

# **2013 IEEE 9th International Conference on Emerging Technologies**

**(ICET 2013)**

**Islamabad, Pakistan  
9 – 10 December 2013**

**IEEE Catalog Number: CFP13617-POD  
ISBN: 978-1-4799-3458-4**

# Table of Contents

## Automation, Control Systems and Mechatronics

Stability Regions of Fractional-Order $Pi^{\alpha}d^{\beta}$ Controllers with Dead-Time Plant .....	01
Constraint Optimization of Dead-time Processes Using Smith-Predictor .....	06
Development of an On-board Diagnostic (OBD) Kit for Troubleshooting of Compliant Vehicles .	11
RFDF Design for a Class of Time Delay Systems with Unknown Inputs and Parameter Uncertainties Using Bicausal Transformation .....	15
Exhaust Plume Flow Visualization for Qualitative Analysis of Engine Combustion Performance .	21
Fault Tolerant Control Using Event Based Switching .....	27
Actuator Fault Diagnosis and Isolation in Vehicle Active Suspension System.....	33
Robust Control of UAVs Using H Infinity Control Paradigm.....	39
Fuzzy PI-Controller with Self Tuning Scaling Factors.....	44
Digital Phase Locked Loop Design Using Discrete Time Sliding Mode Loop Filter .....	49
Wavelets Based Recurrent Adaptive NeuroFuzzy Approach for Active Full Car Suspension Control .....	55
Online Adaptation of Rotor Parameters Using Fuzzy Logic in Indirect Field Oriented Vector Control of AC Induction Drives.....	61

## Informatics

Evaluation of ANN, LDA and Decision Trees for EEG Based Brain Computer Interface .....	67
Identification of Crosstalk in Insulin Pathway Using Pathway Logic .....	73
An Experiment in Automatic Content Generation for Platform Games .....	79
Prediction of Popular Tweets Using Similarity Learning .....	84
Data Analysis and Visualization Using Spectral Decomposition and Feature Selection .....	90
A Study of Thermodynamics and Bond Graph Modeling of Evaporation in Infant Incubator.....	96
Formal Approach for Compliance Rules Checking in Business Process Models.....	102

Document Similarity Detection Using Semantic Social Network Analysis on RDF Citation Graph .....	108
Knowledge Discovery in Hash-tags #.....	114
Discovery of Medical Experts .....	120

## **Electromagnetics and Optoelectronics**

A Wideband Power Divider for Microwave Applications.....	126
Wideband Dielectric Resonator Antenna for Wireless Applications.....	131
A Low Profile UWB Vertical Strip Monocone Antenna .....	135
L-Shaped Multiband Microstrip Patch Antenna for DCS and WLAN Applications.....	139
Design and Integration of Dual Band Textile Antenna with High Impedance Surface.....	144
Generation of Orthogonally Polarized Chaotic Waveforms for Secure Optical Communication ..	150
Compact Size EBG with Wider Band Gap and Scalable Features for Printed Antenna and Arrays.....	155
An Efficient Mechanism to Simulate DC Characteristics of GaAs MESFETs Using Swarm Optimization .....	160
Effects of Interfacial Layer on Submicron GaAs MESFETs Characteristics .....	165

## **Communication Techniques and Systems**

Visibility Statistics Based Unavailability Events Estimation Of FSO Link Due To Fog in Four Cities of Pakistan.....	171
Modulation Classification Based on Modified Kolmogorov-Smirnov Test .....	176
Analysis of Modulation Classification Techniques Using Goodness of Fit Testing .....	182
Non-Linear Trigonometric and Hyperbolic Chirps in Multiuser Spread Spectrum Communication Systems .....	188
A Comparative Analysis of Compact Antennae for WLAN Applications .....	194
Multi-Tone Carrier Technique for Signal Recovery from Collisions in UHF RFID with Multiple Acknowledgments in a Slot .....	200

## **Pattern Recognition, Computer Vision and AI**

Semi-supervised Image Classification with Huberized Laplacian Support Vector Machines.....	205
Classification of Colon Biopsy Images Based on Novel Structural Features .....	211

A study on Learning Multimode Image Patterns .....	217
Face Recognition with Expression Variation via Robust NCC .....	222
Exponential Discriminant Regularization Using Nonnegative Constraint and Image Descriptor ..	227
Particle Swarm Optimization Based Object Tracking Using HOG Features.....	233
A Global Non-parametric Sampling Based Image Matting.....	239
Compact Hardware Implementation of SHA-3 Finalist Blake on FPGA .....	245
<b>Power Systems and Alternate Energy Resources</b>	
Adaptive NeuroFuzzy Damping Control for Power System Stability Enhancement .....	250
Power System Stability Enhancement Using Adaptive NeuroFuzzy Control for UPFC.....	256
Widely Linear Matrix Pencil Based Frequency Estimation in Power Systems .....	262
<b>Software Engineering, Testing and Reliability</b>	
Computational Intelligence and Safe Reduction of Test Suite .....	267
Requirement Change Management for Global Software Development Using Ontology .....	273
A Fitness Function for Evolutionary Mutation Testing of Object-Oriented Programs.....	279
Formal Verification of Crossover Operator in Genetic Algorithms Using Prototype Verification System (PVS).....	285
Coupling Based Integration Testing: A Fitness Function .....	291
A Tool for Data Flow Testing Using Evolutionary Approaches (ETODF).....	297
An Automated Approach to Regression Testing of Web Services Based on WSDL Operation Changes.....	303
<b>Speech, Image, Video and Signal Processing</b>	
Chaos Based Invertible Authentication of Medical Images.....	308
Development of an Efficient System for Vehicle Accident Warning.....	313
Data-Reusing-Based Adaptive Algorithm for Active Noise Control of Impulsive Noise Sources	319
Region of Interest (ROI) Based Scalable Multiple Description Image Coding Using MDSQ-SR.	325
Comparison of Thermal and Visual Facial Imagery for use in Sparse Representation Based Facial Recognition System .....	330

## **Wireless, Mobile and Sensor Networks**

Dual U-Slot Triple Band Microstrip Patch Antenna for Next Generation Wireless Networks .....	334
A Log-Periodic Microstrip Patch Antenna Design for Dual Band Operation in Next Generation Wireless LAN Applications .....	340
Power Aware Implementation of Wideband Code Division Multiple Access (WCDMA) Based System for Mobile Consumer Devices in Adhoc Settings.....	345
Wideband E-Shaped Antenna Design for WLAN Applications.....	351
Lifetime Analysis and BER Performance Trade-off in Wireless Sensor Networks and Cooperative Wireless Networks.....	357
A Reliable Proxy Based Vertical Handover Mechanism between WLAN and EVDO Networks .	362
Shortest Path Tree Scaling Hierarchical Power Efficient Routing for Wireless Sensor Networks	367
Smart Trimming of Video from Edge, for Fine-Grained Adaptive Multicast .....	373
