CONTENTS

pages: 1 - 19

Multiagent genetic optimisation to solve the project scheduling problem under uncertainty

Konstantin Aksyonov, Ural Federal University, Russia

Anna Antonova, Ural Federal University, Russia

pages: 20 - 30

Review and Performance Analysis of Shortest Path Problem Solving Algorithms

Mariusz Głąbowski, Poznan University of Technology, Faculty of Electronics and Telecommunications, Chair of Communication and Computer Networks, Poland

Bartosz Musznicki, INEA S.A., Poland

Przemysław Nowak, Poznan University of Technology, Faculty of Electronics and Telecommunications, Chair of Communication and Computer Networks, Poland

Piotr Zwierzykowski, Poznan University of Technology, Faculty of Electronics and Telecommunications, Chair of Communication and Computer Networks, Poland

pages: 31 - 43

Rapid Design of Meta Models

Bastian Roth, University of Bayreuth, Germany

Matthias Jahn, University of Bayreuth, Germany

Stefan Jablonski, University of Bayreuth, Germany

pages: 44 - 62

Detecting Software Usability Deficiencies Through Pinpoint Analysis

Dan Tamir, Texas State University, United States

Divya Dasari, Texas State University, United States

Oleg Komogortsev, Texas State University, United States

Gregory LaKowski, Texas State University, United States

Carl Mueller, Texas A&M University Central Texas, United States

pages: 63 - 76

A Detailed Description of the EC2M Project: Exploiting Ontologies for the Automatic and Manual Documents Classification in Industrial Enterprise Content Management Systems

Daniela Briola, DIBRIS, Genoa University, Italy

Alessandro Amicone, GFT Italia S.r.l., Italy

pages: 77 - 87

Supporting Ambient Assisting Living by using Executable Context-Adaptive Task Models

Estefanía Serral, KU Leuven, Belgium

Pedro Valderas, UPV, Spain

Vicente Pelechano, UPV, Spain

pages: 88 - 100

Testing Self-adaptive Software: Requirement Analysis and Solution Scheme

Georg Püschel, Technische Universität Dresden, Germany

Sebastian Götz, Technische Universität Dresden, Germany

Claas Wilke, Technische Universität Dresden, Germany
Christian Piechnick, Technische Universität Dresden, Germany
Uwe Aßmann, Technische Universität Dresden, Germany

pages: 101 - 111

{Runtime Variability in Online Software Products: A Comparison of Four Patterns

Jaap Kabbedijk, Utrecht University, Netherlands
Slinger Jansen, Utrecht University, Netherlands
Tomas Salfischberger, Utrecht University, Netherlands

pages: 112 - 122

Advanced Preprocessing of Binary Executable Files and its Usage in Retargetable Decompilation

Jakub Kroustek, Faculty of Information Technology, Brno University of Technology, Czech Republic
Peter Matula, Faculty of Information Technology, Brno University of Technology, Czech Republic
Dusan Kolar, Faculty of Information Technology, Brno University of Technology, Czech Republic
Milan Zavoral, Faculty of Information Technology, Brno University of Technology, Czech Republic

pages: 123 - 138

Towards High Quality Mobile Applications: Android Passive MVC Architecture

Karina Sokolova, University of Technology of Troyes, France
Marc Lemerrier, University of Technology of Troyes, France
Ludovic Garcia, EUTECK SSII, France

pages: 139 - 149

Time-based Visualization of Large Data-Sets An Example in the Context of Automotive Engineering

Werner Sturm, Fraunhofer Austria Research GmbH, Visual Computing, Graz, Austria & Institute of ComputerGraphics and KnowledgeVisualization, Graz University of Technology, Austria, Austria
René Berndt, Fraunhofer Austria Research GmbH, Visual Computing, Graz, Austria & Institute of ComputerGraphics and KnowledgeVisualization, Graz University of Technology, Austria, Austria
Andreas Halm, Fraunhofer Austria Research GmbH, Visual Computing, Graz, Austria & Institute of ComputerGraphics and KnowledgeVisualization, Graz University of Technology, Austria, Austria
Torsten Ullrich, Fraunhofer Austria Research GmbH, Visual Computing, Graz, Austria & Institute of ComputerGraphics and KnowledgeVisualization, Graz University of Technology, Austria, Austria
Eva Eggeling, Fraunhofer Austria Research GmbH, Visual Computing, Graz, Austria & Institute of ComputerGraphics and KnowledgeVisualization, Graz University of Technology, Austria, Austria
Dieter W. Fellner, Institute of ComputerGraphics and KnowledgeVisualization, Graz University of Technology, Austria & Fraunhofer IGD and TU Darmstadt, Darmstadt, Germany, Austria

pages: 150 - 160

Towards Secure Mobile Computing: Employing Power-Consumption Information to Detect Malware on Mobile Devices

Thomas Zefferer, Institute for Applied Information Processing and Communications - Graz University of Technology, Austria
Peter Teufl, Institute for Applied Information Processing and Communications - Graz University of Technology, Austria
David Derler, Institute for Applied Information Processing and Communications - Graz University of Technology, Austria
Klaus Potzmader, Institute for Applied Information Processing and Communications - Graz University of Technology, Austria
Alexander Oprisnik, Institute for Applied Information Processing and Communications - Graz University of Technology, Austria
Hubert Gasparitz, Institute for Applied Information Processing and Communications - Graz University of

Technology, Austria

Andrea Höller, Institute for Applied Information Processing and Communications - Graz University of Technology, Austria

pages: 161 - 170

VizMIR: A Cross-media Music Retrieval System Supporting Bidirectional Transformation between Mood-based Color Changes and Tonal Changes in Music

Shuichi Kurabayashi, Keio University, Japan

Yoshiyuki Kato, Keio University, Japan

pages: 171 - 181

The Data Checking Engine: Complex Rules for Data Quality Monitoring

Felix Heine, University of Applied Sciences & Arts Hannover, Germany

Carsten Kleiner, University of Applied Sciences & Arts Hannover, Germany

Arne Koschel, University of Applied Sciences & Arts Hannover, Germany

Jörg Westermayer, SHS Viveon, Germany

pages: 182 - 196

Conceptual Modelling in UML and OWL-2

Jesper Zedlitz, University Kiel, Germany

Norbert Luttenberger, University Kiel, Germany

pages: 197 - 210

A Technique to Avoid Atomic Operations on Large Shared Memory Parallel Systems

Rudolf Berrendorf, Bonn-Rhein-Sieg University, Germany

pages: 211 - 223

Development Framework for Distributed Agile Software Development

Abdullah Alqahtani, Glasgow Caledonian University, UK

John David Moore, Glasgow Caledonian University, UK

David Harrison, Glasgow Caledonian University, UK

Bruce Wood, Glasgow Caledonian University, UK

pages: 224 - 237

CREATE: A Co-Modeling Approach for Scenario-based Requirements and Component-based Architectures - A Detailed View

Björn Schindler, Technische Universität Clausthal, Germany

Marcel Ibe, Technische Universität Clausthal, Germany

Martin Vogel, Technische Universität Clausthal, Germany

Andreas Rausch, Technische Universität Clausthal, Germany

pages: 238 - 252

When May the Accuracy of Expert Estimation Be Improved by Using Historical Data?

Gabriela Robiolo, Universidad Austral, Argentina

Silvana Santos, Universidad Nacional de La Plata, Argentina

Bibiana Rossi, Univ. Argentina de la Empresa, Argentina

pages: 253 - 265

An Ontology-Driven Personalization Approach for Data Warehouse Exploitation

Lama El Sarraj, LSIS UMR 7296, Marseille, France

Bernard Espinasse, LSIS UMR 7296, Marseille, France
Thérèse Libourel, Espace-Dev UMR 228, Montpellier, France

pages: 266 - 276

Formal Models in Software Development and Deployment: A Case Study

Radek Koci, Brno University of Technology, Czech Republic
Vladimir Janousek, Brno University of Technology, Czech Republic

pages: 277 - 288

Localizing Software Bugs using the Edit Distance of Call Traces

Themistoklis Diamantopoulos, Electrical and Computer Engineering Dept., Aristotle University of Thessaloniki, Greece
Andreas Symeonidis, Electrical and Computer Engineering Dept., Aristotle University of Thessaloniki, Greece

pages: 289 - 301

On Exploiting Passing and Failing Test Cases in Debugging Hardware Description Languages

Bernhard Peischl, Softnet Austria, Austria
Naveed Riaz, College of Computer Science and Information Technology, Saudi Arabia
Franz Wotawa, Graz University of Technology, Institute for Software Technology, Austria

pages: 302 - 317

Long-term Sustainable Knowledge Classification with Scientific Computing: The Multi-disciplinary View on Natural Sciences and Humanities

Claus-Peter Rückemann, Westfälische Wilhelms-Universität Münster (WWU) and Leibniz Universität Hannover and North-German Supercomputing Alliance (HLRN), Germany

pages: 318 - 329

A Text Retrieval Approach to Recover Links among E-Mails and Source Code Classes

Giuseppe Scanniello, Dipartimento Dipartimento di Matematica, Informatica e Economia, Università della Basilicata, Italy
Licio Mazzeo, Dipartimento Dipartimento di Matematica, Informatica e Economia, Università della Basilicata, Italy

pages: 330 - 340

Using Function Point Analysis and COSMIC for Measuring the Functional Size of Real-Time and Embedded Software: a Comparison

Luigi Lavazza, Università degli Studi dell'Insubria, Italy
Sandro Morasca, Università degli Studi dell'Insubria, Italy
Davide Tosi, Università degli Studi dell'Insubria, Italy

pages: 341 - 352

Confirming Design Guidelines for Evolvable Business Processes Based on the Concept of Entropy

Peter De Bruyn, University of Antwerp, Belgium
Dieter Van Nuffel, University of Antwerp, Belgium
Philip Huysmans, University of Antwerp, Belgium
Herwig Mannaert, University of Antwerp, Belgium

pages: 353 - 369

A Framework for Autonomic Software Deployment of Multiscale Systems

Raja Boujbel, Université de Toulouse, UPS - IRIT, France
Sébastien Leriche, Université de Toulouse, ENAC, France
Jean-Paul Arcangeli, Université de Toulouse, UPS - IRIT, France

pages: 370 - 380

An Overall Framework for Reasoning About UML/OCL Models Based on Constraint Logic Programming and MDA

Beatriz Pérez, University of La Rioja, Spain

Ivan Porres, Åbo Akademi University, Finland

pages: 381 - 390

Simulation-Based Optimization for Software Dynamic Testing Processes

Mercedes Ruiz, University of Cadiz, Spain

Javier Tuya, University of Oviedo, Spain

Daniel Crespo, University of Cadiz, Spain

pages: 391 - 401

Implementation Variants for Position Lists

Andreas Schmidt, Karlsruhe University of Applied Sciences/Karlsruhe Institute of Technology, germany

Daniel Kimmig, Karlsruhe Institute of Technology, germany

Steffen Scholz, Karlsruhe Institute of Technology, germany

pages: 402 - 421

Instance-Based Integration of Multidimensional Data Models

Michael Mireku Kwakye, University of Ottawa, Canada

Iluju Kiringa, University of Ottawa, Canada

Herna L. Viktor, University of Ottawa, Canada
