

2012 International Conference on Interactive Mobile and Computer Aided Learning

(IMCL 2012)

**Amman, Jordan
6 – 8 November 2012**

**IEEE Catalog Number: CFP1226U-PRT
ISBN: 978-1-4673-4924-6**

2012 International Conference on Interactive Mobile and Computer Aided Learning (IMCL)

Table of Contents

Title	Page
How ECM can be used for distance learning content management ECM to LCM	1
Mobile Learning - The Future Already Behind Us	7
Code of Ethics of Undergraduate students at KKU	10
Augmented Reality Internet Labs Versus Hands-On and Virtual Labs: A Comparative Study	17
OUTCOMES BASED ASSESSMENT OF THE ENGINEERING PROGRAMS AT QASSIM UNIVERSITY FOR ABET ACCREDITATION	22
Project Based Learning to Enhance Teaching Digital Signal Processing	32
A Topic-Driven Modular Approach To Engineering Education Delivery	36
The role of virtual and remote labs in promoting conceptual understanding of students	42
Development of mobile learning in higher education of Russia	48
Virtual Labs of Conventional Electric Machines	52
Augmenting paper based learning materials: A pragmatic approach	58
ICT Capacity Building and Higher Education	62
The Degree of Readiness of Students of The University of Jordan to Cope with Future Challenges	72
Modeling a Learner Based Semantic Web and Web Services	78
Virtual Laboratory for Electromagnetics Teaching using MATLAB	80
Integrating the Emona FOTEx Interface into the Batched iLabs Client	86
Online Project based learning driven by competencies: A systematic strategy proposal for assessment	92
The development of two online business games "Fish Market" and "The Merchant of Venice"	98
A proposed model for assessment of social networking supported learning and its influence on learner behaviour	101
Personalizing Student's Profiles Using JESS in A Learning Management System(LMS)	109
Ontology-based Learner Modelling for Supporting Personalised e-Learning	113
A Mobile Portal for Pharmaceutical Services	119
New Culture at University - From Input to Output Orientation	124
Towards the implementation of semantic interoperability of information systems via technique of matching: Issue and prospective	134
Blended e-learning process for professional and on distance learners	141
Looking With Ideas, Not For Ideas: Realist Constructivism Applied to Technology-Mediated Science Teaching	148
Blending of Learning Tools for Enhanced Practical Wireless Communications Education	152
Shaping Qualification Profiles of Engineering Graduates Based on ABET and Employment Demand	159
Dynamic Spectrum Analyzer using Software Defined Radio	167
Mathematics Teachers' Readiness to Integrate ICT in the Classroom: The Case of Elementary and Middle School Arab Teachers in Israel	173
A Coding Style-based Plagiarism Detection	180
Computer Engineering Online - Best Practice in Extra-Occupational Studying and Lifelong Learning	187
1-NN Based Approach for Skill Level Estimation	192
Using Concept Mapping Tools to Enhance Collaborative Problem solving and Innovation in Corporate e-learning	197
