Zornitsa Kozareva 1

Sentiment Analysis on Monolingual, Multilingual and Code-Switching Twitter Corpora
David Vilares, Miguel A. Alonso and Carlos Gómez-Rodríguez 2

Connotation in Translation
Marine Carpuat 9

Enhanced Twitter Sentiment Classification Using Contextual Information
Soroush Vosoughi, Helen Zhou and deb roy 16

Your Sentiment Precedes You: Using an author's historical tweets to predict sarcasm
Anupam Khattri, Aditya Joshi, Pushpak Bhattacharyya and Mark Carman 25

Optimising Agile Social Media Analysis
Thomas Kober and David Weir 31

Utilizing review analysis to suggest product advertisement improvements
Takaaki Tsunoda, Takashi Inui and Satoshi Sekine 41

Towards Opinion Mining from Reviews for the Prediction of Product Rankings
Wiltrud Kessler, Roman Klinger and Jonas Kuhn 51

Classification of deceptive opinions using a low dimensionality representation
Leticia Cagnina and Paolo Rosso 58

Extending effect annotation with lexical decomposition
Josef Ruppenhofer and Jasper Brandes 67

Analysing domain suitability of a sentiment lexicon by identifying distributionally bipolar words
Lucie Flekova, Daniel Preoţiuc-Pietro and Eugen Ruppert 77

Imagisaurus: An Interactive Visualizer of Valence and Emotion in the Roget's Thesaurus
Saif Mohammad 85

Personality Traits on Twitter—or—How to Get 1,500 Personality Tests in a Week
Barbara Plank and Dirk Hovy 92

Negation Scope Detection for Twitter Sentiment Analysis
Johan Reitan, Jørgen Faret, Björn Gambäck and Lars Bungum 99

A Linguistically Informed Convolutional Neural Network
Sebastian Ebert, Ngoc Thang Vu and Hinrich Schütze 109

How much does word sense disambiguation help in sentiment analysis of micropost data?
Chiraag Sumanth and Diana Inkpen 115

Predicting Ratings for New Movie Releases from Twitter Content
Wernard Schmit and Sander Wubben 122

Beyond Sentiment: Social Psychological Analysis of Political Facebook Comments in Hungary
Márton Miháltz, Tamás Váradi, István Csertő, Éva Fülöp, Tibor Pólya and Pál Kővágó 127

Verb-centered Sentiment Inference with Description Logics
Manfred Klenner 134

Mining HEXACO personality traits from Enterprise Social Media
