

2014 9th Computing Colombian Conference

(9CCC 2014)

**Pereira, Colombia
3-5 September 2014**

**IEEE Catalog Number: CFP1444X-POD
ISBN: 978-1-4799-6718-6**

CONTENIDO	PÁG.
MOF-based metamodel for pedagogical strategy modeling in Intelligent Tutoring Systems	1-6
Jovani Alberto Jiménez Builes	
Manuel Caro	
Estudio de métodos de evaluación de usabilidad colaborativos en el área web transaccional	7-13
Andrés Solano, César Collazos, Cristian Rusu	
Improving the planning of buildings with data visualization	14-20
Lilia Muñoz, Edwin Caballero, Eliecer Cáceres, Vladimir Villarreal	
Technology Oriented Collaboration Through Multi-Agent Systems in Operation of a Group of Transplantation	21-28
John Sprockel, Javier Agreda	
Foundations for a development methodology software agile model – driven from a modeling graphic customer-oriented language	29-34
Duque M. Nathalia B., Pulgarín M. Mauricio A. y Ríos P. Jorge I.	
A Tool for Competence Testing in Moodle	35-41
Sergio Cardona, Jeimy Vélez, Sergio Tobón	
4Med Requirements Process in E-Health Applications	42-47
Patricia Amórtegui , Alexandra Pomares Quimbaya, Miguel Torres	
Domain Specific Language for Handling Modular Ontologies	48-53
Christian Humberto Cabrera Jojoa, Olga Mariño Drews	
Using Wikis as Collaborative Strategy to Support Software Requirements Elicitation	54-61
Gustavo Sevilla#, Sergio Zapata#, Estela Torres#, Cesar A. Collazos	
Arquitectura de Sistema Semafórico con Señal de Prioridad para Transporte Público	62-68
René Gómez-Londoño, Andrés G. Velásquez-Gómez, Fabián L. Muñoz-Tobón	
PeCoS-CBR... Personalized Courses System with Case-Based Reasoning	69-74
Néstor Darío Duque Méndez, Ricardo Moreno Laverde, Valentina Tabares Morales	
Prototype for Importing Routes Generatedfor Realistic Simulation of Vehicles	75-81
John Velandia*, Holman Bolívar	
Comparative Study of Technologies for Mobile Learning Analytics	82-89
Camilo Andrés Quintero, Beatriz Florian-Gaviria, Oswaldo Solarte Pabón	
Cloud Computing, Trend importance and relevance for Higher Education	90-95
Iván Darío Mejía Ortega, Javier Antonio Ballesteros Ricaurte	

Knowledge Discovery Process in the Open Government Colombian Model	96-102
Johnny Alexander Salazar Cardona, Carlos Hernan Gomez G, Marcelo López Trujillo	
Recommender System Based on Student Competencies Assessment Results	103-108
Oscar Chavarriaga ^{&} , Beatriz Florian-Gaviria [*] , Oswaldo Solarte P.	
Mobile Computing System to Support the Management of the Seed Production Process in Crop Genebanks	109-114
Diego Fernando González Monroy, Ángela Marcela Hernández, Liliana Machuca Villegas	
Ambient Intelligence based Multi-Agent System for attend Elderly People	115-120
Javier Andrés Agreda, Enrique González	
Proposed Application Of Testing Based On BS 7925-2 Standard For Degree Projects Focused On Development Software	121-127
Jhonatan Álvarez Caicedo, Jhonny Garcés Tabares, Marta Cecilia Camacho	
A comparison of NoSQL Graph Databases	128-131
<i>Germán Andrés Pérez, Oswaldo Solarte Pabón</i>	
Modelo de clasificación de tejidos cerebrales para la navegación en telecirugía	132-136
Marco Javier Suarez Baron, Carlos Andres Cifuentes, Luis Eduardo Rodriguez· Juan Carlos Suarez Barón	
Ontological Representation of the Graphical Language of <i>Semat</i>	137-143
C. M. Zapata, G. L. Giraldo, L. D. Jiménez	
Optimization based on Multi-type Ants for the Traveling Salesman Problem	144-149
Y.J. Costa Salas, N. J. Castaño Pérez, J. F. Betancur	
Incorporation of HCI: Classification of Activity Modeling	150-155
William J. Giraldo , Maria L. Villegas , César A. Collazos	
Methodology applied in the construction of a proxy-cache server	156-161
Jose A.Uruburo, Carlos E. Gomez, Christian A. Candela, Luis E. Sepulveda	
Hacia un Modelo de Madurez para apoyar el Desarrollo de Software Dirigido por Modelos	162-167
Valenzuela, Jorge., Pavlich-Mariscal Jaime	
Building Open TextBooks through Collaborative Environments	168-174
Eder A. Campo Cobo, César A. Collazos, Jaime Muñoz Arteaga	
Implementing the Software Requirements Engineering Practices of the ISO 29110-5-1-1 standard with the Unified Process	175-183
J. J. Alvarez, J.A. Hurtado	

LU Decomposition Method implementation using Graphics Processing Units - GPU Yensy Gómez, John Osorio, Lina Pérez	184-191
Automated Abstract Certification of Non-interference with object aliasing in Rewriting Logic Mauricio Alba Castro	192-199
Supporting Drafts for Enterprise Modeling Hector Florez, Mario Sanchez, Jorge Villalobos	200-206
General videogame Learning with Neural-evolution Leonardo Quinonez, Jonatan Gomez	207-212
A Secure Mobile System to Interchange Electronic Medical Records in HL7 Diego F. Sierra, Yeison F. Torres, Jorge E. Camargo	213-221
A Hybrid Approach for Fault Detection in Wind Turbines Ruben Francisco Manrique, Jose Joaquín Parrado	222-230
A New Approach to Isomorphism in Attributed Graphs Juan Mendivelso # and Yoan Pinzon´	231-239
Semi-Lagrangian Implementation Method using GPU Yensy Gomez, Juan Hincapie, John Osorio, Julio Vargas	240-248
Formal Design of a Model Repository Based on Knowledge Representation Using Graphs Saul Martinez and Jaime A	249-254
PLANNED NAVIGATION OF A LEGO NXT ROBOT Steffen Jose Cantillo Molina, Julie Stephany Berrío Pérez	255-263
