

2015 7th International Workshop on Reliable Networks Design and Modeling (RNDM 2015)

**Munich, Germany
5 – 7 October 2015**

**IEEE Catalog Number: CFP1574Y-POD
ISBN: 978-1-4673-8052-2**

RNDM 2015 Proceedings – Table of Contents

Technical Session I – Network Resilience Evaluation

Evaluation of Converged Networks for 5G Infrastructures - Invited <i>Anna Tzanakaki (University of Bristol, University of Athens UK/GR), Markos Anastasopoulos (University of Athens, GR), Dimitra Simeonidou (University of Athens, GR)</i>	I
Evaluation and Comparison of Several Graph Robustness Metrics to Improve Network Resilience <i>Mohammed J.F. Alenazi (The University of Kansas & King Saud University, US/SA), James P.G. Sterbenz (The University of Kansas & Lancaster University & The Hong Kong Polytechnic University, US/UK/HK)</i>	7
Critical Region Identification and Geodiverse Routing Protocol under Massive Challenges <i>Yufei Cheng (The University of Kansas, US), James P.G. Sterbenz (The University of Kansas & Lancaster University & The Hong Kong Polytechnic University, US/UK/HK)</i>	14
On the Indicators of Service Availability in Span-Restorable Networks <i>Wenjing Wang (University of Alberta, CA), John Doucette (University of Alberta, CA)</i>	21
Enhancing Fault Tolerance Capabilities in Quorum-based Cycle Routing <i>Cory J. Kleinheksel (Iowa State University, US), Arun Somani (Iowa State University, US)</i>	27

Technical Session II – Survivability of Content-oriented and Cloud-ready Networking

Dimensioning Backbone Networks for Multi-site Data Centers: Exploiting Anycast Routing for Resilience - Invited <i>Chris Develder (Ghent University-iMinds, BE), Brigitte Jaumard (Concordia University, CA)</i>	34
Delay Aware Survivable Routing with Network Coding in Software Defined Networks <i>Alija Pasic (Budapest University of Technology and Economics, HU), Peter Babarczy (Budapest University of Technology and Economics, HU)</i>	41
Comparison of Different Data Center Location Policies in Survivable Elastic Optical Networks <i>Roza Goscien (Wroclaw University of Technology, PL), Krzysztof Walkowiak (Wroclaw University of Technology, PL)</i>	48
Adaptive Survivability Algorithm for Path Protection with Various Traffic Classes in Elastic Optical Networks <i>Michal Aibin (Wroclaw University of Technology, PL), Krzysztof Walkowiak (Wroclaw University of Technology, PL)</i>	56
Achieving Dependability in Software-Defined Networking - A Perspective <i>Poul E. Heegaard (Norwegian University of Science and Technology, NO), Bjarne E. Helvik (Norwegian University of Science and Technology, NO), Veena B. Mendiratta (Bell Labs, Alcatel-Lucent, US)</i>	63

Technical Session III – Design of Resilient Optical Networks

Computing Distance-Bounded Node-Disjoint Paths for All Pairs of Nodes - An Application to Optical Core Network Design <i>Deepak Mehta (Insight Centre for Data Analytics & University College Cork, IR), Barry O'Sullivan (University College Cork, IR), Cemalettin Ozturk (University College Cork & Insight Centre for Data Analytics, IR), Luis Quesada (Insight Centre for Data Analytics, IR)</i>	71
Shared Protected Grouped Optical Path Routing Network Design Employing Iterative Path Group Relocation <i>Tomohiro Ishikawa (Nagoya University, JP), Yojiro Mori (Nagoya University, JP), Hiroshi Hasegawa (Nagoya University, JP), Ken-Ichi Sato (Nagoya University, JP)</i>	78
An Ant Colony Approach to Regenerator Placement with Fault Tolerance in Optical Networks <i>Mike Morgan (University of Chester, UK)</i>	85
Reliable Routing in 3D Optical Network-on-Chip Based on Fault Node Reuse <i>Pengxing Guo (Northeastern University, CN), Weigang Hou (Northeastern University, CN), Lei Guo (Northeastern University, CN), Cai Qing (Northeastern University, CN), Yue Zong (Northeastern University, CN), Dandan Huang (Northeastern University, CN)</i>	92
A Two-stage QoT-Aware Protection Procedure for Dependable Connection Establishment in Survivable SRLG-constrained WDM Translucent Networks <i>Maroua Bakri (National School of Engineers of Tunis, TN), Mohamed Koubaa (National School of Engineers of Tunis, TN), Ammar Bouallegue (National School of Engineers of Tunis, TN), Maurice Gagnaire (Telecom Paristech, FR)</i>	99
Progressive Network Recovery Techniques in Optical Core Networks <i>Massimo Tornatore (Politecnico di Milano, IT), Ferhat Dikbiyik (Sakarya University, TR), Kassem Al Sabeh (Politecnico di Milano, IT)</i>	106

Technical Session IV – Theory of Network Resilience

Generalized Shared Protection: Simulation Results and Proof of Optimality - Invited <i>Tibor Cinkler (Budapest University of Technology and Economics, HU), Peter Soproni (Budapest University of Technology and Economics, HU)</i>	112
Protected Shortest Path Visiting Specified Nodes <i>Teresa Gomes (University of Coimbra, PT), Sofia Marques (University of Coimbra, PT), Lucia Martins (University of Coimbra, PT), Marta Pascoal (University of Coimbra, PT), David Tipper (University of Pittsburgh, US)</i>	120
A Constraint-based Local Search for Designing Tree Networks with Distance and Disjoint Constraints <i>Alejandro Arbelaez (Centre for Data Analytics, IR), Deepak Mehta (Insight Centre for Data Analytics & University College Cork, IR), Barry O'Sullivan (University College Cork, IR), Luis Quesada (Insight Centre for Data Analytics, IR)</i>	128
Recursive Variance Reduction Method in Stochastic Monotone Binary Systems <i>Eduardo A. Canale (Universidad Nacional de Asuncion, UY), Hector Cancela (Universidad de la Republica, UY), Juan Piccini (Universidad de la Republica, UY), Franco Robledo (Universidad de la Republica, UY)</i>	135

Republica, UY), Pablo Gabriel Romero (Universidad de la Republica, UY), Gerardo Rubino (INRIA, FR), Pablo Sartor (Universidad de Montevideo, UY)

Computing Stochastic Bounds of Network Distributions of Time Before Failure 142
Jean Michel Fourneau (University of Versailles St Quentin, FR)

Technical Session V – Resilience of Wireless Networks

A Restoration Framework for Partial Failures in Wireless Networks - **Invited** 149
Joann Fouquet (Compiègne University of Technology, FR), Dritan Nace (Compiègne University of Technology, FR), Michal Pioro (Warsaw University of Technology & Lund University, PL/SE), Michael Poss (LIRMM & CNRS, FR)

Resilient access via 3D Hand-Over - **Invited** 156
Akos Ladanyi (Budapest University of Technology and Economics, HU), Tibor Cinkler (Budapest University of Technology and Economics, HU)

Measuring the Resilience of Mobile Ad Hoc Networks with Human Walk Patterns 161
Dongsheng Zhang (The University of Kansas, US), James P. G. Sterbenz (The University of Kansas & Lancaster University & The Hong Kong Polytechnic University, US/UK/HK)

SPGR Based Energy-efficient Routing Technique in MANETs 169
Fidan Garayli (Istanbul Technical University, TR), Sema Oktug (Istanbul Technical University, TR)

Dynamic Source Routing under Attacks 174
Mohamed Abdelshafy (Heriot-Watt University, UK), Peter King (Heriot-Watt University, UK)

Technical Session VI – Fault Management and Monitoring

Reliable Segment Routing - **Invited** 181
Alessio Giorgetti (Scuola Superiore Sant'Anna, IT), Andrea Sgambelluri (Scuola Superiore Sant'Anna, IT), Francesco Paolucci (Scuola Superiore Sant'Anna, IT), and Piero Castoldi (Scuola Superiore Sant'Anna, IT)

Robust Cooperative Monitoring Problem 186
Dimitri Papadimitriou (Alcatel-Lucent & UGent, BE), Bernard Fortz (Universite Libre de Bruxelles, BE)

Software-based Fast Failure Recovery for Resilient OpenFlow Networks 194
Steven S.W. Lee (National Chung Cheng University, CN), Kuang-Yi Li (National Chung Cheng University, CN), Kwan Yee Chan (National Chung Cheng University, CN), Guan-Hao Lai (National Chung Cheng University, CN), Yao Chuan Chung (National Chung Cheng University, CN)

Interdependency in Smart Grid Recovery 201
Jonas Wafler (Norwegian University of Science and Technology, NO), Poul E. Heegaard (Norwegian University of Science and Technology, NO)

A Network Approach for Power Grid Robustness against Cascading Failures 208
Xiangrong Wang (Delft University of Technology, NL), Robert Kooij (TNO, NL), Yakup Koc (Delft University of Technology, NL), Piet Van Mieghem (Delft University of Technology, NL)

Technical Session VII – Fault Localization and Control

SRLG Fault Localization in All-optical Networks <i>Mohammed Ali (University of Waterloo, CA), Pin-Han Ho (University of Waterloo, CA), Janos Tapolcai (Budapest University of Technology and Economics, HU)</i>	215
Constructions for Unambiguous Node Failure Localization in Grid Topologies <i>Laszlo Gyimothi (Budapest University of Technology and Economics, HU), Eva Hosszu (Budapest University of Technology and Economics, HU), Janos Tapolcai (Budapest University of Technology and Economics, HU)</i>	222
Probabilistic Flow Marking for IP Traceback (PFM) <i>Vahid Aghaei Froushani (Dalhousie University, CA), Nur Zincir-Heywood (Dalhousie University, CA)</i>	229
DR-MPCP: Delayed REPORT Message for MultiPoint Control Protocol in EPON <i>Sumiko Miyata (Shibaura Institute of Technology, JP), Ken-ichi Baba (Kogakuin University, JP), Katsunori Yamaoka (Tokyo Institute of Technology, JP), Hirotugu Kinoshita (Kanagawa University, JP)</i>	237

Technical Session VIII – Inter-play between Sustainability, Resilience, and Robustness in Networks – Part I

Statistical Methods for Diameter Constrained Reliability Estimation in Rare Event Scenarios <i>Maria Elisa Bertinat (Universidad de la Republica, UY), Hector Cancela (Universidad de la Republica, UY), Maria Gonzalez (Universidad de la Republica, UY), Franco Robledo (Universidad de la Republica, UY), Pablo Gabriel Romero (Universidad de la Republica, UY)</i>	243
Algorithms for Finding Robust and Sustainable Network Flows against Multilink-Attack <i>Jean-Francois Baffier (National Institute of Informatics & Tohoku University, JP), Vorapong Suppakitpaisarn (National Institute of Informatics & Tohoku University, JP)</i>	251
Detection and Prevention of Firewall-Rule Conflicts on Software-Defined Networking <i>Ferney A. Maldonado-Lopez (Universidad de los Andes & Universidad de Girona, CO/ES), Yezid Donoso (Universidad de los Andes, CO), Eusebi Calle (Universitat de Girona, ES)</i>	259

Technical Session IX – Inter-play between Sustainability, Resilience, and Robustness in Networks – Part II

A Time-Evolving Weighted-Graph Analysis of Global Petroleum Exchange <i>Rajgopal Yarlagadda (Missouri University of Science and Technology, US), Srinath Pinnaka (Missouri University of Science and Technology, US), Egemen K. Cetinkaya (Missouri University of Science and Technology, US)</i>	266
Robust Reliability-aware Buffer Management for DTN Multicast in Disaster Scenarios <i>Peggy Begerow (Technische Universitaet Ilmenau, DE), Silvia Krug (Technische Universitaet Ilmenau, DE), Sebastian Schellenberg (University of Erlangen-Nuremberg, DE), Jochen Seitz (University of Erlangen-Nuremberg, DE)</i>	274
Lifetime Awareness in Backbone Networks with Sleep Modes <i>Luca Chiaraviglio (University of Rome Sapienza, IT), Antonio Cianfrani (University of Rome Sapienza, IT), Marco Listanti (University of Rome Sapienza, IT), Marco Polverini (University of Rome Sapienza, IT)</i>	281

Interplay between Energy Efficiency and Survivable Network Planning with Shared Backup Resources - Invited <i>Shabnam Sadat Jalalinia, Cicek Cavdar (KTH Royal Institute of Technology, SE)</i>	288
---	-----

Technical Session X – Vehicular Networking – Part I

Context-Aware Heterogeneous V2I Communications <i>Miguel Sepulcre and Javier Gozalvez (Universidad Miguel Hernandez de Elche, Spain), Onur Altintas and Haris Kremo (Toyota InfoTechnology Center, Japan)</i>	295
Efficient Distribution of Static or Slowly Changing Configuration Parameters in VANETs <i>Sebastian Bittl (Fraunhofer ESK, Germany)</i>	301
RSUs Placement Using Cumulative Weight Based Method for Urban and Rural Roads <i>Robil W. Daher (German University in Cairo & Faculty of Information Engineering and Technology, Egypt), Ahmed Makkawi and Ramy Rizk (German University in Cairo & ITS-WG, Egypt)</i>	307
Performance Analysis of a Virtualization Layer Supporting P2P Downloading of Contents in VANETs <i>Martin Lopez-Nores, José Víctor Saiáns-Vázquez and Yolanda Blanco-Fernández (University of Vigo, Spain); Jose Juan Pazos-Arias (Universidad de Vigo, Spain), Jack Fernando Bravo-Torres (Salesian Polytechnic University, Ecuador)</i>	314

Technical Session XI – Vehicular Networking – Part II

GLOSA for Adaptive Traffic Lights: Methods and Evaluation <i>Robert Bodenheimer (Audi AG & University of Erlangen, Germany), David Eckhoff and Reinhard German (University of Erlangen, Germany)</i>	320
Virtual Traffic Lights – Managing Intersections in the Cloud <i>Wolfgang Muenst and Markus Maeder (FernUniversität Hagen & Objective GmbH, Germany), Nicolas Gay (Intel Labs Europe, Germany), Clemens Dannheim (Objective GmbH, Germany), Christian Icking (FernUniversität Hagen, Germany), Moinul Islam Al-Mamun (Technische Universität München & Intel Labs Europe, Germany), Branimir Malnar (Intel Labs Europe, Germany)</i>	329
A Predefined Channel Coefficients Library for Vehicle - to - Vehicle Communication <i>Ahmad Baheej Al-Khalil and Scott Turner (University of Northampton, United Kingdom), Ali Al-Sherbaz (The University of Northampton & School of Science and Technology, United Kingdom)</i>	335
Out of Vehicle Channel Sounding in 5.8 GHz Band <i>Pavel Kukolev (Brno University of Technology, Czech Republic), Aniruddha Chandra (Brno University of Technology & National Institute of Technology, Durgapur, WB, Czech Republic), Tomas Mikulasek (Brno University of Technology, Czech Republic), Ales Prokes (Brno University of Technology & Sensor, Information and Communication Systems Research Centre, Czech Republic)</i>	341

Technical Session XII – Vehicular Networking – Part III

Multi-Objective Optimization of Aircraft Networks for Weight, Performance and Survivability <i>Fabien Geyer, Alexandros Elefsiniotis, Dominic A. Schupke and Stefan Schneelee (Airbus Group)</i>	345
---	-----

Innovations, Germany)

A Telemetry Design for Anticipating Train-road Crossing Collisions

351

Markus Maeder and Wolfgang Muenst (FernUniversität Hagen & Objective GmbH, Germany), Clemens Dannheim (Objective GmbH, Germany), Nicolas Gay (Intel Labs Europe, Germany), Philip J. Sallis (Auckland University of Technology, NZ & Auckland University of Technology, NZ, New Zealand), Christian Icking (FernUniversität Hagen, Germany), Branimir Malnar (Intel, Germany), Moinul Islam Al-Mamun (Technical University Munich & Intel GmbH, Germany)
