

# **2013 10th International Symposium on Voronoi Diagrams in Science and Engineering**

## **(ISVD 2013)**

**St. Petersburg, Russia  
8 – 10 July 2013**

IEEE Catalog Number: CFP1373A-POD  
ISBN: 978-1-4799-0548-5

# **2013 International Symposium on Voronoi Diagrams**

## **ISVD 2013**

### **Table of Contents**

<b>Foreword</b> .....	vii
<b>Committees</b> .....	viii
<b>Program Committee</b> .....	ix

---

#### **Invited Talks**

Delone Sets and Polyhedral Tilings: Local Rules and Global Order .....	3
<i>Nikolai Dolbilin</i>	
Molecular Geometry: A New Challenge and Opportunity for Geometers .....	4
<i>Deok-Soo Kim</i>	

#### **Algorithmic Aspects**

Delaunay Triangulations on the Word RAM: Towards a Practical Worst-Case Optimal Algorithm .....	7
<i>Okke Schrijvers, Frits van Bommel, and Kevin Buchin</i>	
A Sweepline Algorithm for Higher Order Voronoi Diagrams .....	16
<i>Maksym Zavershynskyi and Evanthia Papadopoulou</i>	
Design of Pop-Up Cards Based on Weighted Straight Skeletons .....	23
<i>Kokichi Sugihara</i>	

#### **Mathematical Aspects**

On the Farthest-Neighbor Voronoi Diagram of Segments in Three Dimensions .....	31
<i>Gill Barequet and Evanthia Papadopoulou</i>	
Recognizing Straight Skeletons and Voronoi Diagrams and Reconstructing Their Input .....	37
<i>Therese Biedl, Martin Held, and Stefan Huber</i>	
Voronoi Diagrams from (Possibly Discontinuous) Embeddings .....	47
<i>Mario Kapl, Franz Aurenhammer, and Bert Jüttler</i>	

## **Applications I**

Common Influence Region Queries .....	53
<i>Marta Fort and J. Antoni Sellàrès</i>	
Spatio-temporal Map Generalizations with the Hierarchical Voronoi Data Structure .....	63
<i>Darka Mioc, François Anton, Christopher M. Gold, and Bernard Moulin</i>	

## **Applications II**

Centroidal Voronoi Tessellation of Streamlines for Flow Visualization .....	75
<i>Wenjie Liu, Lin Lu, Bruno Lévy, Chenglei Yang, and Xiangxu Meng</i>	
Anomaly Occurrences in Quasi-triangulations and Beta-complexes .....	82
<i>Donguk Kim, Youngho Cho, and Deok-Soo Kim</i>	
Open Problem: A Formula for Calculation of the Voronoi S-region Volume .....	89
<i>Nikolai Medvedev and Vladimir Voloshin</i>	
<b>Author Index .....</b>	<b>91</b>
