

# **2014 Pan African Conference on Science, Computing and Telecommunications**

**(PACT 2014)**

**Arusha, Tanzania  
14-18 July 2014**

**IEEE Catalog Number: CFP1435U-POD  
ISBN: 978-1-4799-6900-5**

# Table of Contents

PACT 2014, July 14 – 18, Arusha Tanzania

Hosted By

Nelson Mandela African Institution of Science and Technology,  
Arusha, Tanzania

&

La Trobe University, Melbourne Australia

Technically Sponsored by IEEE Region 8 and IEEE Tanzania Chapter

Committees

Reviewers

## Papers

Title of Papers	Page
Low-cost tuning of fuzzy controllers in a chaotic system stabilization problem	1
Synchronization of chaotic flows with variable nonlinear hyperbolic functions via hybrid feedback control	7
Analysis of New Crosstalk Multiple access Systems for inductive communication systems	17
Channel Capacity with Channel Interference in MIMO-WLAN Systems	23
Using Mobile Phones to Monitor HIV/AIDS Patients on Anti Retroviral Therapy (ART) in Uganda	26
Security Frameworks in the Converged Web and Mobile Applications: A Review	29
Path Loss Reduction for Multiusers by Different Antenna Arrays	35
A Knowledge Management Model for Paediatric Health Care Practice	40
Official use of Social Network Sites by African Universities	46
Structure and Vibrational Spectra of Cluster Ions over Rubidium Iodide by Computational Chemistry	52
Verification of Pavement Marking Degradation Models Using East Tennessee Pavement Marking Data	56
Monitoring and Evaluation of the E-readers Project in Rural Tanzania	62
Implementing Wireless Network Performance Optimization for Small and Medium Enterprises	68
Performance Analysis of Raptor Codes Based IEEE 802.16e System with different Modulations Techniques	74

Adaptive Carrier Frequency Synchronization using Virtual Subcarriers in OFDM Systems	80
Deployment of Wireless Sensor Networks (WSN) in Automated Irrigation Management and Scheduling Systems: a review	86
Effect of varying Filler-Size in Profile Injection Attacks on the Robust Weighted Slope One	92
Application of Side-Wall Deposition and Etch-Back Technology for Nanometer Scale Device Integration	98
A Web Service Approach for Integrating e-Health Data in a Low Bandwidth	108
A Mobile Solution for Road Accident Data Collection	115
Using Game-Based Approach to Enhance Language Learning for Preschoolers in Tanzania	121
Review of Schemes for analyzing quality of service in wireless network environment	127
An overview on pipeline leak detection and location systems	133
Radiation Safety of Handheld Mobile Phones	138
Multifunctional Network Monitoring System Using SMS	143
An Overview of Various Propagation Model for Mobile Communication	148
Road Map towards Eco-efficient Cloud Computing Adoption in Higher Learning Institutions in Tanzania	154
Proactive Approaches to Audit Pedestrian Safety Locations, A Model for Developing Countries	160
Cost-Effective Mobile Based Learning Content Delivery in Resources and Network Constrained Environments	
A Solar-powered, Wi-Fi Re-programmable Precision Irrigation Controller	171
Peak to Average Power Ratio Analysis for a Constant Envelope Chirped OFDM	177
Spectrum Difference Function technique for measuring velocity	180
Scale Factor considerations for SDF technique	186
Implementation considerations for SDF technique	192

Author Index
