2013 IEEE International Conference on Teaching, Assessment, and Learning for Engineering

(TALE 2013)

Bali, Indonesia
26-29 August 2013

IEEE Catalog Number: CFP13TAL-POD
ISBN: 978-1-4673-6353-2

TABLE OF CONTENTS

Steps to Increase Student Engagement and Retention in First Year Engineering 1
C. Watterson, W. Browne, D. Carnegie,

From Traditional Learning into e-Learning: Comparing Students Response To Promote e-learning in College Education 7
H. Sarjono, S. Candra, N. Setiadi

Influence Factors on the Content Quality of Learning Management System: A Case Study in a Secondary School 12
C. Yang, L. Chien, H. Kuo, C. Chang

Extraction of Relationships Between Page Transition and Understanding for Contents 18
E. Watanabe, T. Ozeki, T. Kohama

Increasing Participation From Underrepresented Minorities in STEM Through Robotics Clubs 24
T. Yuen, L. Ek, A. Scheutze

Learning the Basics of Microcontroller Starter Kit Boards AVR (eSnack) 29
B. Purahong

Empowering Communities On Line 37
S. Martin, M. Castro, D. Gago, D. Torres

PMBOK Simulator for Acquiring Decision Making Competencies in Project Management Education 41
Y. Tachikawa, T. Nakamura

Implementing a Sustainable Methodology for Assessment of Course Outcomes and Program Outcomes in an Indian Engineering Institute 51
R. Mahadevan, N. Shivaprakash, N. Khobragade, K. Raju, V. Rao

Developing Assessment Criteria for Portfolio Assessed Introductory Programming 55
A. Cain

Improving Retention Rates at First Year for Modern Engineering Students 61
D. Carnegie, C. Watterson

Examining Student Progress In Portfolio Assessed Introductory Programming 67
A. Cain, C. Woodward, S. Pace

A Rubric to Evaluate Learning Management Systems 73
V. Ramesh, C. Ramanathan

Do Ethics Courses Make Engineering Students More Ethical? 78
I. Skinner, G. Bushell

The Rolling Discussion Technique for Engineering Design Activities 83
S. Jin, Y. Lee, C. Nam

Roles and Effects of Activities of a Student Project Team in Engineering Education for University Students in Lower Grades 87
M. Hasegawa

Analysis and Design of Learner Quanta Graph Properties for Efficient Query Processing in an Adaptive Dynamic Courseware 91
K. Halder, N. Chaki, R. Dasgupta

Development of a Training Mode with Enterprise Cooperation Project for Professional Master 95
X. Zhao, M. Ling, Y. Xu, L. Zheng

Use Data Warehouse and Data Mining to Predict Student Academic Performance in Schools: A Case Study (Perspective Application and Benefits) 98
Y. Kurniawan, E. Halim

Helping Students Track Learning Progress Using Burn Down Charts 104
C. Woodward, A. Cain, S. Pace, A. Jones, J. Kupper

Teaching Mathematics to Electrical Engineering Students By Electrical Engineering staff in College of Technology in Japan 110
M. Tokuda, A. Fujimoto, T. Mori, T. Sakuma

Tutoring Actions Based on Learning Portfolio for Writing Assignments in Engineering 115
F. Tobajas, A. Morales, V. De Armas

Students' Perception on the Use of Visual Tilings to Support Their Learning of Programming Concepts 121
H.Liang, C. Fleming, J. Morey, K. Sedig, K. Man

Anomalies Detection in Evaluation of Essay Type Answers by Multiple Evaluators 127
A. Shukla, B. Chaudhary

A Practical Approach of Revitalizing K-12 Education in 21st Century 136
A. Samineni, M. Mohan S, B. Murari
A Metacognitive Learning Organizer To Introduce Learning Strategies for PLE Users And SRL Students: Integration of KWL Learning Strategy 141
M. Vázquez, M. Nistal
Rethinking Practices of Assessment for Learning: Tablet Technology Supported Assessment for Learning Mathematics 155
G. Isabwe, F. Reichert, M. Carlsen
Knowledge Representation for Potential Field of Study Recognition 160
S. Mappe, P. Wongthongtham
EDUOUTREACH: A Suite of Business Processes for Online Teaching 169
A.Prabhakar
Integrating VHDL into an Undergraduate Digital Design Course 172
R. Rodriguez-Ponce, J. Rodriguez-Resendiz
Biotronic Engineering Curriculum Design: Integrating Electronic Engineering and Applied/Health Sciences 178
H. GholamHosseini, K. Prasad
Mobile Apps for Water Quality Simulation 182
S. Teh, H. Koh
The Development of Knowledge Management System Model in XYZ Corporation 188
J. Mulyono, H. Harisno, C. Kristianto
Learning Black Scholes Option Pricing The Fun Way Via Mobile Apps 192
H. Koh, S. Teh
Electrical Safety in Engineering Education: Teaching Strategies for Postgraduates 196
J. Ravishankar, S. King
Sparking the Next Generation: Exposing, Engaging and Enrolling Students in Electrical Engineering 201
P. Allen, J. Epps, J. Ravishankar
The Development of an ID model for Collaborative Learning in Mobile Learning Environments 207
C. Nam, S. Jang
Hands-On Learning of Cooperation Technology: Combining Knowledge Construction and Reflection 213
M. Fominykh, E. Prasolova-Førland, M. Divitini, S. Petersen
Explorative Learning and Visualization Environment for Teaching Embedded Systems in Higher Education 219
S. Jaschke, S. Büchner, S. Schubert
Case Study Methodology in Technology-Focused Information Systems Courses: Examining the Students' Perspective 223
I. Baumgartner
A First Introduction to Programming for First-Year Students at a Chinese University Using LEGO MindStorms 233
H. Liang, C. Fleming, K. Man, T. Tillo
Building a Smart Laboratory Environment at a University Via a Cyber-Physical System 243
C. Lei, H. Liang, K. Man
Building Learning Objects With Information Object Model 248
Y. Huang, S. Tsai, G. Huang, U. Dai, C. Wen, H. Jiau
Strategies For Teaching Confusing Topics in Mathematics: A Case Study 254
I. Faye, M. Nayan
Engineering Project-Based Learning Under the CDIO Concept 258
K. Takemata, A. Kodaka, A. Minamide, S. Nakamura
A Meta-Analysis of Critical Success Factors Affecting Mobile Learning 262
M. Alrasheedi, L. Capretz
Assessing Creativity Skill Development in Art and Design Among Undergraduate Students: Implementing Creative Potential Simulation Software to Capture Creativity-Relevant Personal Characteristics 268
N. Setiadi, I. So, Suprayitno
Algorithm Element Controllable Tool for Algorithmic Thinking Learning: Suitable Algorithm Elements Defined by Teacher 273
M. Kayama, T. Nagai, H. Kunimune, M. Niimura, R. Kayatsu, Y. Fuwa
Hands-On Experience-Based Microelectronics Manufacturing Engineering Education 277
S. Hong, T. Ha
Collaborative Learning in Action 283
B. Hirsch, G. Hitt, L. Powell, K. Khalaf, S. Balawi

Using Social Network Technology as a Peer- Mediated Learning Tool in a Computer Course 289
F. Lin, D. Lin
Effectivity Analysis of Approaches to Creativity Education for Engineering Students 295
J. Han, S. Kim
Obtaining University Practical Competences in Engineering by Means of Virtualization and Cloud Computing Technologies 301
A. Caminero, R. Hernández, S. Ros, L. Tobarra, A. Robles-Gómez, E. San Cristóbal, M. Tawfik, M. Castro
Introducing Hands-On Experience to a Massive Open Online Course on OpenHPI 307
C. Willems, J. Jasper, C. Meinel
Enhancing a Virtual Security Lab With a Private Cloud Framework 314
D. Moritz, C. Willems, M. Goderbauer, P. Moeller, C. Meinel
Meuruno: An SMS-based Learning System That Nudge Students to Review Previously Taught Materials 321
R. Dawood, S. Muchallil, K. Munadi
Improving the Teaching of Computer Networks Through the Incorporation of Industry Based Training Courses 325
R. Matusa, L. Butkus, T. Krilavicius, K. Man, H. Liang
Investigation on Function Extension of Extensible Learning Support System Architecture to Group Learning Environment 335
K. Nakabayashi, Y. Morimoto
The Influence of Learning Model Towards Student Academic Achievements in the Management Department, School of Business Management and Information System, at Bina Nusantara University 344
Titan, Harisno
Cultivating Design-Thinking in Freshmen: The Evolution of the KU Freshman Design Course 350
S. Balawi, G. Hitt, K. Khalaf, B. Hirsch, L. Powell
Developing a New Course on Energy Storage Systems: Introducing Energy Challenges for Next-Generation Engineers 354
G. Choi, S. Park
GLSA Based Online Essay Grading System 358
A. Ratna, H. Artajaya, B. Adhi
Implementation of Constructive Alignment Approach in Department of Electronic Engineering, Faculty of Engineering, Universiti Malaysia Sarawak 362
D. Salleh, A. Lit, K. Lias
Exploring Students' Perceptions of Learning Management System: An Empirical Study Based on TAM 367
W. Goh, J. Hong, W. Gunawan
Developing Methodologies for the Presentation of Graphical Educational Material in a Non-Visual Form for Use by People with Vision Impairment 373
N. Mohammadi, I. Murray
Method of Measuring Doppler Shift of Moving Targets Using FMCW Maritime Radar 378
W. Sediono
Promoting Holistic Education Through Design of Meaningful and Effective Assignments in Sustainable Engineering 382
P. Balan, G. Manickam
A Mobile Virtual Environment Game Approach for Improving Student Learning Performance in Integrated Science Classes in Hong Kong International Schools 386
T. Wang, D. Towey
BeA: Management of Handwritten Exams on the Cloud 389
M. Llamas-Nistal, J. González-Tato, M. Caeiro-Rodríguez, M. Manso-Vázquez
Short MATLAB Introductory Laboratory for Electronic Engineering Undergraduate Students: A Three Weeks Hands-on Syllabus: A Case Study 400
H. Ibrahim
Developing Educational Smart Grid Laboratory: Part 1: Upgrading Stage 404
A. Gaouda, A. Abd-Rabou, A. Dahir
Web-Based Smith Chart Learning Helper: A Guessing Game for Quarter-Wavelength Transformer 410
C. Huang, Y. Pang, K. Tsai
Bringing Signal Processing to High School Students – A Novel Gravity Measurement Experiment 419
E. Aboutanios
Visiting a Milk Factory Without Gumboots: Students' Attitudes Towards a Virtual Field Trip 423
E. Rahim, A. Dünser, K. Unsworth, A. Mckinnon, M. Billinghurst, P. Gostomski, A. Herritsch
An Adaptive Learning System Using Plug and Play Ontologies 429
S. Heiyanthuduwage, R. Schwitter, M. Orgun

Framework to Reduce Cycle Time for Enchancing Productivity in Associates 435
J. Reddypogu, P. Shankar, S. Kumar
An Interactive Web-based IDE Towards Teaching and Learning in Programming Courses 439
H. Tran, H. Dang, K. Do, T. Tran, V. Nguyen
Improving Digital Electronics Education with FPGA Technology, PBL and Micro Learning Methods: A Case Study From FPGA Based Digital Electronics Education Project (FPGA_b_DEEP) 445
V. Kiray, S. Demir, M. Zhaparov
Project Based Learning of Entrepreneurship in Electrical Engineering Curriculum 449
Linawati
Facilitating Teachers in Developing Online PBL Courses 454
Y. Miao, M. Samaka, J. Impagliazzo
Impact of Tertiary Studies on Development of Students' Generic Competencies: A Case Study of Associate Degree Graduates in Hong Kong 466
J. So, S. Lam, Y. So
A Case Study of Generic Competencies Among Science and Technology Tertiary Graduates in Hong Kong 472
J. So, S. Lam, Y. So
Using Mobile Technology to Enhance Teaching Reconfigurable Systems 478
I. Skliarova, V. Sklyarov, A. Sudnitson, M. Kruus
Assessment of Ph.D (Technology) Quality in Indian Universities:AHP Based Decision Model. 484
B. Dey, J. Mehedi, R. Dey
Journaling and Sketching in Support of Formative Learning in Engineering 490
L. Bernold
Do "Slow Learners, Pre-School Children" Learn Number More Effectively With SOBATAKA? 495
N. Rosmin, F. Rosmin, A. Musta'amal
Innovative Workflow for Accreditation Process to Ensure Quality Engineering Education in India. 507
U. Kulkarni, K. Shindhe
Design and Development of a Low-Cost Student Experiments for Teaching ARM Based Embedded System Laboratory 515
A. Kommu, R. Kanchi, R. Varadarajula
Modeling an E-Learning Tool to Cultivate Critical Thinking in Students Based on Information Needs and Seeking Behavior 521
M. Haghparast, N. Hanum, N. Abdullah
Mnemonic Phrase Generation Using Genetic Algorithms and Natural Language Processing 527
J. Mountstephens
Rubric Based Assessment Plan Implementation for Computer Science Program: A Practical Approach 551
M. Dawood, K. Buragga, A. Khan, N. Zaman
Advancements in Using a Machine Design Project for Teaching Introductory Electrical Engineering 556
C. Lei, H. Liang, K. Man
Rule-Based Systems Made Easy With Battleship Games: A Well-Received Classroom Experience: Combination of Activity-Based and Cooperative Learning in a Competitive Environment 560
A. Srisuphab, P. Silapachote
Evaluating Multiple Choice Items In Determining Quality of Test: Mathematics Engineering Subject 565
A. Aziz, T. Salleh
Enhancing VHDL Learning Through a Light-Weight Integrated Environment for Development and Automated Checking 570
A. Kumar, R. Panicker, A. Kassim
Professional Practice Competencies in a Work- Integrated Learning Course: Assessing Critical Reflection 576
G. Jenkins
A Penalty Scheme for Academic Dishonesty 580
M. Awad, B. Zogheib, H. Alazemi
Monitoring of Laboratory Work Problem Based Project Implementation 585
R. Hamid, S. Baharom
MATLAB GUI for Digital Communication System with Tone Jamming 589
T. Mathumisaranon, P. Chayratsami
Experience Integration in Different Student Competitions: In Engineering Education 593
K. Woo, C. Leung
Automated Marking for Interactive Exercises on Heuristic Search Algorithms 598
F. Grivokostopoulou, I. Hatzilygeroudis

Quantitative Models and Software Architecture, Facing Student Desertion and Permanence 604
J.Gama, M. Arteaga, R. Buritica, A. Quinche, A. Gaitan, A. Mena, L. Cubides, J. Serrato, G. Gómez
MAKE: A Framework to Enhance Metacognitive Skills of Engineering Students 612
S. Chopra, P. Shankar, S. Kummamuru
Predicting Student Placement Class Using Data Mining 618
O. Pratiwi
Handmade Bone Phantom as Educational Media for Image Processing Studies 622
M. Rizqie, W. Adiprawita, T. Mengko
Determinants of the Best Practices on Practicum Programs in Engineering Courses of Selected Higher Education Institutes in the Phillipines 626
R. Canlas, M. Borja, L. Macapagal, E. Hinojales
Disruptive Engineering Training and Education Based on the Internet of Things 632
P. Kane, M. Duda, S. Farrell, J. Jeffords, T. Kimsey, A. Rucinski, M. Simon, J. Zhong
Let the Students Publish 637
T. Fuhrmann
Monitoring of the Teaching-Learning of Computer Architecture Based on Skills, Learning Styles and Semantic Elements 641
H. Gómez A, S. Arias T, P. Torres, J. García
Innovation Abilities: A Learning Model for Innovators to Create Business Impact 652
S. Koushik K S
An Overview of System Architectures for Remote Laboratories 661
A. Maiti, A. Maxwell, A. Kist
Design and Assessment of an Algorithm Learning Tool for High School Computer Science 667
A. Avancena, C. Kondo, A. Nishihara
Performance Evaluation of Network Architectures for Collaborative Real-Time Learning Systems 673
A. Kist, A. Maiti, A. Maxwell, L. Orwin
The Role of Engineering PhD Towards Development of Teachers in Higher Education 679
A. Rauf
Game Based Learning Vs. Gamification From the Higher Education Students' Perspective 683
U. Jayasinghe, A. Dharmaratne
Game-Based Learning App Based on Google PlayN 695
N. Uddin, E. Gaspar
Agile Development Spikes Applied to Computer Science Education 699
C. Woodward, J. Montgomery, R. Vasa, A. Cain
Hardware Design Education for Short Term with High Abstraction Level of the Behavior Description Language 705
T. Kajihara, N. Shimiz
The Knowledge Kaleidoscope: An Insight Into Blended Learning 711
D. Munesh
Modelling of Child Psychology Tests Based Game Learning 715
Z. Zainuddin, I. Ihsan
The Integrated Gaze, Web and Object Tracking Techniques for the Web-Based E-learning Platform 720
C. Kao, Y. Huang, K. Fan, H. Chen, W. Chung, B. Hwang, C. Hsieh
C3(Creativity, Capability, and Challenge) Activities of Innovation Center for Engineering Education 725
J. Lim, S. Kim, C. Lee
Short-Term International Business Travel's Effectiveness for Expatriate Training 729
Y. Zhou
Equipping Engineering Students With Global Skills: Developing Global Minds Through University Life 733
A. Danielewicz-Betz, T. Kawaguchi
E-Lerning Concept Design Of Rijndael Encryption Process 737
Z. Zainuddin, E. Manullang
Development of A New Biomedical Engineering Education Program at Institut Teknologi Bandung 742
S. Tjondronegoro, S. Soegijoko
Faculty Assessment System With Collective Collegial Leadership Approach for Increasing Academic and Research Culture Progressively 746
N. Adriansyah, T. Wirayuda, B. Nugroho, A. Hanuranto
A New Approach to Programming Language Education for Beginners with Top-Down Learning 752
D. Saito, T. Yamaura
Assessing Research Performance Based on Publication Output: Case of Science Technology and Social Science Faculty 756
R. Jalil, S. Salleh, S. Sulaiman, Z. Mohamed, Z. Tasir

Skills of Engineers in Knowledge Based Economies: A Comprehensive Literature Review, and Model Development 759
M. Abdulwahed, W.Balid, M. Hasna, S. Pokharel
Towards Research-Oriented Teaching/Learning for International Students in Telecommunications Engineering 766
X. Hei, W. Liu, W. Cheng
Evaluation of E-Learning Application System Performance Based on the Users' Perceptions: Case Study at Bina Nusanata University 772
Diana, Suharjito
Enabling Effective Synoptic Assessment Via Algorithmic Constitution of Review Panels 776
N. Silva, S. Weerawarana, A. Perera
Towards a Minimalist Approach to Lesson Planning of an Introductory Database Course 782
A. Kwan
Engineering the Civil Engineering Education: A Capstone Case Study in a Malaysian University 791
N. Zawawi, M. Liew, K. Na, H. Idrus
To Speak Like an Engineer: Communicative Competence in Technical Oral Presentations Through the Lens of Students and Industry Practitioners: Competence in Technical Oral Presentations 796
E. Bhattacharyya, H. Idrus
Self-Efficacy in English Language Oral Communication Skills of Technical Trainees 800
H. Idrus, R. Salleh, R. Ali, W. Hassan
Measurement of Students' Understanding in Final Examination of Statics and Dynamics Course Using Rasch Measurement Model 805
S. Osman, M. Khoiry, W. Badaruzzaman, A. Mutalib
Contemporary Enlightenment and Positive Psychological Effects of Discourses in University Classes 811
K. Soetanto
