

# **2013 Symposium on Computing and Automation for Offshore Shipbuilding**

**(NAVCOMP 2013)**

**Rio Grande, Brazil  
14-15 March 2013**

**IEEE Catalog Number: CFP1378W-POD  
ISBN: 978-1-4799-2244-4**

# 2013 Symposium on Computing and Automation for Offshore Shipbuilding

## NAVCOMP 2013

### Table of Contents

Message from the Chairs.....	vii
Program Committee and Reviewers.....	viii

---

#### Technical Papers

Polynomial Models Identification Using Real Data Acquisition Applied to Didactic System .....	1
<i>André F.O.A. Dantas, Amanda D.O.S. Dantas, André L. Maitelli, Eridenes F. de Queiroz, Hortôni G.C.V. Freire, and Oscar G. Filho</i>	
Node Positioning for Industrial Wireless Networks Using Artificial Immune Systems .....	7
<i>Pedro Henrique Gouvêa Coelho, Jorge Luis Machado do Amaral, José Franco Machado do Amaral, Luciane Fernanda de Arruda Barreira, and Adriano Valladão de Barros</i>	
Identification of Hydrodynamic Derivatives from AUV “Pirajuba” Using Extended Kalman Filter .....	11
<i>André Ricardo Mendonça Pinheiro and Ettore Apolônio de Barros</i>	
Identification of AUV’s Manoeuvrability Using the Nomoto’s First Order Equation .....	17
<i>William da Silva Caetano and Ettore Apolônio de Barros</i>	
Data Analysis Module for WirelessHART Network Planning .....	23
<i>Felipe Marcos Dalssoto, Ramon Hugo de Souza, and Leandro Buss Becker</i>	
WirelessHART Field Device with Integrated Network Analyzer .....	29
<i>Alexandre Lorençato, Ivan Müller, Jean Winter, Gustavo Kunzel, Carlos Eduardo Pereira, and João Cesar Netto</i>	
Supporting Model-Driven Requirements Management in the Embedded Systems Domain .....	34
<i>Eliane Siegert, Milena Rota Sena Marques, and Lisane Brisolara</i>	
Technology Mapping of the Underwater Sensor Networks by Patent Documents Using Two Commercial Software .....	40
<i>Arthur Aprigio de Melo, Patricia Carvalho dos Reis, and Girlene Lima Ribeiro</i>	

State of the Art about Multiagent Systems Application on Naval, Offshore and Subsea Industry .....	46
<i>Eder Mateus Nunes Gonçalves</i>	
Real-Time Depth Estimation for Underwater Inspection Using Dual Laser and Camera .....	52
<i>Paulo Drews Jr., João Longui, and Vagner Rosa</i>	
A Pneumatic Robotic System for Inspection of Underground Electrical Conduit .....	57
<i>A.F. Núñez, F.F. Veiga, M.M. Gonçalves, F.P. Teixeira, A.C. Horn, E.S.D. Estrada, and S.S.C. Botelho</i>	
Linear-Time Computation of Segment-Based Stereo Correspondence .....	63
<i>Vilson Heck Jr. and Marcelo Ricardo Stemmer</i>	
Experiences in Image-Based 3D Reconstruction of Underwater Environments .....	69
<i>Vinícius César, Thiago Farias, Marcio Bueno, and Judith Kelner</i>	
Plankton Detection and Tracking Using Frequency Filtering .....	75
<i>Damian J. Matuszewski and Rubens M. Lopes</i>	
Utilization of Hyper Environments for Tracking and Monitoring of Processes and Supplies in Construction and Assembly Industries .....	81
<i>Marcos André do Amaral Bichet, Eduardo Kenji Hasegawa de Freitas, Ricardo Solé Rocha, André Núñez, Greyce Nogueira Schroeder, Rafael Augusto Penna dos Santos, and Silvia Silva da Costa Botelho</i>	
Underwater Visual 3D SLAM Using a Bio-inspired System .....	87
<i>Felipe Albring Guth, Luan Silveira, Marcos Amaral, Silvia Botelho, and Paulo Drews Jr.</i>	
Mobile Advanced Visualization Applied to Oil and Gas Industry Systems .....	93
<i>Danúbia Espíndola, Bernardo Silva, Átila Weis, Silvia Botelho, and Carlos Eduardo Pereira</i>	
<b>Author Index</b> .....	<b>99</b>
