Preface

011001

[1st International Conference in Applied Physics and Materials Science](#)

011002

[Conference Photographs](#)

011003

[Peer review statement](#)

Papers

012001

[Evaluating the B-cell density with various activation functions using White Noise Path Integral Approach](#) C J G Aban, R O Bacolod and M N P Confesor **1**

012002

[Surface viscosity effects on the motion of self-propelling boat in a channel](#)

M G Aliperio and Mark Nolan Confesor **13**

012003

[Investigation of the Sound Pressure Level \(SPL\) of earphones during music listening with the use of physical ear canal models](#) K P Aying, R E Otadoy and R Violanda **19**

012004

[Correlation between the residual stress in 3C-SiC/Si epilayer and the quality of epitaxial graphene formed thereon](#) R Bantaculo, H Fukidome and M Suemitsu **24**

012005

[10-bit segmented current steering DAC in 90nm CMOS technology](#) R Bringas Jr, F Dy and O J Gerasta **31**

012006

[Vertical and rotational motion of mahogany seed](#) A V C Camposano, N C Virtudes, R E S Otadoy and R Violanda **38**

012007

[Euclidean distance and Kolmogorov-Smirnov analyses of multi-day auditory event-related potentials: a longitudinal stability study](#) M V Durato, A M Albano, P E Rapp and S A Nawang **45**

012008

[Growth of zinc oxide nanostructures on glass substrates for ethanol gas sensor application](#) K Emphasis, R Vequizo, M K Odarve, J Gambe and A Alguno **56**

012009

[Automated Car Park Management System](#) J P Fabros, D Tabañag, A Espra and O J Gerasta **61**

012010

[Physico-chemical effects of supercritical carbon dioxide post polymerization treatment on HCl-doped polyaniline prepared via oxidative chemical polymerization](#)

J G Fernando, R M Vequizo, M K G Odarve, B R B Sambo, A C Alguno, R M Malaluan, R T Candidato Jr, J E Gambe, M Jabian, G J Paylaga, F R G Bagsican and H Miyata **68**

012011

[Enhanced RF to DC converter with LC resonant circuit](#) L J Gabrillo, M G Galesand and J A Hora **75**

012012

[On polymer loop in a gel under external fields: analytical approach using white noise analysis](#) B Gemao, J Bornales and M Loquero **82**

012013

[Dynamics of passive tracers in a bath of self-propelling granular particles](#) E Hamoy and M N Confesor **91**

012014

[Terahertz transitions in quasi-metallic carbon nanotubes](#) R R Hartmann and

M E Portnoi **96**

012015

[Development and application of compact and on-chip electron linear accelerators for dynamic tracking cancer therapy and DNA damage/repair analysis](#) M Uesaka, K Demachi, T Fujiwara, K Dobashi, H Fujisawa, R B Chhatkuli, A Tsuda, S Tanaka, Y Matsumura, S Otsuki, J Kusano, M Yamamoto, N Nakamura, E Tanabe, K Koyama, M Yoshida, R Fujimori and A Yasui **101**

012016

[Chemical bath deposition growth and characterization of zinc oxide nanostructures on plain and platinum-coated glass substrates for hydrogen peroxide gas sensor application](#) Y D J Jamasali and A C Alguno **110**

012017

[Full-custom design of split-set data weighted averaging with output register for jitter suppression](#) M C Jubay and O J Gerasta **118**

012018

[Characterization of POF for liquid level and concentration sensing applications](#) B G Lumanta, R T Candidato Jr and R L Reserva **126**

012019

[Verification on the use of the Inoue method for precisely determining glomerular filtration rate in Philippine pediatrics](#) M J D J Magcase, A Q Duyan, J Carpio, C A Carbonell and J D Trono **136**

012020

[Polymer electrolyte system based on carrageenan-poly\(3,4- ethylenedioxythiophene\) \(PEDOT\) composite for dye sensitized solar cell](#) C A Ng and D H Camacho **141**

[Utilization of *nata de coco* as a matrix for preparation of thin film containing spin crossover iron \(II\) complexes](#) D Onggo, O K Putri and M Aminah **151**

012022

[The effects of precursor concentration and thermal annealing on the growth of zinc oxide nanostructures grown on silicon substrate](#) H M D Paculba, A C Alguno and R M Vequizo **156**

012023

[GSM & web-based flood monitoring system](#) J C Pagatpat, A C Arellano and

O J Gerasta **167**

012024

[Surface characteristics and structural properties of sol-gel prepared ZnO-SiO₂ nanocomposite powders](#) E G Pantohan, R T Candidato Jr and R M Vequizo **175**

012025

[Development of functional ZnS nanospheres as active material for acetic acid detection](#) A D M V Peguit, R T Candidato Jr and A C Alguno **181**

012026

[Growth of chemically deposited ZnO and ZnO-SiO₂ on Pt buffered Si substrate](#) A D M V Peguit, R T Candidato Jr, F R G Bagsican, M K G Odarve, M E Jabian, B R B Sambo, R M Vequizo and A C Alguno **187**

012027

[Surface geometry based hydrophobicity of the PDMS for microfluidic devices](#) J C Pelayo, R A Badiola, J Castañares, U Pili, R Violanda and R Bacabac **193**

012028

[X-ray diffraction and infrared spectroscopy analyses on the crystallinity of engineered biological hydroxyapatite for medical application](#) G M Poralan Jr, J E Gambe, E M Alcantara and R M Vequizo **197**

012029

[Characteristics of zinc sulphide nanostructures grown on silica modified-polyaniline with polymerization time-dependent](#) M Potestas, A Alguno, R Vequizo, B R Sambo and M K Odarve **203**

012030

[Electrical properties of an individual ZnO micro/nanorod](#) A B Santos-Putungan, L M Bambao and R V Sarmago **210**

012031

[Growth mechanism of chemically prepared ZnO-SiO₂ nanostructures grown on glass and silicon substrates](#) K T Simfroso, R T Candidato Jr, F R Bagsican, M E Jabian, M K G Odarve, G J Paylaga, B R B Sambo, R M Vequizo and A C Alguno **216**

012032

[Morphological and voltammetric characterization of different concentrations of spin coated Nafion-Ru\(bpy\)₃²⁺ thin films](#) B S B Tuason, S Tiong-Palisoc and M Tiamzon-Natividad **222**
