2014 Integrated Communications, Navigation and Surveillance Conference

(ICNS 2014)

Herndon, Virginia, USA
8-10 April 2014

Pages 1-548

IEEE Catalog Number: CFP14CNS-POD
ISBN: 978-1-4799-4890-1

Plenary I - Tuesday, April 8, 2014

Plenary Session – SESAR – NextGen – State of Harmonization

Chairs: Steve Bradford, Chief Scientist for Architecture and NextGen Development, FAA; and Michael Standar, Chief Strategies and External Relations, SESAR Joint Undertaking
Room: Rivanna A,B,C

Registration and Breakfast (Rivanna D)	
Opening Remarks N/A	Rafael Apaza, NASA
NextGen and Global Partnership 1	Edward Bolton, FAA
Recent Developments at the Global Level and Updates on ICAO Safety & Air Navigation Initiatives 2	Nancy Graham, ICAO
Introduction and Opening Remarks N/A	Steve Bradford, FAA; Michael Standar, SESAR Joint Undertaking
SESAR-NextGen State of Harmonization 20	Michael Standar, SESAR Joint Undertaking
NextGen Activities N/A	Steve Bradford, FAA
Mini Global Demonstrations 46	Thien Ngo, FAA
Break	
Future Challenges – The European Response 57	Pierre Andribet, EUROCONTROL
"SWIM in the Sky" – Empowering New ATM Relationships 65	Jonathan Standley, FAA
ATM Avionics Roadmap 75	Didier Delibes, Airbus
Dynamic Required Navigation Performance in Support of 4D Trajectory-Based Operations 85	Charles Buntin, FAA
ANSP Implementation Perspective 101	Werner Langhans, Austrocontrol
Lunch (Rivanna D)	
Exhibitors Reception & Keynote Address: "NextGen Then - The Aviation Foundations of the 60's and 70's" 111	**Mike Harrison, NAS Evangelist:**

Plenary II - Wednesday April 9, 2014

Plenary Session – Commercial UAS Airspace

Chair: Jim Williams, Program Executive, UAS Integration Office, Federal Aviation Administration

Room: Rivanna A,B,C

Registration and Breakfast (Rivanna D)	
Opening Remarks N/A	Rafael Apaza, NASA
Bringing Together the Pieces: An Industry Perspective on Integrating UAS into the NAS 131	Brandon Suarez, General Atomics
Introductions and Remarks 141	Chris Swider, Aerospace Engineer, FAA UAS Integration Office
Civil RPAS Integration: SESAR R&D and Demonstration Activities 145	Mike Lissone, UAS ATM Integration Manager, EUROCONTROL
NASA UAS Integration in the NAS Project Overview 155	Davis Hackenberg, NASA
Beyond the UAS in the NAS Project; What's Next for NASA UAS Research 161	Ed Waggoner, Director, Integrated Systems Research Program, NASA
Break	
RTCA Special Committee-228 & DAA Standards Development 165	Chris Swider, Aerospace Engineer, FAA UAS Integration Office
UAS Command and Control Development Standards 178	John Moore, Rockwell Collins
UAS Control and Non Payload Communication (CNPC) System Development and Testing 189	Jim Griner, NASA
Workshop Introduction N/A	Roy Oishi
Lunch (Rivanna D)	
Exhibitor Sponsored Entertainment Event	

Plenary III - Thursday April 10, 2014

Plenary Session – CNS Implementations – Building Blocks to Greener, Open Sky 201

Chair: Aloke Roy, Senior Program Manager, Honeywell Advanced Technology

Room: Rivanna A,B,C

Registration and Breakfast (Rivanna D)	
Opening Remarks N/A	Rafael Apaza, NASA
Introduction 201	Aloke Roy, Honeywell
European Datalink Aspects 203	Nikos Fistas, EUROCONTROL
EUROCONTROL A/G DataCom Centralized Services 220	Philippe Renaud, EUROCONTROL
NextGen Datacomm 224	Jesse Wijntjes, FAA
NextGen SWIM 229	Jim Robb, FAA
European SWIM Aspects 237	Scott Wilson, EUROCONTROL
Closing and Q&A N/A	Aloke Roy, Honeywell
Break	

Workshop Topic Presentations (Part 1)

- Didier Delibes, Airbus (Aircraft Manufacturer) 243
- Aslaug Haraldsdottir, Boeing ATM (Aircraft Manufacturer, Dynamic RNP) 251
- Sam Miller, AEEC, RTCA SC 227 (Avionics Standardization ARINC 660b), MITRE 255
- Chris Adams, EUROCONTROL (Maastricht Operational Controller) 259
- Rip Torn, Delta Airlines/ALPA/IFALPA (NextGen Users) 265
- Aloke Roy, Honeywell (Avionics Manufacturer) 270
- Andrew Onken, ARINC/Rockwell Collins (Communication Service Provider) 273
- Rocky Stone, United Airlines/RTCA (Operator Perspective) 276

Lunch (Rivanna D)

Tuesday April 8, 2014

Session A – Airport Surface Operations 1

Chair: Benjamin Levy, Saab Sensis
Room: Rivanna A

Present.	Paper	Title	Authors
A1p		Airport Role in NextGen 281	Stephen Vail, Mosaic ATM, Inc
A2p		Operational Efficiency Improvements through Aviation System Data and Airport Surface Data Analytics 290	Michael Graham, Mosaic ATM Inc., Edmund Otubuah, masFlight, Chris Wargo, Mosaic ATM Inc., Tulinda Larsen, masFlight
	A3	Analysis of the Excess Inter-Arrival Time Distribution 313	Lisa Spinoso, Gareth Coville, Christopher Roberts, The MITRE Corporation
A4p		Real-Time Integrated Airport Surface Movement Controlling 328	Qing Wang, University of South Florida

Session B – CNS Systems Architectures and Interfaces 1

Chairs: Brent Phillips, Federal Aviation Administration
Room: Rivanna B, C

B1p		Data Link Technology for Contingency Management in Super-Density Operations 346	Jasenka Rakas, Aleksandar Bauranov, Kevin Cheng, Andrew Monsalud, University of California, Berkeley
	B2	Two Dimensional Robust Beamforming for Air-Ground Communication System 360	Allan Tart, Tönu Trump, Tallinn University of Technology

Session C – Future Communications 1

Chairs: Denise Ponchak, NASA Glenn Research Center
Room: Rivanna E, F

C1p		Study Findings from R&D of Long Term Future Communications Candidates for the National Airspace System (NAS) 368	Joel Wichgers, Rockwell Collins
C2p		NAS Data Exchange Environment beyond NextGen 380	Lou Toth, Aloke Roy, Thanga Anandappan, Sharath Malve, Honeywell International
C3p		Future Communication Solution Paths for Commercial, Personal, and Unmanned Aviation 389	Brian Haynes, Xcelar

	C4	Global Coverage of Multi-Hop Free-Space Optical Ground-to-Airliner Data Links 400	Alexander Wirthmüller, Université de Neuchâtel, Stefan Kalchmair, Harvard University
Session D – Surveillance and Situational Awareness 1 **Chairs: Bernd Korn, German Aerospace Center** **Room: Luray**			
	D1	Controlled Flight into Aerodynamic Stall: Functional Complexity Failures and Automation Surprises 414	Lance Sherry, George Mason University, Robert Mauro, University of Oregon
	D2	Analysis of Operational Shortfalls at Non-Towered Airports 425	Anthony Colavito, The MITRE Corporation, Kristina Carr, Federal Aviation Administration, Kurt Rammelsberg, Ronald Stevens, Vilas Nene, The MITRE Corporation
	D3	Performance Issues in Aircraft Access to the National Airspace SWIM Program 435	Remzi Seker, Mohammad Moallemi, Justin Yapp, Massood Towhidnejad, Embry-Riddle Aeronautical University, Robert Klein, Federal Aviation Administration
	D4	Improving Registration Correction Accuracy Via Finer Quantization And Timestamp 444	Nicholas Rozen, Laura Zheng, Jonathan Hammer, The MITRE Corporation
Session E – Simulation and Analysis 1 **Chairs: Sanjiv Shresta, Federal Aviation Administration** **Room: Rivanna G**			
	E1	Enhanced Virtual Block Control for Milan Malpensa Airport in Low Visibility 450	Juergen Teutsch, Anna Postma-Kurlanc, NLR
	E2	An Optimization Model to Estimate the Air Travel Demand for the United States 463	Tao Li, Virginia Tech, Hojong Baik, Korea Aerospace University , Thomas Spencer, Virginia Tech
Session F – Unmanned Aircraft Systems in the NAS 1 **Chairs: Jim Griner, NASA Glenn Research Center** **Room: Rivanna A**			
	F1	UAV Collision Avoidance using Sector Recognition in Cooperative Missions to Helicopters 474	Chin E. Lin, Ya-Hsien Lai, Fang-Ju Lee, National Cheng Kung University
	F2	The Impact of a Quantitative Specification of a Well Clear Boundary on Pilot Displays for Self Separation 483	Erik Theunissen, Netherlands Defence Academy, Brandon Suarez, General Atomics Aeronautical Systems Inc., Maarten Uijt de Haag, Ohio University
F3p		Improving ATC Acceptance of UAS with Improved Situational Awareness 494	Michael Ball, Northrop Grumman Information Systems

Session G – Performance Based ATM 1 **Chairs: Vivek Kumar, Intelligent Automation, Inc.** **Room: Rivanna B, C**			
	G1	Decision Support Tools for Capability-Aware Traffic Flow Management 501	Emily Bromberg, Matthew Elliott, Shervin AhmadBeygi, Taryn Lewis, Metron Aviation, Ved Sud, Federal Aviation Administration
	G2	Collaborative Decision Making (CDM) in Airport Surface: Europe vs USA Implementations, Challenges and Best Practices 519	Simon Okwir, KTH-Royal Institute of Technology, Antonio Correas, Embry-Riddle Aeronautical University
	G3	Efficient Utilization of HW and SW Systems In Enterprise Architecture 534	Chandru Mirchandani, Lockheed-Martin - IS&GS (Civil)
Session H – Safe and Secure Air Transportation System **Chairs: Krishna Sampigethaya, Boeing** **Room: Rivanna E, F**			
	H1	Commercial Space Transportation Surveillance Needs Assessment 549	Kara MacWilliams, Zheng Tao, David Edwards, The MITRE Corporation
H2p		Benefits from a Global Space-Based ADS-B Surveillance System 562	Dr. Om Gupta, Aireon LLC
	H3	GAMMA - Filling the Security Mangement Void of SESAR and NextGen 570	Rainer Koelle, Garik Markarian, Lancaster University, Denis Kolev, Rinicom
H4p		Testing for Survivability in Severe Environments 579	Steven Ferguson, Washington Laboratories, Ltd
Session I – Performance Based Navigation 1 **Chairs: Thomas Becher, The MITRE Corporation** **Room: Luray**			
I1p		Methods for DME Accuracy Improvement and Application to APNT 587	Douglas Helton, Selex ES
	I2	GBAS Research Station in Braunschweig—Five Years of Successful GBAS Operations 600	Robert Geister, Ingo Jessen, Thomas Ludwig, German Aerospace Center

Session J – Simulation and Analysis 2 **Chairs: Joe Post, Federal Aviation Administration** **Room: Rivanna G**			
		Simulation of Airborne Conflict Management (ACM) 611	Vladimir Orlov, FGUP GosNIIAS
	J2	Airline Efficiency and Air Passenger Trip Circuity Trend 632	Al Meilus, Federal Aviation Administration
	J3	Research on Sector Dynamic Capacity Evaluation 639	Yong Tian, Lili Wan, Shuangshuang Yang, Nanjing University of Aeronautics & Astronautics
Wednesday April 9, 2014 ***Session K – Unmanned Aircraft Systems in the NAS 2*** **Chairs: Jim Griner, NASA Glenn Research Center** **Room: Rivanna A**			
	K1	Air-Ground Channel Characterization for Unmanned Aircraft Systems: The Over-Freshwater Setting 647	David Matolak, Ruoyu Sun, University of South Carolina
	K2	Assessing Spectrum Compatibility for Beyond-Line-of-Sight UAS Control and Non-Payload Communications 656	Robert Kerczewski, Jeffrey Wilson, NASA Glenn Research Center, William Bishop, Verizon
K3p		UAS Control and Non-Payload Communication System Phase-1 Flight Test Results 665	Jim Griner, NASA Glenn Research Center
K4p		NASA GRC UAS Comm Modeling and Simulation 677	Gregory Kubat, Vantage Partners, LLC., Steven Bretmersky, MTI Systems
Session L – Performance Based ATM 2 **Chair: Vivek Kumar, Intelligent Automation, Inc.** **Room: Rivanna B, C**			
L1p		Ontology-Based Representation and Semantic Querying of Digital Notices to Airmen 686	Eduard Gringinger, Frequentis AG, Michael Schrefl, Johannes Kepler University Linz
	L2	Applying Improved Wind and Aircraft Performance Data in Wake Procedure Concepts 698	Laurence Audenaerd, Clark Lunsford, The MITRE Corporation
	L3	The SESAR ATM Information Reference Model within the New ATM System 711	Scott Wilson, Robert Suzić, Sam Van der Stricht, EUROCONTROL
	L4	Towards Evaluating Air Navigation Performance for Estimation of Its Resilience 724	Rainer Koelle, Aurelie Nieuborg, EUROCONTROL, Olga Gluchshenko, Peter Foerster, DLR

Session M – Future Communications 2 **Chairs: Don Kauffman, Honeywell** **Room: Rivanna E, F**			
M1p		Infrastructure & Security Considerations to Leverage Performance on Aeronautical Communications System 734	Declan Byrne, WiMAX Forum
	M2	IEEE 802.16J-Relay Fortified AeroMACS Networks; Benefits and Challenges 746	Behnam Kamali, Mercer University, Rafael Apaza, NASA Glenn Research Center
	M3	Resource Allocation Schemes for Minimum BER Transmission in OFDM Systems 755	Mohammad Mohebbi, Nadieh Moghadam, Hongxiang Li, University of Louisville
	M4	Datalink End-to-End System Performance Analysis Methodology 763	Omar Atia, Leone Monticone, Leila Ribeiro, The MITRE Corporation
Session N – Performance Based Navigation 2 **Chair: Thomas Becher, The MITRE Corporation** **Room: Luray**			
	N1	RTA-Compliant Optimized Profile Descents with 4-D FMS 774	Shih-Yih (Ryan) Young, Kristen Jerome, Rockwell Collins
N2p		PBN vs Capacity 789	Stephen Vail, Mosaic ATM, Inc
	N3	Benefits Analysis of RNP Approach Procedure to Runway 13C at Midway Airport 798	Akshay Belle, Lance Sherry, George Mason University
N4p		Determining Operational Benefits of Required Navigation Performance (RNP) Authorization Required (AR) Approaches 807	David Gouldey, The MITRE Corporation
Session O – Surveillance and Situational Awareness 2 **Chair: Michael Schnell, German Aerospace Center** **Room: Rivanna G**			
	O1	LDACS1-Based Non-Cooperative Surveillance 818	Alexandra Filip, Dmitriy Shutin, Michael Schnell, German Aerospace Center (DLR)
	O2	Secondary Surveillance Phased Array Radar (SSPAR) 827	Jason Franz, Mark Weber, Gary Hatke, M. Loren Wood, MIT Lincoln Laboratory
	O3	Classification of Mode S Transponders by Datalink Capability 839	Tadashi Koga, Electronic Navigation Research Institute
	O4	DAPs Based Adaptive Tracking System for High-Assurance Air Traffic Surveillance 846	Xiaodong Lu, Tadashi Koga, Electronic Navigation Research Institute

Session Q – CNS Systems Architectures and Interfaces 2 **Chairs: Brent Phillips, Federal Aviation Administration** **Room: Rivanna B, C**			
	Q1	Analysis of Transmission Delay Using Communication Protocol Simulator in VHF Datalink 854	Yasuto Sumiya, Jun Kitaori, Akira Ishide, Electronic Navigation Research Institute
	Q2	NAS Surveillance Data Latency Requirements History and Rationale 863	Michael McVeigh, Federal Aviation Administration, Marissa Gant, Clifton Baldwin, Federal Aviation Administration WJHTC, Christopher Kennedy, Michael O'Neill, Architecture Technology Corporation
	Q3	A Framework for Dimensioning VDL-2 Air-Ground Networks 879	Leila Ribeiro, Leone Monticone, Richard Snow, The MITRE Corporation, Rafael Apaza, Steven Bretmersky, NASA
	Q4	Load-Balancing Algorithms for Multifrequency Data Communications 893	Leone Monticone, Richard Snow, Leila Ribeiro, The MITRE Corporation
Session R – Future Communications 3 **Chairs: Chris Wargo, Mosaic ATM** **Room: Rivanna E, F**			
	R1	Dual Frequency ADS-B Payload Flight Experiment on Stratospheric Balloon 905	Nickolas Demidovich, Federal Aviation Administration, Russ Dewey, Near Space Corporation, Paul Purcell , CNS Aviation Services Corporation, John DiNofrio, Federal Aviation Administration WJHTC, David Edwards, MITRE Corporation
	R2	Lognormal Approach – A New Approach to Data Communications Performance Allocation 917	Dongsong Zeng, John Gonda, The MITRE Corporation
	R3	Design, Modeling and Simulation for an Aeronautical Telecommunications Network (ATN) for Ground to Ground Subnetwork App 925	Oscar Fernando Pico Ortiz, Jorge Eduardo Ortiz Triviño, National University of Colombia
	R4	Channel Quality Estimation with MMSE Filter and Viterbi Decoding for Airborne Communications 934	Tao Chen, Aviation Industry of China (AVIC), Bo Chen, Shanghai University, Dinghai Xu, Yongfei Ding, Ruifan Pang, Aviation Industry of China (AVIC)
Session S – Weather Sensors and Weather Data Distribution **Chair: Paul Comitz, Boeing** **Room: Luray**			
	S1	Noncoherent Pulse Compression with Complementary Coded Direct Sequence Signaling 942	Ashraf Seleym, Faculty of Engineering, October 6 University

S2p		The First Operational FAA SWIM Program: CDDS Weather Data Dissemination Using Data and Service Standards 949	Carol Kelly, Keith Craig, MIT Lincoln Laboratory
	S3	The Categorization of Wind Shift Events using METAR and Personal Weather Station Data 965	Jonathan Cunningham, Maria Asencio, Steve Lent, Mosaic ATM
S4p		Wind Characteristics on Final Approach and Airport Throughput Impacts 977	Chris Brinton, Maria Asencio, Jonathan Cunningham, Mosaic ATM
Session T – Simulation and Analysis 3 **Chair: Al Meilus, Federal Aviation Administration** **Room: Rivanna G**			
	T1	Validation of an Air-Traffic Controller Behavioral Model for Fast Time Simulation 989	Premysl Volf, Michal Pechoucek, Czech Technical University in Prague, Stefania Mereu, Brian Hilburn, TASC, Inc., Duc Nguyen, Drexel University
T2p		A Microscopic Simulation Model for the Air Traffic in the Organized Track System of the North Atlantic Airspace 998	Tao Li, Virginia Polytechnic Institute and State University
T3p		Systemwide Analysis Capability: Comparisons with Historical Operations 1005	Sanjiv Shresta, Federal Aviation Administration
Thursday April 10, 2014 ***Session U – Unmanned Aircraft Systems in the NAS 3*** **Chairs: Jim Griner, NASA Glenn Research Center** **Room: Rivanna A**			
	U1	A Systems Engineering Approach to Collaborative Coordination of UAS in NAS with Safety Guarantees 1016	Jacob Moschler, Yuchen Zhou, John Baras, Jungwoo Joh, University of Maryland
	U3	A Passive Stabilization Solution for Camera Embedded Onboard Small Planes 1028	Jean-Luc Maës, Stéphane Binczak, Le2i, Vincent Lhenry, SAS Prynel
Session V – Surveillance and Situational Awareness 3 **Chair: Michael Schnell, German Aerospace Center** **Room: Rivanna B, C**			
	V1	Demonstration and Evaluation of ADS-B Technology for Commercial Space Operations Onboard Reusable Sub-Orbital Launch Vehicle 1035	Richard Stansbury, Massood Towhidnejad, Dominic Tournour, Embry-Riddle Aeronautical University, Nickolas Demidovich, Federal Aviation Administration, Chuck Greenlow , Federal Aviation Administration WJHTC

Session W – Future Communications 4 **Chairs: Chris Wargo, Mosaic ATM** **Room: Rivanna E, F**			
	W2	Experiments of VoIP using WiMAX System and Fading Simulator with Two-Path Models for Aeronautical Scenarios 1045	Kazuyuki Morioka, Electronic Navigation Research Institute
	W3	An Efficient Transmission of 4D Trajectory Short Messages on LDACS1 1053	Jindong Xie, Jun Zhang, Tao Zhang, Beihang University
	W4	High-Rate Hidden Communications Channel: A Multi-Dimensional Signaling Approach 1064	Ashraf Seleym, Faculty of Engineering, October 6 University
Session X – Performance Based Navigation 3 **Chair: Thomas Becher, The MITRE Corporation** **Room: Luray**			
	X1	On the Compatibility of ACAS with the Concept of Segmented Independent Parallel Approach 1072	Christian Hanses, German Aerospace Center (DLR)
	X2	Steep Segmented Approaches for Active Noise Abatement - A Flyability Study 1086	Vilmar Mollwitz, Bernd Korn, DLR, Institute of Flight Guidance
	X3	Wind Optimized Routing: An Opportunity to Improve European Flight Efficiency? 1094	Julia Zillies, Alexander Kuenz, Angela Schmitt, Gunnar Schwoch, Vilmar Mollwitz, German Aerospace Center (DLR)
Session Y – Simulation and Analysis 4 **Chair: Alvin Sipe, Boeing** **Room: Rivanna G**			
Y2p		Integrated Research Stand-Loop Simulation ATM & ATC Systems 1103	Anna Kan, Vladimir Kanadin, Vladimir Orlov, GosNIIAS
