

2014 IEEE 16th Conference on Business Informatics

(CBI 2014)

**Geneva, Switzerland
14 - 17 July 2014**

**Volume 1
Pages 1-215**

**IEEE Catalog Number: CFP14231-POD
ISBN: 978-1-4799-5780-4**

2014 IEEE 16th Conference on Business Informatics

CBI 2014

Table of Contents Volume - 1

Preface from the General and Program Chairs - Volume 1.....	viii
Committees - Volume 1.....	x
Sponsors - Volume 1.....	xiv

IEEE CBI Conference

Track: Business Data Engineering and Analytics

Design Patterns for Hybrid Algorithmic-Crowdsourcing Workflows	1
<i>Christoph Lofi and Kinda El Maarry</i>	
Content Analysis of Information Exchange in Online Auctions	9
<i>Ananth Srinivasan and Fangxing Liu</i>	
A Framework for Inter-Organizational Performance Analysis from EDI Messages	17
<i>Worarat Krathu, Christian Pichler, Robert Engel, Marco Zapletal, Hannes Werthner, and Christian Huemer</i>	
A Novel Group Recommendation Based on Knowledge Flows	25
<i>Chin-Hui Lai</i>	
Predicting Airline Passenger Load: A Case Study	33
<i>Ma Nang Laik, Murphy Choy, and Prabir Sen</i>	
Role of Platform Providers in Service Networks: The Case of Salesforce.com App Exchange	39
<i>Sodam Baek, Kibae Kim, and Jörn Altmann</i>	
Decision-Making Based on Incident Data Analysis	46
<i>Nico Roedder, Paul Karaenke, Rico Knapper, and Christof Weinhardt</i>	

Track: Business Process Engineering

An Open S-BPM Runtime Environment Based on Abstract State Machines	54
<i>Harald Lerchner and Christian Stary</i>	
The Structure of Cross-Functional Process Model Collections: An Empirical Investigation	62
<i>Jorge L.C. Sanz, Fernando Suarez, Andre Calmon, and Valeria Becker</i>	

Toward the Automation of Business Process Ontology Generation	70
<i>Sergio de Cesare, Damir Juric, and Mark Lycett</i>	
A Framework to Support the Assignment of the Active Structure and Behavior in Business Process Modeling	78
<i>Rômulo H. Arpini and João Paulo A. Almeida</i>	
Integrating Security Risk Management into Business Process Management for the Cloud	86
<i>Elio Goettelmann, Nicolas Mayer, and Claude Godart</i>	

Track: Business Technology

The Case for the Web of Needs	94
<i>Florian Kleedorfer, Christina Maria Busch, Christian Pichler, and Christian Huemer</i>	
Why Do Companies Migrate Towards Cloud Enterprise Systems? A Post-Implementation Perspective	102
<i>Thomas Boillat and Christine Legner</i>	
App Design for Use—A Manager Perspective for In-Memory Technology	110
<i>Matthias Goeken, Jörg H. Mayer, Zoltan Bork, and Reiner Quick</i>	
Smart Routing: A Novel Application of Collaborative Path-Finding to Smart Parking Systems	119
<i>Callum Rhodes, William Blewitt, Craig Sharp, Gary Ushaw, and Graham Morgan</i>	

Track: Enterprise Engineering and Architecting

Modeling Access Control Transactions in Enterprise Architecture	127
<i>Khaled Gaaloul, Sérgio Guerreiro, and Henderik A. Proper</i>	
Enterprise Architects Should Follow the Money	135
<i>Martin van den Berg and Hans van Vliet</i>	
Formalizing Enterprise Architecture Decision Models Using Integrity Constraints	143
<i>Marc van Zee, Georgios Plataniotis, Dirk van der Linden, and Diana Marosin</i>	
Visualizing Business Model Evolution with the Business Model Canvas: Concept and Tool	151
<i>Boris Fritscher and Yves Pigneur</i>	
Decision-Making in Partially Observable Environments	159
<i>Sérgio Guerreiro</i>	
Using Activity Theory’s Contradictions in the Context of DEMO Organization Control Model	167
<i>António Gonçalves, Anacleto Correia, and Pedro Sousa</i>	

Track: Enterprise Transformation and Innovation

Enterprise Architecture as Capability: Strategic Application of Competencies to Govern Enterprise Transformation	175
<i>Janne J. Korhonen and Wolfgang A. Molnar</i>	
Serious Gaming for the Strategic Planning Process	183
<i>Adina Aldea, Maria-Eugenia Jacob, Jos van Hilleberg, Dick Quartel, and Henry Franken</i>	
Linking a Service Innovation-Based Framework to Business Model Design	191
<i>Eng K. Chew</i>	

FRESCO: A Framework to Estimate the Energy Consumption of Computers	199
<i>Pavel Efras, Erik Buchmann, and Klemens Böhm</i>	
Identification of Customer Preferences for New Service Development in the Electricity Domain	207
<i>Yannic Domigall, Antonia Albani, and Robert Winter</i>	
Author Index - Volume 1	215
