2013 International Conference on Advanced Computing and Communication Systems

(ICACCS 2013)

Coimbatore, India
19-21 December 2013

ICACCS 2012
TABLE OF CONTENTS

16	377	Hierarchical Identity Role Based Proxy Re-Encryption Scheme To Enhance Access Control Measure For Cloud	Nirmala Vairaganthan
17	557	Deadlock Aware Virtual Machine Placement Technique In Cloud Data Centre	Ajith Nongmaithem
18	226	Verification And Validation Of Parallel Support Vector Machine Algorithm Based On Mapreduce Program Model On Hadoop Cluster	Kiran M
19	495	Improvement Of Chord Algorithm In Efficient Grid Resource Discovery: A Comparative Analysis	Jeyabharathi Chellamuthu
20	500	Sensation Of Learning Analytics To Prevails The Software Engineering Education	Nidyanandan Pratheesh
21	523	Lbda : A Novel Framework For Extracting Content From Web Pages	Dr.Anna Saro Vijendran
22	586	High Speed Classification Of Vulnerabilities In Cloud Computing Using Collaborative Network Security Management	Krishna Kumar L
23	X1	Classification Of Interior Noise Comfort Level Of Proton Model Cars Using Artificial Neural Network	Paulraj M P
24	369	Statistical Language Modeling For Personalizing Information Retrieval	Veningston K
25	149	Fault Tolerant Hierarchical Multicast Routing Protocol (Fthmrp)	Kalakuntla Theja
26	155	A Study On Evolution Of Influence In Online Social Networks	Sr.Sujatha Yeruva
27	196	Evaluation Of Tcp Congestion Control Algorithms On Different Satellite Constellations	Nirmala M
28	233	Ezrp : Evolutionary Zone Routing Protocol	Samuel
29	249	An Energy Efficient Overhearing Controlled Medium Access Control Protocol For Multi-Hop Manets	Sivanesan P
30	340	An Efficient Hierarchical Attribute Set Based Encryption Scheme With Revocation For Outsourcing Personal Health Records In Cloud Computing	Perumal B
31	439	Social Network Classifier For Churn Prediction In Telecom Data	Pushpa Ravikumar
32	585	An Enhanced Intrusion Detection System For Routing Attacks In Manet	Ramaabirami K

33	269	Energy Efficient Random Cast Dsr Protocol With Mediation Device In Manet	Naveen Durai.K
34	358	Sona: A Service Oriented Nodes Architecture For Developing Cloud Computing Applications	Samah Ahmed Zaki Hassan
35	83	Improved Catastrophe Forewarning System Using Inter Tower Communication	Abilash C
36	160	An Intelligent Motion Control System For A Macro-Micro Manipulator Using Fuzzy Adaptive System	Sukanya Visagan
37	354	Optimal Placement Of Femtocell Base Station For Indoor Environment	Akhilesh Jain
38	30	A Case Study On Noc Router Architecture For Optimizing The Latency	Ramani S
39	298	Performance Analysis Of Various Ieee 802.15.4 Phys Under Rayleigh Fading Channel	Velagapudi Pranith
40	605	An Assiduous Approach For Power Reduction In Ofdm System Using Tone Reservation	Kiruthika Venugopalan
41	609	Oversampled Convex Optimized Clipping Technique	Gayathri Balasubramaniam
42	129	Ahb Ddr Sdram Enhanced Memory Controller	Sreehari S
43	138	Ovl,Psl,Sva : Assertion Based Verification Using Checkers And 2 Standard Assertion Languages	Ashley Sonny
44	139	Rsa Encryption System Using Encoded Multiplier And Vedic Mathematics	Dani George
45	289	Study Of Cntfet Based Basic Current Mirror In Comparison With Nmos Technologies	Raghav Gupta
46	393	Real-Time Communication System Design Using Rtl-Sdr And Raspberry Pi	Danymol R
47	467	Detection And Correction Of Soft Error In Memeory System	Ramya M
48	512	Design Of Optimal Fast Adder	O.V.Pavan Kumar
49	X14	A Study On Vlsi Architecturesof Lifting-Based Discretewavelet Transform	K.Indira Devi
50	521	Experimental Investigations On Active Vibration Isolation Using Piezoelectric Actuators	Niju Rajan
51	542	On Rough Fuzzy Cluster Validity Indices	Revathy Ramesh
52	574	Feature Selection Techniques For Prediction Of Warning Level In Aircraft Accidents	Arockia Christopher
53	162	Text Independent Automatic Speaker Recognition System In Malayalam	Karthik Selvan
54	X6	Glitch Free Coarse Digitally Controlled Delay Lines	Sreenidhi P R
55	79	An Analytical Approch To The Performance Of Low Density Parity Check Codes	Abin Johns Raju
56	80	A Comparitive Study Of Ldpc Codes And Convolution Codes	Lakshmi R

57	95	Harmonic Diminution In Unique Inverter Using Particle Swarm Optimization Algorithmic Switching Angles	Ravi K
58	184	Measurement Of Environmental Conditions And Biomedical Parameters Using Robotic-Gripper	Sathurappan N
59	271	Efficient Window For Monolingual And Crosslingual Speaker Identification Using Mfcc	B G Nagaraja
60	320	Classification Of Arrhythmias Using Statistical Features In The Wavelet Transform Domain	Annet Deenu Lopez
61	343	Minimum Ped Based K Best Algorithm For High Performance Mimo Detector	Balakrishnan C
62	508	Stability Analysis In Higher Order Delta Sigma Modulator	Ms Sonika
63	545	Polynomial Basis Operator Based Edge Detection Technique For Monochrome Images – A Survey	T Karthikeyan
64	405	Aggregation-Based Spectrum Assignment In Cognitive Radio Networks	Soheil Rostami
65	569	Comparative Study Of Task Assignment On Consistent And Inconsistent Heterogeneous Multiprocessor System	Prescilla Koshy
66	98	Hybrid Svm Classification Technique To Detect Mental Stress In Human Beings Using Ecg Signals	Vanitha L
67	167	Grid Connected Mode Of Microgrid With Reactive Power Compensation	Viji Joseph
68	220	High Performance Stand-Alone And Grid Connected Inverter Using Adaptive Total Sliding Mode Controller	Ashna Mohan
69	221	Three Phase Multi-String Boost Front- End Hybrid Multilevel Inverter For Standalone System	Athira Raju
70	223	Fault Diagnosis In Induction Motor Using Soft Computing Techniques	Greety Jose
71	245	Harmonics Control And Performance Analysis Of A Grid Connected Photovoltaic System	Rangy Sunny
72	263	Transient Stability Enhancement Of Single Machine Infinite Bus System	Krishna Gandhi
73	278	Estimation Of Power System Frequency Using A Time - Domain Method	Sangeetha Sankar
74	279	Power Quality Monitoring And Compression Using Discrete Wavelet Transform	Brindha Selvaraju
75	282	Reliability Of Different Fault Detection Algorithm Under High Impedance Faults	Durga Prasad Chinta
76	421	A Fuzzy Controller Based Railway Static Power Conditioner For Ac Traction	Vineetha P Joseph
77	49	Artificial Intelligence Technique Based Reactive Power Planning Using Fvsi	K R Vadivelu
78	312	A New Reduced Switch Count Seven Level Cascaded Multilevel Inverter For Bldc Motor	M.Murugesan

79	316	Power Flow Control Of Ipfc Using Multiagent Technique	Nathiya K
80	406	Design And Development Of Matlab/Simulink Based Selective Harmonic Elimination Technique For Three Phase Voltage Source Inverter	Rajpriya G
81	436	Closed Loop Control Of Bldc Motor Using A Fuzzy Logic Controller And Single Current Sensor	Tony Mathew
82	601	Performance Study Of Bidirectional Dc-Dc Converter	Karthikeyan V
83	143	Solving Optimum Power Flow In Dynamic Environments To Minimize Tracking Errors Using Dynamic Bacterial Foraging Algorithm	K Ravi
84	670	Comparative Analysis Of Web 3.0 Search Engines: A Survey Report	R. Aravindhan
