

2011 Military Communications and Information Systems Conference

(MilCIS 2011)

**Canberra, Australia
8 – 10 November 2011**

**IEEE Catalog Number: CFP11675-PRT
ISBN: 978-1-4673-5727-2**

- Earth-station upgrade from Ku-band to X-band** 1
Christophe Granet, Ian Davis, John Kot, and Greg Pope
- Reference Security Management Architecture—Guiding Governmental and Military Inter-Cloud Initiatives** 7
Michael Kretzschmar and Marcus Knüpfer
- Maintaining Connectivity in Mobile Adhoc Networks Using Distributed Optimisation** 14
Robert Hunjet and Ping Hui
- Performance Analysis of the B.A.T.M.A.N. Wireless Ad-Hoc Network Routing Protocol with Mobility and Directional Antennas** 20
Dr. Matthew Britton and Andrew Coyle
- NetCentric Geospatial SmartCache - Caching Geospatial Information, Infrastructure and Services** 26
Alissa Proctor and Chhiu-Linn Kaing
- Modelling Radio Propagation and Contention in Emulated Defence Networks** 31
Andrew Coyle and Matthew Britton
- Implementing SATCOM-on-the-move in the Land Environment – Relating technical solutions to operational reality** 37
Tony Sewell and Rajeev Gopal
- The Application of Enterprise Architecture Approach to Military Concept Development—Case Study** 43
Jukka Anteroinen
- Strategic Planning and Operational Control in Dynamically Networked Environments** 49
Sanjeev Naguleswaran

Enhancing Operational Effectiveness by Integrating Legacy and Future ADF Systems 55
Simon McDougall

Undersea Electromagnetic Networking 61
Robin M. Dunbar, Michael R Frater, Michael J Ryan, Gregory N Milford

Electromagnetic Propagation to VHF Frequencies Along an insulated Wire Antenna 70
Immersed In Saltwater
Gregory N Milford and Robin M. Dunbar
