

# **2014 Applications and Innovations in Mobile Computing**

**(AIMoC 2014)**

**Kolkata, India**

**27 February – 1 March 2014**

IEEE Catalog Number: CFP1496W-POD  
ISBN: 978-1-4799-3881-0

2014 International Conference  
on  
Application and Innovation in Mobile Computing  
AIMoC 2014

Table of Contents

Preface.....	vii
Committee Lists.....	viii
Program Committee.....	x

**Mobile Grid, Cloud, Opportunistic Networks**

Negotiation Based Service Brokering Using Game Theory .....	1
<i>Benay Ray; SunirmalKhatua; Sarbani Roy</i>	
Delay-Overhead Trade-Offs in Mobile Opportunistic Network using TTL based Restricted Flooding .....	9
<i>Suvadip Batabyal; Parama Bhaumik</i>	
ANGELS: A Framework for Mobile Grids .....	15
<i>Pubali Datta; Swarnava Dey; Himadri Sekhar Paul; Arijit Mukherjee</i>	
Resource Allocation in Cloud using Simulated Annealing.....	21
<i>Diptangshu Pandit; Samiran Chattopadhyay; Matangini Chattopadhyay; NabenduChaki</i>	
Mobile Cloud Computing Based Energy Efficient Offloading Strategies for Femtocell Network.....	28
<i>Anwasha Mukherjee; Payel Gupta; Debashis De</i>	

## Wireless Ad-hoc Networks and Applications

A Case Study on smart Surveillance Application System using WSN and IP webcam.....36

*Sayantani Saha; Sarmistha Neogy*

Network-Coded Broadcast Incremental Power Algorithm for Energy-Efficient Broadcasting in Wireless Ad-Hoc Network.....42

*Sauradyuti Coondu; Anasua Mitra; Samiran Chattopahyay; Matangini Chattopadhyay; Munmun Bhattacharya*

Application of Mobile agent in VANET for Measuring Environmental Data.....48

*Gaurav Mitra; Sarmistha Neogy; Chandreyee Chowdhury*

Development of a Smartphone Application for Bedside.....54

*Sarthak Ghosh; Monojit Das; Anindya Ghosh*

Verification of i\* Models for Existential Compliance Rules in Remote Healthcare Systems.....60

*Novarun Deb; Nabendu Chaki*

A Secure Symmetric Image Encryption Based on Linear Geometry.....67

*Prabir Naskar; Ayan Chaudhuri; Atal Chaudhuri*

## Wireless Protocols

Performance Analysis of SINEMO and NEMO BSP for Vehicle-Infrastructure-Vehicle Communications.....75

*Palash Kundu; Shankar Kumar Ghosh; Bhaskar Sardar*

Remote Monitoring of Power Frequency Electrical Signals Employing GSM Network network.....81

*Riddhi Ghosh; Biswendu Chatterjee; Debangshu Dey; Sovan Dalai; Sivaji Chakravorti*

Performance Evaluation of a LBS System Delivering Location-Based Services Using Wireless Local Area Network.....85

*Pampa Sadhukhan; Shibani Das*

Performance Analysis of CSMA/CA Protocol during White Space.....91  
Identification in Cognitive Radio Networks

*Subhasree Bhattacharjee; Swarup Mandal; Bhaskar Sardar*

A Fine-tuned Packet Scheduling for WiFi-based Long Distance Networks.....97

*Iftekhar Hussain; Nurzaman Ahmed; Dilip Saikia; Nityananda Sarma*

## Wireless Sensor Networks

A Distributed Greedy Algorithm for Construction of Minimum.....104  
Connected Dominating Set in Wireless Sensor Network

*Jasaswi Prasad Mohanty; Chittaranjan Mandal*

Integer linear programming formulation of optimal beacon.....111  
placement problem in WSN

*Sarbani Roy; Nandini Mukherjee*

Energy Efficient Coverage of Static Sensor Nodes Deciding on.....118  
Mobile Sink Movements using Game Theory

*Nimisha Ghosh; Indrajit Banerjee; Tuhina Samanta*

Coverage Constrained Non-Uniform Node Deployment in.....126  
Wireless Sensor Networks for Load Balancing

*Punyasha Chatterjee; Nabanita Das*

Detection of Node Failure in Wireless Sensor Networks.....133

*Zeenat Rehena; Rajesh Mukherjee; Sarbani Roy; Nandini Mukherjee*

Energy Aware Fault Tolerant Framework in Wireless Sensor Network.....139

*Siba Mitra; Ajanta De Sarkar*

A Reliable Two-Tier Energy-Efficient Topology Building.....146  
Algorithm for Wireless Sensor Networks

*Chiranjib Patra; Parama Bhaumik; Matangini Chattopadhyay;  
Munmun Bhattacharya; Saswati Mukherjee*

# Security in Wireless and Mobile Networks

An Observer-based Distributed Scheme for Selfish Node Detection.....	151
in a Post-disaster Communication Environment using Delay Tolerant Network	
<i>Chandrima Chakrabarti; Ananya Banerjee; Siuli Roy</i>	
Trust Based Energy Efficient Detection and Avoidance of.....	157
Black Hole Attack to Ensure Secure Routing in MANET	
<i>Suparna Biswas; Sarmistha Neogy; Tanumoy Nag</i>	
Resilience Design using the Challenge Countermeasure Tree (CCT) Model.....	165
<i>Somia Natouri; Chidung Lac; Ahmed Serhrouchni</i>	
AESCRT: Agent enabled secure CRT based routing topology for MANET.....	172
<i>Ditipriya Sinha; Rituparna Chaki</i>	
A Global Reputation Estimation and Analysis Technique for Detection of.....	179
Malicious Nodes in a Post-Disaster Communication Environment	
<i>Souvik Basu; Siuli Roy</i>	
State of the Art Analysis of Network Traffic Anomaly Detection.....	186
<i>Debdutta Barman Roy; Rituparna Chaki</i>	
Performance analyses of VoIP spoofing attacks using classification algorithm.....	193
<i>Ganesan Vennila; Supriya Shalini N</i>
