

# **2013 19th International Conference on Automation and Computing**

**(ICAC 2013)**

**London, United Kingdom  
13 – 14 September 2013**

**IEEE Catalog Number: CFP1360R-POD  
ISBN: 978-1-4799-1236-0**

# Table of Contents

## Keynote

Morphogenetic self-organisation of swarm robots for adaptive pattern formation.....1  
*Professor Yaochu Jin of Surrey University*

## Session A – 1 Control Applications 1

*Chair: Jihong Wang & Taicheng Yang*

Bayesian recursive filtering with partially observed inputs and missing measurements.....2  
*Jinya Su, Baibing Li and Wen-hua Chen, Loughborough University*

Dynamic matrix model predictive control of coal feeder speed ..... 8  
of a supercritical power plant  
*Mihai Draganescu, Shen Guo, Jacek Wojcik, Jihong Wang, University of Warwick,  
Yali Xue and Qirui Gao, Tsinghua University,  
Xiangjie Liu and Guolian Hou, North China Electric Power University*

A constrained optimization approach to dynamic state estimation.....14  
for power systems including PMU measurements  
*Liang Hu, Zidong Wang, Izaz Rahman and Xiaohui Liu, Brunel University*

H-Infinity state estimation for discrete-time systems with fading.....20  
measurements and randomly varying nonlinearities  
*Derui Ding, Zidong Wang, Hongli Dong and Bo Shen, Brunel University*

Adaptive backstepping control of linear motor based.....26  
on maxwell slip model of friction  
*Marcin Jastrzębski and Jacek Kabziński, Institute of Automatic Control*

## Session A – 2 System Diagnosis

*Chair: Fengshou Gu & Kary Thanapalan*

The real-time implementation of envelope analysis for bearing.....31  
fault diagnosis based on wireless sensor network  
*Guojin Feng, Mustafa Aliwan, University of Huddersfield  
James Xi Gu, Manchester Metropolitan University  
Dong Zhen, Fengshou Gu, Andrew Ball, University of Huddersfield*

Dispersion behavior of torsional guided waves in a small.....37  
diameter steel gas pipe  
*Bahareh Zaghari, Victor Humphrey,  
Mohamed Moshrefi-Torbati, University of Southampton Southampton*

Techniques for estimating the VRLA batteries ageing, degradation.....43  
and failure modes  
*Alessandro Mariani, Kary Thanapalan, University of South Wales*  
*Peter Stevenson, Yuasa*  
*Jonathan Williams, University of South Wales*

Development of an OCV prediction mechanism for lithium-ion.....48  
battery system  
*Thomas Stockley, Kary Thanapalan, Mark Bowkett,*  
*Jonathan Williams, University of South Wales*

The influence of vehicle tyres pressure on the suspension system response.....54  
by applying the time-frequency approach  
*Moamar Hamed, Belachew Tesfa, Fengshou Gu, Andrew Ball,*  
*Mustafa Aliwan, University of Huddersfield*

### **Session A – 3 Network Applications**

*Chair: Hongnian Yu & Qingde Li*

Challenges in mobile localisation in wireless sensor networks for.....60  
disaster scenarios  
*Shuang Gu, Yong Yue, Carsten Maple, Chengdong Wu,*  
*Beisheng Liu, University of Bedfordshire*

Fuzzy logic based packet scheduling algorithm for mobile.....66  
ad-hoc network with a realistic propagation model  
*Oche Egaji, Alison Griffiths, Mohammad Hasan, Staffordshire university*  
*Hong Yu, University of Bournemouth*

A novel symmetric key cryptographic authentication for cooperative.....72  
communication in cognitive radio networks  
*Munam Shah, Sijing Zhang, Carsten Maple,*  
*Omair Shah, University of Bedfordshire*

Cognitive radio networks for internet of things: applications.....77  
challenges and future  
*Munam Shah, Sijing Zhang, Carsten Maple, University of Bedfordshire*

Large scaled multi-users mimo systems so called massive mimo systems.....83  
for future wireless communication networks  
*Yasir Mehmood, NUST Islamabad*  
*Umair Younas, Comsats University Abbottabad*  
*Ikram Mehmood, Brunel University*  
*Waseem Afzal, Muhammad Ali Jinnah University Islamabad*  
*Farhan Ahmad, Bremen University, Imran Rashid, NUST Islamabad*

## **Session A – 4 Manufacture Systems 1**

*Chair: Jinsheng Kang & Yanmeng Xu*

- A Study of Flexible Supercapacitors for Future Energy Storage.....87  
*Ruirong Zhang, Yanmeng Xu, David Harrison, John Fyson,  
Fulian Qiu, Brunel University  
Darren Southee, Loughborough University*
- Full Beam Atomic Force Microscopy.....91  
*Umar Khan, Mark French, Harold Chong, University of Southampton*
- Research on Engineering Change Knowledge Representation and.....97  
Retrieval Technology Based on Ontology  
*Zhen Wang, Yi Wan, Shandong University*
- Application of JACK on Evaluate of the split Seat chair.....102  
*Jinsheng Kang, Qing TAO (Brunel University)*
- User-defined Driving-System Design Concepts for Elderly Drivers.....108  
*Sebin Jung, General Motors Korea, Shengfeng Qin, Brunel University*

## **Session P1 – 1 Control Applications 2**

*Chair: Wen-hua Chen & Christoforos Economou*

- Moving object tracking in support of unmanned vehicle operation.....114  
*Runxiao Ding, Wen-hua Chen, Loughborough University*
- Fast data fusion algorithm for building navigation base in formation flying.....120  
*Runle Du, Jiaqi Liu, Zhenhong Niu, Zhifeng Li,  
Zhiye Jiang, National Key Lab of Sci & Tech,*
- Modeling and Interactional Control of the Multifingered Hand.....126  
*Rakibul Hasan, Queen Mary, University of London  
Akbar Rahideh, Shiraz University of Technology  
Hasan Shaheed, Queen Mary, University of London*
- Fast control algorithm for digital camouflage spraying robot.....132  
*Miao Chu, Shaohui Tian, Xiaochun Pan, Northwestern Polytechnical University,*
- Rapid prototyping of digital controllers using fpgas and ESL/HLS.....137  
design methodologies  
*Christoforos Economakos, Technological Educational Institution of Sterea Ellada  
Harry Sidiropoulos, George Economakos, Nat.Tech. University of Athens*

## **Session P1 – 2 Condition Monitoring**

*Chair: Zidong Wang & Philip Cross*

- Model-based condition monitoring for wind turbines.....143  
*Philip Cross, Xiandong Ma, Lancaster University*

Fault detection and isolation for open-loop chylla-haase.....	150
polymerization reactor	
<i>Abdelkarim Ertiame, Dingli Yu, Barry Gomm, Liverpool John Moores University</i>	
Fault detection and isolation based on feedforward-feedback.....	156
control for oxygen excess of fuel cell stack	
<i>Mahanijah Md Kamal, Dingli Yu, Liverpool John Moores Universi</i>	
Finite-horizon estimation of randomly occurring faults for discrete.....	161
Time-Varying Systems	
<i>Hongli Dong, Northeast Petroleum University,</i>	
<i>Zidong Wang, Brunel University</i>	
<i>Bo Shen, Donghua University</i>	
A structural equation model for predicting virtual enterprise and agile.....	167
supply chain relation	
<i>Ariunbayar Samdantsoodol, Staffordshire University</i>	
<i>Shuang Cang, Hongnian Yu, Bournemouth University</i>	
<i>Angarag Tumur-Ochir, Mongolian University of Science and Technology</i>	

### **Session P1 – 3 Computer Vision**

*Chair: Jing Wang & Qingde Li*

High order edge-aware texture filter design using PSP-splines.....	173
<i>Qingde Li, University of Hull</i>	
<i>Zongxiang He, Anhui Normal University</i>	
Texture-based segmentation for extracting image shape features.....	179
<i>Jing Wang, Zhijie Xu, University of Huddersfield</i>	
<i>Ying Liu, Xi'an University of Post and Telecommunications</i>	
Spatio-temporal volume-based shape modelling for video event detection.....	185
<i>Jing Wang, Zhijie Xu, University of Huddersfield</i>	
<i>Ying Liu, Xi'an University of Post and Telecommunications</i>	
A framework for feature based dynamic intra-video indexing.....	191
<i>Muhammad Nabeel Asghar, Fiaz Hussain, Rob Manton,</i>	
<i>Muhammad Nabeel Asghar, University of Bedfordshire</i>	
Inter-turn short circuit detection based on modulation signal.....	197
bispectrum analysis of motor current signals	
<i>Ahmed Alwodai, Fengshou Gu, University of Huddersfield</i>	

### **Session P1– 4 Manufacture Systems 2**

*Chair: Abhinivesh Beechook & Tahsin Opoz*

Multivariable optimisation on a homogeneous charge Microwave Ignition System.....	203
<i>Lutz-Christoph Schöning, Yun Li, University of Glasgow</i>	

Establishing large-scale wind turbine blade cad model based.....	208
on reverse engineering	
<i>Wenlei Sun, Xinjiang University</i>	
<i>Qing TAO, Jinsheng Kang, Brunel University</i>	
<i>Xiaoqiu zhuang, Animal Science Academy Xinjiang Uygur autonomous region</i>	
Design and Implementation of an Optimal Battery Management.....	212
System for Hybrid Electric Vehicles	
<i>Mark Bowkett, Thomas Stockley, Kary Thanapalan, Jonathan Williams,</i>	
<i>Mark hathway, University of South Wales</i>	
Aerodynamic analysis of variable cant angle winglets.....	217
for improved aircraft performance	
<i>Abhinivesh Beechook, Coventry University</i>	
<i>Jian Wang, Kingston University</i>	
Acoustic emission features of material removal during single grit scratching.....	223
<i>Tahsin Opoz, Xun Chen, Liverpool John Moores University</i>	
Integration approach of mechatronics system in PLM systems.....	229
<i>Housseem Abid, Jean-Pierre Campagne, Didier Noterman, Chokri Benamar,</i>	
<i>Philippe Pernelle, INSA LYON</i>	
 <b>Session P2 – 1 Control Applications 3</b>	
<i>Chair: Baibing Li</i>	
Compilation method for control program based on event graph method.....	235
<i>Zhong Chong-quan, Chen Chen, Dalian University of Technology</i>	
<i>Wu Wen-yan, Staffordshire University</i>	
RBF model based predictive control for exothermic semi-batch polymerizations.....	241
<i>Magdi Nabi, Dingli Yu, Liverpool John Moores University</i>	
Dynamic modelling and simulation study of Texaco gasifier in an IGCC process.....	246
<i>Yue WANG, Jihong Wang, University of Warwick</i>	
<i>Junfu Lv, Qirui Gao, Tsinghua University</i>	
Development of a simulation model of a windshield wiper.....	252
system for hardware in the loop simulation	
<i>Mark Dooner, Jihong Wang, University of Warwick</i>	
<i>Alexandros Mouzakitis, Jaguar Land Rover</i>	
An external consensus protocol design for heterogenous multiply.....	258
processes with predictive control scheme	
<i>Nurul Mohd Subha , Guo-ping Liu, University of South Wales</i>	

## **Session P2 – 2 Information Systems**

*Chair: Jia Jiang & Lichen Zhang*

The definition, research scope and challenges of creative computing.....	264
<i>Lu Zhang, Bath Spa University, Hongji Yang, DMU</i>	
Modeling railway cyber physical systems based on AADL.....	270
<i>Lichen Zhang, Guangdong University of Technology</i>	
Multi-view approach to model aerospace cyber-physical systems.....	276
<i>Lichen Zhang, Guangdong University of Technology</i>	
Towards designing an intelligent movie therapy system.....	282
for mental disease treatment	
<i>Jia Jiang, Yingmei Wang, Nanjing University of Information Science and Technology</i>	
<i>Hongji Yang, DMU</i>	
An investigation on energy recovery analysis of active suspension system.....	287
<i>Ruichen Wang, Van Tung Tran, Fengshou Gu, Andrew Ball, University of Huddersfield</i>	
<b>Author Index</b> .....	293
