# 2015 IEEE Pacific Rim Conference on Communications, Computers and Signal Processing (PACRIM 2015)

## Victoria, British Columbia, Canada
## 24 – 26 August 2015

IEEE Catalog Number: CFP15PRC-POD
ISBN: 978-1-4673-7789-8

## Table of Contents

1570145349 Resource allocation method in cloud computing environments with multiple data centers over a wide area 1
1570145359 Use of DPI Technology for Server Congestion Control and Reduction of Power Consumption by Servers 7
1570148823 Semantic Similarity for Sequenced Shingles 12
1570149511 Cloud Slicing A new Architecture for Cloud Security Monitoring 18
1570149679 Pilot Symbol Assisted Channel Estimation for 4x4 Space Time Block Coded Spatial Modulation Systems 23
1570149761 A Potential Game Framework for Charging PHEVs in Smart Grid 28
1570150453 Automatic Labelling of Documents Based on Ontology 34
1570150681 Review and Analysis of Web Prefetching 40
1570151359 Concentration Analysis by Detecting Face Features of Learners 46
1570151385 Bit Allocation for Lossy Image Set Compression 52
1570154181 Automated Highlight Generation from Cricket Broadcasts Using ORB 58
1570154401 Time-Compression Overlap Add: Description and Implementation 64
1570154429 Ranging performance with 60GHz signals in indoor residential environments 70
1570154453 Sociolinguistics and Programming 74
1570155289 Performance Analysis of 64-bit Carry Lookahead Adders Using Conventional and Hierarchical Structure Styles 80
1570155337 Achievable Rate of Full-Duplex Massive MIMO Relaying with Hardware Impairments 84
1570155697 Multi-Label Classification Using Labelled Association 90
1570155721 Interleaved Generic-Point Parallel Scalar Multiplication 96
1570155859 Design and Development of Virtual Nodes in the Network Testbed for Emulation 101
1570155917 Efficient Attributes in Secure Credentials 107
1570155931 Line Reduction in Reversible Circuits using KFDDs 113
1570155969 A Novel Progressive Lossy-to-Lossless Coding Method for Mesh Models of Images 119
1570156193 Multiple-Threshold Rank-Detection for Reduced-Rank MIMO Channels 125
1570156199 Fast Classification of Handwritten Digits Using 2D-DCT Based Sparse PCA 131
1570156229 Optimal Visualization Design for Electromagnetic Environment Situation of the Sea 136
1570156243 Dynamic Load Balancing in Multi-Agent Spatial Simulation 141
1570156353 A Market-Based Framework for Managing Converged Services 147
1570157193 The Area Code Tree for Nearest Neighbour Searching 153
1570157265 GPU Design Space Exploration: NN-Based Models 159
1570157401 Scalable RDF triple store using summary of hashed information and Bit comparison 163
1570157789 Enhancing Moving Objects in Light Field Videos Using 5-D IIR Adaptive Depth-Velocity Filters 169
1570162363 Multithreading Implementation of CRT Based Somewhat Homomorphic Encryption 174
1570164219 Discrete Gaussian Sampling for Low-Power Devices 181
1570165029 Backoff Based Resource Access for Contend Machine Type Communications in LTE Networks 187
1570166275 Review of Elliptic Curve Processor Architectures 192
1570166603 Traffic Analysis of Multi-Core Body Sensor Networks based on Wireless NoC Infrastructure 201
1570166621 Video Editing in the Gradient Domain using a Wavelet Based 3-D Reconstruction Algorithm and an Iterative Poisson Solver 205
1570167377 Optical Network Configuration Methods Considering End-to-End Latency in Data Centers 210
1570167515 Analysis of Via-Resolver DNS TXT Queries and Detection Possibility of Botnet Communications 216
1570167589 QoS-guaranteed spectrum sharing in LTE networks 222
Improvement of Strong Migration Method to Manage Multithreaded Agents and Implementation 227
1570167721 of Mechanisms for Sharing Information of Agents in AgentSphere
1570168003 An Optimization-Based Mesh-Generation Method for Image Representation 233
1570168015 Recommend My Dish: A Multi-Sensory Food Recommender 239
1570168089 A Ranging Method for 60GHz OFDM System Based on Improved Preamble Sequence 245
1570168111 An Indexing Method using Sensing Information on Integrated Sensor Networks 251
1570168177 Secrecy Capacity and Wireless Energy Harvesting in Amplify-and-Forward Relay Network 257
1570168193 Accelerating FDTD simulation of microwave pulse coupling into narrow slots on the Intel MIC architecture 262
1570168201 IPv6 Based Real-Time Acoustic Data Streaming Service over Bluetooth Low Energy 268
1570168221 AMIM: A Novel Locator-ID Mapping Scheme for Locator-Identifier Separated Internet Architectures 273
1570168309 Energy Efficiency and Spectrum Efficiency in Cooperative Cloud Radio Access Network 279
1570168365 Energy Efficient Video Streaming over Wireless Networks with Mobile-to-Mobile Cooperation 285
1570168367 System Investigation of a Gateway Implementing Subflow Control Policies using a Multipath TCP Proxy 291
1570168373 Interference Analysis and Visualization for Multiple Radio Equipment Coexistence 297
1570168375 Exploring Peer-to-Peer Infrastructure for Computer Supported Collaborative Work Applications 303
1570168385 Improved Language Support for Verilog Elaboration in Odin II and FPGA Architecture Benchmarking in the VTR CAD tool 308
1570168405 Partitioning Algorithms for Improving Efficiency of Topic Modeling Parallelization 314
1570168417 An Equalization Technique Concatenated with Channel Estimation for ATSC 3DTV Receivers 320
1570168425 Adaptive Contention Window Control Scheme for Dense IEEE802.11 Wireless LANs 325
1570168431 Performance evaluation of multi-hop communication with a dynamic channel switching scheme in ROD-SAN 331
1570168433 Investigating the effects of Store Value Locality on Processor Power 337
1570168439 Design of Low Power Operational TPMS System 343
1570168441 On Demand Routing Scheme for Real-Spatial Information based Group Communication 347
1570168449 The Beacon Identification using Low Pass Filter for Physical Web based IoT Services 353
1570168459 A 3-Dimensional Triangulation Scheme To Improve The Accuracy of Indoor Localization for IoT Services 358

1570168851 On Hardware Solution of Dense Linear Systems via Gauss-Jordan Elimination 363
1570168861 Guitar Model Recognition from Single Instrument Audio Recordings 369
1570168867 Energy-Reduced Non-Contiguous Spectrum Sensing for Compliance Enforcement in Dynamic Spectrum Access Environments 375
1570168873 Optimal Penalties for Misbehavior Deterrence in Communication Networks 380
1570168875 SystemVerilog Assertion Debugging: A Visualization and Pattern Matching Model 384
1570168905 A TDMA Modem Design for Multiparty Voice Communications 390
1570168911 New Graph-Based Text Summarization Method 395
1570168927 Continuous Phenomena Boundary Detection and Tracking in Wireless Sensor Networks through Optimized Monitoring 401
1570168933 Design and Evaluation of Stochastic FIR Filters 406
1570168947 A Disease Inference Scheme based on Fuzzy Logic for Patient's-customized Healthcare 412
1570168949 An Impulse Radio 60 GHz System for Accurate Positioning Applications 416
1570169023 A Comparison of Conventional and Meta-Model Based Global Optimization Methods 421
1570169031 Parallelized Solver based on Branch and Bound Method for Task Scheduling Problems in Consideration of Communication Overhead 427
1570169043 An Effect of Delay Reduced MAC Protocol for WBAN based Medical Signal Monitoring 433
1570169381 Data Aggregation in Precision Agriculture for low-power and lossy networks 437
1570171701 Ingredient Substitute Recommendation for Allergy-Safe Cooking based on Food Context 443
1570174397 Implementation and Performance Analysis of 3-D Cone and Frustum Filters 449
1570174719 Adaptive Modulation with Variable Switching Thresholds for Amplify-and-Forward Cooperative Systems 455
1570175419 A Novel Approach to Low Frequency Activity Detection in Highly Sampled Hydrophone Data Based on B-Spline Approximation 459
1570175457 Multiple Classifiers Fusion to Classify Acoustic Events in ONC 466
1570175459 Multi-class Acoustic Event Classification of Hydrophone Data 472
1570175729 Secrecy for MIMO Wiretap and MIMO Broadcast Channels with fading Eavesdroppers: CSI does not increase the Secure DoF 478
1570186437 Evoked Response Potential Training on a Consumer EEG Headset 484
1570186899 Fingerprinting Localization based on 60 GHz Impulse Radio 490
1570186917 NLOS Channel Identification Based on Energy Detection in 60 GHz Communication Systems 494
1570188443 Proteus: A Scalable, Flexible and Extensible Multi-Classifier Framework 499
1570188465 GPU-Acceleration of Blowfish Cryptographic Algorithm 505
1570188535 Energy Bugs in Mobile Devices: A Survey 511
1570190349 Ship Detection and Property Extraction in Radar Images using Hardware 516
1570198215 Enhancing RF Energy Harvesting Performance with Cooperative Beam Selection for Wireless Sensors 522
21570168909 Robust Adversarial Learning and Invariant Measures 527
