

**2015 Ninth International Workshop  
on Interconnection Network  
Architectures: On-Chip,  
Multi-Chip**

**(INA-OCMC 2015)**

**Amsterdam, Netherlands  
19 January 2015**

**IEEE Catalog Number: CFP15B75-POD  
ISBN: 978-1-4799-1871-3**

# 2015 9th International Workshop on Interconnection Network Architectures: On-Chip, Multi-Chip INA-OCMC 2015 Table of Contents

Introduction .....	vi
Workshop Organizers .....	vii
Technical Program Committee .....	viii

---

## **Power-Efficient Optical NoCs**

Towards High-Performance and Power-Efficient Optical NoCs Using Silicon-in-Silica Photonic Components .....	1
<i>Elena Kakoulli, Vassos Soteriou, Charalambos Koutsides, and Kyriacos Kalli</i>	
Contrasting Power Efficiency of Contention Resolution vs. Avoidance Strategies in Optical Ring Interconnects for Photonically-Integrated Embedded Systems .....	5
<i>Luca Ramini, Mahdi Tala, and Davide Bertozzi</i>	

## **Integrating Security into Application-Specific NoCs, Parallel Algorithms for 3D NoCs and Multicore Programmability**

Automatic ILP-based Firewall Insertion for Secure Application-Specific Networks-on-Chip .....	9
<i>Yong Hu, Daniel Müller-Gritschneider, Martha Johanna Sepulveda, Guy Gogniat, and Ulf Schlichtmann</i>	
A Parallel Gauss-Seidel Algorithm on a 3D Torus Network-on-Chip Architecture .....	13
<i>Khaled Day and Mohammad H. Al-Towaiq</i>	
A Co-design Approach for Hardware Optimizations in Multicore Architectures Using MCAPI .....	17
<i>Thiago Raupp da Rosa, Romain Lemaire, and Fabien Clermidy</i>	
Author Index .....	21
