

2012 Third World Congress on Software Engineering

(WCSE 2012)

**Wuhan, China
6 – 8 November 2012**

**IEEE Catalog Number: CFP1299F-PRT
ISBN: 978-1-4673-4546-0**

2012 Third World Congress on Software Engineering

WCSE 2012

Table of Contents

Preface.....	ix
Conference Committee.....	xi
Keynote Speakers.....	xii
Reviewers.....	xvii

Software Engineering Methodology

Software Metrics

Modeling Segmentation Algorithm	5
<i>Alexander Bulyshev and Larisa Bulyshev</i>	
Network Model Construction and Cascading Effect Analysis for Software Systems	9
<i>Gang Hou, Xiaolong Wang, and Kuanjiu Zhou</i>	

Knowledge-Based Software Engineering

An Agent-based Logic Description Language for Dynamic Evolution	15
<i>Li Qing-shan, Chu Hua, and Li Cong</i>	
Study of Concept Similarity Algorithm between Steel Ontologies	19
<i>Yu Hu, Wenjie Li, and Si Liu</i>	

Internet and Information Systems Development

Query Expansion Based on Mongolian Semantics	25
<i>Na Liu, Junyi Wang, and Guiping Liu</i>	
Structural Join Oriented XML Data Compression	29
<i>Dongping Wei and Xiangli Wei</i>	

Software Testing and Analysis

Activity Page Based Functional Test Automation for Android Application	37
<i>Lu Lu, Yulong Hong, Ying Huang, Kai Su, and Yuping Yan</i>	
Assertion-Directed Test Case Generation	41
<i>Fanping Zeng, Chaoqiang Deng, and Yuan Yuan</i>	

Coverage Criteria Guided Web Application Interactions Testing	46
<i>Bo Song and Shengbo Chen</i>	
Model Checking Based Conformance Testing for Web Applications	51
<i>Shengbo Chen</i>	
Roles-based Access Control Modeling and Testing for Web Applications	57
<i>Bo Song and Shengbo Chen</i>	
Theory and Formal Methods	
Efficient Model Checking and FMEA Analysis with Deterministic Scheduling of Transition-Labeled Finite-State Machines	65
<i>Vladimir Estivill-Castro, René Hexel, and David A. Rosenblueth</i>	
Representations of Algebraic Dcpo's by Information Systems and Abstract Bases	73
<i>Lankun Guo, Qingguo Li, Yaping Lin, and Hongping Liu</i>	
Human-Computer Interaction	
Hierarchical Graph Models and Information Visualizaion	79
<i>Victor N. Kasyanov</i>	
Subspace Culling for Continuous Collision Detection	83
<i>Yong Shui, Jinjin Zheng, Xuegang Ma, Hongjun Zhou, and Lianguan Shen</i>	
Software Processes and Workflows	
User Satisfaction of Adaptation in Service-based Business Processes Execution	89
<i>Zongmin Shang</i>	
Software Dependability/Safety/Privacy and Reliability	
Build Up Secure Internet Identity Management	97
<i>Qiuyan Lv and Zhang Fan</i>	
LeakMiner: Detect Information Leakage on Android with Static Taint Analysis	101
<i>Zheming Yang and Min Yang</i>	
Other Topics in Software Engineering Methodology	
Multi-layer Case-based Reasoning Approach of Complex Product System	107
<i>Sihai Guo, Wenfeng Zhou, and Kaizhi Li</i>	
Software Engineering Applications	

Software Engineering for Mobile/Ubiquitous and Pervasive Systems

NOMOHiOS: Fundamental Aspects of Artificial Intelligence and Software Engineering in the Design of Management Systems	115
<i>Juan Martinez, Karina Aviles Rodriguez, and Johnny V. Martinez</i>	
Spatial Decision Analysis on Soil Erosion Control Measures Research Based on GIS: Taking Changting Country as an Example	119
<i>Xueyan Sui, Chen Lin, and Shenglu Zhou</i>	

Software Tools and Development Environments

Design and Implementation of a Static Test Approach for Embedded Software	125
<i>Wang Zhong-Min, Huo Yi-Wei, and Liang Chen</i>	

Software Applications

A Blackboard-based Decision Support Framework for Testing Client/Server Applications	131
<i>Huey-Der Chu</i>	
A Novel Method of Mesh Simplification Using Hausdoff Distance	136
<i>Xuegang Ma, Jinjin Zheng, Yong Shui, Hongjun Zhou, and Lianguan Shen</i>	
Ajax-based Positioning System for Coal Miners	140
<i>Xiaokui Chen, Xianwen Fang, and Xinqing Lin</i>	
An Approach of Windows Memory Management Simulation on Linux	143
<i>Rui Li, Nanjun Yang, and Shilong Ma</i>	
An Area Based Image Matching Algorithm and Its Implementation	147
<i>Guohua Yue and Yu Xu</i>	
An Initial Exploration on Intelligent Contents to Social Network Research Via Fuzzy Based Data Mining	151
<i>Bao-Chang Ju</i>	
Applied Research on the Identification Documents Management System for Auto After-sales Service Based on CRM	155
<i>Yahui Yang, Youbing Zhang, Pengtao Xia, Zezhi Ren, and Bo Li</i>	
Building and Practice of Multi-Project Portfolio Management System for Aviation Enterprises	159
<i>Xiang Ma, Miaoxin Du, Bo Zhang, and Qing-Hong Le</i>	
Cloud Manufacturing Collaboration: An Initial Exploration	163
<i>Ying-Kuang Lu, Chen-Yi Liu, and Bao-Chang Ju</i>	
Optimizations of Flow-based Behavior Recognition System within Hi-speed Network	167
<i>Peng Xiaotian</i>	
Real-time Estimation of Road Friction Coefficient for the Electric Vehicle	172
<i>Lin Cheng, Wang Gang, Cao Wan-Ke, and Zhou Feng-Jun</i>	

Research of Cloud Print Key Technology Based on Identity Card	176
<i>Wu Yun</i>	
Research on Feature Extraction of the Laser Beam Information Field Riding Guidance Technology Based on Wavelet Transform	179
<i>Du-En Xiang and Wang Wei</i>	
Research on the Application of Water Inflow Prediction System of Diversion Tunnel in the Secondary Hydropower Station in Jinping	182
<i>Xueping Li and Yunan Li</i>	
Simulation Analysis of Information Control for “7•23” Wenzhou High-speed Railway Accident in China Based on System Dynamics	186
<i>Qian Wu and Kefan Xie</i>	
Simulation of Road Roughness Based on Using IFFT Method	190
<i>Cao Dong Jiang, Lin Cheng, Sun Fengchun, and Chang Hongjie</i>	
Software Solution of Delay Differential Equations	194
<i>Jiří Kříž , Veronika Novotná, and Jan Luhan</i>	
Study of Emergency Management Information System for Hydropower Project	198
<i>Chen Jianguo, Su Guofeng, and Zhao Quanlai</i>	
Study on Forward Simulation Model for Extended-Range Electric Bus	202
<i>Cao Dong Jiang, Lin Cheng, and Sun Fengchun</i>	
The Research of 3D Model Retrieval Algorithms Based on Normal Plane	207
<i>Hongtao Xie, Fuhua Shang, Yadong Zhou, and Xincheng Gao</i>	
Water Environment Monitoring Information System Based on ASP.NET and ArcGIS Server	211
<i>Wu Jianhua and Peng Zhenwen</i>	
Author Index	215
