

**2015 Conference on Raising Awareness
for the Societal and Environmental
Role of Engineering and (Re)Training
Engineers for Participatory Design**

(Engineering4Society 2015)

**Leuven, Belgium
18-19 June 2015**

**IEEE Catalog Number: CFP15C04-POD
ISBN: 978-1-4673-6845-2**

Table of Contents

2015 Conference on Raising Awareness for the Societal and Environmental Role of Engineering and (Re)Training Engineers for Participatory Design (Engineering4Society) – IEEE 36288 – Leuven, June 18 & 19, 2015

Introduction & Scientific Committee members	3
Table of Contents	5
List of authors	7
Margo Annemans, Valerie Van der Linden, Elina Karanastasi and Ann Heylighen <i>Learning to Shape Places of Care by Empathising with Patients and Caregivers</i>	8
Greet Baldewijns, Patricia Sabbe, Kristien Rombouts, Kurt Peeters, An Mondelaers, Jessica Hekking, Tom Croonenborghs and Bart Vanrumste <i>Establishing a Collaboration between Care Providers and Engineers</i>	17
Julio Abascal, Nestor Garay-Vitoria and Daniel Guasch <i>Including Design for All in Computing and Telecommunication Engineering Studies in Spain</i>	21
Julio Abascal, Nestor Garay-Vitoria and Luis Gardezabal <i>Experiences from a Master's Degree in Assistive Technology for Independent Living</i>	29
Suzanne Hallenga-Brink and Inge Vervoort <i>Higher Education Institutions as international hubs in Community Service Engineering Innovation Networks - a European Lifelong Learning Program project</i>	34
DK Osseo-Asare and Yasmine Abbas <i>Investigating 3E-materials at Agbogbloshie in Accra, Ghana</i>	41
Ann Heylighen and Peter-Willem Vermeersch <i>Mobilizing disability experience to inform architectural education: Lessons learned from a field experiment</i>	51
Inge Vervoort, Jan Dekelver, Jan Engelen and Joos Vandewalle <i>Community Service Engineering - Interdisciplinary engagement of engineering with the field of social work</i>	59

Charles Willems and René Claassen <i>Meeting future needs in society through professional education: a professional master in Care and Technology</i>	68
Daniela Carriço and Bárbara Rangel <i>Designing for the homeless in the Product and Industrial Master at FEUP</i>	72
Jo Daems, Jan Dekelver, Annelies De Vlieghe, Jorien Smets and Lien Martens <i>Able To Include: focus groups with persons with IDD and their coaches - communicating through social media</i>	76
Annemie Morel, Kasper Bormans and Kristien Rombouts <i>Memory palaces to improve quality of life in dementia</i>	80
Marc Wouters <i>EASTIN - European Assistive Technology Information Network</i>	85
Suzanne Buchele and Aelaf Dafla <i>Crafting a 21st Century Undergraduate Engineering Programme for Sub-Saharan Africa</i>	89
M. Bernardine Dias, Ermine Teves and M. Beatrice Dias <i>Towards Technology with a Global Heart through Compassionate Engineering</i>	96
Aelaf Dafla, Nathan Amanquah and Kwadwo Gyamfi Osafo-Mafo <i>A Mobile Devices Health Information Application for Community Based Health Services</i>	101
