Table of Contents

<i>Predictions for self-priming from incremental updating models unifying comprehension and production</i> Cassandra L. Jacobs	1
<i>Pragmatic Alignment on Social Support Type in Health Forum Conversations</i> Yafei Wang, John Yen and David Reitter	9
<i>Audience size and contextual effects on information density in Twitter conversations</i> Gabriel Doyle and Michael Frank	19
<i>Centre Stage: How Social Network Position Shapes Linguistic Coordination</i> Bill Noble and Raquel Fernandez	29
<i>Fusion of Compositional Network-based and Lexical Function Distributional Semantic Models</i> Spiros Georgiladakis, Elias Iosif and Alexandros Potamianos	39
<i>Verb polysemy and frequency effects in thematic fit modeling</i> Clayton Greenberg, Vera Demberg and Asad Sayeed	48
<i>An Evaluation and Comparison of Linguistic Alignment Measures</i> Yang Xu and David Reitter	58
<i>Utility-based evaluation metrics for models of language acquisition: A look at speech segmentation</i> Lawrence Phillips and Lisa Pearl	68
<i>Evidence of syntactic working memory usage in MEG data</i> Marten van Schijndel, Brian Murphy and William Schuler	79
<i>Modeling fMRI time courses with linguistic structure at various grain sizes</i> John Hale, David Lutz, Wen-Ming Luh and Jonathan Brennan	89
