

2013 International Conference on Privacy and Security in Mobile Systems

(PRISMS 2013)

**Atlantic City, New Jersey, USA
24-27 June 2013**

**IEEE Catalog Number: CFP1339U-POD
ISBN: 978-1-4799-0732-8**

2013 International Conference on Privacy and Security in Mobile Systems (PRISMS)

Table of Contents

SAFE: Secure Authentication with
Face and Eyes""3

Arman Boehm (UC Berkeley, USA); Dongqu Chen
(UC Berkeley, USA); Mario Frank (European
Patent Office, Germany); Ling Huang (Intel
Research, USA); Cynthia Kuo (Nokia Research,
USA); Tihomir Lolic (UC Berkeley, USA); Ivan
Martinovic (University of Oxford, United
Kingdom); Dawn Song (UC Berkeley, USA)

UnLocIn: Unauthorized Location
Inference on Smartphones without
Being Caught"";

Le T Nguyen (Carnegie Mellon University, USA);
Yuan Tian (Carnegie Mellon University, USA);
Sungho Cho (Carnegie Mellon University, USA);
Wookjong Kwak (Carnegie Mellon University,
USA); Sanjay Parab (Carnegie Mellon University,
USA); Yu Seung Kim (Carnegie Mellon
University, USA); Patrick Tague (Carnegie Mellon
University, USA); Ying Zhang (Carnegie Mellon
Silicon Valley, USA)

Beyond the Thin Client Model for
Location Privacy""39

Rinku Dewri (University of Denver, USA); Wisam
Eltarjman (University of Denver, USA); Prasad
Annadata (University of Denver, USA);
Ramakrishna Thurimella (University of Denver,
USA)

Countermeasure for Intelligent
Cluster-head Jamming Attack in
Wireless Sensor Network""47

Sachin Babar (Aalborg University, India); Neeli
Rashmi Prasad (Center for TeleInfrastructure
(CTIF), Denmark); Ramjee Prasad (Aalborg
University, Denmark)

Designing and Implementing a
Wireless Carrier Topology in a Lab
Environment""P IC

Eric Embling (Rochester Institute of Technology,
Ireland); Sheena Gilbert (Rochester Institute of
Technology, USA); Richard Mislan (Rochester
Institute of Technology, USA)

Empirical Performance Analysis of Anonymizing VoIP over The Onion Router (TOR) Network""55

Maimun Rizal (Göttingen University, Germany); Somayeh Taheri (Göttingen University, Germany); Dieter Hogrefe (University of Goettingen, Germany)

Misbehavior Detection and Isolation in Peer-to-Peer Networks with the Presence of Hidden Nodes""59

Joseph Soryal (The City College of New York - CUNY, USA); Xijie Liu (City University of New York, USA); Tarek Saadawi (The City University of New York/The City College, USA)

Mobile Client-side Personalization""63

Muhammad Asif (Norwegian University of Science and Technology, Norway); John Krogstie (Norwegian University of Science and Technology, Norway)

Secure Mobile Authentication and Device Association with Enhanced Cryptographic Engines""67

Matthew Arenó (Raytheon SI-Gov, USA); Jim Plusquellic (University of New Mexico, USA)

SecureDroid: An Android Security Framework Extension for Context-Aware Policy Enforcement""75

Valerio Arena (University of Catania, Italy); Vincenzo Catania (University of Catania, Italy); Giuseppe La Torre (University of Catania, Italy); Salvatore Monteleone (Università degli Studi di Catania, Italy); Fabio Ricciato (Telecom Italia, Italy)

Security for Smart Mobile Networks: The NEMESYS Approach""83

Erol Gelenbe (Imperial College London, United Kingdom); Gokce Gorbil (Imperial College London, United Kingdom); Dimitrios Tzovaras (Information Technologies Institute, Greece); Steffen Liebergeld (Technische Universität Berlin, Germany); David Garcia (HISPASEC, Spain); Madalina Baltatu (Telecom Italia, Italy); George Lyberopoulos (COSMOTE, Greece)

The SITA principle for Location Privacy - Conceptual Model and Architecture""8;

Mads S Andersen (Aarhus University, Denmark); Mikkel Baun Kjærgaard (Aarhus University, Denmark); Kaj Grønæk (Aarhus University, Denmark)
