2014 Seventh International Joint Conference on Computational Sciences and Optimization

(CSO 2014)

Beijing, China
4-6 July 2014

IEEE Catalog Number: CFP1450G-POD
ISBN: 978-1-4799-5373-8

2014 Seventh International Joint Conference on Computational Sciences and Optimization

CSO 2014

Table of Contents

Message from General Co-Chair.....xviii

Organizing Committee.....xx

Program Committee.....xxi

Reviewers.....xxv

Numerical Algorithm and Analysis

An Adaptive Moving Grid Method for Singularly Perturbed Reaction-Diffusion Problems with Mix Boundary Conditions 1
Li-Bin Liu and Aijia Ouyang

3D Seabed Terrain Establishment Based on Moving Fractal Interpolation 6
Liqiang Liu, Xiangguo Wang, and Huili Ren

Construction of Probabilistic Boolean Network for Credit Default Data 11
Ruochen Liang, Yushan Qiu, and Wai-Ki Ching

A Strong Tracking Square Root CKF Algorithm Based on Multiple Fading Factors for Target Tracking 16
Ning Li, Ruihui Zhu, and Yonggang Zhang

Computational Simulation and Analysis

Design and Simulation of a Modified Firefly Algorithm 21
Chang Liu, Feng Gao, and Na Jin

Study on the Optimization Model for International Business Strategic of Power Grid Enterprise 26
Liu Tuo and Cheng Cheng

Masquerade Detection Using Support Vector Machines in the Smart Grid 30
Zhao Xiang, Hu Guangyu, and Wu Zhigong

Research on Statistical Feature of Online Social Networks Based on Complex Network Theory 35
Xin Jin and Jianyu Li

Computational Engineering

A Semiparametric Bayesian to Poisson Mixed-Effects Model for Epileptics Data 40
Xingde Duan, Lin Liang, and Ying Wu

A Software Cost Model Considering the Difference between Testing Environment and Operating Environment 45
Feng Gao, Chang Liu, Bin Meng, and Songbo Chen

Research on the Internationalization Strategy Model of Electric Power Enterprise and Its Application 51
Ma Li and Liu Tuo

Characteristic and Community Structure Evolution on Chinese Character Network 55
Lei Zhang, Jianyu Li, and Shuangwen Chen

A Cost Analysis for Chinese Aviation 59
Baolai Wei, Jian Chai, Qing Zhu, and Zhongyu Zhang

Computational Intelligence and Computational Finance

A Transfer Learning Based Classifier Ensemble Model for Customer Credit Scoring 64
Jin Xiao, Runzhe Wang, Geer Teng, and Yi Hu

A Research on Pro-Cyclicality of Finance System of China 69
Zhou Hui, Yuan Chuang, Liu Canhui, and Huang Xi

Game Theory and Stochastic Optimization

Incentive Mechanism for University Teachers under Multi-task Principal-Agent Model 74
Lu Fang, Zhang Jiangshun, and Luo Ding-Ti

Game Analysis on Rent-Seeking Behavior of Three Participants in Overseas Engineering Project 79
Yong Wang, Hao Ding, and Yu Xiao

Mean-Variance Adjusting Model for Portfolio Selection Problem with Fuzzy Random Returns 83
Zhongfeng Qin and Lei Xu

Differential Dynamic Programming for Multistage Uncertain Optimal Control 88
Xiaodong Qian and Yuanguo Zhu

Finance and Industrial Optimization

On Further Exploiting Baoding's Tourism Resources 93
Xiaohong Meng

Optimal Selection of Science & Technology Projects of Oilfield Enterprise under Uncertainty 96
Gaoyang Lv, Yu Hu, Shusong Li, and Xin Jin

Forecasting of Tourism Demand for Guilin Based on Combined Model 100
Dan Cheng and Li-Bin Liu

The Evaluation Index System and Empirical Analysis of Influential Factors of Pear Production in Hebei Province 104
Haiyang Li

An Evaluation of Land Use Sustainability of "City Village" Reconstruction Project: A Case Study of North ShaPo Village, Xi'an 109
Pengying Bai and Pengrui Bai

The Measurement of the Consumer Trust to O2O E-Commerce Based on Fuzzy Evaluation 113
Min Liang, Xu Yang, and Haiying Ou

Managerial and Engineering Optimization

Chlorine Disinfectant Selection Based on Experimental Method 117
Maokui Fan and Haijiang Li

Analysis of New Farmers Cultivate Path Selection 121
Nannan Zhang

Study Two-Stages Relief Supplies Distribution Problem Based on Characteristics of Disaster Situation Information 126
Qiang Guo, Jianming Zhu, Tao Chen, and Jun Huang

Imperfect Price-Reversibility of Passenger Transportation Demand in China 131
Ying Yang, Jian Chai, Qing Zhu, and Quanying Lu

Analysis of Passenger Transportation Influencing Factors under Clustering Analysis - Shaanxi Province 135
Pengrui Bai, Ruining Jia, and Zheng Wang

Telecom Enterprise IT System Business Support Ability Evaluation Research 139
Xu Yang, Qina Liu, and Haiying Ou

Supply Chain and Operation Management

The Interactive Effect of Chinese Logistics Industry Development and Urbanization Construction 143
Jianchun Yang and Zhihua Deng

Cloud Logistics Sharing Mechanism Based on Cloud Federation 147
Long Yue-qi

On the Structure Model of Green Supply Chain Management 151
Zhengjun Li

Resource Allocation Problems in Port Operations: A Literature Review 154
Jinjia Huang, Fan Wang, and Ning Shi

Resource Allocation Problem in Port Project Portfolio Management 159
Kaibin Ye, Huijian Li, Xiaolun Shi, and Ning Shi

3-Party Loan Contract Based Purchase-Order Financing 163
Yan Chen, Jinjin Zhang, Yajia Yang, Xin Li, and Yong-Hong Kuo

An Inventory Model of Deteriorating Items with Price Reduction Sale and Customers Waiting Time 168
Bo Huang, Xiaojun Liu, and Zhang Tao

A Case Study of Ordering Policy with Mass Customization 172
Huajun Tang, Xiaodan Zhang, and Bo Huang

Integrating Relative Coordinates with Simulated Annealing to Solve a Traveling Salesman Problem 177
Xiaojun Liu, Bin Zhang, and Fangying Du

Distribution Center's Decisions in E-Commerce with the Consideration of Delivery Time 181
Zhang Tao, Xin Li, and Bo Huang

Spatial Computational Sciences and Applications

Auxiliary Function Based Independent Vector Analysis with Spatial Initialization for Frequency Domain Speech Separation 185
Songbo Chen, Yuxin Zhao, and Yanfeng Liang

Improved Image Fusion Algorithm Based on Wavelet Transform in EFVS 190
Gang Li and Yifeng Dong

Control Input Saturation Sliding-Mode Control System Design for Spacecraft Based on Neural Network 194
Yao Zhang and Yuxin Zhao

Underwater Penetration Path Planning Based on CHS Algorithm 199
Gang Li and Zhenxin Liu

An Improved Cuckoo Search Algorithm with Adaptive Method 204
Zhenxing Zhang and Yongjie Chen

Computational Business Science

Incentive Constraint Mechanism for Senior Executives of Village Bank 208
Huiling Wang and Qiongyu Yang

Influence of Intellectual Capital on Independent Innovation: A Survey in Chongqing of China 213
Panyi Li, Chenhui Zhou, and Chuanbiao Tao

R&D Human Capital Allocation in High-Tech Industries and Its Economic Effects 218
Jingting Zeng and Huodi Zhu

Readability to Financial Report: A Comparative Study of Chinese and Foreign Countries 223
Yan Sun, Xiaofeng Wang, and Yingxin Yu

Virtualization in Enterprises' Different Growth Stages and Its Motives: A Classical Grounded Theory Research 228
Xudong Jia and Liang Heng

A Growth Study of Bio-pharmaceutical Companies on the SME Board in China 233
Zhaoyang Liu and Zhihua Ma

Optimization Methods and Applications

Extensions of Small Nim 237
Wen An Liu and Xiao Zhao

Preservation of P-Positions between a Game and Its Restricted Game 242
Wen An Liu and Weiwei Li

On Convergence Analysis of Iterative Smoothing Methods for a Class of Nonsmooth Convex Minimization Problems 247
Sanming Liu and Zhijie Wang

Fractional and Trigonal Deviation Integral Approaches for Constrained Global Minimization 252
Yirong Yao, Sihao Chen, and Quan Zheng

An Analysis of Some Dual Problems for (0, Q) Invexity-Type Nonlinear Programming Problems 257
Sanming Liu and Zhijie Wang

Stability for the Major Joint Cone Weakly Efficient Solution Sets of Group Multiobjective Programming in Banach Space 262
Xuanwei Zhou

New Lagrangian Multiplier Method with NCP Function 267
Youlin Shang, Lifang Wang, and Min Zhou

A One-Parameter Filled Function Method Applied to Nonlinear Equations 271
Weixiang Wang, Youlin Shang, and Ying Zhang

Decision Making under Uncertainty

A Stochastic Optimization Model for Freight Empty Cars Allocation in Railway Networks 275
Ce Zhao and Li Wang

Enterprise Technology Innovation Capability Evaluation Based on Knowledge Management 280
Peng Chen

Volatility Spillover Effects between Gold and Stocks Based on VAR-DCC-BVGARCH Model 284
Xunfa Lu, Jiawei Wang, and Kin Keung Lai

A Network-TOPSIS Based Fuzzy Decision Support System for Supplier Selection in Risky Supply Chain 288
Mohuya B. Kar, Kajal Chatterjee, and Samarjit Kar

VaR for Loan Portfolio in Uncertain Environment 294
Yufu Ning, Dongjing Pan, and Xiao Wang

Empirical Research on Influence Factors of Shipbuilding Market Demands 298
Hui Li, Jiaguo Liu, and Yang Zhang

Improved FMEA Application to Evaluation of Supply Chain Vulnerability 302
Jiaguo Liu and Yuexiang Zhou

Interval-Valued Induced Averaging Aggregation Operator and Its Application in Group Decision Making with Intuitionistic Fuzzy Information 307
Sujit Das, Megha Rani, Tandra Pal, and Samarjit Kar

Information Risk Evaluation and Application: Based on Set Pair Analysis 312
Jinlou Zhao, Hongyu Gao, and Junhui Cheng

Key Element Identification in Cooperative Technological Innovation Risk on Social Network Analysis 316
Xiaoyan Ge

Nonlinear Optimization Model Construction and Empirical Analysis of Complete Energy Intensity in Transportation Equipment Manufacturing Industry Based on Input and Output 320
Gen Li, Guangming Zhang, and Xiaofang Luo

Public Opinion Propagation Model on Social Networks 325
Jinlou Zhao, Junhui Cheng, and Hongyu Gao

Research on Joint Strategy of Inventory for Production Disruption 329
Liu Jia-Guo, Jiang Xing-He, Shi Gao-Wei, and Zhao Jin-Lou

Research on the Cost Estimating of China's Aviation Aircraft Development Project Based on the Parametric Method 334
Zhang Haifeng, Jiang Haiyan, Xin Nuonuo, and Wang Fali

The Analysis of the Regional Industry-University-Research Cooperative Innovation Dynamical System 339
Jing Cao and Chenmei Teng

Artificial Intelligence with Business Applications

The Evolution of Public Opinion in Social Simulation 343
Yixiang Zhang

A Research of Domestic Value Added of Chinese Manufacturing Export Trade and Its International Comparison of Influential Factors 346
Wang Man and Xie Rui

Price Transmission Effect of Coal and Electricity Linkage: A Partial Transmission Input-Output Analysis 351
Chenlong Mu, Shu Liu, and Chen Cheng

Allocation of Public Rental Housing Based on Two-Sided Matching 356
Hongping Deng, Sha Liang, Dou Feng, and Yidai Zhang

Method for Hospital Selection Considering Patients' Expectations 361
Juan Wang and Xi Chen

Data Analysis and Data Mining

The Analysis of Several Commonly Used Excel Function in Accounting Practice 366
Qingmin Yu

Analysis of Statistical Data Quality 370
Hong Liu

Impact of the Concerns over Exogenous Factors towards the Insurance Purchase: A Study in Hong Kong Insurance Market 373
Frankie Yeung, Kin Keung Lai, and Yan Pui Lee

Multiscale Fractal Analysis of Electricity Markets 378
Lijun Wang, Kaijian He, Yingchao Zou, and Zhimeng Feng

Discussion on the Statistical Analysis Method 383
Hong Liu

A Behavioral Finance Analysis on ETF Investment Behavior 386
Yang Xu, Kaijian He, Lo Ka Kuen Kenneth, and Kin Keung Lai

Predicting Determinants and Moderating Factors of Mobile Phone Data Flow Service Adoption 390
Qi Li, Dong Yang, and Xi Chen

Analysis of the Induction and Dependence Relationship between Foreign Final Demand and China's Output 395
Pei Xiao and Hao Xiao

Nonlinearity Characteristic for Clean Energy Stock Market: An Integrated Exploration Approach 399
Huiling Lv, Fengmei Yang, and Ling Tang

Supply Chain Integration and BI

Developed Urban Transport Policy Development and Evolution 405
Zeng Xiao-Ping

Vertical Structure Choice of Multi-Supply Chains Competition 409
Yao Fengmin, Tong Qingtian, Xu Subo, and Teng Chunxian

Game Analysis of the Supply Chain Co-op Advertising Based on the Advertising Efforts and Price Discount 414
Xi Liao, Lihong He, and Mengmeng Liu

A D-VIKOR Method for Medicine Provider Selection 419
Xueliang Han and Xi Chen

Asset Pricing and Financial Risk Management

Fair Value Accounting Problems and Coping Strategies 424
Qingmin Yu

Investor Sentiment Caused by Extreme Income and Extreme Volatility 428
Wen Fenghua and Yang Jia

What Factors Cause Foreign-Funded Enterprises to Withdraw from China? 431
Qinmei Wang and Yu Wang

Pricing Lookback Options under Normal Inverse Gaussian Model by Variance Reduction and Randomized Quasi-Monte Carlo Methods 435
Yongzeng Lai and Jilin Zhang

The Impact of Central Bank Benchmark Rate on Dynamic Risks of Shibor 440
Xuchao Li and Chengli Zheng

EMD Based Value at Risk Estimate Algorithm for Electricity Markets 445
Hongqian Wang, Kaijian He, and Yingchao Zou

Prepayment Risk of Personal Housing Mortgage Loans Research: The Case of Xi'an, a Commercial Bank 450
Xiaoning Cheng and Qing Zhu

Financial Engineering and Its Applications

The Empirical Research on Volatility Measurement Model Based Multiplicative Error Model 455
Yulin Ma , Pin Guo, and Yuan Zhao

The Development of a RMB Internationalization Potential Index 459
Marggie Ma, Ke Liu, and Kin Keung Lai

Agricultural Information Effecting Farmers Net Income 464
Zuoliang Lv, Pingping Wang, Xiaobo Gu, Shaolong Hou, and Bo Lu

The Research of the EU Carbon Market and the Revelation for China 469
Yihui Zhong

Contagion in Chinese Banking System: A Comparison of Maximum Entropy Method and Transfer Entropy Method 474
Changzhi Liang, Xiaoqian Zhu, Yanzhen Yao, and Jianping Li

Low-Carbon Economy and Carbon Finance

Travel for Meaning: The Present and Future of Tourist Wellbeing 479
Yanzheng Tuo, Changhong Bai, and Zengxiang Chen

The Effect of Product-Harm Crisis on Consumers' Panic Emotion and Risk Perception 484
Lin Wang, Yongqiang Zhang, and Yanzheng Tuo

Game Analysis of Labor Contract Signing Process - From the Perspective of Harmonious Labor Relationship 489
Xin Guan and Mingwei Zhang

Important Cautions Research about Chinese-Funded Construction Companies Bidding on Omani Construction Project 492
Linjun Yan

Electronic Assistant Evaluation Study under the Mode of Engineering Quantities Priced Bill 497
Linjun Yan and Lin Ding

Relationship between the Features as Well as Industrial Organization Form of Creative Idea and Creative Idea Management System 501
Qing Chun Shi and Xiao-Nan Tuo

The Collaborative Innovation Practice Research between Marketing Major in Vocational Education and Regional Retailers 505
Chunyuan Ke

Mapping of Electronic Government: The Trend of Research Fronts 509
Sai-Yan Cheng and Lei Ding

Business Intelligence with Case-Based Computing

A Real Options Pricing Framework for Valuation of Security Professionals 514
Jun Wang and Hongyu Guo

Case-Based Reasoning Algorithm Based on Qualitative Causality 519
Zhile Liu, Lingfei Fu, and Yanchun Zhou

Forecasting the International Trade of Chinese High-Tech Products Using an Fourier Nash Nonlinear Grey Bernoulli Model 524
Zheng-Xin Wang and Ling-Ling Pei

Integration of Batch Weighted Method with Classifiers Combination to Solve Financial Distress Prediction Concept Drift 529
Peng Chen and Jie Sun

Neighborhood Triangular Synthetic Minority Over-sampling Technique for Imbalanced Prediction on Small Samples of Chinese Tourism and Hospitality Firms 534
Yu-Hui Xu, Hui Li, Lu-Ping Le, and Xiao-Yun Tian

Sensitivity of Decision Tree Algorithm to Class-Imbalanced Bank Credit Risk Early Warning 539
Jie Lang and Jie Sun

A Project of a Multipath Signal Acquisition and Analysis System Based on Labview 544
Yuchan Xie, Yiran Wang, and Tingyang Xing

Innovation Management and Numerical Algorithms

A Modified Storage Format for Accelerating SPMV 547
Jin Tian, Fei Wu, Guohui Zeng, and Li Gong

An Analysis of Double Moral Hazard Problem Based on Different Retreat Choices in Venture Capital 551
Wenjun Yan

Interindustry Analysis of Express Industry Based on Entropy and Grey Relational Analysis 556
Jianbin Zhang and Jinyang Zhang

Model on Transportation Demand Distribution 559
Ying Dang

An Efficient Column-Major Ordering Format for Finite Element Analysis 562
Jin Tian, Fei Gao, Xiankun Sun, and Li Gong

Social Media Content Quantification

An Architecture of Digital Library Based on Inter Cloud 566
Chengshan Liu, Penghua Zhang, and Yu Li

Evaluation of the Executing Effectiveness of Strategic Activity Based on Task and Management Control Matching 571
Xubu Ma and Ju-e Guo

User Interest Modeling for P2P Document Sharing Systems Based on K-Medoids Clustering Algorithm 576
Chunxiu Qin, Zhimo Yang, and Huailiang Liu

Information Extraction of Strategic Activities Based on Semi-structured Text 579
Xubu Ma and Ju-e Guo

Computational Finance

Will Capital Structure and Performance Affect External Financial Guarantee Behavior? 584
Aolin Leng, Junrui Zhang, and Guangyuan Xing

Environmental Effects and Its Assessment for Shale Gas Large-Scale Development of China 589
Jian Wang, Zihan Liu, and Shubin Wang

Prediction on Diesel Price in China with an Exponential Smoothing Method 593
Yang Ding, Quan Wen, and Bo Shen

Assessing Personal Performance with M-SVMs 598
Xude Gui, Zhongyi Hu, Jinlong Zhang, and Yukun Bao

A Novel Forecasting Method for Large-Scale Sales Prediction Using Extreme Learning Machine 602
Ming Gao, Wei Xu, Hongjiao Fu, Mingming Wang, and Xun Liang

Designing the Expert Systems for Senior Managers' Performance Evaluation 607
Xude Gui, Jing Xiao, Jinlong Zhang, and Yukun Bao

A Prediction-Based Inventory Optimization Using Data Mining Models 611
Xiaoxiao Guo, Chang Liu, Wei Xu, Hui Yuan, and Mingming Wang

Optimization-based Decision Making

A Bi-level Programming to Two-Stage Transportation Planning Problem 616
Cuiying Feng and Ling Nie

Dynamic Pricing of Duopoly through Pricing Game Based on Price Discrimination 621
Hui Li, Qing Zhu, Xiaoyang Zhou, and Jing Han

Job Shop Scheduling Problem with Fuzzy Random Variables 626
Ling Nie and Ting Ni

Quality Risk Control for GSC Dynamic Alliance in Large-Scale Construction Projects 631
Lu Gan, Qiong Shen, Dirong Xu, and Wen Wang

The Influence Factors of Subscriber Locked in the Era of 4G - A Consumer Behavior Perspective 636
Shenglong Li, Qiudan Xing, and Shihui Jin

Multi-objective Optimization for Construction Site Layout Planning Problem under Fuzzy Random Environment 641
Siwei Zhao and Zongmin Li

Competition of Banks as Two-Sided Markets 646
Xiao Shao

A Class of Random Fuzzy Linear Bi-level Programming with Expected Objectives and Chance Constraints 651
Xiaoyang Zhou, Yan Tu, Quanying Lu, and Jian Chai

Portfolio of Performance Evaluation 656
Xueyu Ma and Zilong Ma

Decentralized Bilevel Optimization for Supplier Selection Problem with Multiple Items under Fuzzy Random Environment 661
Yan Tu, Xiaoyang Zhou, and Benjamin Lev

A MODM Bi-level Model with Fuzzy Random Coefficients for Resource-Constrained Project Scheduling Problems 666
Zhe Zhang

A Hybrid Fuzzy Multi-criteria Group Decision Making and Statistical Method for Scientific Journal Evaluation 670
Zongmin Li and Siwei Zhao

A Stochastic Bilevel Decision-Making Model of Optimal Production Planning with Carbon Emission Trading 675
Zhimiao Tao, Chunmei Chen, and Haijun Xu

Changes of Economic and Rural Industrial Structure Since the Implementation of Grain for Green in Ansai County 680
Huili Zhu, Gaihe Yang, and Lei Han

Effects of the Grain for Green Project on Grain Production in Ansai County 684
Lei Han and Huili Zhu

Improving the Accuracy of Destructive Earthquake Prediction by Transforming the Small Probability Event to Conditional Probability Event 688
Ying Wu, Qi Zheng, Ruina Wang, Chuntao Zhang, and Jingyi Sun

Author Index 692
