

# **2014 International Conference on Power Signals Control and Computations**

**(EPSCICON 2014)**

**Thrissur, India  
6 – 11 January 2014**

**IEEE Catalog Number: CFP1498R-POD  
ISBN: 978-1-4799-6705-6**

"Rci g	TITLE OF THE PAPER	NAME
1	Artificial Neural Network Controller for Improved Performance of Brushless DC Motor	N. Leena
		R. Shanmugasundaram
9	Neural Learning Algorithm Based Rotor Resistance Estimation For Fuzzy Logic based Sensorless IFOC of Induction Motor	Sreedev Chandran
35	Longitudinal Guidance and Control of Reentry Vehicle in the Approach and Landing phase	Bynu Benjamin Chirayath
		Dr. G. R. Bindu
3:	Modified Method of Tuning for Fractional PID controllers	Deepak V. Dev
		Dr. S. Usha Kumari
46	Gradient descent based linear regression approach for modeling PID parameters	Parvathy R
		Rani Rajini Devi
4:	Control Strategy for Power Flow Management in a PV System supplying electrical loads in an Air-Conditioned Bus	Sandeep Nital David
		Sachin P Santosh
		Suriya Narayanan L
55	Control Schemes for Intentional Islanding Operation Of Distributed Generation	Ms. Reenu Bose
		Ms. Jisha James
P IC	Integrated Guidance and Control of RLV during Approach and Landing Phase	Balaji. R
		Shriram Swaminathan
		Dr. Jisha V. R
59	Moving Target Tracking by Mobile Robot	Anjaly P
		Anupama Devanand
		Dr. Jisha. V. R
67	Intelligent PID Controller Design for Liquid level Process Control Systems	I .Srinu
		Dr. M Siva Kumar
73	The Benefits of Randomness in Systems and Control	Jerome Moses M
		Ramakalyan Ayyagari
77	Optimal Stabilization and Straight Line Tracking of an Electric Bicycle	Anjumol. M. A
		Dr. V. R. Jisha

83	Robustness Evaluation of SMO in Sensorless Control of BLDC Motor under DTC Scheme	Girija P. K.
		Prince A.
89	Hysteresis controller based open phase fault tolerant control of BLDC motor drives	Neethu S
		Sreelekha V
95	A Novel Strategy to Enhance the Life of Capacitor in a Battery Charger for Domestic Applications	Ravichandra
		Dr. Sudarshan Patil Kulkarni
9:	A New Approach to Dynamic Voltage Restorer Implementation for Distribution Systems Using a Fifteen Level Inverter System	Meera Annie Varghese
		Ancy Sara Varghese
: 6	Efficiency improvement of a Boost PFC Converter using Non-linear Inductor	Ashish Kr Vaya
		Tushar Kanti Parida
		S. K. Singh
; 2	Fuzzy based Unified Power Quality Conditioner	Sai Shankar
		Ashwani Kumar
; 9	Torque Ripple Reduction of Four-Switch Inverter Fed Permanent Magnet Brushless DC Motor Using Hysteresis Controller	Akhila R
		Mary P Varghese
		Anooja V S
		Nikhil S
325	Modified Z-Source Inverter Based Three Phase Induction Motor Drive for Solar PV Applications	Vani Vijay
		Shruthi K. J.
		Giridhar Kini
		C. Viswanatha
		M. Siddhartha Bhatt
32:	Sensorless Operation of Current Controlled BLDC Drive with Phase Lag Compensation	Rajesh T S
		Prof. Joseph K D
335	Simulation of Single Phase Matrix converter as All in One Converter	M Raghuram
		Anshul Agarwal
33;	Electric Vehicle Integration to Distribution Grid Ensuring Quality Power Exchange	Polly Thomas
		Fossy Mary Chacko

347	A Contribution to Load Flow in Radial Distribution System and Comparison of Different Load Flow Methods	V. V. S. N. Murty
		B. Ravi Teja
		Ashwani Kumar
353	Congestion Management in Deregulated Power system by Rescheduling of Generators Using Genetic Algorithm	S.Sivakumar
		D.Devaraj
358	Classification of Power Quality Disturbances Using Time/Frequency Domain Features	V. Veena
		Asha Anu Kurian
363	A Dynamic Voltage Restorer with an Improved PLL for Voltage Sensitive Loads	Ramesh.K.Govindarajan
		Pankaj Raghav.P
		G. Saravana Ilango
369	Matrix Converter based Unified Power Flow Controller	Amjed M
		Lathika B. S.
376	Effect of leakage inductance on the performance of BLDC machine used in Flywheel energy storage applications	S R Gurumurthy
		Archana Sharma
		S Sarkar
		S Sathesh Kumar
37;	Artificial Neural Network Approach for On-Line ATC Estimation in Deregulated Power System	V. Agnes idhaya selvi
		M. Karuppasamyandiyan
		Dr. R. Narmathabanu
		Dr. D. Devaraj
386	Power Quality Improvement of Ac Railway Traction Using Railway Static Power Conditioner a Comparative Study	Vineetha P Joseph
		Jaimol Thomas
392	Synchronised Phasor Measurement Unit	Vipin Krishna R
		S. Ashok
		Megha G Krishnan
398	Optimal Placement of Distributed Generation: An Overview and Key Issues	Alka Yadav
		Laxmi Srivastava
3: 4	Applications of Thyristor Controlled Series Compensator in Power System: An Overview	Sangeeta Jamhoria
		Laxmi Srivastava

3: :	Biological Effects of Electromagnetic Interference of High Voltage Transmission Lines on Human Body	Kavya.M
		Yashodhara.B
		V. Arunachalam
		Dr. D. Devendranath
		A. Yellaiah
		Dr. Rashmi
		Dr. R. R. N. Sailaja
3; 6	An Autoregression-Power Based Symmetrical Fault Detection During Power Swing	D.Anantha Koteswararao Rao
		Kumarraja Andanapalli
		Bh.R.K.Varma
3; ;	Comparison of MPPT using GA Optimized ANN Employing PI Controller for Solar PV System with MPPT using Incremental Conductance	Seena Paul
		Dr. Jaimol Thomas
426	Satellite image resolution and brightness enhancement using discrete, stationary wavelet and singular value decomposition	Shamna K.S
42:	Image Encryption Based On Diffusion Process And Multiple Chaotic Maps	Ameena Marshnil N
		Binish M C
437	Trust and Cluster based Authentication schemes in Mobile Ad Hoc Networks – A Review	S.Sivagurunathan
		K.Prathapchandran
442	Towards Improving the Performance of Text/Language Independent Speaker Recognition Systems	Kuruvachan K. George
		Arunraj K.
		Sreekumar K.T.
		C. Santhosh Kumar
		K.I. Ramachandran
448	Spectral Matching Based Voice Activity Detector for Improved Speaker Recognition	Sreekumar K.T
		Kuruvachan K. George
		Arunraj K
		C. Santhosh Kumar
