2014 International Conference on Advanced Logistics and Transport

(ICALT 2014)

Tunis, Tunisia
1-3 May 2014

IEEE Catalog Number: CFP14VLT-POD
ISBN: 978-1-4799-4838-3

Table of Contents

	Page
Risk assessment of hazard material transportation using FMECA approach: Case study in a Tunisian company *Mohamed Haykal Ammar, Mounir Benaissa and Habib Chabchoub*	1
Dynamic Search Path Planning Using an Information-Theoretic-based Evolutionary Approach *Mohamed Barkaoui, Jean Berger and Abdeslem Boukhtouta*	7
Evaluation tools through user participation techniques: features, limitations and new perspectives *Selem Charfi and Houcine Ezzedine*	13
Analysis of Sustainable Urban Transport in Libya *Abdallah N. Kamba*	19
Review of transport emission modeling and monitoring in urban areas – challenge for developing countries *Ahmed Elkafoury, Abdelazim Negm, Mahmoud Bady and Mohamed Hafez F. Aly*	23
Using Customer Feedback in Public Transportation Systems *Anselmo Stelzer, Frank Englert, Stephan Hörold and Cindy Mayas*	29
Ontological model for knowledge capitalization in multimodal transport domain *Benaissa Ezzeddine, Charfeddine Imen, Bendriss Sabri and Benabdelhafid Abdellatif*	35
A Novel Secure Ad hoc Routing Protocol Using One Time Password *Aida Ben Chehida Douss, Ryma Abassi and Sihem Guemara El Fatmi*	41
Development an Approach to Fusion of an Anti- Collision System *Ahmed Derbel and Younes Boujelbene*	47
On demand transport system's approach as a multi-agent planning problem *Fairuz Romli and Mohd Saffuan Yaakob*	53
Personal Air Vehicle (PAVE) Application in Malaysia *Fairuz Romli and Mohd Saffuan Yaakob*	59
Intelligent Parking Management System by Multi-Agent Approach: The case of Urban Area of Tunis *Harizi Riadh, M'Raihi Raffa and Ben Hassine Sana*	65
Dynamic Road Lane Management: A Smart City Application *Chen Wang, Bertrand David and Rene Chalon*	72
Real-Time Fastest Path Algorithm using Bidirectional Point-to-Point Search on a Fuzzy Time-Dependent Transportation Network *Mohamed Haitam Laarabi, Azedine Boulmakoul, Aziz Mabrouk, Roberto Sacile and Emmanuel Garbolino*	78
A survey of simulation platforms for the assessment of public transport control systems *Nesrine Ghariani, Sabeur Elkosantini, Saber Darmoul and Lamjed Ben Said*	85
Traveler Information in ITS: A Model-Driven Engineering Approach to its Personalization *Arnaud Brossard, Christophe Kolski, Mourad Abed and Guillaume Uster*	91
Evaluating a city's level of adaptability to urban freight transport good practices implementation, applying the Adaptability Index *Stanisław Iwan*	97
A case-based reasoning and fuzzy logic for personalized system *Makram Souii, Mourad Abed and Wafa Mahdhi*	103
Decentralized Traffic Management: A Synchronization-Based Intersection Control *Mohamed Tlig, Olivier Buffet and Olivier Simonin*	109
AN INVESTIGATION OF GOVERNMENT AND PRIVATE HOSPITALS' SUPPLY CHAIN MANAGEMENT *Abdussamet Polater, Cetin Bektas and Serkan Demirdogen*	115
A Proposition of a Decision Suport System for Reverse Logistics *Wiam Turki and Mounir Benaissa*	120
A configuration model for recovery product flows orientation in open loop network	

Soumaya Dhib, Diala Dhouib and Taicir Loukil 126

Maintenance Optimisation for delivery means in the supply chain
Zied Hajej, Sofiene Dellagi and Nidhal Rezg 131

SADAUDIT for Auditing Procurement Logistics Information Systems
Maroi Agrebi, Mounir Benaissa and Mourad Abed 137

The Use of Discrete Event Simulation in Hospital Supply Chain Management
Amira Kammoun, Wafik Hachicha and Taicir Loukil 143

Improving In-Transit and In-theatre Asset Visibility of the Canadian Armed Forces Supply Chain Network
Abdeslem Boukhtouta and Jean Berger 149

The approaches of Supply Chain Risks Management
Wissem Ennouri, Ahmed Frikha and Habib Chabchoub 155

Impact of Means and Resources Pooling on Supply-Chain Management: Case of Large Distribution
Nouha Hadj Taieb, Racem Mellouli and Habib Affes 160

The "Authorized Economique Operator" certification and Firm performance
Mohamed Sahbi Miled and Claude Fiore 167

A Literature Survey of Bullwhip Effect (2010-2013) According to its Causes and Evaluation Methods
Mouna Derbel, Wafik Hachicha and Faouzi Masmoudi 173

Heuristic approch for solving the makespan problem in a hospital sterilization service
Amal Soufi, Anis Mjirda and Mourad Abed 179

Network Coordination with Minimum Risk of Information Sharing
Atour Taghipour, Besma Glaa and Nesrine Zoghlami 184

Outsourcing and Off-shoring Healthcare Services: A way to cut the costs and improve quality
Besma Glaa, Nesrine Zoghlami and Atour Taghipour 189

The management of the inventories of facturing equipment spare parts in Polish industrial enterprises
Katarzyna Grondys 195

Challenges in the management of food products' supply chains
Aleksandra Nowakowska and Aleksander Pabian 201

Logistics' clusters as a part of regional policy in Poland
Joanna Nowakowska-Grunt 206

Optimization of Logistics Management as a Source of Virtual Enterprises Competitive Advantage
Tomasz Lis, Aleksander Pabian and Marta Starostka-Patyk 211

Management of Defective Products from Reverse Logistics Channels with LCA Method
Marta Starostka-Patyk and Tomasz Nitkiewicz 216

The Ecological Footprint as an Assesment tool of the Supply Chain Environmental Performance Case of a retail trade tunisian company
Feki Noura and Habib Chabchoub 222

Scheduling under uncertainty: survey and research directions
Tarek Chaari, Sondes Chaabane, Nassima Aissani and Damien Trentesaux 229

Comparing the effectiveness of different metaheuristics for optimization of flows of containers in a containers terminal
Zeinebou Zoubeir and Benabdelhafid Abdellatif 235

Measurement of intermodal accessibility: container transport example
Gouiza Fairouz, Benabdelhafid Abdelatif and Yassine Adnan 241

A Hybrid Ant Colony and Genetic Algorithm to solve the Container Stacking Problem at Seaport Terminal
Ndèye Fatma Ndiaye, Adnan Yassine and Ibrahima Diarrassouba 247

Real-Time Service Profiling for the Efficient Simulation of Logistics Networks
Martin Roth, Stefan Mutke, Axel Klarmann, Andre Ludwig and Bogdan Franczyk 253

Particle Swarm Optimization Approach For Resolving The Cutting Stock Problem
Ghassen Ben Agha and Saoussen Krichen 259

A lower bound for minimizing the total energy consumption in a statically routed Personal Rapid Transit

system
Ezzeddine Fatnassi and Jouhaina Chaouachi 264

An elitist multi-objective genetic algorithm for minimizing vehicle numbers and energy consumption in the context of Personal Rapid Transit
Olfa Chebbi and Jouhaina Chaouachi 270

Location of a seaport by MOORA optimization
Willem Brauers 275

A linguistic approach to the organization of drug flows: the case of CHU Habib Bourguiba
Nesrin Halouani and Nesrine Dhouib 281

A Hybrid Approach Combining Fuzzy Consensus-Based Possibility Measure and TOPSIS: Application to the Plant Selection Problem
Idris Igoulalene and Lyes Benyoucef 286

Logistics integration in product design using a systems engineering approach
Samir Ben Abdallah, Maher Aidi, Alaeddine Zouari and Aref Maalej 292

Assembly Line Balancing in an Automotive Cables Manufacturer Using a Genetic Algorithm Approach
Hager Triki, Wafik Hachicha, Ahmed Mellouli and Faouzi Masmoudi 297

Three Dimensional Integration of Design: State of the art
Youssef Derbel, Alaeddine Zouari and Abdessalem Jerbi 303

An Exact Method For The Multi-Vehicle Static Demand Responsive Transport Problem Based on Service Quality : the case of One-to-One
Manel Ayadi, Habib Chabchoub and Adnan Yassine 308

Artificial Bee Colony to solve seafaring staff scheduling problem: A real case.
Maryssa Koubaa, Sonda Elloumi and Souhail Dhouib 314

The Multi-vehicle Mutli-product Inventory-Routing Problem: A case study
Jamal Lmariouh, Nizar El Hachemi, Mohamed Anouar Jamali and Driss Bouami 319

OPTIMISATION OF MOVEMENT OF THE AIRCRAFT ON TAXIWAY AREA
Tri Tjahjono, Nahry Nahry and Novy Husaeny 324

The Cross docking under uncertainty: state of the art
Faiza Walha, Sondes Chaabane and Abdelghani Bekrar 330

Financial derivatives for risk management in shipping operations: a simulation model applied to the oil and gas sector
Donato Di Stasi and Massimo de Falco 336

Associating Risk Management with a Performance Measurement System: Case of Academic Libraries
Souhir Chabchoub and Wafik Hachicha 344

Designing a New Infectious Healthcare-Waste Management System in Sfax Governorate, Tunisia
Dorra Baati, Mariam Mellouli and Wafik Hachicha 350

DRAWING OF LAYOUT DOCUMENTATION AS THE BASIS OF LOGISTICS MANAGEMENT SYSTEM OF A COMPANY - LITERATURE REVIEW, NEW METHODICS, CASE STUDY
Martin Hart, Pavel Taraba and Marek Tomastik 356

Risk Mitigation Strategies According to the Supply Actors' Objectives through MACTOR Method
Manel Elmsalmi and Wafik Hachicha 362

Supplier Selection Under Disruption Risks Using Stochastic Mixed Linear Programming Techniques
Faiza Hamdi, Ahmed Ghorbel and Faouzi Masmoudi 368

Optimization of Supply Portfolio in the Context of Supply Chain Risk Management: Literature Review
Faiza Hamdi, Ahmed Ghorbel and Faouzi Masmoudi 374
