

2012 Workshop on Dependable Transportation Systems/Recent Advances in Software Dependability

(WDTS-RASD 2012)

**Niigata, Japan
18 – 19 November 2012**

**IEEE Catalog Number: CFP1263U-PRT
ISBN: 978-1-4799-0315-3**

2012 Workshop on Dependable Transportation Systems/Recent Advances in Software Dependability

WDTS-RASD 2012

Table of Contents

WDTS 2012 Preface.....	vii
WDTS 2012 Organizing Committee.....	viii
WDTS 2012 Program Committee.....	ix
RASD 2012 Preface.....	x
RASD 2012 Committees.....	xi
RASD 2012 Reviewers.....	xiii

Workshop on Dependable Transportation Systems (WDTS 2012)

Regular Papers

SafeCap Domain Language for Reasoning about Safety and Capacity	1
<i>Alexei Iliasov and Alexander Romanovsky</i>	
Next Generation OS for Railway Signalling Safety Devices - Development of Exclusive Double Thread OS (EDTOS)	11
<i>Fumihito Higuchi and Masaya Mori</i>	
Formalizing and Analyzing the Train-to-Wayside Network System for CBTC	15
<i>Guo Xie, Xinhong Hei, Hiroshi Mochizuki, Sei Takahashi, and Hideo Nakamura</i>	

Workshop on Recent Advances in Software Dependability (RASD 2012)

Session 1

A Bootstrap Method for Software Reliability Assessment Based on a Discretized NHPP Model	23
<i>Shinji Inoue and Shigeru Yamada</i>	
A Note on Static Software Reliability Models by GMDH: Comparison with a Multiple Regression Model	28
<i>Mitsuhiro Kimura and Ryohei Shimada</i>	
Optimal Inspection First and Last Policies for a Computer System	34
<i>Xufeng Zhao, Syouji Nakamura, and Toshio Nakagawa</i>	

Session 2

Security Evaluation for Software System with Vulnerability Life Cycle and User

Profiles39

Hiroyuki Okamura, Masataka Tokuzane, and Tadashi Dohi

Session 3

Optimal Policy of a Server System with Replication Buffering Relay Method45

Mitsutaka Kimura, Mitsuhiro Imaizumi, and Toshio Nakagawa

Towards Development of Risk-based Checkpointing Scheme Via Parametric

Bootstrapping50

Shunsuke Tokumoto, Tadashi Dohi, and Wong Young Yun

Author Index56
