

2015 First Conference on Mobile and Secure Services

(MOBISECSERV 2015)

**Gainesville, Florida, USA
20-21 February 2015**

**IEEE Catalog Number: CFP15RAC-POD
ISBN: 978-1-4799-7429-0**

Table of Contents

Tutorial1

"Secure Elements and NFC/HCE technologies: the foundations of trusted mobile services based on the emerging Cloud of Secure Elements (CoSE)". Pr Pascal Urien, CoFounder of the EtherTrust Company N/A

Tutorial2

"Sim-Servers, Past, Present, Future". Andreas Lux, CEO of the Implementa Company N/A

Keynote Speech

"Smart Card based Mobile Device Security". Nizar Jamal, CTO of the Tyfone Company N/A

Session 1 Secure Elements and Secure Services

"Manage your own security domain on your smartphone"; Arne Munch-Ellingsen, Sigmund Akselsen, Telenor Research, Tromso, Norway; Anders Andersen, Department of Computer Science, UiT The Arctic University of Norway page 1

"Over-the-Internet: Efficient Remote Content Management for Secure Elements in Mobile Devices"; Mohamed Sabt, Mohammed Achemlal, Orange Labs, Caen, France; Abdelmadjid Bouabdallah, Universite de technologie de Compiègne, Compiègne, France page 8

"Two-factor Authentication for Android Host Card Emulated Contactless Cards"; Arne Munch-Ellingsen, Sigmund Akselsen, Telenor Research, Tromso, Norway; Richard Karlsen, Anders Andersen, Department of Computer Science, UiT The Arctic University of Norway page 13

"Leveraging COBIT5 in NFC-Based Payment Technology: Challenges and Opportunities for Security Risk Mitigation and Audit"; Tebug Mba Techoro, Sergey Butakov, Shaun Aghili, Ron Ruhl, Department of Information Systems Security and Assurance Management, Concordia University College of Alberta, Canada page 19

Short Papers Session

"Towards Token-Requestor for ePayment based on Cloud of Secure Elements and HCE mobiles"; Pascal Urien, Telecom ParisTech, Paris, France page 25

"An Automated Virtual Security Testing Platform for Android Mobile Apps"; Yong Wang, College of Business and Information Systems Dakota State University page 27

Panel

"Market opportunities for Market opportunities for Secure Mobile Services"; Nizar Jamal, CTO of the Tyfone Company; Pascal Urien coFounder of the Ethertrust Company; Andreas Lux, CEO of the Implementa Company. N/A

Session 2 Secure Mobile Services

"Handling Cross Site Scripting Attacks using Cache Check to Reduce Webpage Rendering Time with Elimination of Sanitization and Filtering in Light Weight Mobile Web Browser"; Biswajit Panja, Tyler Gennarelli, University of Michigan-Flint Michigan, USA; Priyanka Meharia, Eastern Michigan University, Ypsilanti, Michigan, USA page 29

"Sesame: A Secure and Convenient Mobile Solution for Passwords"; Mehrdad Aliasgari, Nick Sabol, Ashutosh Sharma, Department of Computer Engineering and Computer Science, California State University, Long Beach, CA, USA page 36

"Mobile Security Testing Approaches and Challenges"; Yong Wang, Yazan Alshboul, College of Business and Information System Dakota State University page 41

"An Authentication Architecture for Cloud-Based Firewalling Service", Fouad Amine Guenane, Ahmed Serhrouchni, Telecom ParisTech, Paris, France; Guy Pujolle, University Pierre et Marie Curie - Paris 6, Paris, France page 46

"Low-power Wireless Climate Monitoring System with RFID Security Access Feature for Mosquito and Pathogen"; Byul Hur, William R. Eisenstadt, Department of Electrical and Computer Engineering, University of Florida, Gainesville, Florida. page 51

"Performance Variation in Host-Based Card Emulation Compared to a Hardware Security Element"; Assad Umar, Keith Mayes, Konstantinos Markantonakis, Information Security Group, Smart Card Centre, Royal Holloway, University of London, Surrey. United Kingdom
