effect of Capped Layer Thickness on Switching Behavior in Coupled Granular/Continuous Media** ..
W. M. Li^{1,2}, W. K. Lim², J. Z. Shi², and J. Ding¹
¹*National University of Singapore, Singapore*
²*Data Storage Institute, Singapore*

- BR-4 A Comparison of Axial and Radial Surface Tension Sealing Structures for HDD FDB Spindles** **
Ming Feng and Chen Li
University of Science and Technology Beijing, China
- BR-5 Torque Area Method and Its Application in Analysis of HDD Spindle Motors with Sinusoidal Magnetization** **
Ming Feng and Kai Niu
University of Science and Technology Beijing, China
- BR-6 3D Influence of Unbalanced Magnetic Pull Induced by Misalignment Rotor in PMSM Motor** **
Yinquan Yu¹, Chao Bi¹, Phyu Nu Hla¹, Quan Jiang¹, Song Lin¹, Nay Lin Htun Aung¹, and Abdullah Al Mamun²
¹*Data Storage Institute, Singapore*
²*National University of Singapore, Singapore*
- BR-7 Influence of Neutral Line to Optimal Drive Current of PM AC Motor** **
Chao Bi, Quan Jiang, Cheng Su Soh, Hla Na Phyu, Yinquan Yu, Nay Lin Htun Aung, and Song Lin
Data Storage Institute, Singapore
- BR-8 A Demodulation Technique for Spindle Rotor Position Detection** **
N.L.H. Aung¹, C. Bi¹, A. Al-Mamun², C.S. Soh¹, and Yu YinQuan¹
¹*Data Storage Institute, Singapore*
²*National University of Singapore, Singapore*
- BR-9 Influence of Winding Structure and the Effect of MMF Harmonics to the Spindle Motor Performance for Ultra-high TPI HDD** **
H. N. Phyu, Bi Chao and N. L. H. Aung
Data Storage Institute, Singapore
- BR-10 The Investigation of High Temperature Lubricants for HAMR Application** **
Rong Ji, Baoxi Xu, Rongyan Zheng, Huiqing Xie and Jack Wen Huei Tsai
Data Storage Institute, Singapore
- BR-11 Experimental Determination of HDD FDB Bearing Characteristics** **
C.W. Lee¹, F. Gao¹, W. Z. Lin¹, M.J. Liu², and I.Y. Shen²
¹*Data Storage Institute, Singapore*
²*University of Washington, USA*
- BR-12 Performance Enhancement of Ultrasonic Motors Using Single Crystalline Piezo-materials** **
XY Hou, HP Lee, SP Lim, and CJ Ong
National University of Singapore, Singapore
- BR-13 Contact Mechanics of Traveling Wave Ultrasonic Motors** **
Shengnan Shen, Heow Pueh Lee, Siak Piang Lim, and Chong Jin Ong
National University of Singapore, Singapore

- BR-14 Motion of Air Bubbles in Grooved Journal Bearing**
K. M. Jung, Y. H. Jung, J. H. Lee, and G. H. Jang
Hanyang University, Korea
- BR-15 Experimental Verification of the Optimal FDBs in a HDD Spindle Motor to Minimize Power Consumption**
J. H. Lee, G. H. Jang, and M. H. Lee
Hanyang University, Korea
- BR-16 Characteristics of BEMF, Cogging Torque and UMF in a HDD Spindle Motor due to Magnetization of PM**
K. J. Kang, G. H. Jang, and S. J. Sung
Hanyang University, Korea
- CA-1 Numerical Analysis on Gas Lubrication of Microsliders with a Modified Navier-Stokes Equation**
Yonggang Meng and Yanrui Zhang
Tsinghua University, China
- CA-2 Adhesion and Friction Behavior on Magnetic Disks with Ultrathin Perfluoropolyether Lubricant Film Having Different End-groups Measured using Pin-on-Disk Test**
H. Tani, T. Mitsutome, and N. Tagawa
Kansai University, Japan
- CA-3 Novel Methods for Real-time Observation of Molecularly Thin Lubricant Films by Ellipsometric Microscopy**
K. Fukuzawa, Y. Kajihara, Q. Liu, T. Tarukado, R. Watanabe, S. Itoh, and H. Zhang
Nagoya University, Japan
- CA-4 Ultra-thin Overcoats for Future Hard Disks**
E. Rismani, R. J. Yeo, N. Satyanarayana, S. K. Sinha, and C. S. Bhatia
National University of Singapore, Singapore
- CB-1 Triple-Stage-Actuator System of Head-Positioning Control in Hard Disk Drives**
T. Atsumi, S. Nakamura, M. Furukawa, I. Naniwa, and J. Xu
HGST Japan, Japan
- CB-2 Track-following Control of Four-bar Structured HDD via Parameter-dependent Pre-compensation**
Y. Guo¹, T. Gao¹, L. Xie¹, C. Du² and C. Ong³
¹*Nanyang Technological University, Singapore*
²*Data Storage Institute, Singapore*
³*National University of Singapore, Singapore*
- CB-3 Robust Control Design for Hard Disk Drives with Irregular Sampling**
B. Shahsavari, R. Conway, E. Keikha², and R. Horowitz
¹*University of California, Berkeley, USA*
²*National University of Singapore, Singapore*

- DA-1 Off-track Error Rate Simulation of Shingled Writing under Mechanical Track Misregistration** ``
Keiji Aruga
Aruga Research LLC, Japan
- DA-2 HAMR Thermal Modeling Including Media Hot Spot** ``
L. Huang, B. Stipe, M. Staffaroni, T. Hirano, E. Schreck, and F.Y. Huang
HGST, a Western Digital Company, USA
- DA-3 HAMR Media Design in Optical and Thermal Respects** ``
Baoxi Xu¹, Zhanhong Cen¹, Jin Hong Goh², Jianming Li¹, Kaidong Ye¹, Jing Zhang¹, Hongzhi Yang¹,
Yeow Teck Toh¹, and Chenggen Quan²
¹*Data Storage Institute, Singapore*
²*National University of Singapore, Singapore*
- DA-4 First-Principles Study on New Media Memory Materials and Design Concept for Nonvolatile Data Storage** ``
L. Shen¹, Z. Q. Bai², J. Q. Goh¹, and Y. P. Feng¹
¹*National University of Singapore, Singapore*
²*Data Storage Institute, Singapore*
- DB-1 High-Bandwidth HDD Actuator Based on Four-Bar Linkage Mechanism** ``
C. J. Ong¹, F. F. Yap², and D. W. Djamari²
¹*National University of Singapore, Singapore*
²*Nanyang Technological University, Singapore*
- DB-2 Translational Actuator for Precision Positioning with High Speed Motion** ``
Shigeki MORI¹, Akira SAKURADA¹, Akihiro NAGANAWA², Yotsugi SHIBUYA², and Goro OBINATA³
¹*AIT (Akita Industrial Technology Center), Japan*
²*Akita University, Japan*
³*Nagoya University, Japan*
- DB-3 Design for Reducing the Off-track Due to Arm Bending Considering DSA in HDDs** ``
Eo-Jin Hong, Yonghyun Lee, Yong-Han Song and Cheol-Soon Kim
Seagate Korea Design Center, Korea
- DP-5 The Studies of Lubricant Thermal Depletion Using Molecular Dynamics** ``
B. Li, Q. B. Chen, and C. H. Wong
Nanyang Technological University, Singapore
- DP-6 A Numerical Simulation of Particle Trajectory in Thin Hard Disk Drive** ``
N. Liu, Q. Zhang and K. Sundaravadivelu
Data Storage Institute, Singapore

- DP-7 Dynamics of Air Bearing-slider-suspension System at Surfing State** ^{''}
S. K. Yu, K. K. Ng, W. Hua, W. D. Zhou and B. Liu
Data Storage Institute, Singapore
- DP-8 Air Flow Analysis in an Ultra-Thin Hard Disk Drive** ^{''}
K. Sundaravadivelu, Q. Zhang, and N. Liu
Data Storage Institute, Singapore
- DP-9 Experimental Study of Slider-Disk Interactions Monitored by an Off-Resonance Mode Electrostatic Force Manipulation Methodology** ^{''}
Ng Kang Kee^{1,2}, Chen Xiuying¹, Vivian Ng², and Liu Bo¹
¹*Data Storage Institute, Singapore*
²*National University of Singapore, Singapore*
- DQ-4 Fast Seek Servo with a Resonance Filter for Nonminimum-Phase Plants** ^{''}
Sang Hyun Kim, Seung-Hi Lee, and Chung Choo Chung
Hanyang University, Korea
- DQ-5 Aliased NRRO Rejection Using Phase-Stabilization above Nyquist Frequency** ^{''}
Yan Zhi Tan¹, Chee Kiang Pang¹, Fan Hong², and Tong Heng Lee¹
¹*National University of Singapore, Singapore*
²*Data Storage Institute, Singapore*
- DQ-6 Grain Isolation Control of FePt Thin Film by Using Ag Nucleation Layer** ^{''}
Hu JiangFeng, Phyoee Wai Lwin, Zhou TieJun, Shi Jiangzhong, and Cher Kiat Min Kelvin
Data Storage Institute, Singapore
- DQ-7 Investigation of Contact-Induced Vibration at Low Fly-height in Hard Disk Drive Servo Systems** ^{''}
V. Venkataramanan¹, J.-X. Xu², D. Huang², and T. C. T. Huynh²
¹*Data Storage Institute, Singapore*
²*National University of Singapore, Singapore*
- DQ-8 A Robust Stability Methodology for Track Following Servo Systems** ^{''}
Mohammadreza Chamanbaz^{1,2}, Fabrizio Dabbene, , Roberto Tempo, Venkatakrishnan Venkataramanan¹, and Qing-Guo Wang²
¹*Data Storage Institute, Singapore*
²*National University of Singapore, Singapore*
³*IEIT-CNR Torino, Italy*
- DQ-9 Analysis of Structurally Transmitted Vibration of HDD in Notebook Computer** ^{''}
J. Q. Mou, Fukun Lai, I. B. L. See, and W. Z. Lin
Data Storage Institute, Singapore
- DQ-10 The Effect of the Mechanical Spoiler on 2.5-inch Hard Disk Drive Fluttering** ^{''}
G.Q. Liu and D.W. Shu
Nanyang Technological University, Singapore

- DQ-11 Design Modification to Improve Anti-shock Performance of The Stamped Base Using 2.5 Inch HDD** ``
Geonyup Lim, Seokhwan Kim, No-Cheol Park, and Kyoung-Su Park
Yonsei University, Korea
- DR-5 Application and Optimization of Factor Graph Based Detector on 1D ISI Magnetic Recording Channel** ``
Sari Shafidah Shafi'ee¹, Zhiliang Qin¹, Moulay Rachid Elidrissi¹, Kheong Sann Chan¹, and Yong Liang Guan²
¹*Data Storage Institute, Singapore*
²*Nanyang Technological University, Singapore*
- DR-6 Bi-directional Pattern-dependent Noise Prediction with LDPC Codes for Heat-assisted Magnetic Recording** ``
Yibin Ng, Kui Cai, B. V. K. Vijaya Kumar, Zhiliang Qin, and Tow Chong Chong
Data Storage Institute, Singapore
- DR-7 Parameter Variation Investigation of Magnetic Tunnel Junctions Using Generalized Valet-Fert FEM Formulation** ``
Jian Feng Kong, Kwaku Eason, Kim Piew Tan, and Rachid Sbiaa
Data Storage Institute, Singapore
- DR-8 Iterative Reduced-Complexity Detection for LDPC Coded 2-D Recording Channels** ``
Zhiliang Qin, Kui Cai, and Kheong Sann Chan
Data Storage Institute, Singapore
- DS-4 Stroke Projection of Secondary Thermal Actuators for Dual-Stage HDDs** ``
Wee Kiang Tan and Chee Khiang Pang
National University of Singapore, Singapore
- DS-5 Anti-windup Compensation for MTA Based Dual-stage Actuation Systems** ``
Tingting Gao², Chunling Du¹, Cheng Peng Tan¹, Jiaping Yang¹, and Lihua Xie²
¹*Data Storage Institute, Singapore*
²*Nanyang Technological University, Singapore*
- DS-6 Thermal-mechanical Performance of Electro-thermally Driven Micro-actuator for HDDs** ``
J.P. Yang¹, C.P. Tan¹, Z.M. He¹, N.B. Chong¹, B. Thubthimthong², and G.K. Lau²
¹*Data Storage Institute, Singapore*
²*Nanyang Technological University, Singapore*
- DS-7 Fast Polymeric Thermal Expansion for Dual-Stage Actuation in Hard Disk Drives** ``
G. K. Lau¹, B. Thubthimthong¹, J.P. Yan², C.P. Tan², and N. B. Chong²
¹*Nanyang Technological University, Singapore*
²*Data Storage Institute, Singapore*

- EA-1 Pit Detection Using a Contact Sensor** ..
J. Xu¹, Y. Shimizu², J. Liu³, T. Shiramatsu¹, M. Furukawa¹, J. Li¹, and H. Kohira¹
¹*HGST Japan, Japan*
²*Tohoku University, Japan*
³*Hitachi Asia Singapore, Singapore*
- EA-2 Effect of Mechanical Parameters for Loading Contact and Instability in HDD** ..
Yonghyun Lee, Eo-Jin Hong, and Cheol-Soon Kim
Seagate Korea Design Center, Korea
- EA-3 Thermal Protrusion of Thermally Assisted Magnetic Recording for Binary Gas Mixture with Temperature** ..
Kyoung-Su Park, Jonghak Choi, No-Choel Park, and Young-Pil Park
Yonsei University, Korea
- EA-4 Contact of Flying Recording Head Sliders on Continuous and Patterned Media** ..
Jia-Yang Juang and Kuan-Te Lin
National Taiwan University
- EB-1 Vibration Analysis of Inhomogeneous Elastica in Hard Disk Drives** ..
Ching-Chen CHEN and Jen-Yuan (James) CHANG
National Tsing Hua University, Taiwan
- EB-2 Shock Response Analysis on Thermal Stick-slip Phenomenon in Hard Disk Drive** ..
H. Eguchi and I. Kobayashi
HGST Japan, Japan
- EB-3 Servo Detection and Control Considering Servo Pattern Defects** ..
Guoxiao Guo and Jie Yu
Western Digital Technologies, USA
- FA-1 Heat Assisted Recording at 4 Gbit/in²** ..
S. J. Greaves¹, Y. Kanai², and H. Muraoka¹
¹*Tohoku University, Japan*
²*Niigata Institute of Technology, Japan*
- FA-2 A System Level Study of Two Dimensional Magnetic Recording** ..
Chan Kheong Sann, Elidrissi Moulay Rachid and Qin Zhiliang
Data Storage Institute, Singapore
- FA-3 Efficient Correction of Single Insertion/Deletion and Multi-Substitution Errors** ..
G. J. Han¹, Y. L. Guan¹, K. Cai², K. S. Chan², and L. J. Kong¹
¹*Nanyang Technological University, Singapore*
²*Data Storage Institute, Singapore*

- FB-1 From Perpendicular Magnetic Recording to Heat Assisted Magnetic Recording** ..
Kai-Zhong Gao, Xiaobin Wang, Tim Rausch, Alexander Wu, Yukiko Kubota, Timothy Klemmer, Chubing Peng, Yingguo Peng, Darren Karns, Xiaobin Zhu, Yinfeng Ding, Eric KC Chang, Yongjun Zhao, Hua Zhou, Hassib Amini, Jan-Ulrich Thiele, Mike Seigler, Ganping Ju, Edward Gage, Charles Henry, Cynthia Hipwell, Steve Hwang, John Dykes, and Mark Re
Seagate, USA
- FB-2 Maximum Writing Cycle Control and Disk Lubricant and Overcoat Robustness of Hybrid HAMR Disk Drives** ..
B. Liu, Y. S. Ma, M. Shakezadeh, H. L. Seet, and S. K. Yu
Data Storage Institute, Singapore
- FB-3 New Process to Fabricate Heat Assisted Magnetic Recording Media with Extremely Small Grain Size** ..
Jian-Ping Wang, Hao Wang, and Haibao Zhao
University of Minnesota, USA
- FB-4 HAMR Near Field Transducers Based on Microcavity Disk Lasers** ..
Matthew J. Chabalko¹, Evan Quirk¹, Andrew Gamble¹, Yunchuan Kong¹, Rozana Hussin¹, Gregory Slovin, Yi Luo¹, T.E. Schlesinger¹, Kazumi Kuriyama², and James A. Bain¹
¹*Carnegie Mellon University, USA*
²*Pioneer Corporation, Japan*
- FP-5 Experimental Study of Lube Depletion in Heat Assisted Magnetic Recording: Effects of Laser Heating Duration and Temperature** ..
Y.S. Ma, X.Y. Chen, and B. Liu
Data Storage Institute, Singapore
- FP-6 Inertia Effects in Evaluating Dynamic Coefficients for Thick Lubricant Film** ..
Junho Seo¹, Moonho Choi², and YoonChul Rhim¹
¹*Yonsei University, Korea*
²*Hyundai Heavy Industries, Korea*
- FP-7 Effects of External Heat and Dynamic Fly Height heat upon FMR characteristics of TMR Heads** ..
S. Wonglam and C. Sa-ngiamsak
Khon Kaen University, University

- FP-8 Contact Warning by Monitoring Nonlinearity of Interaction in Head Disk Interface** ^{''}
Mingsheng Zhang, Bo Liu, Yu Shengkai, and Chun Lian Ong
Data Storage Institute, Singapore
- FP-9 Phenomenological Model of Heat Transfer in Hard-Disk Air Bearing Based on Nonlocal Behavior in Air** ^{''}
K. Poletkin and V. Kulish
Nanyang Technological University, Singapore
- FQ-1 A Comparative Study of Interlayer Coupling in L10-FePt Based Pseudo Spin Valves with Ag and TiN Spacers** ^{''}
Pin Ho¹, Guchang Han², Gan-Moog Chow¹, and Jing-sheng Chen¹
¹*National University of Singapore, Singapore*
²*Data Storage Institute, Singapore*
- FQ-2 An All-Heusler Design Scheme for High-Performance CPP-GMR Read Heads** ^{''} ^{''}
Zhaoqiang Bai¹, Yongqing Cai¹, Lei Shen¹, Guchang Han², and Yuanping Feng¹
¹*National University of Singapore, Singapore*
²*Data Storage Institute, Singapore*
- FQ-3 Graphene-based Spin Diode and Transistor** ^{''}
M. G. Zeng, L. Shen, and Y. P. Feng
National University of Singapore, Singapore
- FR-4 A Mode Switching Controller for HDD** ^{''}
M. Dehghan and C. J. Ong
National University of Singapore, Singapore
- FR-5 Active Control on Flow-Induced Vibration of the Head Gimbals Assembly in Hard Disk Drives** ^{''}
H. Min¹, X. Y. Huang¹, and Q. D. Zhang²
¹*Nanyang Technological University, Singapore*
²*Data Storage Institute, Singapore*
- FR-6 An Add-on Nonlinear Controller for External Vibration Rejection in HDDs** ^{''}
Qingwei Jia¹, Shuyu Cao¹, Guoxiao Guo², and Jie Yu²
¹*Western Digital Corporation, Singapore*
²*Western Digital Corporation, USA*
- FR-7 Statistical Modeling and Analysis of Hard Disk Drives (HDDs) Failure** ^{''}
Zhimin He¹, Hao Yang², and Min Xie³
¹*Data Storage Institute, Singapore*
²*Micron Semiconductor Asia, Singapore*
³*National University of Singapore, Singapore*

- FS-4 A Position Dependent Binary Symmetric Channel Model for BPMR Write Errors** ``
Songhua Zhang, Kui Cai, and Zhiliang Qin
Data Storage Institute, Singapore
- FS-5 EXIT Chart Based LDPC Codes Design for 2D ISI Channels** ``
Lingjun Kong¹, Guojun Han¹, Yong Liang Guan¹, Kui Cai², and Kheong-Sann Chan²
¹*Nanyang Technological University, Singapore*
²*Data Storage Institute, Singapore*
- FS-6 Digital PES Demodulation in Hard Disk Drive** ``
Kong Anmin, Zhang Jingliang, and Zhang Songhua
Data Storage Institute, Singapore
- FT-5 Effects of Lateral Size on the Ferromagnetic Resonance Response in Magnetic Nanopillars** ``
Maria Patricia Rouelli Garcia Sabino¹, Kwaku Eason², Michael Tran², and Liew Yun Fook Thomas³
¹*National University of Singapore, Singapore*
²*Data Storage Institute, Singapore*
³*National Metrology Center, Singapore*
- FT-6 Track Mis-registration Detection using Correlation Functions in Magnetic Recording** ``
L. Myint¹, P. Supnithi², and N. Puttarak²
¹*Shinawatra University, Thailand*
² *King Mongkut's Institute of Technology Ladkrabang, Thailand*
- FT-7 A Study of Iterative Detection Method for Four-Grain Based Two-Dimensional Magnetic Recording** ``
T. Losuwan¹, C. Warisarn¹, L. M. Myint², and P. Supnithi¹
¹*King Mongkut's Institute of Technology Ladkrabang, Thailand*
²*Shinawatra University, Thailand*
- FT-8 Performance of the Contraction Mapping-Based Iterative 2D Equalizer for BPM** ``
Woosik Moon and Sungbin Im
Soongsil University, Korea
- SA-1 TABLEFS: Embedding a NoSQL Database Inside the Local File System** ``
Kai Ren and Garth Gibson
Carnegie Mellon University, USA
- SA-2 DRAW: A New Data-gRouping-AWare Data Placement Scheme for Data Intensive Applications with Interest Locality** ``
Pengju Shang, Qiangju Xiao, and Jun Wang
University of Central Florida, USA
- SA-3 ALDM: Algorithm of Adaptive Loading Data Migration in Distributed File System** ``
Tan Zhipeng, Zhou Wei, Zhang Wenhua, and Feng Dan
Huazhong University of Science and Technology, China

- TA-1 Optimized Sort Partition: A File Assignment Strategy to Achieve Minimized Response Time for Parallel Storage Systems** **
Y. Yu, Y. Zhu, W. Ng, J. Samsudin, and Z. Li
Data Storage Institute, Singapore
- TA-2 Split-reclaim Method for Eliminating Metadata Cache De-allocation Latency in Enterprise File Servers** **
Takayuki Fukatani, Keiichi Matsuzawa, Hitoshi Kamei, Masakuni Agetsuma, and Takaki Nakamura
Hitachi Ltd., Japan
- TA-3 Event-notification-based Inactive File Search for Large-scale File systems** **
Masanori Takata and Atsushi Sutoh
Hitachi Ltd., Japan
- TB-1 SeDas: A Self-destructing Data System Based on Active Storage Framework** **
Lingfang Zeng¹, Shibin Chen², Qingsong Wei², and Dan Feng¹
¹*Huazhong University of Science and Technology, China*
²*Data Storage Institute, Singapore*
- TB-2 Experiences Building A Provenance-Based Reconstruction System** **
Yulai Xie, Dan Feng, Zhipeng Tan, Lei Chen, and Junzhe Zhou
Huazhong University of Science and Technology, China
- TB-3 Optimal Disk Storage Allocation for Multi-tier Storage System** **
Haixiang Shi¹, Rajesh Vellore Arumugam¹, Chuan Heng Foh², and Kyawt Kyawt Khaing¹
¹*Data Storage Institute, Singapore*
²*Nanyang Technological University, Singapore*
- UA-1 A Popularity-Aware Buffer Management to Improve Buffer Hit Ratio and Sequentiality for Solid State Drive** **
Qingsong Wei¹, Lingfang Zeng², Jianxi Chen¹, and Cheng Chen¹
¹*Data Storage Institute, Singapore*
²*National University of Singapore, Singapore*
- UA-2 Cell-to-Cell Interference Compensation Schemes Using Reduced Symbol Pattern of Interfering Cells for MLC NAND Flash Memory** **
G. Kong, T. Kim, W. Xi, and S. Choi
Yonsei University, Korea
- UA-3 Simulation for a Shingled Magnetic Recording Disk** **
Sophia Tan, Weiya Xi, Zhi Yong Ching, Chao Jin, and Chun Teck Lim
Data Storage Institute, Singapore

- UB-1 An Adaptive Prefetching Scheme for Storage System in Multi-application Environment** ``
Chen Jianxi, Wei Qingsong, and Chen Cheng
Data Storage Institute, Singapore
- UB-2 DifferCloudStor: Differentiated Quality of Service for Cloud Storage** ``
Yu Zhang¹, Shu Qin Ren¹, Shi Bin Chen¹, Benjamin Tan², En Sheng Lim,¹ and Khai Leong Yong¹
¹*Data Storage Institute, Singapore*
²*Nanyang Technological University, Singapore*
- UB-3 A Loss-free Multipathing Solution for Data Center Network using Software-defined Networking Approach** ``
Shuo Fang¹, Yang Yu², Chuan Heng Foh¹, Khin Mi Mi Aung²
¹*Nanyang Technological University, Singapore*
²*Data Storage Institute, Singapore*
- VA-1 Disk Array Performance Prediction with CART-MARS Hybrid Models** ``
Yong Li^{1,2}, Dan Feng^{1,2}, Zhan Shi^{1,2}, and Zhao Zhang³
¹*Huazhong University of Science and Technology, China*
²*Wuhan National Lab for Optoelectronics, China*
³*Iowa State University, USA*
- VA-2 Analysis of Security Components in Cloud Storage Systems** ``
Rodrigo Roman¹, Miguel Rodel Felipe², Phua Eu Gene², and Jianying Zhou¹
¹*Institute of Infocomm Research, Singapore*
²*Data Storage Institute, Singapore*
- VA-3 HCache A Hybrid Cache Management Scheme with Flash and Next Generation NVRAM** ``
Rajesh Vellore Arumugam¹, Chuan Heng Foh², Haixiang Shi¹, Kyawt Kyawt Khaing¹
¹*Data Storage Institute, Singapore*
²*Nanyang Technological University, Singapore*
- VA-4 A Method of Obtaining the Maximum Endurance of the Storage System in Wear Leveling Process with Spare Regions** ``
Han Jong KIM and Kanzo OKADA
Data Storage Institute, Singapore
