2015 Moratuwa Engineering Research Conference

(MERCon 2015)

Moratuwa, Sri Lanka
7-8 April 2015

IEEE Catalog Number: CFP15B72-POD
ISBN: 978-1-4799-1741-9

Table of Contents

Table of contents iv
Introduction to MERCon 2015 vii
Committee viii
Technical program committee xi
Message from the chief guest xvii
Message from the honorary chair xviii
Message from the general chair xix
Conference program xx
Keynote Address: Multi-Dimensional RF Signal-Processing and Analog/Digital Circuits xxi
Plenary Talk I: Vega EV - Controlled Chaos xxiii
Plenary Talk II: Planning, Design, & Implementation of Indian Ocean Tsunami Warning System xxv
Author index xxxi

T1S1-1 Bio-methane Adsorption by Activated Carbon 1
T1S1-2 A mathematical model for pyrolysis of biomass 6
T1S1-4 Simulation of ancient wind-driven iron smelting furnaces of Sri Lanka 12
T1S1-5 Review on development of natural rubber/nanoclay nanocomposites 18
T1S1-6 Development of a Multi-Nutrient Fertilizer from Liquid Waste of Solar Salt Manufacturing Process 24
T1S2-1 Hydraulic Performance of 'HOBO' units 29
T1S2-2 A Deterministic Hazard Assessment for Storm Surge Induced Flooding: A Case Study 34
T1S2-3 Climate Change Adaptation: A Hydraulic Model Study to Improve the Spillway Discharge of Giritale Reservoir 40
T1S2-4 Introduction of Flap Gates for Anicuts in Wet Zone 45
T1S3-1 Mathematical Analysis of Startup Mark in Elastic Tape on a Narrow Fabric Loom 50
T1S3-2 Modification of Thermal Conductivity of Cotton Fabric Using Graphene 55
T1S3-3 Effect of Starch Particle Size Reduction on the Performance of Sized Warp Yarns 60
T1S3-4 How the performance measurement of supply chain contributes in achieving organisational objectives of Sri Lankan apparel organisations 64
T2S1-1 Appliance-Level Demand Identification Through Signature Analysis 70

T2S1-2 Nine Level Cascaded H Bridge Inverter(For High Performing UPS Applications) 76
T2S1-3 Automatic Governor for Tie-line Control: A Teaching Tool 82
T2S1-4 Designing a Microgrid Test System for Transient Analysis 88
T2S1-5 Defining Multi Agent System for a Reliable Micro-Grid 94
T2S1-6 A Transformer Design Optimisation Tool for oil immersed distribution transformers 100
T2S2-1 An Efficient Distributed Data Correspondence Scheme for Multi-Robot Relative Localization 106
T2S2-2 3D Environmental Force: Position Impedance Variation for Different Motion Parameters 112
T2S2-3 Identifying the Cruising Dynamics of a Medium Scale UAV I: Longitudinal Dynamics 118
T2S2-4 Interpreting Fuzzy Linguistic Information in User Commands by Analyzing Movement Restrictions in the Surrounding Environment 124
T2S2-5 Comparison of Stabilizing NMPC Designs for Wheeled Mobile Robots: an Experimental Study 130
T2S2-6 A Review on Hybrid Myoelectric Control Systems for Upper Limb Prosthesis 136
T2S3-1 Region Growing Segmentation Method for Extracting Vessel Structures from Coronary Cine-angiograms 142
T2S3-2 Computer Assisted Plant Identification System for Android 148
T2S3-3 Establishing Object Correspondence Across Non-Overlapping Calibrated Cameras 154
T2S3-4 Image Filtering with MapReduce in Pseudo-Distribution Mode 160
T2S3-5 Interactive Robotic Head for Neck Exercises 165
T3S1-1 Design and Development of Flexible Fixturing System for Handling Irregular Shaped Components 171
T3S1-2 Steady State Performance Variation of Domestic Refrigerators Under Different Ambient Conditions of Sri Lanka 177
T3S1-3 A techno-economic analysis for an integrated solar PV/T system with thermal and electrical storage – case study 182
T3S1-4 Potential of Plug Flow Digesters for Biogas Production in the Sri Lankan Domestic Context 188
T3S1-4 Design and Simulation of a MEMS Based Dual Axis Capacitive Accelerometer 194
T3S2-1 Evaluation of main factors affecting the choice of a freight forwarder: A Sri Lankan exporter's perspective 199
T3S2-2 Estimation of Demand for Bus Rapid Transit Case Study for Galle Road from Moratuwa to Pettah 205
T3S2-3 Scheduling Methodology to Minimize Random Customer Arrival 210
T3S2-4 An approach to evaluate interrelationships among lean attributes of manufacturing systems: A case study based on lean enterprises 216
T3S2-5 Impact of greening the supply chain on economic performance and competitiveness of manufacturing companies in Sri Lanka 222

T3S3-1 Improvement of physico-mechanical properties of calcium carbonate filled natural rubber and low density polyethylene blends with titanate coupling agent 228
T3S3-2 Adsorption of Cadmium and Lead Heavy metals by Chitosan Biopolymer: A Study on Equilibrium Isotherms and Kinetics 234
T3S3-3 The Effectiveness of a Watersoluble Synthetic Acrylic Polymer in Enhancing Reinforcing Action of Silica in Carboxylated Acrylonitrile Butadiene Rubber Latex 240
T4S1-1 Low Cost Fiber Optic Teaching Aid with Wide Dynamic Range Optical Power Meter and Bandwidth Analyzer 246
T4S1-2 Modeling of Optical Carrier Recovery using Four Wave Mixing Technique for Binary Phase Shift Keying Systems 251
T4S1-3 An Overview of Multi-Dimensional RF Signal Processing for Array Receivers 255
T4S1-4 Multi-Beam 8x8 RF Aperture Digital Beamformers Using Multiplierless 2-D FFT Approximations 260
T4S1-5 Aperture-Array Directional Sensing using 2-D Beam Digital Filters with Doppler-Radar Front-Ends 265
T4S2-1 CDME – Crowd-Sourced Data Mapping Engine 271
T4S2-2 Crime Analytics: Analysis of Crimes Through Newspaper Articles 277
T4S2-3 Computing Requirements of Sri Lankan Scientific Community 283
T4S2-4 Schema-Independent Scientific Data Cataloging Framework 289
T4S2-5 Web User Profiling using Hierarchical Clustering with Improved Similarity Measure 295
T4S2-6 Cloud Images Capturing System for Solar Power Level Prediction 301
T4S3-1 Effectiveness of Scrum for Offshore Software Development in Sri Lanka 306
T4S3-2 Use of Software Metrics in Agile Software Development Process 312
T4S3-3 Tool Support for Traceability of Software Artefacts 318
T4S3-4 Unhosted Email Client 324
T4S3-5 RepoZip: A Technique for Lossless Compression of Document Collections 330
T4S3-6 Effectiveness of eLearning: Grounded Theory Approach 336
