

# **2014 Brazilian Symposium on Computer Games and Digital Entertainment**

**(SBGAMES 2014)**

**Porto Alegre, Brazil  
12-14 November 2014**

**IEEE Catalog Number: CFP1428J-POD  
ISBN: 978-1-4799-8066-6**

# **2014 Brazilian Symposium on Computer Games and Digital Entertainment**

# **SBGAMES 2014**

## **Table of Contents**

<b>Message from General Chair.....</b>	viii
<b>Message from Program Chairs.....</b>	ix
<b>Conferece Organization .....</b>	x
<b>Program Committee.....</b>	xii
<b>Reviewers.....</b>	xiv
<b>Acknowledgements.....</b>	xvi

---

### **Animation**

An Architecture for Real Time Crowd Simulation Using Multiple GPUs .....	1
<i>Mark Joselli, José Ricardo da Silva Jr., and Esteban Clua</i>	
BioPlan: An API for Classical Planning on BioCrowds .....	11
<i>Maurício Cecílio Magnaguagno and Felipe Meneguzzi</i>	
Resource Management in Complex Environments: Applying to Real Time Strategy Games .....	21
<i>Thiago A. Souza, Geber Lisboa Ramalho, and Sérgio R. M. Queiroz</i>	

### **Software and Development**

Helping Developers to Look Deeper inside Game Sessions .....	31
<i>Marco Túlio C. F. Albuquerque, Geber Lisboa Ramalho, Vincent Corruble, André Luís Medeiros Santos, and Fred Freitas</i>	
A Non-intrusive Approach for 2D Platform Game Design Analysis Based on Provenance Data Extracted from Game Streaming .....	41
<i>Lidson Barbosa Jacob, Troy C. Kohwalter, Alex F. V. Machado, Esteban W. G. Clua, and Daniel de Oliveira</i>	

A Systematic Review on Software Engineering in Pervasive Games Development .....	51
<i>Jose Ricardo Mello Viana, Nayane Ponte Viana, Fernando Antonio Mota Trinta, and Windsor Viana de Carvalho</i>	
Reconfigurable Games: Games that Change with the Environment .....	61
<i>Fabricio Nogueira Buzeto, Tiago Barros Pontes e Silva, Carla Denise Castanho, and Ricardo Pezzuol Jacobi</i>	
Structural Analysis for Simple Games Source Codes Applied to Programming Learning .....	71
<i>Elanne Cristina Oliveira dos Santos, Gleison Brito Batista, Victor Hugo Vieira de Sousa, and Esteban W. G. Clua</i>	
Parallelizing Broad Phase Collision Detection for Animation in Games: A Performance Comparison of CPU and GPU Algorithms .....	80
<i>Ygor R. Serpa and Maria Andreia F. Rodrigues</i>	

## **Game AI**

Coevolutionary Procedural Generation of Battle Formations in Massively Multiplayer Online Strategy Games .....	89
<i>André Siqueira Ruela and Frederico Gadelha Guimarães</i>	
Evolving Swarm Intelligence for Task Allocation in a Real Time Strategy Game .....	99
<i>Anderson R. Tavares, Hector Azpúrua, and Luiz Chaimowicz</i>	
Procedural Level Balancing in Runner Games .....	109
<i>Rubem José Vasconcelos de Medeiros and Tácio Filipe Vasconcelos de Medeiros</i>	
Evolving the Behavior of Autonomous Agents in Strategic Combat Scenarios via SARSA Reinforcement Learning .....	115
<i>Clauriton de Albuquerque Siebra and Gutenberg P. Botelho Neto</i>	

## **User Interfaces and Serious Games**

Mindninja: Concept, Development and Evaluation of a Mind Action Game Based on EEGs .....	123
<i>Mark Joselli, Fabio Binder, Esteban Clua, and Eduardo Soluri</i>	
Creating and Designing Customized and Dynamic Game Interfaces Using Smartphones and Touchscreen .....	133
<i>Mateus Pelegrino, Leonardo Torok, Daniela Trevisan, and Esteban Clua</i>	
Thoroughly Approach to Upper Limb Rehabilitation Using Serious Games for Intensive Group Physical Therapy or Individual Biofeedback Training .....	140
<i>Marcos Cordeiro d'Ornellas, Diego Joao Cargnin, and Ana Lucia Cervi Prado</i>	

ComFiM: A Cooperative Serious Game to Encourage the Development of Communicative Skills between Children with Autism .....	148
<i>Paula Ceccon Ribeiro, Bruno Baère Pederassi Lomba de Araujo, and Alberto Raposo</i>	
Wanda: A Framework to Develop Card Based Games to Help Motivate Programming Students .....	158
<i>Rafael Rego Drumond, André Luiz Brandão de Damasceno, and Carlos de Salles Soares Neto</i>	
Seeing the Movement through Sound: Giving Trajectory Information to Visually Impaired People .....	165
<i>Nestor Z. Salamon, Julio C. S. Jacques Junior, and Soraia R. Musse</i>	

## **Miscellaneous**

Experimental Approach of the Asymptotic Computational Complexity of Shaders for Mobile Devices with OpenGL ES .....	173
<i>Alex de Souza Campelo Lima and Edson Alves da Costa Júnior</i>	
Deepening the Understanding of Mobile Game .....	183
<i>Vicente Vieira Filho, Átila Valgueiro Malta Moreira, and Geber Lisboa Ramalho</i>	
Extending Use Cases to Support Activity Design in Pervasive Mobile Games .....	193
<i>Luis Valente and Bruno Feijó</i>	
Case Study of a Mobile HTML5 Multiplayer Game Portal .....	202
<i>Leonardo V. de Carvalho, Átila Valgueiro Malta Moreira, Ícaro V. M. Moreira, Marco Túlio C. F. Albuquerque, Vicente Vieira Filho, and Geber Lisboa Ramalho</i>	

## **Modeling and Rendering**

Expressive Reproduced Characters for Games .....	210
<i>Roberto Cesar Cavalcante Vieira, Creto Augusto Vidal, and Joaquim Bento Cavalcante-Neto</i>	
Automatic Mapping between Gameplay and Aesthetics RPG Character Attributes through Fuzzy System .....	220
<i>Jefferson Henrique Camelo, Ricardo Lira Rabêlo, and Erick Passos</i>	
Cartoon Water Rendering with Foam and Surface Smoothing .....	230
<i>Liordino dos Santos Rocha Neto and Antonio Lopes Apolinário Junior</i>	
Ray-Traced Reflections in Real-Time Using Heuristic Based Hybrid Rendering .....	240
<i>Paulo Andrade, Thales Sabino, Esteban Clua, and Paulo Pagliosa</i>	
<b>Author Index .....</b>	<b>249</b>
